Gentlemen:

Will you kindly furnish us with information

Chas. E. Austin, brother of the writer, is  
considering re-entering school after Christmas, having  
left High School at Binghamton to act in various capacities

capable of learning quickly and is desirous of taking some  
course in your School that will be helpful to him in brick  
and clay manufacturing.

He is at the present time and has been for the

We will appreciate an expression from you giving
