Now hiring: Students for technical assistance

Hello,

Do you like learning by doing? Do you like technology and how it helps each of us in our daily lives? Do you like working with enthusiastic, intelligent people and helping others? If you do, there could be a place for you in Students for Technical Assistance, or STA!

We are a student-run organization that works from within Alfred's ITS department in several areas of computing:

- * Public Computer Lab Consultants, helping maintain and oversee public computer labs across campus
- * The ITS Helpdesk, helping faculty, staff and students with various computer-related issues
- * Tier 2 Technicians, using creative methods to solve advanced computer issues such as viruses and spyware
- * The Web Team, developing the databases and interfaces used by people on the AU Web pages
- * Equipment Lending, providing faculty, staff and students with the computers, projectors and other education-based technology

You don't need to be a technical genius to become an STA, just someone who is dependable and enthusiastic about learning about computers and helping people. And did I mention that you get paid!?!
\$\$

That's right, this isn't volunteer work, we are looking for enthusiastic people who want to be paid for their time and creativity. If you think you might be interested in joining an organization that provides you with technical, personal, and managerial experience, then please logon to <http://sta.alfred.edu> and click on Apply Today!

If you have any questions about STA and what we do, please do not hesitate to e-mail us at sta@alfred.edu.

Thank you,
