Request for Contract Form

The Request for Contract form is now available on the Business Office Web page. This form should be used when an independent contractor (e.g. performer, artist, lecturer) will be providing services for the benefit of Alfred University.

Please complete the form electronically and submit to the Office of the Vice President for Business & Finance at least three (3) weeks prior to the event in order for the contract to be prepared and the appropriate signatures obtained.

It should be noted that the Business Office cannot process a check request without a fully executed contract.

Should you have any questions, or if your event is less than three (3) weeks away, please contact us

via phone at 607.871.2966 for direction.

Artist Talk with Erin M. Riley

Date: Wednesday, November 18th

Time: 9:00AM

Location: Nevins Theater

Cost to Attend: free

Sponsored by: Foundations

Brooklyn-based textile artist, Erin M. Riley, will give an artist talk about her large-scale hand woven tapestries. Her subject matters range from intimate still lives, pornography, selfies, and car wrecks, each laboriously and beautifully woven, bringing permanence to fleeting imagery and internet sexuality. Erin M Riley has recently had solo shows at the Joshua Liner Gallery in New York City, the Soze Gallery in Los Angeles, and Alfred University is proud to have her featured in Fosdick-Nelson Gallery's Soft Core exhibition. Check out more of her work at www.erinmriley.com

STEM Alumni Conversations

Do you feel knowledgeable about your career options after graduation? Still feel unsure about what you want to do with your life after Alfred? Have questions about how to make your personal and professional goals align? Do you wish you could talk to an Alfred graduate who has been through the process with the same concerns?

If so, expand your Alfred network and participate in our exciting STEM Alumni Conversation project! Come hear alumni share their personal story about their career, how they arrived at their current position, how Alfred University fit into that picture, and most importantly, have an honest question-and-answer session with someone who once sat in your seat.

Though focused on STEM, students from all areas are welcome to attend!

This Thursday, Nov. 19 from 6-7 p.m. in Myers 228 we will speak with Melissa Haahr. Melissa graduated from Alfred University in 2011 with a Bachelor of Arts degree majoring in Chemistry and Environmental Science. Following her time at Alfred, Melissa attended graduate school at the University of Oregon, focusing on physical chemistry and working as a researcher in an environmental laser spectroscopy lab. She earned her Master's degree in 2012 and moved to Silicon Valley in California (San Francisco Bay Area).

Melissa spent two years working for a Japanese material supplier, Tokyo Ohka Kogyo, in the fast-paced semiconductor industry before opting for a position at a smaller company. She now works as a sales engineer for a Swedish laser manufacturer (Cobolt) and is responsible for all research and university activities in the U.S., with an emphasis on Raman spectroscopy and optogenetics.

Cat Problem- Email Me If You Want to Help Cats!

My name is Lauren Schramm and I am the village coordinator for the trap-neuter-return program. Like many others in the village, I have had trouble with the cat problem in Alfred. I sympathize with the cats and therefore wanted a solution to the problem.

After reading what other locations have done, I came to the conclusion that the most effective method to solve the problem was TNR or trap neuter and release. This has worked well for many other towns, cities, and universities.

A group called Ally Cat Allies specializes in helping towns with the process. Since the village has publicly endorsed TNR as a solution to the Alfred cat problem the group has promised financial assistance.

In order for TNR to be effective the public needs to be involved in two ways:

1. caretakers of cats need to stop feeding cats during the trapping process
2. a list of locations and abundance of cats needs to be created.

Lastly, I plan to trap in the spring and help doing so would be greatly appreciated. If you or anyone you know is interested in helping Alfred's cats please let me know. les5@alfred.edu
