AU creates Judson Leadership Center

I am pleased to announce Alfred University will create the Beth Robinson Judson Leadership Center as a tribute to Beth Judson, an alumna, a trustee, and a founding member of the Women's Leadership Center Advisory Board. The Judson Leadership Center will open at the start of the fall 2011 semester.

Beth and her husband Jim Judson died Oct. 26, 2010, when the small plane in which they were flying crashed.

As a University, we wanted to find a fitting memorial to Beth, who was a leader in many ways -- as a ceramic engineer, as a trustee, and as an advocate for our women students, particularly those in science and engineering.

More than a year before Beth's death, I had an opportunity to talk with her about expanding the leadership opportunities at the University for all students, something she enthusiastically endorsed.

The Judson Leadership Center will encompass the Women's Leadership Center; the Gary Horowitz Leadership Development Program, which is an offshoot of the Gary Horowitz Service Learning program administered by the Career Development Center; and the Saxon Sidekicks, a unique mentoring program developed this year by Hannah Certis, a senior who completed an internship in my office. We believe the Judson Leadership Center is a fitting tribute to Beth Judson -- a friend, a colleague, a mentor and a leader.

Please Check Your Quarantined Email Box

Recently, campus community members have been reporting that legitimate emails from off-campus email addresses have increasingly been bounced back to the sender and not being received on campus. This observation coincides with an increase in the number of blacklisted Yahoo, Hotmail, AOL, and Road Runner email servers.

ITS is continuing to look at email solutions that will best serve the campus community. In those efforts, we have recently made changes that will allow more emails to be quarantined at

<http://antispam.alfred.ed...> We are hopeful that these changes will ultimately allow more legitimate emails to be delivered to our campus users, while providing some level of protection from spam and scam emails.

With this in mind, it is very important to frequently check your quarantined email. Please follow the directions on the attached sheet. This informational attachment also provides details on how to permanently "whitelist" an email address, so that it can be delivered without going through quarantine.

A general note about spam

Spam is not only an inconvenience, but also poses an information security risk. Increasingly sophisticated phishing scams have been successful in deceiving users (both on and off-campus) to provide login credentials to remote hackers. Please, never provide your login credentials, regardless of how legitimate an email request appears.

Spam is a resource-intensive problem for institutions of higher education, in that 8 out of 10 emails that hit our campus servers are spam. It is important to understand that the recent Epsilon security breach <<http://searchsecurity.tec...>> (which affected a number of very large banking and financial institutions, including TIAA-CREF) may place more importance on our ability to filter spam from legitimate emails.

If you have further questions please contact the ITS Helpdesk at 871-2222.
