

## DR. WRIGHT DELIVERS FIRST OF ALUMNI LECTURES

Dr. Isaac Wright, a graduate of the class of 1904, delivered the first of the alumni series of lectures before a large audience last Wednesday evening in Kenyon Memorial Hall. His topic was "Reading—Oral and Silent."

Dr. Wright has spent many years investigating the question of reading. He has also conducted many experiments to prove his points. The results of his investigation show that a large number of people are unable to read properly as they have never received the proper training. The speaker found the crowded subway trains of New York City the best place to receive information for his research. Some people, due to the right training, can read several times as fast as another. If the children in the grade schools receive correct instruction the difficulty of reading can soon be overcome in the coming generation.

Dr. Wright's speech was exceedingly interesting and is one that calls for thought. The student body gave Dr. Wright a warm welcome and will receive with a great deal of interest the rest of the series of lectures.

### STUDENT SENATE MEETINGS

A special meeting of the Student Senate was called to order by the President, January 15. A motion was carried that the President of Klan Alpine be requested to co-operate with the Student Senate in dealing with the case of Mr. Eagle.

The twelfth regular meeting of the Student Senate was called to order by the President, Jan. 20. A letter was read from the President of Klan Alpine concerning the action which the Klan Alpine has taken in dealing with Mr. Eagle. A motion was carried that the Senate consider satisfactory the co-operation of the Klan Alpine. It was voted to place February 19th on the calendar for the High School Bazaar. Also placed March 12th on the calendar for the Footlight Club Play and March 17th for the Wee Play House.

The thirteenth regular meeting of the Student Senate was called to order by the President, January 26. A motion was carried that Article II, Section 3 of the Campus Rules be interpreted to exclude the dormitories. It was voted that the first of the Freshman - Sophomore basketball games be played Wednesday night, February 2d. Both the boys' and girls' games are to be played at this time.

### NEW COLLEGE SONG BOOK

The new college song book will be ready for disposal at College Assembly, Wednesday morning at a few minutes before ten o'clock.

The book contains the words to all our college songs and eleven new numbers which were not in our last edition.

Director Wingate has spent a great deal of time and money to help increase our pep and enthusiasm and to develop a good singing ensemble in Assembly by publishing this book.

Be sure and have the correct change ready as these books will be distributed on the cash and carry plan. Fifteen cents a copy.

## DR. THOMAS WORLD PEACE PRIZE CONTEST

### Are You Going In For The Contest?

If you are a Sophomore or a Junior you are eligible and are urged to compete.

Everyone is just now interested in securing permanent peace. Can Elihu Root's ideas on disarmament be carried out? How do England, France, Japan take the suggestions? Just now is a moment fruitful in suggestion for orations on world peace.

Incidentally the prizes of \$50 and \$25 gold are inviting goals.

The conditions of the contest are fully explained in this year's college catalogue, page 89.

Seize time by the forelock and announce yourself as a competitor. Preliminary contest will take place February 28, 1921.

### CERCLE FRANCAIS

A meeting of the French Circle was held last Tuesday evening from seven to eight o'clock at Kenyon Hall. Two short stories of Maupassant were read, one in English and one in French, and discussed. The next meeting will be held Tuesday evening Feb. 1, at seven o'clock. A rumor has been heard to the effect that one of our Romance (French, Italian, or Spanish?) friends will give us a sample of strictly European eats.

It has been decided to limit the membership of the Circle to a definite number, and any who wish to join for the current year, should submit written applications to the secretary this week. At the next meeting a constitution will be adopted and applications for membership considered.

## GLEE CLUB PLANS TRIP IN MARCH

Before long Director Wingate will have a hard task on his hands to pick sixteen men for his club. There are about thirty men rehearsing twice a week working for a birth aboard the "Alfred Glee Club Special" which leaves our valley about the middle of March for a trip to Addison, Painted Post, Oxford, Elmira, Johnson City, Spring Valley, Great Kills and for a grand ensemble at the Alfred New York Alumni Banquet at the McAlpin Hotel, New York City.

The men who won the trip last year appreciate what a trip like this means to the Glee Club men and also to the College.

It is the greatest means of advertising Alfred that we have and we hope this year's club will keep up the reputation made by the former club members that Alfred is a school which contains real men and that they are proud of it.

The Club has sung for thousands of men and women aboard the train who enjoyed our pep and enthusiasm and above all, our mannerism. Our personality has reflected Alfred in many homes and our actions have been appreciated by many thousands who have heard our complete program in concert form and also informally in high school auditoriums.

### UNIVERSITY ORCHESTRA

The University Orchestra meets each Tuesday evening in Kenyon Memorial Hall at 8 sharp. There are about thirty members enrolled. Why not make it fifty? Any instrumentalists desiring to join, please come to the hall with your instruments next Tuesday evening.

### THE AFTERTHOUGHT

They come to Alfred, young and fresh and fair,  
Seeking romance. Here, under smiling skies,  
They find it. Love grows quickly in this vale.  
Like a new bud, unopened still, but placed  
In some spot where there's always sun and rain,  
Bursts into bloom, with brilliant colorings,  
So ope the hearts of these, shy-eyed and sweet,  
'Neath Nature's spell.....

They hiked from dawn to dusk  
Across Pine Hill and over country roads.  
Long blissful Saturdays they kept Life sweet  
With rambles. Silences there were and sighs  
Of hidden nothings.

Spring wore on apace.  
Until one perfect night high tide was reached.  
The moon's a guilty slave of Fate. She dips  
The world in glory for a night; at dawn  
Strips off the tinsel trimmings. Lights the way  
To many a man's mistakes. So with the boy—  
Spring sang within and he was moved to speak,  
Whispering, softly, something of this Love.  
She sighed, slim white submission, in the dim.  
Followed some gilded days—the rose at flower's  
A wondrous thing—The world dwindled away  
'Till only two remained. A jeweled pin  
Changed hands.

Meanwhile he summer sped  
Away and autumn waved her mystic wand,  
Turning the woods to flame and crimson. Then  
White winter, glittering.

The biting cold  
With its suggestions of reality,  
Brought him up with a snap. Seeing, he laughed;  
Flung off his bonds and laughed again to feel  
His cramped life stretch; took up his argument  
With things he's known but quite put by.

The girl  
Paled and let purple shadows lay beneath;  
Her eyes; drooped, wondered, sighed more than before,  
That Love had shed its petals, as the rose  
Must ever when it comes to perfect bloom.....  
Then pulled the stakes to set them in new places.

## VARSAITY DROPS THREE GAMES STRAIGHT

### Thiel Wins Great Game From Varsity. St. Lawrence and Clarkson Tech Defeat Varsity on Northern Trip

Featured by many sensational shots, and fast play throughout in a contest which took two extra periods to decide, the purple quint dropped a hard fought game last Wednesday evening to the representatives of Thiel College by a margin of one point, the final score being 22-21. The game was probably one of the most exciting that has ever been staged on the local court, and the large crowd that was in attendance fully appreciated every moment of play.

Thiel took the lead early in the first half, putting up a strong offensive game which purple players seemed unable to block successfully. When the Greenville collegians saw that they could not pass the ball under the Alfred basket due to the five man defense which the Varsity has perfected, they started a bombardment from the center of the floor. Many shots went wild, but there were enough that counted to pile up a 9-3 score at the end of the first half.

Alfred came back with vengeance in the final period, and soon led by two points. Thiel took many wild chances, and managed to even things up before the whistle blew. This half was a great exhibition of basketball, and never did a team work harder than the Varsity in order to overcome the Thiel lead. The score stood 17 all when the twenty minutes was over. Another five minute period was proposed. Thiel scored twice on foul goals, and with but a minute to play, it seemed that Alfred was defeated. A long shot from mid-floor brought the game again to a tie, and with a short interval for rest, the game went on. Thiel tossed one basket from the field, Alfred tallied once from the foul line. The whistle blew, and it was over.

The game was a bitter contest to lose, and a great game to win, but as the score could easily have been either way, the disappointment is not so great as it otherwise might have been. Thiel played a sportsmanlike game, and were accorded a warm welcome by the Alfred crowd. After the game, the Thiel manager asserted that he had never seen better spirit than was exhibited by the Alfred student body. While this game was lost, it will do much to promote better feeling between the two institutions, and much is achieved thereby.

#### The line up and summary:

Thiel	Alfred
Kudder	R. F.
Stanton	L. F.
Bell	C
Dufford	R. G.
Christman	L. G.
Bob Witter	
Banks	
Lanphere	
Holley	
Ray Witter	

Last Wednesday evening in the St. Lawrence University gymnasium at Canton, N. Y., the purple quint went down to defeat at the hands of the St. Lawrence Varsity five by a score of 34-15. The game was hard fought throughout, and at the middle of the opening half, Alfred led by a score of 5-4. The narrow court proved the undoing of the purple players, however, and in the final five minutes of the first period, St. Lawrence tallied freely. The score at half time was 18-5.

Entering the final period, Alfred put forth every endeavor to cut down the scarlet lead, but managed to score but ten points to sixteen by their opponents. Both teams passed and guarded well, but the St. Lawrence outfit managed to find the net more easily. The purple men missed many comparatively easy shots for the basket, while the home team made good on practically all of their close-up tosses. The final score was 34-15.

St. Lawrence has thus far gone through the season undefeated, and they presented a strong line up. Captain Barker at forward was their highest scorer with seven baskets to his credit, while Sheard, the star pivot player, counted four times from the floor. Alfred's men put up a good battle at all times, and played well together at most stages. Inability to locate the basket at opportune times was the real cause of the defeat. The team worked the floor well, and they guarded with precision, but the basket shooting was off color to a marked degree.

The line up and summary:  
Alfred 15 St. Lawrence 34  
R. F. Barker  
Campbell L. F. Weller  
Bob Witter C. Sheard  
Ford R. G. Bird  
Ray Witter L. G. Atwood  
Scoring: field goals—Barker 7; Sheard 4; Atwood; Bird; Weller; R. Witter 3; Ford; B. Witter; Campbell. Foul goals—Barker 5; Campbell 3. Referee—Sisson, Dartmouth. Scorer—Wesbecher. Time of halves—20 minutes.

Substitutions: E. Campbell for Banks. Ford for Lanphere. Siechle for Duford.  
Field Goals—Kudder, Stanton 3, Bell Christman 2, R. Witter 5.  
Foul Goals—Kudder 8, R. Witter 3, E. Campbell 8.  
Score at end of last half—17-17.  
Score at end of first extra period: 20-20.  
Final score: 22-21.  
Time of halves: 20 minutes.  
Scorer: Orvis.  
Timekeeper: Wesbecher.

## N. Y. S. A. NOTES

### Theta Gamma Entertains

One of the most successful parties ever given at the Ag School was held Jan. 12th, by the Theta Gamma fraternity, with fifteen couples in attendance, this serving as a forerunner to the regular annual banquet held in March.

The party was a hastily determined one, but by the earnest efforts of all, a very pleasant social evening was enjoyed by those present. The dancing was carried on in the main reception room, which was tastefully decorated with the fraternity colors of black and gold. Various banners covered the walls, while long black and gold streamers extended across the hall and led to an apex at one end at which the large Gamma banner was hung.

At ten o'clock came intermission, so the party adjourned to the dining room where eight tables, each decorated with ferns and lighted with candles, were arranged to accommodate the members and their guests. Here a choice four course menu was served

consisting of iced grapefruit, fruit salad and saltines, ice cream and macaroons, coffee, and favors.

Dancing was again resumed until 11:30.

Professor Wingate has been appointed chairman of the examining of High School students in Hornell, who desire outside credit in regents for Applied Music.

The Frosh furnished the program for Country Life last Tuesday evening. Mr. Brookins gave us an excellent talk in detail, on the construction and workings of the Panama Canal. So clear was his explanation that each picture stood out clearly as we traveled with him over lock after lock from coast to coast. Mr. Davis rendered a violin solo and Mr. Childs made us acquainted with "Sammie McGee." The Club sang the Alma Mater and disbanded, having enjoyed the program very much.

Director Wingate led the teachers

of Steuben County in singing at Painted Post, Wednesday and Thursday.

We were indeed glad to see Prof. W. J. Wright at school for a short time Friday morning. We hope he will come again soon.

News was received last week of the marriage of Miss Mildred Bloodgood, who left us in January. She is now Mrs. Neil Stillman. We wish her a very happy and prosperous future.

Miss Martha Tilden spent the weekend at her home in Canaseraga.

Franklin Cassada returned last night after spending a week at his home in Elmira on account of illness. Glad to see you back "Cassie."

The Juniors welcome Mr. Mayo to their class duties and privileges.

A new class in rope splicing has been recently organized under Prof. Place.

A farewell dinner party was given last Wednesday evening in honor of Mis Angeline Wood who left Thursday night for New York where she will resume her studies.

The training class girls are serving luncheon each noon to the High School students, who do not go home for their dinner. The scheme is proving quite successful.

### "DER DEUTSCHE VEREIN"

Der Deutche Verein held its second regular meeting on Wednesday evening, Jan. 19, in Kenyon Memorial Hall. A very interesting program was arranged by Dr. Mix and Samuel Charniak. Several German songs were sung and then a very interesting talk on the "German University as it was, and as it is today" was delivered by Samuel Charniak. The meeting was adjourned early to enable the members of the Verein to witness the basketball game against Theil.

The next regular meeting will be held on Wednesday, Feb. 2, in Ken-

yon Memorial Hall at 7:30. The topics of discussion will be "Das deutsches Volkslied."

J. HARRY BARTH, Sec.

### FEIG JOINS KLAN ALPINE

Chester A. Feig, a newly added member of the class of 1923, has recently become affiliated with Klan Alpine Fraternity. Mr. Feig now resides in Alfred with his family, having been a resident of Addison, until a short time ago.

## How is a Wireless Message Received?

EVERY incandescent lamp has a filament. Mount a metal plate on a wire in the lamp near the filament. A current leaps the space between the filament and the plate when the filament glows.

Edison first observed this phenomenon in 1883. Hence it was called the "Edison effect."

Scientists long studied the "effect" but they could not explain it satisfactorily. Now, after years of experimenting with Crookes tubes, X-ray tubes and radium, it is known that the current that leaps across is a stream of "electrons"—exceedingly minute particles negatively charged with electricity.

These electrons play an important part in wireless communication. When a wire grid is interposed between the filament and the plate and charged positively, the plate is aided in drawing electrons across; but when the grid is charged negatively it drives back the electrons. A very small charge applied to the grid, as small as that received from a feeble wireless wave, is enough to vary the electron stream.

So the grid in the tube enables a faint wireless impulse to control the very much greater amount of energy in the flow of electrons, and so radio signals too weak to be perceived by other means become perceptible by the effects that they produce. Just as the movement of a throttle controls a great locomotive in motion, so a wireless wave, by means of the grid, affects the powerful electron stream.

All this followed from studying the mysterious "Edison effect"—a purely scientific discovery.

No one can foresee what results will follow from research in pure science. Sooner or later the world must benefit practically from the discovery of new facts.

For this reason the Research Laboratories of the General Electric Company are concerned as much with investigations in pure science as they are with the improvement of industrial processes and products. They, too, have studied the "Edison effect" scientifically. The result has been a new form of electron tube, known as the "pliotron", a type of X-ray tube free from the vagaries of the old tube; and the "kenetron", which is called by electrical engineers a "rectifier" because it has the property of changing an alternating into a direct current.

All these improvements followed because the Research Laboratories try to discover the "how" of things. Pure science always justifies itself.

## STUDENT ASSEMBLIES

I have been asked to express through the Fiat my views in regard to the frequency and formality of student assemblies at which dancing occurs. I am glad to give to Alfred students in this way, any help I can in the handling of this problem.

Most people admit that "dancing should be a fine form of recreation." It has many well recognized superior qualities and characteristics as a social amusement. It is so often spoiled, however, that some good people refuse to admit the possibility of keeping it free from objectionable and detrimental tendencies and results. The most frequent abuses are late hours, frequency of such parties, neglect of other recreations and amusements, social injustice to those who do not dance, extreme dress and immodest and suggestive personal contact.

These abuses can be obviated only by strong self-control, strict adherence to propriety and good form, and by gracious courtesy.

The progress made in recent years by Alfred students toward the elimination of these abuses under a system of restriction and careful chaperonage, is most gratifying, and leads our faculty to the belief that such a policy is a better safeguard to good morals and social and spiritual welfare than either the policy of attempted prohibition of dancing or the policy of ignoring it.

From the foregoing, my opinion in regard to frequency and formal character will be easily guessed.

Frequency, with inferior music and decoration, with careless dress and form, has the one merit of being "cheap." Such parties easily degenerate into many evils.

One student assembly per term only, formal and arranged with due care as to all details; with choice music, refined decorations, good hours, good taste and good form; with the most superior chaperonage the faculty can supply; will add to the progress you have already made in putting your dancing parties above the criticism which such parties otherwise conducted, usually deserve.

BOOTHE C. DAVIS.

The treatment received by members of the purple basketball team on their recent northern trip could not have been better, especially at Potsdam where they were entertained by the representatives of Clarkson Tech. Every effort was put forth to show the Alfred men a god time, and the reports from those who took the trip are highly favorable.

Both St. Lawrence and Clarkson are small colleges, the former being co-educational and somewhat similar to Alfred. Aside from a college of arts and sciences with an enrollment of over three hundred, there is a State School of Agriculture and a theological school at Canton. Clarkson College is an engineering school with a total registration of about two hundred men. Instruction is maintained in civil, electrical, mechanical and chemical work. The fact that the Potsdam State Normal School is just across the street

from the Clarkson campus makes the institution almost a co-educational one. The spirit of the Clarkson men was excellent, and their attitude toward the invading team most friendly. Several of the men on the Clarkson basketball team were at Alfred last spring for the Alfred-Clarkson baseball game. They remembered their excellent treatment here and sought to reciprocate when Alfred came to Potsdam in basketball.

Some interesting sidelights on the football situation of last fall were also uncovered. On the day when Alfred was scheduled to play St. Lawrence at Canton, Clarkson staged a game at Potsdam, eleven miles further north. There was considerable snow on the ground, but that was easily removed, and the game played according to schedule. It seems that St. Lawrence sent a scout to Alfred when the Varsity met Mansfield Normal last fall, and this individual returned to Canton and told the scarlet management that Alfred has a rather strong team. Now St. Lawrence had defeated most of the minor colleges of the state, and really ranked highest among them. A defeat at the hands of Alfred would put them out of the running, and as Alfred had lost to Hamilton and Geneva a victory for St. Lawrence would not mean so much. For that season—and, of course, the snow—it seems that the game was cancelled. There is no question but that a game between Alfred and St. Lawrence would have been a bitter battle, and that the team which had the "breaks" would win. St. Lawrence evidently did not care to take chances with an outfit which displayed the fight which the Alfred eleven showed in the Mansfield game. It was really a logical move for them, especially since they held no outdoor practice that week on account of the snow, and consequently would have been in poor shape for the Alfred game. It is much regretted here that the game was not played.

Valentino Caso of Burdick Hall was greatly saddened recently to receive word from Italy of his father's death. The student body extend to him their sincere sympathy in his bereavement. We feel that such a sorrow is difficult to endure. Those of us who are most intimate with Caso know that he is a fellow who will bear his grief manfully and with the same strength of character which he exhibits under normal circumstances.

Y. M. C. A.

At the Y. M. C. A. leaders' meeting held Sunday night it was decided to change the group meetings from Wednesday night to Sunday immediately after supper. This change, made necessary by the number of other meetings planned for Wednesday evenings, will probably be permanent, at least during this term. Joint meetings, with out-of-town speakers, will bring the discussion groups together at least once each month. These monthly gatherings, planned for Sunday evenings, will replace the regular group meetings whenever held.

The new plan will be put into operation next Sunday. Leaders' meeting will be held at 5 P. M., at the Gothic. After supper the four study groups will discuss "The Laws of Achievement," following the outline in Chapter IX of Elliott's "Student Standards of Action."

## NOTICE

There seems to be some question as to the formality of the Assembly Dance to be held next Thursday evening. There has been no definite action to make these dances formal but some of the students and most of the faculty would like to see all the Assembly dances formal parties. In accordance with these ideas some of the students intend to come in full dress Thursday evening. From the foregoing it will be seen that no one need feel out of place either in the evening dress or in citizen's clothes.

DANCE COMMITTEE.

## A LIBRARY

It is some place to wait  
For someone;  
Just some quiet place,  
Where one may whisper  
Or enjoy a chat.  
Some place to take a walk in,  
Overshoes aflap.

(The books? There's plenty,  
Pretty covers, eh?)

Some place to work  
Is a library, too.  
It is some place!

The Bi-monthly meeting of the Cosmopolitan Club was held in Kenyon Memorial Hall last Sunday evening. There was a fairly large attendance and much interest and enthusiasm was manifested. After a short business meeting a proposed play was read by Prof. Stearns, and commented upon by members of the Club. Later a paper by Mr. Charniak upon the Russian situation came in for its share of attention and discussion. At the next meeting Dean Paul E. Titsworth, C. H. Yang and Fred Gorab will speak. Don't forget to be on hand a week from Sunday night.

The following alumni have to date, become associate members of Alfred University Athletic Association and have contributed a total of \$290.50 in membership fees and donations:
