

## Ball, concert to highlight IFC weekend

The six Alfred University fraternities will hold their annual IFC Weekend this Friday and Saturday.

Highlight of the weekend will be the appearance of The Buckingham which "follows the precedent set in previous years for the finest available, up to date, top level entertainment for this important weekend, contributing greatly to what we sincerely believe will be the best IFC weekend to date," according to Don Peyser, IFC treasurer and chairman of the weekend.

The Buckingham, one of the all-time greats of the rock world, will appear at 2 p.m. Saturday afternoon in Alumni Hall.

Appearing with The Buckinghams as a special added attraction will be one of the hottest new groups on the blues scene, Scott Fagen. Fagen will perform with a seven-piece ensemble.

Brian's Idols, a fine rock group from Ithaca and New York City will play at the IFC

Ball, Friday evening at Ade Hall.

Highlighting the ball will be the crowning of the IFC Queen. She will be selected by the IFC from candidates nominated by the six member fraternities.

The jeweled crown will be placed on the queen by Al Celio, president of IFC.

The fraternities will have parties both Friday and Saturday evenings. This will be the first big weekend for the newly tapped pledges.

The Friday night fraternity festivities will take the form of cocktail parties prior to the IFC Ball. On Saturday the individual houses will have afternoon buffets after the concert followed by parties Saturday night.

The Inter-Fraternity Council Weekend is sponsored by the IFC and its member fraternities. It is one of the best of the "big weekends." Tickets for the ball and concert are available to fraternity men only.

## Buckingham are IFC stars

The Buckingham, one of the leading participants in our modern rock renaissance, will highlight Inter-Fraternity Council Weekend with a Saturday afternoon concert in Alumni Hall from 2 to 5 p.m.

The group was established in 1966, and their first record, "Kind of a Drag", was a smash. They were then signed with Columbia Records, and followed with "Don't You Care."

Their first LP, "Time and Charges", was an enjoyable taste of future musical direction. It features broad, exciting orchestration; modern symphonic chord progressions; electronic segments colored with blues overtones... another musical extension of The Buckingham, another progression in their continuing musical evolution.

"Mercy, Mercy, Mercy" followed their debut LP... another hit single, another sound this time in the very best Chicago tradition.

The Buckingham all hail from Chicago, and they knew what they were singing about, because they've lived it. In

fact, they are the only contemporary Chicago group that has actually "made it" nationally.

They achieved still more national recognition with a fourth consecutive hit, "Hey Baby"... an example of what rock and roll can be when the basic ingredients include large

portions of talent and thought.

As for tangible proof that this method has paid off... every single release has reached the National Top Five, and two were number one.

This year's IFC Concert promises to be an exciting musical experience.
