Banner INB & BannerWeb Down During Fall Break

Banner 8 upgrade is scheduled for Oct. 9-12. The installation process is considerable and will take 4 days to complete. During this time, both Banner INB and BannerWeb will be unavailable.

Blackboard will be available, but will not be receiving daily updates from Banner.

We have scheduled the upgrade for the Fall Mid-Term Break timeline so that the impact on the campus community will be minimized.

Banner will be down from Friday night, Oct. 8 until Wednesday morning, Oct. 13.

We apologize for the inconvenience that this will cause the campus, but it is required so that we can benefit from the revisions to Banner, but more importantly, receive federal and state updates for Payroll and Financial Aid.

More information will be forthcoming, but I wanted to get this out to the campus so you can plan in advance for this downtime.

The link below will take you to our Banner Web page for more detailed information on the new release

of Banner 8.

Please contact me with any questions at kirschdj@alfred.edu or at 2602.

New Antivirus Software for Alfred University

Alfred University ITS will no longer be supporting Sophos as our Antivirus software. We will be implementing Microsoft Forefront Antivirus for all Alfred University-owned machines.

Forefront is a very reliable antivirus solution that allows ITS to remotely maintain virus updates on University-owned computers.

For those who have already received an Alfred University Dell Windows computer this summer, you are currently running Microsoft Forefront and no further action is needed. For those who have an existing computer, in order to implement the new antivirus software, Sophos will need to be uninstalled from your machine and Forefront installed.

In the first few weeks of October, ITS will push out the Forefront application across the University network. This automatic installation will happen when you start your machine and you will get a prompt asking you to complete the installation process.

For those who would like to manually install Microsoft Forefront before the automatic network installation in early October, here are some important notes:

University Windows Computers:

If you are currently using Sophos you will see an icon that looks like a shield in the bottom righthand corner of your computer screen. Before you begin the installation of Microsoft Forefront, you will need to uninstall Sophos.

To uninstall Sophos and install Microsoft Forefront on your University Windows machine go to: U:\public\ITS\Antivirus\SophosToForefront.exe, double-click and follow the directions.

University Mac Computers:

If you are using SOPHOS on a Mac machine, you will need to uninstall Sophos by dragging and dropping the program out of Applications and into the Trash. If you are interested in installing an alternate antivirus software for your OS X machine here is a suggestion: <http://www.clamxav.com>

Non-University Windows Computers:

If you are using Sophos on a non-University-owned machine (your personal home machine) you will need to uninstalll Sophos from the Control Panel>Add/Remove then install an alternate anti-virus solution, such as Microsoft Security Essentials (Microsofts free antivirus software which is comparable to Forefront) <http://www.microsoft.com/...>

If you have difficulty, please call the Helpdesk at 607.871.2222 and we will help walk you through it.

Gayngs Advance Tickets Available

Friday (Oct. 1) is a great steal of a concert coming to Alfred. Never heard of GAYNGS? Of course you haven't. BECAUSE this is a collective of over 8 bands and 12 performers coming together for a rare 9-city tour.

Alfred was asked to replace Toronto's gig and we're the ONLY college on this exclusive tour. Trust us, this is something unique that will be worth the \$5 admission.

SAB is selling advance tickets this week and then next week you will be sent a GAYNINGS TATTOO AND BRACELET in your PCC Box. Also, every \$5 goes toward a better spring show - so please support.

Film: 'Black Wave -The Legacy of the Exxon Valdez' on Saturday!

In the early hours of March 24, 1989 the Exxon Valdez oil supertanker runs aground in Alaska. It discharges millions of gallons of crude oil. *The incident becomes the biggest environmental catastrophe in North American history.

For 20 years, Riki Ott and the fishermen of the little town of Cordova, Alaska have waged the longest legal battle in U.S. history against the world's most powerful oil company - ExxonMobil. They tell us all about the environmental, social and economic consequences of the black wave that changed their lives forever. This is the legacy of the Exxon Valdez.

*This film was made in 1998 before the Deepwater Horizon oil spill in April 2010

Saturday @ 5 p.m. in Nevins Theater

We look forward to seeing you there!
