

Annual Inter-Sorority Ball Planned Feb. 26

Dance Open To All Girls On Campus; Sororities To Have Open House For Intermission

Saturday February 26 will mark one of the most important days on the Alfred University campus in the college year of 1943-44! Yes, that is the day; the day of the Inter-Sorority Ball, the college dance of the year. For the first time the dance will be open to all girls on the campus.

The dance will be held in the South Hall with music furnished by Andy Grillo's Orchestra. Dancing will be from 9:00 p.m. until 2:00 a.m. with "open house" at all the sororities during the intermission.

Jean Gardner '45 is chairman of the dance, Isabel Smith '45 is chairman of the decorations committee, and Phyllis Little '45 is chairman of the orchestra committees. Tickets are being sold by members of the Inter-sorority Council for \$2.00. The members of the Council are: Olivia Bussell '44, Phyllis Little '45, Isabel Smith '45, Mardie Gibbo '44, Janet Secor '44, and Jean Gardner '45.

Remember the date, girls—February 26—the biggest dance of the year.

ACF To Send Delegates To Geneseo Meet

The Alfred Christian Fellowship is arranging to send delegates to a conference sponsored by the New York Student Christian Movement to be held at Geneseo the first weekend in March.

Outstanding among the speakers scheduled to appear is Dr. William Hutchins, director of the Danforth Foundation and father of two college presidents—Dr. Robert Hutchins, president of the University of Chicago, and Dr. William Hutchins, Jr., president of Berea College. Another popular speaker will be Dr. Wilhelm Pauck, of the University of Chicago, who is well known to students who have attended the Silver Bay summer conferences.

The Alfred delegation will leave on Saturday morning and return Sunday afternoon. Anyone interested in attending this conference should see Mary Lou Jeffrey '44, Robert Meyer '44 or the Chaplain.

President Norwood Leaves On Vacation

President J. Nelson Norwood left last week for an extended vacation in the South, where he will visit prominent Alfred University Alumni, trustees and other friends, among them Dr. Orra S. Rogers and Dr. O. P. Fairfield.

The Board of Trustees, meeting in October, instructed him to plan a vacation for some time during the winter, but there seemed little prospect for the trip because of pressing University business in connection with the Army Training Program. On Wednesday, before he left, President Norwood, with Burton B. Crandall and Mr. W. H. Reid, was in Olean on University business.

Flower Arranging Course Started

An evening course in flower arrangement is being planned by the Agricultural-Technical Institute for interested university girls. Anyone desiring further information is asked to see Miss Gladys Stroh at the Ag-School Greenhouse.

Campus Snapshots Wanted

The Kanakadea is making a request for campus snapshots. If you have some will you please see that they get to Dick Faulkner, Rita Sargent or Francine Robbins. These pictures must be in not later than February 20th.

February 20 To Be Prayer Day

The Day of Prayer for Students, sponsored annually by the World's Student Christian Federation will be observed Sunday, February 20 by the Alfred Christian Fellowship and the University Church.

At the evening Forum of the ACF the topic for discussion will be "How College Has Changed My Religion", and the session will be opened by brief statements from the four officers of the ACF, President, Mary Lou Jeffrey '44 Vice Presidents, Margaret Lord '44 and Yutaka Kobayashi '46, Secretary-Treasurer, Robert Meyer '44. Miss Lord will act as chairman of the Forum and Meyer will conclude with a summary.

At the special service at eleven o'clock Sunday morning in the University Church, Chaplain Genne will speak on the subject, "The Temper of Your Faith." The University Choir will sing "The Lord's Prayer" by Malotte, under the direction of Mrs. S. R. Scholes and accompanied by Mrs. Joseph Seidl.

Fewer Courses To Be Offered At 1944 Summer Session

Plans are being made for the 1944 summer at Alfred University.

Declining enrollment will make it necessary to restrict the number of courses offered, and courses will be taught only when there is a sufficient demand for them.

It is important that regular students who are planning to do summer work indicate their intention at an early date. All people who are interested are asked to communicate with Dean Drake, who is director of the summer session.

The dates for summer school as scheduled in the university catalogue are: May 9 through May 26—Inter-session and July 3 through August 11—regular summer session.

Independents Elect New Executive Board Members

Two new members, David Weinrib '47 and Dewey Cardillo Ag-Tech, were elected to the Independent Executive Board last Tuesday.

Other members of the board are Francine Robbins, president; Douglas Case '47, vice-president; Cynthia Leban '46, secretary; Jean MacDonald '46, social chairman; Paul Cook '45, publicity chairman.

Dean Releases White List For This Semester

Forty-nine juniors and seniors have been named to this semester's White List, which was released today by Dean M. Ellis Drake.

The list includes 17 seniors and 32 juniors all of whom have a 2 point index or a 1.5 without any previous discipline.

The Senior members are L. Elaine Beckstrand, Olivia L. Bussell, Doris E. Cunningham, Marian M. Feeney, Margaret M. Gibbo, Nellie B. Haehn, V. Eileen Hannell, Margaret E. Hopkins, Carolyn P. Howe, Mary Lou Jeffrey, Margaret K. Lord, Robert S. Meyer, I. Eunice Reniff, Dorothy L. Robbins, Janet E. Secor, Mary J. Tremaine and Robert E. Tuttle.

The Juniors: Mary L. Aldrich, Robert D. Bragman, Emma M. Burdick, Esther A. Burdick, Robert L. Collin, Paul W. Cook, Frank L. Cornish, Doris J. Contant, Isobel Dobson, Helen P. Dreher, Richard D. Faulkner, L. Elizabeth Fay, Evelyn Grossman, Doris M. Hill, Beatrice C. Jackson, Grace R. Kobernuss, Thaddeus A. Kupinski, Virginia M. Larson, Margaret S. Long, Frederica Miller, Henry Nakamura, Harriet M. Norton, Arlene D. Patterson, Elizabeth L. Peck, Abbott Pozefsky, Alfred C. Saunders, Helen R. Sims, Isabel L. Smith, Gordon L. Swanson, Betty J. VanGorder, Ruth A. Weitz and William H. Witzleben.

Miss Barnwell Is Campus Guest Today

Miss Julia Barnwell of Bennington College will visit the Alfred Campus on February 15 in the interests of the United States Assembly.

The Assembly was formed in 1942 in order to fulfill the desire of American students to study the most pressing problems of national and international affairs and then to act on their decisions in cooperation with progressive forces in college communities.

Miss Barnwell will hold conferences with student leaders while she is on the campus.

WAVE Officer To Visit Alfred

Ensign Ralph J. Becker, U.S.N.R., will speak to senior women concerning opportunities in the Women's Naval Reserve Program, on Thursday, Feb. 17.

Ensign Becker is a member of a WAVES traveling board which will be in Hornell on that day and has especially requested that she be allowed to speak to the women of the senior class. Personal interviews may be arranged by those who are interested.

The place and time of the speech will be announced later.

Ag-Tech Professors Attend Conference

W. C. Hinkle and T. A. Parish, co-directors of the Agricultural and Technical Institute, attended a two day conference of the state technical school directors at Cornell University Wednesday and Thursday.

Lynn Emerson of the Sibley College of Engineering was the chief speaker. "Curricula in the Technical Institutes in the Reconstruction Period" provided the theme of the conference.

Assembly Guest

Ewart E. Turner

Alfred Honor Roll Nearing Completion

Mr. Ward C. Tooke, plant manager of Alfred University, who is in charge of the project for erecting the campus honor roll of Alfred service men, announces that the first names will appear on the board within a short time.

Prof. Don G. Schreckengost was originally slated to do the lettering for the board, but due to an unexpected circumstance he had to give up the task. A contract has been given to the Smith sign painting concern of Hornell to finish the work.

A list of about four hundred names of students and faculty members who have joined the armed forces will be put on detachable pieces of wood and then placed on the honor board in alphabetical order. Gold stars will be put beside the names of those men who have been killed in action and the faculty names will be printed in slightly different style so as to distinguish them from the names of the students.

Community Chest Representatives Begin Campaign

The Campus Community Chest began its campaign Saturday, February 12. Representatives on campus have been chosen to canvass faculty, administration and students of the four colleges.

Representing the Ag-Tech faculty is Mr. T. A. Parish; the administration and staff, Mr. B. F. Crump, who is also Treasurer of the Chest; the Ceramic School faculty, Dr. M. J. Rice; and the Liberal Arts School faculty, Professor George Hobart. David Clarke represents both faculty and students in the School of Theology.

Student representatives are: Sheryl Wilbur '44 from the Ag School; Roberta Wells '47, Alpine Cottage; Charlotte Leadley '47, Brookside; Virginia Larson '45, Castle; Eva Rodies '47, Delta Cottage; Virginia McGowan '47, Green Gables; Doris Cunningham '44, Pi Alpha; Ruth Ann Weitz '45, Kappa Cottage; Elaine Locke '46, Sigma Chi; Joanna Folts '46, Theta Chi; Wesley Bell '46, Kappa Psi. Unaffiliated men will be reached by Paul Cook '45 and Gordon Swanson '45.

The community is being canvassed by a group of representatives from the local branch of the American Red Cross under the leadership of Mrs. Lyn Vars.

Subscriptions will be recorded on special pledge cards and cash may be paid immediately or on March 1 and April 1. Pledges may be turned in at the Treasurer's office or at the University Bank.

Ewart Turner To Be Assembly Speaker Here Thursday Night

Journalist, Traveler To Discuss Germany and Democracy

Ewart Edmund Turner will be the guest speaker at the student assembly Thursday evening at 7:30. The topic will be "Are Germans Capable of Democracy?"

Army-Navy Tests Planned

The Third Army-Navy College qualifying test for the Army Specialized Training Program and the Navy College (V-12) program will be given Wednesday, March 15 at 9:00 p.m.

College men between the ages of 17 and 21 inclusive are qualified to take the test. The same examination will be taken by both Army and Navy candidates and is designed to test the aptitude and general knowledge required for programs of college training. All qualified students are urged to take the test. At the time of the test each candidate will be given choice of his service preference but taking the test does not obligate him to enlist in the service.

The Army Specialized Training Program is designed to meet the Army's needs for specialists and technicians in certain critical fields of study. The Navy college program also enables students to continue academic training. Successful completion of the prescribed courses may be followed by further officers' training, leading to a commission in the Navy.

All college students who are interested in taking this test should get in touch with Dean Drake immediately for further information and admission forms. Students in the Ag-Tech Institute should consult with Prof. Parrish.

Four Programs To Complete Assembly Series

Four more assembly programs will complete the series planned by the assembly committee this semester, it was learned today.

On Thursday Edmund Ewart Turner, former minister of the American Church in Berlin, will speak on "Are Germans Capable of Democracy?"

On Monday, March 6, Max Gene Nohl, a deep sea diver and explorer, will speak on "Walking With Death." Dr. Ray Wingate will give an organ recital in the University Church on April 6. Rabbi Fink of Temple Beth Zion, Buffalo will speak April 24. His topic will be announced later.

Waring to Pay Tribute To Teachers Program

Fred Waring, on his nation-wide "Chesterfield Pleasure Time" broadcast February 18, will pay tribute to the splendid contribution which the vocational education teachers program is making to the war effort. The Alfred Agricultural and Technical Institute is a part of this war training program.

The broadcast may be heard at 7:00 p.m. over the NBC network.

Mr. Turner's speech should be one of the most interesting and enlightening speeches that has ever been delivered on this campus. From Mr. Turner, who has lived and travelled in Germany, we shall hear what has been going on inside Germany since Hitler's rise to power.

About twelve years ago a famous Berlin professor said to Ewart Turner, "Watch Adolph Hitler—he is Germany's man of destiny, the most fateful revolutionist of our day who will refashion the world's map." At that time, between 1930 and 1934, Mr. Turner was Pastor of the American Church in Berlin. He did watch Adolph Hitler and study him and today he is the outstanding American authority on Hitler and National Socialist ideology. For ten years he saw Hitler at work in Germany. He has been in residence and has traveled in Germany for a longer period of time than any other American lecturer. He has been in South America, travelling into German settlements and studying Nazi foreign penetration.

Mr. Turner has degrees from Ohio, Wesleyan and Boston University and has studied at Harvard and the University of Berlin. He is also a journalist, being correspondent for publications such as the Religious News Service and the British Weekly. He has lectured at Universities such as Columbia, New York, Dartmouth, Smith, Harvard, Princeton and scores of others and at different churches and clubs all over the country. As a minister he has a unique background for interpreting the frustrated emotions and messianic drives which characterize the totalitarian legions.

A forum will follow Mr. Turner's address. So come out to this interesting assembly, Alfred students! This will be your chance to hear views from an authority and ask questions about the story of Hitler's work inside Germany.

Nurse Called Home By Death of Fiance

Miss Joan Marie Sharvin, a cadet nurse, has been called home by the death of her fiance, Aviation Radioman Joseph H. Bauer of Lancaster, N. Y.

Radioman Bauer was attached to the Wildwood Naval Air Station in New Jersey and was one of two Navy fliers killed last week when a training plane fell into Delaware Bay off East Creek, N. J.

Dr. Barnard To Speak To Independents

Dr. Ellsworth Barnard will speak to the Independents on "Post-War Planning," February 22, at 7:45 p.m. in Social Hall. Following his speech an open-forum will be conducted.

This is the first open meeting the Independent organization has sponsored during this college year. All faculty members, students, and townspeople are cordially invited to attend.

It Must Be Done

Last semester at several of the many discussions regarding the value of student government the question of the now extinct honor system was brought up. At that time, it was acknowledged that such a system would not work now—we had not the necessary trust and sense of fair play that is necessary on the part of both instructors and students.

It seems that we were rationalizing when we accepted such a statement. It is not only a feeling of trust and a sense of fair play that we lack, but also the feeling that cheating is wrong, fundamentally wrong, whether we are being trusted or watched, whether it involves us alone or others as well. Only by proving that we understand this principle, are willing to abide by it and expect others to abide by it can we ever hope to attain that state of mutuality needed for an honorable honor system.

For the past few weeks some of us have sat in classes and watched certain individuals copy their way through quizzes and exams, sometimes cleverly, sometimes not so cleverly. So what—you say, they're only cheating themselves and anyway whose business is it if they cheat. Don't do it yourself and you have nothing to worry about.

We do have something to worry about and it is our business. We can not expect to produce the kind of tomorrow's world we visualize if we do not do something to clean up the elements which will make it less than we hope for. Cheating can have no place in the post war world. It has no place now. It should never have a place.

We've asked for governing power and we've accepted that power. Now it is our job to make this power work—one of the first jobs is to sew the seeds of an honor system that will work. Perhaps the offending individuals need only to be told that we know they are cheating. I doubt it. They need to be told and shown that we will not tolerate their cheating.

Here Is A Job

There is a nasty little subject which for the most part is avoided by the majority of us but which occasionally comes to the fore with alarming intensity and then suddenly disappears behind a screen of prejudices that mask themselves as reasonable tolerances. This subject to which I refer is one which every sorority girl fears; one which everyone of us should fear—the subject of racial prejudice.

We should fear racial prejudice and discrimination, not because it is a weak barrier which may break under pressure and allow the so-called minor groups to become dominant, but because it is a strong barrier which can and probably will prevent any possible achievement of lasting peace. Wars are only overtly and brutal manifestations of the oppressed groups rise up against their oppressors and for tions of a seeking for and preserving of position. History has proven a period of time manage to hold the balance of power only to have the cycle repeated.

Most of us at Alfred find ourselves members of the "front seat" group and we are afraid in the light of these historical events, that a minority group, particularly the Jewish group may force us into the back seat where we can no longer do the driving. In order to justify our fears, we magnify qualities which we have labeled "undesirable" and say all those whose names have a particular spelling or who have a cultural pattern which deviates slightly from the accepted one must be allowed to share experiences with us only to a very limited degree. A degree in no way detrimental to our own status.

We are not necessarily to blame for our attitudes, our parents bequeathed them to us and they in turn received them from their own parents. However, we are responsible for holding to prejudices once we have become aware that they are only prejudices.

We must begin to know well, members of all our minority groups. We must allow the best of them to lead along with the best of us. To do this we must cease generalizing about the evil of equality and hunt for particular instances of its good.

Because we cannot reach this goal of racial "inter-dominance" immediately does not mean that we can never reach it—We must reach it!

Editor's Mail Bag

Editor, Fiat Lux

This is being written during one of these rare lulls in our training program. I'm taking advantage of it because such an occasion may never recur.

When the officers learn that we have time to write letters they conclude that we don't have enough to do, consequently, some plan is immediately devised to eliminate the dreaded spare time.

But fear not for our safety, my comrades, our ingenuity in accomplishing our desires is truly remarkable.

Our course is similar to that given at OCS but for us it is only a prelude to a rigorous program at Yale. Several Alfredians have already passed through this outfit into Yale. Art Powell '43, John Tiftikjan ex '44 and Bob Moebus '43 left before I arrived. I sent Ed Cruzan ex '45 on his way two weeks ago.

I expect to be there myself before very long.

Chick Berger ex-'44 and I have been trying to get together to revive old memories, but we are never able to complete our plans.

Finally located Tom Grove ex '44 in the ASTP outfit at CCNY—just in case anyone is interested.

One thing that I miss very much is writing my piece for the Fiat. Am writing for the Cadet paper, but it is not the same kind of material, if you know what I mean.

Let me express my gratitude for the Fiat and the Alumni News. They are both as welcome as any letter I may receive.

My best to the gang and the faculty. Since Hickey, Cornwell and Busch are the only three left from our Ceramic class, special greetings to them.

Lou Kelem
Seymour Johnson Field, N. C.

Editors Fiat Lux

Doesn't it sometimes occur to the editorial staff that the title of the weekly column "One View" is rather misleading?

Naturally, a certain allowance is made by those of us who know its writer, but some of the freshmen who do not know him as well, may form the opinion that he actually believes what he writes!

Would it not be more fair to these students to give such a column the more fitting title of "New Thoughts in Humor" or "What's Wrong with This?" or even possibly, "The Evils of a Limited Education?"

Yours for a more accurate and factual column..

Al Saunders '45

Alfredians In The Service

Pvt. Charles Hoffman ex-'45, has returned from spending four months with the famous 82th Mountain Infantry Division in Kiska. Chuck spent his twenty day furlough at home during the Christmas holidays before departing to Camp Carson, Colorado, with his unit.

A/C Lou Kelem '44 is another of the Alfred men to be stationed in the Air Corps at Yale University.

2nd Lt. Marion R. Nadler '44, has been transferred from Chanute Field, Illinois, to the Weather Squadron A.A.F. at Deming, New Mexico.

Pfc. Kenneth Burdick ex-'45, is now in Cleveland, Ohio.

Pfc. Gordon L. Sanford is stationed at Harlinger Army Field at Harlinger, Texas.

Norman Ruderman '43, was shipped from Dansville, Rhode Island to San Francisco, California, where he was given an APO number.

Pvt. William Holitink '44, is studying in the ASTP Unit at Northeastern University in Boston, Massachusetts.

S/Sgt. John L. Dougherty, Jr., has been moved from Shreveport, Louisiana to Hg. Det. at Camp Gordon, Georgia.

A/C Robert Luke, Jr., ex-'43, was recently commissioned a Second Lieutenant in the Army Air Forces at Turner Field.

A Soldier's Viewpoint

Today is Tuesday, February 15, 1944. Not a very special day. Just another day of America at War. We will perform our tasks today as well as we know how, just as we did yesterday and just as we will do tomorrow. For most of us the reason for performing the tasks have become mechanical, for we live in the moment and the part, never seeing the whole. Yet there is a meaning and a fundamental truth in all we do. While the business of War is distasteful to all of us, it does not follow that there is no meaning in the prosecution of the War. All this is not the result of a blind impulse. The constant remembrance of the forces within ourselves that tell us this has to be done will enable us to rise out of the moment and the part, and contemplate the whole. In keeping this total perspective we know why we fight, and in this knowledge is our strength to correct the errors of mankind.

Particularly at this time when so many of you students are to be lifted from this pattern of life at Alfred University and dropped into a more active phase of this war, it is important that we pause for a moment, study this country of ours, and its people, and refresh our minds as to why this peace loving country took the business of War. This knowledge will be a mental ration and comfort in the difficult days that lie ahead of this country of America, and view the forces that told us that this job had to be performed.

One morning these people of America which had become addicts to the narcotic effect of one man's voice. The set out on a momentous job of making this child, this man, this woman free from fear. The know they are not yet free. This fear crept into their life and their beliefs. It interrupted life's pleasant walk through the harmonious peace and unity of a shining faith. This divine drama whose sitting is a little white church, with no denominations whatsoever, stood out as the symbol of America in the test. Its people discovered they had taken on a dignity that could not be cancelled out by death. Within themselves they immediately denounced the imprisonment of the souls, of people and their denouncement brought about the inevitable. They raised their arms against this reactionary madness. To this they dedicated their lives.

There is something in America these people need, and America needs them. Sometimes they are angry and confused over the strange workings of this land. Sometimes they ask if this is the real America. But ultimately these trials have crystallized and strengthened their ideals. Though sometimes strange moods fill these people, they march on. Each step is a heartbeat in this land of theirs. Each step says it is a great honor to walk on American earth.

These people are not merely living, but have become a creative part of life. Their challenge to tyranny is the depth of their faith in their democracy. And they took the all-important step within their mind. The natural outgrowth of this step is the physical expression of their determination to wipe out this cancerous growth in their minds.

When this job is done, you will say, "I am a part of the good that is America". For you are these people and this is your country.

THE SOCIAL SWING

by Genevieve Mezey

Gay crepe paper streamers, festive hearts and a valentine box all lent atmosphere to the gala valentine dance sponsored by Kappa Psi last Saturday evening in South Hall. From 8 'til 12, the merry-makers danced to the tunes of the Campus Cheers.

Ray Dry '44 acted as master of ceremonies while all the tomfoolery of the intermission was going on. Valentines were delivered to the guests and door prizes of candy were given to Hannah Saunders '47 and Pvt. Stanley Jordan.

Pi Alpha celebrated its 21st birthday at a banquet given last Saturday evening in Social Hall. Mrs. Evelyn Openhym, Pi Alpha's first president, acted as mistress of ceremonies at the party to celebrate the coming of age. Silver coffee and tea pots were presented to the sorority by the honorary members. Jeanne Sherman '44, delivered the welcoming address. Other speakers of the evening were Frederica Miller '45, who gave the "Junior Viewpoint," Jean Moore '46, who delivered the "Sophomore Impressions" and Corinne Herrick '47, who told about the future of the pledges. Jane Parvin '45 was in charge of the menu, Olivia Bussell '44 was chairman of the committee for decorations, Phyllis Little '45 headed the invitations committee and Genevieve Mezey '46 was in charge of the programs.

Dr. Herman Poppelle was a Sunday dinner guest at Sigma Chi.

Theta Chi entertained Lee Hyers of Buffalo, New York, Barbara Guillaume '47 and Peg Lore '47, at dinner last Sunday.

Hannah Saunders was a dinner guest at Delta Sig Friday evening.

The girls of the Castle entertained their friends at a buffet supper last Sunday evening. Mae Barrus '46 was in charge of the menu and she was assisted by Bea Jackson '45 and Cynthia Leban '46.

Miss Barbara Painter of Penn State was a guest at Sigma Chi last Monday.

Miss Edna Erickson of Morristown, New York, and Prof. Merton Moore, ASTP instructor, were married February 7, in Canton, New York.

Miss Lee Myers of Buffalo, New York was a weekend guest at Delta Sig.

The Castle entertained Kalope Giopulos '46 at dinner Friday evening.

Jean Stevens ex '46 was a weekend guest at Kappa Delta.

Faculty members and their wives and students and their guests of the Ag-Tech Institute participated in a skating party at the Wellsville rink last Saturday evening. The party was preceded by a dinner at Pickup's Hotel. At the dinner, William Hueg '44 was presented with a State Grange Medal for his winning speech in the

Bouquets:

To Supreme Court Justice Frank Murphy, Vice President Wallace, Wendell Wilkie and the others who have formed a committee to help save the European Jews from Nazi terrorism in Europe and to combat anti-Semitism in our own country.

To F.D.R. for his clear-cut message to Congress backing the Green-Lucas Bill in the Senate and the Worley Bill in the House of Representatives. Both bills would give the soldiers the right to vote under federal jurisdiction.

To Henry A. Wallace for continuing his fight to make this the "century of the common man" even though it may turn out to be political suicide. This, because the conservative Democrats are slowly gaining more power and are out for his scalp.

To all the members of both houses of Congress who have continually fought to make the United States take the lead in paving the way for a better and more peaceful world through an international organization.

To the American public for its wholehearted support of the Infantile Paralysis Fund, the Fourth War Loan, and the war effort in its entirety.

It's About Time:

Governor Tom Dewey finally gave the Republican leaders the go-ahead signal to toss his hat into the Presidential ring. His continual denying the fact that he was a candidate made some people actually believe that he would remain governor of New York. This lost him quite a few adherents.

It is about time that the Republicans formulated a platform for their party. They can not ride the fence all the time and the sooner they come out with a policy regarding internal and foreign affairs the more chance they will have to win the elections of 1944. To date all they have done is oppose the administration at every turn.

I think that it is about time that somebody told the Republicans and reactionary Southern Democrats that we are fighting this war to retain democracy and that the poll-tax and the attempts to thwart the soldiers from voting are not two of the democratic principles that this nation is shedding its "blood, sweat, and tears" for.

Off The Wire (ACP)

"Across the Atlantic in the British Isles the Yanks are trying to fit American slang into the dignified game of cricket. Members of the U. S. Eighth Air Force recently razzed batters and bowlers in the best Bronx manner. Such razzing is not cricket, say the English, who prefer a polite hand-clapping to the cheer and jeer. Which influence will prevail? Will baseball audiences become sedate or will cricket fans learn to shout. "Better duck, you jerk, here comes the bottle!!"—Student Life, Washington University, St. Louis, Mo.

Twenty-one students have signed up for the new course in Chinese Language and culture at Wheaton College, Illinois.

Movie Time Table

Wednesday, February 16—Humphrey Bogart in "Sahara". Shows at 7:00 and 9:20. Feature at 7:43 and 10:03.

Friday and Saturday, February 18 and 19—Double Feature—"Best Foot Forward" with Lucille Ball and Harry James, and "Gangway for Tomorrow". Show starts at 7:00. Last complete show 8:44. "Foot" at 7:10 and 10:15. "Gangway" at 8:49, only.

American Speaking Contest at Syracuse. Eleanor Straun '44 was chairman of the affair. Sheryl Wilbur '44 acted as master of ceremonies.

The Brookside nurses entertained the new student nurses at a valentine party given last night.

Rev. Edward Gill Talks To Fellowship Meeting

Bolivar Pastor Discusses Races Of South America

"The Racial Picture of Latin America" was the subject of a talk by the Rev. Edward Gill at the ACF Forum last Sunday night.

All the races in the world are represented in Latin America," he stated, "but none has been dominant enough to build a homogeneous civilization. The Indians, descendants of the aborigines—the Aztecs, Incas Mayas—predominate in blood but the culture is Iberian.

"The Spanish explorers who came to Latin America inter-married with Indian and Negro natives and the result today is a racial mixture which is almost impossible to classify. Certain types dominate in certain sections. In Mexico, ninety percent are Indians.

"On the whole racial prejudice has been almost nil but recently a process of race consciousness has been developing. One evidence of it is the up-surge to power of the old Indian blood in a kind of protest against the Spanish and the Roman Catholic Church.

"In Argentina, which is predominantly white, there has been an increasing tension between whites and Indians.

"The Latin Americans are not interested in a Good Neighbor policy which is based on the good dollar. The people want friendship and one way of this is through the exchange of students."

Mr. Gill was born in Trinidad and spent several years teaching there. He is now the Methodist minister in Bolivar, N. Y.

Male To Meet Female For Basketball Tilt

Providing something new again in the way of entertainment, while at the same time bringing to a head a controversy which has long been in the boiling pot, male will meet female in a basketball contest this Saturday night in South Hall to determine the campus superiors.

Game time is at eight o'clock. Dancing will follow with music furnished by the now firmly established Campus Cheers.

Starting line-ups for both college aggregations, or what have you, have not as yet been picked, but all pre-game dopesters are laying even money as to the final outcome. All indications point to a "knock-em-down, drag-em-out" affair with plenty of slugging and hair-pulling.

As he was drawing up final plans for the organized riot, John Busch, manager of the he's, stated that he hoped that at last Bob Meyer, Student Senate President, would have a chance to come through with his promise. Meyer once stated, "Maybe I can't score any points playing basketball against boys, but if we were ever to play a girl's team, I couldn't be stopped."

To this statement, the girls of course yell, "Oh yeah! Come on and try it."

Alfredians Write Ceramic Articles

The February 1, 1944 issue of "The Journal of the American Ceramic Society" contains an article by Forrest Burnham '43, and Prof. Charles M. Harder, entitled "Practical Production of One-Fire Luster Glazed Pottery."

Impressions Of Alfred

Practicing for a time when they'll be playing a more active role in the war, a group of new E. R. C. cadets invaded the Collegiate one Saturday night. The primary objectives of this mass attack seemed to be (1) the pin-ball machine (2) directions for reaching the sorority houses (3) information about where to put through long-distance calls.

From a group huddled over the pin-ball machine came the following:

...For the next three months I'll be making a study of the local pin-ball machine—Bill Holleren, Geneva, N. Y.

...Being from New York I'm glad to see a pin-ball machine again—Marvin Barsky, Corona, N. Y.

...I'm depressed by the local Saturday night instead of impressed—Dick Baime, Newark, N. J.

...The pin-ball machine cleaned me out—Harry Reiser, Bronx

A more intellectual group reclining on the sidelines preferred to confine their comments to more weighty ...When I came I expected the temperature to be 50° below zero. The school seems nice and the campus is really beautiful. The meals are good, and I like it.—Dolph Blum, Staten Island.

...I've seen towns like this only in the movies.—Leonard Gold, N. Y. C.

...The people here are very sociable. They don't say hello in Brooklyn—Bill Carlson, Center Moriches, L. I.

...It's a friendly, sociable town—John De Amichis, N. Y. C.

...The people are very polite and courteous. Even the girls.—Bill Dolan, Skaneateles.

...This is a nice university in contrast to Cornell—Bill Van Duzer ex '47, Cornell

...Even the dogs smile—Sol Guravich, N. Y. C.

When asked their opinions about the opportunities Alfred offered for a Saturday night fling, they said:

...I don't square dance. I've seen it in the movies but that's all—Lester Unger, Brooklyn.

...There's nothing doing on Saturday night—Donald Fehn, Utica.

...I'd like new moving pictures, some I haven't seen recently. We won't be here when ones we haven't seen recently come. However, you get a wonderful bargain for your money.—Alfred Klen, N. Y. C.

Pvt. Sydney Grant, Student Commander for the E. R. C. seemed to be able to put the whole thing in a "nut shell" with his comment: "I like Alfred very much. Above all, the congeniality of the people has impressed me. I'm sure all reservists share my opinion."

"You give but little when you give of your possessions" It is when you give of yourself that you truly give." —Gibran

Archery Club Has Initiation Service

On February 4th the archery club held initiation service for Jean Moore, Betty Van Gorder, and Rae Whitney, faculty member. A luncheon was served for them at the Coffee Shoppe. Part of the equipment for shooting was given to them at the Coffee Shoppe; the rest had to be gathered from various houses on the campus.

After the luncheon the initiates were taken to the gym and given large bows for shooting. The shooting consisted of shooting backwards, left-handed, blindfolded, a donut shot, and William Tell shots.

After this initiation they were awarded archery club arrows.

Discuss Building Project

Architects of Haskell, Considine and Haskell in Elmira were in Alfred last week to discuss the building plans of the post-war Ag-Tech industrial building. They were accompanied by Mr. Brown, district highway engineer and Mr. Flather from the State Department in Albany.

To Speak In Elmira

Chaplain William H. Genné is scheduled to appear on the Religious Emphasis Program at Elmira College on Thursday evening, to conduct a discussion on "The Place of Religion on the College Campus."

Interclass Ball Games Start

The first of the series of Interclass Basketball Games have come off with Brookside, Theta Chi and Sigma Chi as winners.

Sigma Chi beat Pi Alpha by 35 to 7. Carolyn Torrey snagged 12 points and Mary Lou Jeffrey made 10 points for Sigma Chi. On Monday Theta Chi won over the Kappa Delta team with a score of 21 to 18. Both Ruth Weitz and Janet Secor scored 10 points apiece for Theta Chi. In the two games played by Brookside the latter won against Klan by 21 to 15 and beat Castle 16 to 14. Louise Hoyt and Isobel Hughes were the high scorers for the nurses.

Sigma Chi	Pi Alpha
Jeffrey 10	Parvin 5
Torrey 12	Little 2

Army Trainees To Take Tests

Pre-medical and pre-dental tests will be given tomorrow for second term, and designated third term men of the ASTP basic engineers.

The purpose of these tests will be to select prospective students for courses in medicine and dentistry. Those men who qualify for the further training will have their cases reviewed by a special Army board.

Six ASTP students who completed their second term at Alfred, took a similar aptitude test, and were accepted for this advanced training are Allston Bailey, Robert J. Jake, Bernhard Michela, who are now pre-medics and Joseph W. Sharp, Lamar J. Stewart, and Chester Wachnansy, who are studying dentistry. These men are at Amherst College, Massachusetts.

Two Do Practice Teaching

Marie McDermott and Margaret Lord are practise-teaching in commercial subjects this week. Miss McDermott is in Canisteo and Miss Lord is in Hornell.

WHAT WOULD a wounded soldier think of you if he could hear you say: "I can't afford to buy an extra War Bond?"

He might remind you that he couldn't "afford" to go to war! But he went, and now he's making more sacrifices ... for you. No wonder he expects you to do something that will help him!

Especially when all you're asked to do is to buy an extra \$100 War Bond this month. So check over your budget ... see if you can't swing at least an extra \$100 ... or \$200 ... or \$300 ... or even \$500 for extra War Bonds. You'll find that you can ... and it's no sacrifice, either, for War Bonds are the best investment in the world today!

Plans Made For Ceramic Building

A letter from Dr. L. A. Wilson, Deputy Commissioner of Education, received last week by the Ceramic School, brings to a successful conclusion a campaign for a new building for the Ceramic School.

The letter reads as follows:
Dean M. E. Holmes
New York State College of Ceramics
Alfred University
Alfred, New York
My Dear Dean Holmes:

Your communication of a recent date in regard to the industrial building for the College of Ceramics is at hand. I am very happy to advise you that we have included in the post-war plans, an item of \$75,000 for the proposed industrial building. I am very glad indeed to have your statement in regard to the need for this building.

Very truly yours,
(signed) L. A. Wilson.

This building will provide facilities for post-graduate work of a semi-industrial nature for our ceramic graduates. They may be employed for work in this building, which will lead to an advanced degree, and which will bridge the gap between college work and regular industrial work. The building will also be used for rehabilitation work for discharged service men. It is estimated that 100,000 veterans will have to be taken care of by the State of New York after the war. This building will enable the Ceramic College to contribute its share to the readjustment of discharged service men and women to peace time pursuits. The work will be primarily of artistic nature, but all kinds of ceramicware will be made. It is expected that the sale of products will pay for most of the cost of operation.

This building is the second building provided for the Ceramic College. The main building, which was authorized several months ago, and which will cost \$340,000.00, is in a well advanced stage of design by the architects. These two buildings are a part of a local building program, which is the largest in the history of Alfred University and is a matter of much importance and interest to the Alumni, students, and everyone interested in the welfare of the institution. The buildings are being planned to provide for future expansion, and particularly for the coordination of all work of the college, in the most efficient manner. The result will be a Ceramic College by far the largest and most up-to-date in the world.

Butchers, Elephants Victorious Monday

Both the Butchers and the Ellis Elephants came through with victories last Monday night in the College gym, the former thus maintaining its one game lead over the Ellis team.

Kappa Psi fell victim to the league leaders by a 39-32 count, while Ellis had a scoring spree against the lowly Frosh, piling up a 55-24 victory.

With but three members of its starting five present, the Butchers team could do no more than keep on even terms with Kappa Psi for three quarters of the game. It sewed up the contest in the first part of the final period by dropping in four consecutive field goals.

Practically all of the winners points came via the pop shot method. Busch had one of his hottest nights of the year as he chalked up eighteen points. Dry had fourteen for Kappa Psi.

Ellis scored at will against the Frosh aggregation and could have piled up a much higher total had it so desired.

Pozefsky was high scorer for the massacre with sixteen counters.

Breaking all local and Red Cross mobile unit records, the A.S.T. unit at Indiana University recently exceeded its quota of 700 pints of blood and had another 100 potent soldier donors waiting when time and blood containers ran out.

Universities Offer Courses For Graduates

"Opportunities for post-graduate work for senior girls are being offered at Radcliffe College and the Glenn L. Martin Company of Baltimore," announced Dean D. K. Degan.

Radcliffe College is offering two scholarships of \$500 each for the year 1944-45 to women desiring to prepare themselves for positions in personnel administration. For those interested in preparing for personnel work in high schools, normal schools, colleges, and universities, the Graduate School of Syracuse University is offering graduate assistantships. Each assistantship is equivalent to a grant of \$600 to \$800 per year, awarded in terms of room board, and tuition.

For young women with a minimum of two years of college training including mathematics, physics, or chemistry, the Glenn L. Martin Company of Baltimore is sponsoring a summer course in the Johns Hopkins University in Baltimore. Salaries will be \$20. a week to cover living expenses while in college.

Tuition is free. Upon the successful completion of the course, trainees are transferred to a Company Training School for 12 weeks where they are taught Martin Engineering methods and procedures. At this time salaries are increased to a full industrial scale.

The International Spotlight

by Nickey Pernikoff

The policy of the U. S. State Dept. in regard to exiled governments has been contradictory and arbitrary in many respects. While the governments of Greece and Yugoslavia, which have but the dubious support of the peoples involved, have full recognition as United Nations, France does not.

France's part in World War II has been a complex and many sided one. At first, as England's partner, she helped sell Czechoslovakia to Hitler; then, when war could no longer be forestalled, she spent the winter of 1939-1940 building up the Maginot line. Her time to be invaded came before Britain's, and as no Channel separated her from the foe, she surrendered in June, 1940. Some members of the cabinet wanted to continue the fight in North Africa, but their objections were over-ruled. The very day of the armistice, General de Gaulle issued an appeal to Frenchmen not to surrender, and his call was heeded by the many who joined him in England and in the French colonies, which soon stated their adherence to the Fighting French (as the organization of de Gaulle was called). Later on in the war, the French underground, which certainly represents the free people of France, elected General de Gaulle as their representative outside of France proper.

To my mind there can be no doubt that de Gaulle, the National Committee of Liberation (on which he serves), and the Consultative Assembly (composed of Senators both from France and the colonies), are truly representative of the people of France, and therefore ought to have full recognition as a United Nation. President Roosevelt and Prime Minister Churchill seem to forget that every time France's provisional government at Algiers is slighted by them, every Frenchman knows it; and if invasion is to succeed, the Allies must have the full cooperation of every Frenchman everywhere.

Day Of Prayer For Students Takes On New Significance In Time Of War

The observance of the Day of Prayer for Students, announced elsewhere in this issue, is of increasing significance this year as students around the war continue to be in the vanguard of those effected by the war, and indicates the importance of the work of the World Student Christian Federation.

On November 30, 1943, between twelve and fifteen hundred students of Oslo University were arrested by the Germans. The Gestapo Chief said that the arrest of the students and the deportation to Germany was being undertaken to protect the interest of the occupying power.

From India came the following report from the Student Christian Movement of India, Burma and Ceylon, "The material destitution and spiritual desolation of our fellow students from Malaya and Burma, who have come in large numbers to the Madras-Vellore area, brought home to us the need for Student Relief as an expression of our friendship in the Federation.

In China, the total number of different students helped during 1943 is estimated at 11,601. Nutritional aid was provided through 14 bean-milk bars.

A letter from Greece says, "Our Christian student group is still active in spite of the existing difficulties. I thank you and all the Christian brothers in the Federation that you do not forget us. If you only knew how great is our thirst for Christian fellowship."

Such letters as these come from everyone of the thirty-eight countries in which the Federation is active, despite the fact that the movements in nine countries are now under enemy occupation and fifteen others are involved in the War.

The Alfred Christian Fellowship, which is the local unit of the World's Student Christian Federation, lays claim to being the only truly international organization and is grateful for the opportunity it has to interpret these other groups with whom it is so closely and directly related.

Dr. Poppelbaum Addresses ACF

At ACF Sunday, February 6, Dr. Poppelbaum spoke on "Science and the Divine World".

A problem to scientists is this: "Can the scientist say that there is a divine world in which man has a share and at the same time preserve his scientific integrity?"

Many people in history have described in colorful detail, yet simply, a divine world which they knew. Man today interprets the world by means of abstract concepts instead of by pictures. However, if he is genuinely interested in the search for truth he must observe the details of these old beliefs and understand that there is an unexpected depth of intuitive knowledge in the ancients. It would be unscientific either to accept the stories blindly or dismiss them as nonsense.

Dr. Poppelbaum went on to talk of some of Rudolph Steiner's ideas about what happens in the life after death. "The search for truth requires no small effort and devotion and is a gradual learning process which does not expect immediate rewards," concluded the speaker.

Commodity Investigator Job Open

Applications for the position of regional commodity investigator under the OPA must be filed with the Director, Second U. S. Civil Service Region, Federal Building, Christopher Street, New York, not later than tomorrow.

United China Relief Uses CCC Funds

United China Relief, which is one of the agencies in the National War Fund support by our Alfred Campus-Community Chest, sent \$8,612,155 to China for its 1943 relief program, according to the announcement of Dr. Willard J. Sutton, local chairman of the United China Relief Committee in Alfred.

This program covers education, medicine and public health, child care, direct relief and self-help projects.

In the educational field aid was given last year through the Associated Boards of Christian Colleges in China, the Church Committee for China Relief and the National Student Relief Committee, in the form of scholarships, "vice subsidies" and other grants to three thousand faculty members and twenty thousand students.

Nurseries were set up for children, grants made to flood and famine victims and self-help industries were organized for refugees and disabled soldiers.

"The past year, during which China was virtually blockaded by the Japanese, and great natural disasters brought tremendous additional suffering to the Chinese people, has been a test of our relief program in China," Chairman Sutton said. "We rejoice that, through our affiliated groups in China, which have been built up through the war years, an ever-growing chain of trained and willing helpers throughout the length and breadth of the country, we have been able to meet many difficult situations promptly and effectively."

Applications For TWI Service Being Received

Applications for training within industry (TWI) service with salaries at \$4600 and \$3800 a year, plus overtime pay will be received until the needs of the service have been met.

Duties must be performed in one of the following fields; administrative, technical industrial training, and field representative.

The University of Kansas dedicated its new \$250,000 Military Science building on December 10.

A Dream Comes True

Do you believe in astrology, or reading tea leaves,—or dreams? This may convince you that dreams have a meaning.

One night Mr. Akam came to English class and said to Miss Jean Lazell, "Do you have a soldier boy friend in South America?"

"No, why?" ask Jean.

"Well, don't you even know a soldier in South America or any foreign country?"

"I do write to a boy in India," Jean answered. "Why do you ask?"

"Last night I dreamed I was talking to a soldier in South America, and he was your boy friend."

"Isn't that strange," replied Jean. "What did he look like? Do you remember?"

"Oh, sure," answered Mr. Akam, "I can see him just as if he were right in front of me. He was taller than I, so he must have been six feet or more. His hair was blonde and wavy, and I remember he was very nice looking."

"This is too good to be true. It sounds so much like the boy I write to. I'll have to bring you a picture of him."

The next time class met Jean had the picture. Before she showed it to Mr. Akam, he had to describe the boy again just to make sure he really remembered him. Then Mr. Akam took one look at the picture.

"That's it!" he exclaimed. "That's exactly what he looked like."

"Are you sure?" Jean asked. "You wouldn't fool me, would you?"

Jean became very curious and questioned him more. She asked if he had eaten anything before he went to bed. Mr. Akam said he only had a little snack, a cheese sandwich, and a cup of strong tea. Jean decided that was the cause of the dream. The next time class met she had a cheese sandwich for Mr. Akam. He had to promise to think about her and eat it just before he went to bed.
