Important Reminders for the Web Time Entry Process

It is imperative that the hiring paperwork be completed BEFORE the student begins working to ensure that the timesheet appears on the Web for entry of hours. Timesheets only appear on the Web if jobs

have been entered for the student into Banner. Payroll can only enter jobs if the work study green cards are signed and returned to the Financial Aid Office and/or the non-Work Study Student Payroll Authorizations are completed (form available at link below).

All approvers and proxies must be granted security privileges to view their students' timesheets. If you are new to this process, a code called a "TIME SHEET ORG" must be assigned to you.

Contact costello@alfred.edu for creation of your code. This code is what attaches you as the approver to the student worker and allows you to view and approve the web time sheets.

When a student is hired, payroll must know who will be approving the timesheet. This can be accomplished by entering the "time sheet org" of the approver in the corresponding field on the Payroll Authorization form or including it on the green card.
