Key Points for Doing Web Time Entry

All students are now required to do Web time entry. Paper timesheets will only be allowed if a processing or timing error on BannerWeb prohibits the student from entering the actual hours worked on the correct days. If paper timesheets need to be submitted, they will be processed in the next available payroll.

Timing is critical for entry, submission and approval of electronic time sheets. If deadlines are ignored or missed, timesheet hours are not pulled into payroll to be processed.

We have created automated e-mails which are generated to all students and approvers to remind you of these impending deadlines.

Timesheets are LEGAL DOCUMENTS which require the student to report his/her actual hours worked and the supervisors to verify that the information is accurate.

HR and Payroll are required to respond to inquiries from agencies, insurance companies, and auditors and our information is based on time sheet reporting. This means that if you leave and return to work on the same day (such as your lunch hour), you must record it as such.

Labor laws require that hourly workers take at least one half-hour break if working more than six hours in one day.
