Artist In Residence Paloma Barhaugh-Bordas.

Date of Event: July 8 - 12, 2019 Location: The Institute for Electronic Arts Cost: Free Sponsored by: The Institute for Electronic Arts / NYSCA

Paloma Barhaugh-Bordas is an artist living and working in Upstate New York. Originally from Denver, Colorado, she received a BA in liberal arts from Carleton College in Northfield, MN, and an MFA in Printmaking at Rhode Island School of Design in Providence, RI. Paloma's work adapts and appropriates the vernacular of the many regions she's called home and traces the self-conscious search for cultural roots as a first-generation American. The Institute for Electronic Art's Experimental Projects Residency is made possible by the New York State Council on the Arts with the support of Governor Andrew M. Cuomo and the New York State Legislature.

New System for the AU Libraries

The AU Libraries are pleased to announce an upcoming systems migration in early July that will improve services to the campus. A new library services platform, called Alma, manages all of the libraries' back-office functions, including circulation, the acquisition and cataloging of print and electronic resources, and resource sharing within SUNY.

The library staff have been working over the last year to prepare for this transition. While we expect disruptions to be minimal, we appreciate your patience and understanding as we make this upgrade.

Library patrons will have access to an improved public search interface called Primo which has several new features:

* Mobile-friendly design

* An integrated search of physical and print materials at both Scholes and Herrick (videos, articles, books, databases, etc.)

* The ability to save favorite searches or articles as well as manage personal accounts for renewals and other circulation functions

* The ability to search across the collections of all SUNY Libraries (and beyond) with links to request materials for inter-library loan

If you have any questions, please feel free to ask any of the librarians: https://libguides.alfred....
