

ALFRED SQUAD LOSES TO ALLEGHENY

FROSH-SOPH PLAYS WERE BIG SUCCESS

New Talent Brought To Light

The Frosh-Soph Plays, which were presented Thursday evening, May 28, brought to light among the many brilliant characterizations a decided star.

Marianne Sixby, who represented Hulda in "The Unseen", overshadowed with her acting the fact that her name had been omitted from the caste announcements in both the Alfred Sun and in the Fiat. The acting good, except for the slight criticism that Jeffrey was a bit too business-like in his love-making.

In considering the second Frosh play, Leonard Adams deserves recognition of the fact he assumed the part on the day of the play's production. Despite this handicap he appeared to good advantage. "The Pot Boiler" is, itself, an excellent play and the people seemed to have been chosen well for their positions. David Hyland certainly presented the appearance of the height of stupidity, Reverend Saunders was dyed deep with villainy, the pure white heroine was pure beyond compare and the others followed

The Sophomore play "Mansions," featured a rather weak beginning with a strong and emotional ending. At first it seemed that the players were true puppets. Then as the action proceeded the actors were lifted out of themselves into a world of emotion. To the best of their ability they attempted to show that emotion to the spectators. It was at the last that all three were equally effective and at their best.

The caste of "The Green Coat" was slightly handicapped by a play with brilliant lines and a rather weak and futile climax. Raoul was Alsworth; Henri was Hamilton; Nellis was Munius and B. Schroeder was a sweet and beguiling Marguerite although a bit stiff.

All together the plays afforded an excellent evening's entertainment. Much credit is due the respective directors and castes along with the motley retinue of stage-managers, "Props," etc.

MOVING UP NIGHT DIS-REPUTABLE OCCASION

Much Damage Done by Infant Class

After a night, punctuated with explosives, thunder storms and drunken shouts, residents of Alfred awoke last Friday morning to find the evidences of the sloppiest moving-up night in the history of the college. True to the preaching and teaching of certain upper-class brothers who have advocated "pep" in moving-up performances, the Frosh did their best to be satisfactory, as far as their limited knowledge could guide them.

So far as is known, nothing constructive or worthy of a decent class, was done. The town looked as if a bunch of drunken bums had been on a rampage. The merchants, who have been so liberal with their donations to the college, found their windows plastered with a white concoction of lime, flour and water. The campus itself looked like a city dumping ground. Several residences on the Main streets were damaged, cement pillars being broken, iron railing battered and steps carried away.

To cap the exhibition, nearly every freshman sneaked out of town early in the morning, displaying the type of sportsmanship which has no place in Alfred.

It is rumored that certain of the Frosh were desirous of having a constructive performance, with fireworks, a parade and perhaps a small affair fashioned after the Mardi Gras. Such a moving-up would have been voted the "best ever" by the college, but the one which was actually perpetrated seems likely to result in the discontinuance of the old tradition.

It is deplorable that this University has in its student body, men who have no higher ideals than were shown last Friday. It is not alone in the new class that this spirit is shown, however. The fact is that, had it not been for the baneful influence of upper classmen who perceived their opportunity to see their ideas of "pep" demonstrated without having to pay the cost, the night would have passed in a much more desirable and praiseworthy manner.

SPECIAL PROGRAM GIVEN AT ASSEMBLY ON MEMORIAL DAY

Veterans' Graves Honored

A very unique assembly was held at the Union church of Alfred on Friday afternoon. Civil War and World War veterans were there, in as much as the service was attended by townspeople as well as college students.

Dr. G. C. Jones of Hornell gave the address of the afternoon. This was greatly enjoyed by all who were privileged to hear it.

The Village Band rendered a selection and the invocation was given by President Davis. Miss Louise Cottrell and Miss Eleanor Prentice gave delightful vocal solos, accompanied by Director Wingate at the piano. Then Professor Conroe pleasingly recited Lincoln's Gettysburg Address.

After the assembly those in attendance marched to the Alfred cemetery where a formal service was held over the graves of departed veterans.

NEW MEMBERS RECEIVED

Phi Sigma Gamma, the women's honorary fraternity of Alfred, adds the following names to the present roll: Gertrude Burgess, Vida Randolph, Maybel Holmes, Jeanné Clarke, Letha Kemp, Ruth Bull, Hope Young, Lois Conklin, Irene Richardson.

ALLEGHENY PROVED TOO MUCH FOR ALFRED AT MEADVILLE FRIDAY

Herrick Wins More Honors

SCORE 72-55

Five Men To Go To Chicago To Compete In National Meet

"Doc" Hammond who for twenty-seven years has dreamed of a perfect season for his cinder and field boys, saw that dream a reality last Friday afternoon when Allegheny defeated Alfred in what was the last meet of the season for both schools by a score of 72-55, on the former's field.

The meet was a hard fought contest all the way and Alfred has no regards for the defeat. Allegheny has always furnished the best opposition to the varsity that they have encountered in dual meets with the possible exception of Colgate, who this year had an exceptionally well balanced outfit. In this meet Allegheny was fighting on their own grounds and two of the best athletes that ever competed for her, Judd and Parnell, men that any college might well be proud of, were doing their last bit after four years of glorious service, and they were keyed to a high pitch of determination to make their final efforts good ones.

Alfred lost ground in the pole vault, dashes and field events that Doc Ferguson had not figured to drop but circumstances just happened to wheel the wrong way and the loss goes in among the other things that can't be figured in definite terms. A bright spot in the field events was the winning mark of Gibbs in the high jump who leaped a clean five feet eight. He also took a first in the low hurdles and a second to McConnell in the highs, annexing 13 points, making him the leading man for Alfred. Tate throwing the shot nearly 37 feet showed improvement over any of his performances in competition this year, although in practice he has touched close to the 38 foot line. Next year with a summers work in the brickyard he should be able to cast the steel marble better than forty feet.

In the runs Herrick added new triumphs to his already fine record, raced home a double winner in the mile and two mile, setting new records in both distances, the former at 4:29 3-5 and the latter at 10:13 4-5, now stand as records for Allegheny's track. In both events he opposed Jones, a long lanky chap who displayed fight all the way. The mile race was a thrilling one. Although the Alfred boy was not pushed to his limit to win, in the final sprint he did some fast stepping, as he did likewise in the two mile finish. Jones was about exhausted and unable to keep up with the fast foot work of Herrick during the final lap although the two had been heels to toes throughout the first eight.

Lahr, running his last races in the hundred and the two-hundred, came through in consistent style and took six points from the track for Alfred.

Big Mac, who has worn Alfred colors in football, basketball, wrestling and track and has unquestionably been her best athlete for the past three years, completed for, what he thought was to be his last time in this meet, and came through in fighting style taking the high hurdles and places in the field events against the best competition he has had to face, in a dual fray. Doc Ferguson since announced however that he will be eligible along with Lyon, Herrick, and Gibbs to compete in the National Track and Field Meet to be held in Chicago June 12 and 13 at Stagg Field. This Meet is the biggest athletic event in the country and is next to the Olympic games in numbers of entries and quality of competition. Over three hundred schools from more than thirty states send athletes. It is here that the pick of sectional meets, the New England, Middle Atlantic, Continued on page three

PROJECT FOR TEMPORARY TRACK AND BASKETBALL COURT

To Be Presented To Student Body At This Wednesday's Assembly

Plans for a temporary track and basketball court have been drawn up and have met with the approval of the faculty and trustees of the college.

"Doc" Ferguson will present the statistics to the student body at this week's assembly. If the students

favor the project, an adequate temporary track and basketball court will be erected this summer.

Everyone should be interested in the above prospects and should be present at assembly to hear what "Doc" has to say.

FOOTLIGHT CLUB TO PRESENT "THE SEA WOMAN'S CLOAK"

Final Preparations Nearly Completed

As next Monday evening draws near Alfred theatre-goers are becoming more and more excited about this year's Commencement play "The Sea Woman's Cloak," which is considered one of most powerful of Irish plays. The story is taken from one of those old legends woven from the salt and swish of the sea. It is rich in scenic effects and deep in emotions.

Director Conroe is whipping his cast into final shape by night and day rehearsals that go with the last week of presentation preparation. He is hopeful that if things go off Monday evening as smoothly as rehearsals indicate, they should, that patrons of the Footlight Clubs efforts will have satisfaction from the performance. This year the cast have a standard to act up to that is by no means little, for one of the most beautiful plays ever written "If I were King" found favor with last years' Commencement play audience.

Stage Manager Anderson and his assistants, Rogers, Nellis, Lyon, Cos-

Y. W. C. A. NOTES

The last Y. W. C. A. meeting for the year took place at the Brick on Sunday night with Hope Young as leader. She gave a splendid address and a few final thoughts to tide over the summer.

The meeting next week will be omitted on account of the Baccalaureate sermon at the Union Church at eight P. M.

The church service next Saturday morning will be in charge of the two Christian Associations. Mr. Coleman

man, and LeBohner have their hands full in working out scenic and lighting effects, for without a doubt, they are the most difficult of any ever demanded in Firemens Hall. The making of the scenery is a job that seldom gets any appreciation from the audience who are generally inclined to give the actors too much credit and ignore those who have worked silently but none the less effectively and loyally.

The cast lines up as follows:

The Sea Woman	Charlotte Rose
Michael Dara	Paul Kelly
Cathaleen Dara	
	Elizabeth Richardson
Colum Dara	Wm. Navin
Sara Darcy	Alma Wise
Priest	Robert Spicer

COMMENCEMENT TO BE HELD DURING EXAMINATION PERIOD

Procession To Form At Library

In accordance with established custom the 1925 commencement will be held during the final examination period instead of after finals. This custom was designed to give all the classes the opportunity of participating in the exercises and to make the occasion of more interest to our alumni by the presence of all the students. In order that this plan be of the greatest success every student in the three undergraduate classes is not only requested, but strongly urged to take part in the exercises. We owe it to the seniors who are about to step from our midst and we owe it to our alumni who ever faithfully return to their Alma Mater at this time.

Professor Seidlin will be our marshal and will conduct the procession to the

Academy. Every one is requested to meet at the library at 9:30 sharp Wednesday morning, June 10th. It is desirable that formation be affected promptly so that the procession may start moving at 10 o'clock sharp. The freshman class will be in the lead followed by sophomores, juniors, alumni, trustees, seniors and faculty. Each class will carry its banner and each student will be supplied with an arm-band bearing class numerals, and the alumni will carry penants bearing class numerals, and the alumni will carry penants bearing their class numerals. Cheer leaders of each class will be under the direction of Herbert Arnold.

Everybody should be out with all the pep and enthusiasm that your loyal Alfred spirit can call forth.

ALLEGHENY TOO MUCH FOR ALFRED

Continued from page one

The Penn Relays, Eastern and Western Intercollegiates, meet together for supremacy of field and track. When the Alfred names are called for competition in this great tournament it will be the biggest athletic advertisement that she has ever had, and a moment which will be a high mark indeed and one that should cause every true Alfredite to look up with pride and appreciation on the record "Doc" Ferguson has raised, a record far above any previous niche bearing the name Alfred, and best of all, a record that will raise her name still higher in the years to come.

The common mosquito, magnified 24 times, is a truly fearsome object!

But this electric pumping station effected a remedy.

Do what Toledo did

Once Toledo had a nuisance, a tract of swamp land near the lake, a breeder of mosquitoes, foul odors and fogs.

But an automatic pumping station, equipped with motors made by the General Electric Company, turned the swamp into dry land—and abolished the menace to the city.

This is one example of what electricity can do. As you meet life's problems, think of electricity as a valiant and ever-ready ally.

Study what electricity is doing to make a better and happier America; remember that you will live in an electrical age, full of surprises, and full of new services to humanity. The monogram "G-E" which you see above is placed on the epoch-making products of the General Electric Company.

If you are interested to learn more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

JOURNALISM CLASS EDITS FIAT THIS WEEK

To give the class in journalism
more practical experience, the editing
of the Fiat was turned over to them
this week.

The following staff had charge of
the work:

Editor-in-chief—A. Dunbar
Sport Editors—W. Navin, H. Whip-
ple

Reporters—A. Philliber, W. Wansor,
J. Trowbridge, A. Peterson, F. Wil-
liams

Business Mgr.—H. Lefevre
Asst. Mgrs.—E. Lebohner, H. Als-
worth, A. Smith.

Again, the freshman class of the
college have disgraced themselves by
being destructive instead of construc-
tive. From another viewpoint this
simply means that instead of trying to
boost the school, they are hurting its
prestige. Can you imagine this? A
freshman bragging that his class had three
hundred dollars to move up with, and
then the sad reality that the three hun-
dred plus the same amount was to go
to pay for cleaning up.

If such things are to be continued in
moving-up exercises in the realm of
the future it would be wise to place the
"has-beens," along with banquets.
When the school needs so many things
such as a new gym, a better track, a
bigger endowment, and a new men's
dormitory, it certainly is a shame that
needed money should go to the mer-
chants for window cleaning.

Perhaps the officials of the class
are not to be blamed, but they are the
ones who are held responsible. A
small minority cause all the damage
but the whole class suffer.

FRATERNITY FORDS

To me fraternity Fords are subjects
of much enjoyment. I have no doubt
that if I were an owner a more serious
problem would confront me than per-
haps I imagine.

As it is now I can get into a Ford
and ride with one fellow and the next
day ride in a different Ford, but on
the same tires. This is made possible
by rapid efficient work under the
cover of darkness. Another item of
exchange is the radiator, which goes
to make up every well-balanced Ford.
I mean a radiator that retains some
of the water at least for a short time.
There are many of them on hand that
will not fill such a bill, thus making a
good one a premium. I know of one
radiator that was changed four times
within a week in order that the own-
ers of the various Fords could drive
their own.

Probably the local garage keepers
wonder how it is possible to drive so
many Fords with so few repairs. Here
is the secret. Out of perhaps six
Fords, one of them can be kept run-
ning if the parts on the others can be
readily removed. The car that is run-
ning changes from day to day so as
not to wear out the steering apparatus
on one Ford because the boys think
it is too much trouble to change them
often for the amount of pleasure
derived.

For training to keep the temper
under control this is good exercise.
When a man rushes to the barn to get
his Ford that he perhaps just put to-
gether an hour or so ago, only to find
one tire, the radiator and the seat
cushions missing, it is apt to anger
him if he has not had enough pre-
vious experience to know better.

The borrowing of gas is another
prominent caper. I remember one
occasion where this was done and
much trouble was caused. After mid-
night a student decided to take a
trip of some twenty miles in his Ford.
Having put in gas and oil the day
before, he thought it safe to start on
the trip without investigation of course,
after he had borrowed the sufficient
parts to make a complete Ford. He
had journeyed about six miles on the
road and the Ford began to backfire
and then finally refused to "percolate,"
as the expression goes. An examina-
tion showed an empty gas tank. To
tell further what happened or what
was said on that trip would be a
mistake. You know, anyway, if you
have had similar experiences. The
middle of the next week a fraternity
brother came up to the unfortunate
Ford owner and said, "I borrowed a
couple or three gallons of gas of you
a few days ago. I was going fishing
early the next morning, but I did not
go because some rascal stripped my
Ford of tires and I could not find a
decent one in the barn."

The reply was, "Oh that is all right."
It might not have been this, if Mr.
Ford owner had not remembered
where he got two of the tires the night
he started on his trip.

I expect to have much enjoyment out
of these Ford exchanges when it comes
the end of the year and all of the
boys try to get their Fords in shape
to drive home. It will be a wonder to
me if there will be one Ford near
enough completion so that it can start
the journey.

There is a good chance for someone
to make a little money by starting a
Ford repair shop about June first.

HIGH SCHOOL COURSE IS VALUED

AT \$33,000, ACCORDING TO BOS-
TON DEAN—AVERAGE IN-
COME OF COLLEGE MAN
IS \$6,000

"The cash value of a high school
education to its possessor is estimated
at \$33,000 by Ernest W. Lord, dean of
the College of Business Administration
of Boston, who has made an analysis
of the comparative financial returns
from different degrees of education.
The money value of a college or techni-
cal school education is placed by Dean
Lord at \$72,000.

"His report states the average maxi-
mum yearly income of the untrained
man to be less than \$1,200; that of the
high school graduate to be \$2,200; and
that of the college or technical school
graduate to be \$6,000. He also esti-
mates that while the untrained man at
the age of 50 years begins to drop
toward dependence, the college man
reaches his maximum earning capacity
at 60 years of age.

"Dean Lord's computation shows
that the untrained man goes to work
as a boy of 14 years and reaches his
maximum income at 30 years, on the
average less than \$1,200 a year. He
points out that since the untrained
man's income is dependent on physical
strength and manual dexterity, it falls
off at 50 years of age or earlier, to a
point below the level of self-support.
More than 60 out of every 100 untrained
workers are shown to be dependent
upon others for support at the age of
60 years. The total earnings from the
age of 14 years to the age of 60 years
are placed at about \$45,000. Between
the ages of 14 and 18 years, the four
years might have been spent in high
school, the young man usually earns
not more than \$2,000, it is stated.

"According to the report, the high
school graduate goes to work at the
age of 18 years, passes the maximum
of the untrained man within 7 years,
rises steadily to his own maximum of
approximately \$2,200 at 40 years and
continues at that level for the remain-
der of his active life. His total earn-
ings from 18 years to 60 years of age
is estimated at \$78,000. The \$33,000
excess over the life earnings of the
untrained man represents the cash
value of a four-year high school course.

"The permanent earnings of the
college or technical school graduate
begins at 22 years of age, although a
considerable amount may be earned
during the college course, the report
shows. By the time the graduate is
28 years of his age, his income equals
that of the high school graduate at 40
years of age, and it continues to rise,
practically without a break. His in-
come increases, it is pointed out, since
it is dependent upon his mental ability
and training constantly improved by
practice, and the average of \$6,000 at
60 years of age is often surpassed.

"The total earnings from 22 to 60
years of age, not including any sum
earned during the college period, are
estimated at \$150,000. This is \$72,000
more than that earned by the high
school graduate, and this amount is
used to represent the cash value of a
college or technical school training."

"Fritz" Gorab '24, of Paterson managed to leave his "telling" long enough to make a Memorial Day visit to the house and Alfred.

Maxson Crandall was in Geneseo Sunday afternoon.

The new sleeping porch was appropriately dedicated with a dance on its smooth and shining surface, Saturday evening. It is rumored that two dedications are necessary.

Brother Gibbs did some hard work at Allegheny last week-end.

Brother McGraw spent the week-end at his home in Whitesville.

ETA PHI GAMMA

Lloyd Lamphere '23, more intimately known as "Narcessus" was a guest at the house Sunday. He is still with the National Supply Co. of Toledo.

The following have been elected as officers for 1925-26:

President—H. E. Chamberlain

House Manager—F. J. Ford

Treasurer—W. M. Ormsby

Secretary—S. B. Smith.

Bowles plans to spend the summer in France, where he plans to make an intensive study of social conditions.

AMENDED SECTIONS TO CONSTITUTION

Amended sections of the Athletic Association Constitution will read:

Act. III. Sec. 2. To give centralized direction, the Athletic Council shall be composed of eleven representatives, called Councilors, elected by ballot, from the students of College and of the State School of Agriculture, one a man and one a woman, from each of the upper classes of college, with two representatives from each of the two underclasses and one councilor from each class in the State School of Agriculture. Two weeks before the close of the State School of Agriculture, each of the two student bodies shall elect, of its next year's councilors, two students each from the Junior, Sophomore, and Freshman classes of college, and one student each from the Junior and Freshman classes of the Agricultural School.

When the acting president of the council shall have received the names of those elected, he shall call a meeting of the eight members, who shall elect their president, vice president, and secretary, and shall organize the council for the ensuing year. The term of office of the council shall begin as soon as practicable after the elections.

(Remainder of paragraph the same as before).

Sec. 3. The University Treasurer shall be custodian of the Jump Injury Fund. The Graduate Manager may recommend payment of certain bills of direct concern to the purpose of the Fund.

(Second paragraph the same as before).

Article V. Sec. 2 (to be added): The foregoing sections apply, insofar as they do not violate the regulations of the New York State Intercollegiate Athletic Conferences, of which Alfred is a member.

Act. VI. Sec. 3: (All references to second team letters are to be struck out, as it has been abolished by student body vote). The minor letter is a four inch purple block "A". (In place of the paragraphs about college and Ag men who have received three or

The house was deserted over the week-end, Cuba Lake being the chief attraction.

Rat shooting still heads the list of outdoor sports.

SIGMA CHI NU

Mrs. F. B. Welch entertained some of the girls at tea on Wednesday afternoon.

Nolia Coats spent the week-end in Olean, N. Y.

Mr. and Mrs. Geo. M. Schulze of Tuckahoe, N. Y., spent the week-end in Alfred with their daughter.

Our seniors have left us, not to return until Wednesday.

The Sigma Chi Nu Sorority is the proud possessor of a brand new banner in old rose and black, the sorority colors.

Last Monday evening the following officers were installed: Leah Coats, president; Ruth Hewitt, Rec. Sec.; Dorothy Schulze, Cor. Sec.; Edith Jones, Treas.; Beatrice Schroeder, Bus. Mangr.; Edith Winklemeyer, house manager.

KAPPA PSI UPSILON

Pernetti accompanied Frank Hubbard to Erie, Pa., Saturday. He thought that was where they grew the Erie railroads.

Spalding and Arnold inspected the tarred roads of Allegany and Steuben. They report the tar movable and of a clinging, friendly nature.

Caruso is still laboring under the impression that society should be protected, he attempting to annihilate Adams in support of his belief.

Denniston and Hall reported a large catch of trout, no material evidence being forthcoming. We are highly skeptical.

At the annual election of officers for the coming year the following were honored: Herbert B. Arnold president; Robert Adams, vice president; A. W. Spalding, chancellor; Daniel Luks, secretary; LaVerne Wagner, treasurer.

Any four second team insignias.) Any athlete, who has regularly practiced with the Varsity squad in a given sport during three seasons, but who has not been awarded the Varsity letter in that sport, may be recommended by the coach for such an award.

Sec. 4. Class numerals are 3: numerals awarded:

To women, for participation in at least half of three different interclass sports with the exception of track. The person must win at least one point in track to have it count towards her numerals.

To men, for participation on one of the Freshman class teams. The class numerals are to be awarded after recommendation by the coach, after the same manner as the Varsity letter awards.

Sec. 5 (old Sec. 5 to be Sec. 7). After recommendation by the Council, the Athletic Association may vote to make some award to an individual, who has rendered some exceptional service to the Association.

(This was passed last fall).

Sec. 6. According to custom, the Athletic Council may select for additional awards to Varsity letter men—In football—first year, white Varsity sweater; second year, gold football; third year, white coat sweater with three gold stripes in purple field in left sleeve

In cross country and track—track shoe charm

In basketball—charm or ring

Other sports, as shall be deemed desirable.

These shall be paid for by an amount of seventy-five cents per student, collected by the college treasurer on the first semester bills, to be paid to the graduate manager.

Freshman English (all sections)
Psychology (all sections)

10:15 A. M.—12:15 P. M.

All 2:30 o'clock classes

Note—The following subjects come at special periods and not at the regular examination time: Chemistry 1, Freshman Mathematics, Calculus, Sophomore English, Ethics, Freshman English and Psychology.

HONOR SYSTEM

ARTICLE I

The student body of the College of Liberal Arts and the New York State School of Ceramics at Alfred University create an Honor System under which each student by his attendance pledges himself to be just; to be fair; to be honorable in all matters relative to or pertaining to scholarship and conduct at this University.

ARTICLE II

Section 1. The members of the Student Senate shall be a committee to represent the Student Body and deal with all cases involving violation of the Honor System.

ARTICLE III

Section 1. Each student is honor bound to prevent violations. In the case of violation of the Honor System in an examination evidenced by papers on or about a person or by conspicuous open books, or by actions which would indicate cheating, such violation shall be subject to discipline under the Honor System. For work done in the laboratory or at home, the instructor shall define what constitutes breach of the Honor System. Failure to live up to his decision shall be considered a violation. A person detecting a breach of the Honor System shall at once make his displeasure known if possible in some fashion as by shaking his head or speaking to the one whose actions indicate a violation and at his discretion, report the violation to the Senate. Continued violation after the warning or violation for the second time, must be reported to the Senate. The report to the Senate may be made in person or in writing. A report in writing must be signed.

Section 2. The Senate shall have the power to summon the accused persons and witnesses and conduct a formal investigation. Punishment for the first offence shall be determined by the Senate. In the case of a second conviction during the rest of the student's college career, recommendation shall be made to the student by the Senate of his separation from college and, if such separation is not made the Senate shall then make the same recommendation to the faculty with a brief resume of the case.

ARTICLE IV

Section 1. The trial of the accused shall be conducted as follows: Witnesses against the accused shall be examined first and their testimony taken in full. The accused shall be called separately and allowed to make his statement, presenting his defense. All witnesses and the accused may be questioned by members of the committee. A decision shall be made, rendered according to the evidence.

Section 2. Six (6) out of seven (7) votes shall be necessary for conviction.

Section 3. All evidence possible shall be procured in every case and in no event shall a man be tried the second time for the same offense, except in the light of new and important evidence.

ARTICLE V

Section 1. Each student must, in order to make his or her examination or test valid, sign the following pledge: "I pledge my honor that I have neither given nor received aid in this examination," or the declaration: "I do so declare."

Section 2. Members of the faculty shall insist that the above said declaration or pledge be attached to every examination paper. Any examination paper lacking this pledge shall be considered void by the instructor in charge. The instructor must notify any student whose paper lacks the pledge and give the student the opportunity of signing the said pledge.

ARTICLE VI

Section 1. The Student Senate shall keep and preserve a record of all cases acted upon. In no case shall a member of the Student Senate make mention publicly or privately of any case brought before the committee except through action of the committee as a body.

ARTICLE VII

Section 1. Every student is honor bound to aid in enforcing this Constitution.

ARTICLE VIII

Section 1. This Constitution may be amended by a three-fourths (¾) vote of those present at a student body meeting, or a revision may be authorized by a unanimous vote of said student body, and the passage of the revised Constitution shall be secured by a three-fourths (¾) vote of those present. Notice of this meeting shall be given at least one week previous to time of action, by its reading before the student body or by its publication in "Fiat Lux."

ARTICLE IX

Section 1. The committee shall make provision for interpreting the Honor System to the members of the Freshman Class during the first semester of each school year.

Section 2. Copies of this Constitution shall be posted in recitation rooms, on College bulletin boards, and in the Library.

Section 3. The Constitution shall be published three (3) times in the "Fiat Lux,"—the first number of the first semester, the last number before the final examinations of the first and second semesters.
