Chemical Waste Removal

The fall/winter chemical waste removal will occur during December 2015. Hazardous and non-regulated (non-hazardous) waste will be accepted.

All chemical waste must be received in your respective Central Accumulation Area (CAA) no later than Thursday, Dec. 10, 2015. Ceramics college (statutory AU) contact EHS at x2190 for Harder Hall CAA and McMahon CAA; non-statutory AU also contact EHS at x2190 to arrange for receipt of your waste in Myers Hall CAA.

Completed Hazardous Waste and Non-Regulated Waste Log Forms MUST be sent to EHS no later than Wednesday, Dec. 9 and may be intercampus mailed (117 Myers Hall), faxed to x2086, or scanned and emailed to: envhealthsafety@alfred.edu .

The packers must have this information prior to packing in order to obtain required approvals from the disposal facility. No waste will be accepted in any CAA after Dec. 10.

All Satellite Accumulation Area labels MUST be filled out completely with the following information prior to bringing to a CAA for disposal: EPA# for respective college; building name; Room # or area name; start date; initials; chemical name(s) of constituents in the accumulation container with volume or weight; and waste characteristics prior to receipt in Central Accumulation.

Note: Per EPA regulations, you have only 72 hours from an SAA full date to transfer the container to the proper CAA. SAA containers must be capped or sealed with container lid, have clean exterior, and SAA label easily legible.

All Satellite Accumulation Areas (SAAs) must be empty prior to Dec. 11, with a notation to that effect made on your submitted December Satellite Accumulation Area Weekly Inspection sheet.

Reminder: Any SAA's which collect waste during semester breaks and are not empty must have the weekly inspection log maintained and submitted to EHS on a weekly basis. If information on your SAA weekly inspection sheet needs to be changed, contact EHS.

Lab supervisors (LS), Principle Investigators (PI), and all AU faculty and staff responsible for areas generating hazardous and non-regulated waste are responsible for making sure SAA inspections are performed, SAA inspection sheets are filed weekly with EHS as required by law, waste logs are completed and that waste is properly labeled for disposal and transferred to the respective CAA.

If you have any questions contact EHS. Hazardous and Non-Regulated Waste Log Forms are available at <http://our.alfred.edu/ind...> under the heading "AU EH&S Forms". Additional information regarding all University waste streams can be found on the EHS website.

A Systematic Approach to Glaze Development

and Recent Research into The Importance of the Lime Eutectic in Developing Cone 6-8 (Reduction) Glazes.

Date: Dec. 2
Location: Binns-Merrill Hall, Room C
Cost to Attend: Free/open to public

Anyone who is involved in developing their own glazes will quickly discover that from a few ingredients, an endless number of combinations can be made, but only a few offer usable results in the traditional sense.

From the beginning of my own glaze research, I was fascinated by this and wondered if it was possible to uncover the underlying logic to what makes glazes work. Based on my findings in recent years, my current research, and my study of technical ceramic literature, I concluded that I could track the underlying logic of cone 6 - 8 glazes.

I have always been interested in this temperature range because it offers glazes with high durability, a fairly large color range and suitability for the outdoors. When I was asked to teach this fall semester at Alfred University, I thought it would be a good opportunity to go deeper into this research.

Linda Sikora, was enthusiastic about this idea and generously offered equipment and materials. At this moment in time, I'm quite convinced that the lime eutectic plays a highly critical role for cone 6-8 (reduction) glazes, and I believe this eutectic can be used as a starting point for developing glazes within this temperature range and higher.

Alfred Clay Collective Silent and Live Auctions

Silent Auction: Dec. 3 - 5
Location: Harder Hall Lobby

Live Auction: Saturday, Dec. 5
Time: 6:30 P.M.
Location: Robert C. Turner Gallery

Come one come all! Seriously come, you won't want to miss this much fun in one place. Saturday, Dec. 5 at 6:30 p.m. light food and refreshments will be served. Be sure to wear your bidding shoes, and possibly your dancing shoes too. It's bound to be the best night of the year! John Gill is our Auctioneer, with assistance from our Turner Teaching Fellow, Chase Folsom.

Just look at what a few said about last year's Auction: "Oh my, that was fun!" "I knew I was going to win this (amazing art)!" "I just can't believe that students put this on, it's so professional!" "Wow, I own real art now!" "I only came for the free food and drink, but it was much better than I expected."

Feel that you don't have too much money? That is ok, we are going to have raffle tickets available for purchase at 1\$, 5\$, 10\$ and 20\$ that will enter you each into separate raffle for fantabulous works of art!

So PUT IT IN YOUR CALANDER, no for real, do it now, because you don't want to be the only one that didn't go. We look forward to seeing you there.

Celebration of Miller Buildings

This year marks the five-year anniversary of the Miller Theater and the 20-year anniversary of the Miller Performing Arts Center. In celebration of these anniversaries and in honor of alumnus Marlin Miller's great generosity and strong commitment to the Performing Arts at Alfred University, the Division of Performing Arts will host a reception after the Symphonic Band concert this Saturday (Dec. 5) night.

The concert, which is free, starts at 7:30 p.m. in Miller Theater. All are invited.

Students in Distress - Who to Contact

Dear faculty and staff,

This is the time of year when stress and emotions run high among our students and our mental health emergency response calls really start to pick up.

If you are concerned for the safety of a student, your 24/7 phone number is 607.871.2108. When Public Safety is not on duty, the call will go to 911. Those dispatchers have phone numbers for our RD on call, our Student Affairs incident coordinator, the counselor on call, the Dean of Students, etc., so

please work with 911 just as you would our Public Safety staff.

The Wellness Center/Counseling Service reserves time at the end of the school year for crisis needs. Please call 2300 during business hours to consult or refer a student. Counseling Service after-hours message has a recording on how to contact the Counselor on Call.

For non-life threatening concerns please remember to utilize our Care Network at <https://alfred-advocate.s...?>

Local Film Premiere: 'The Eighth Round' (2015)

Presented by Zeke Wilson
Wednesday, Dec. 2 at 7 p.m.
Nancy Howe Auditorium
David A. Howe Public Library
155 N. Main St., Wellsville
585-593-3410

The book by Zeke Wilson, "The Eighth Round," has been made into a film and will have its premiere in Wellsville. A true story, Zeke found himself faced with same-race discrimination in the arena of boxing. The film tells of his legal fight and legal precedent set by his civil suit, going through to the Federal Court.

The movie will appeal to sports lovers, historians, civil rights activists, and beyond.

This film is free and open to the general public.
