OFFICIAL NEWSPAPER OF TOWN AND VILLAGE OF ALFRED AND ALFRED-ALMOND CENTRAL SCHOOL DISTRICT

Vol. 133, No. 1

Alfred, Allegany County, New York State, U.S.A. 14802

Thursday, January 4, 2018

Baby, it's cold outside!

Temperatures hover around 0 F. during 'big chill'

ALFRED—In case you hadn't noticed, it's pretty cold outside. And it just might get worse before it gets better.

According to Alfred Weather Recorder John Buckwalter, the low temperature each day since Dec. 26 has been below zero. The lowest temperature of December 2017 was recorded as minus -8 degrees F. on Friday, Dec. 29.

If that wasn't cold enough, on Monday, Jan. 1, the mercury dropped down to minus -13 degrees F.

Alfred Sun Weather Forecaster Kelly Snyder expects the temperature will remain below 0 both Friday and Saturday, Jan. 5 and 6, with the low expected to be minus -10 degrees F. on Friday.

The good news is that Kelly forecasts a warming trend on Sunday, Jan. 7 with the high expected to reach 22 and the low at 16 degrees F.

The temperature may rise to the freezing point of 32 degrees F. on Monday, Jan. 8, according to Kelly's forecast, but with the rise in temperatures brings also an increase in precipitation.

See John Buckwalter's weather report and Kelly Snyder's weather forecast on Page 3 of this issue.

Bill Pulos snapped this photo on the Alfred University campus Saturday, Dec. 30 during his frequent campus walk. He wrote, "The temperature was -5 and the wind chill factor was significant. There was a heavy snow storm occurring as this picture was taken. Like the old days."

Year-round support for struggles starts new year in Allegany County

A new year-around season of Allegany County support for individuals and families experiencing all types of hurts, hangups, habits and struggles, including addictions, will start Saturday, January 6, at Scio, with two others also underway on different schedules at Wellsville and Allegany County Jail. Celebrate Recovery sessions, which include 25 weekly sessions of progressive lessons, along with personal testimonies as to how Christ-centered applications are able to provide healing in all types of situations, are being held from 7 p.m. to 9 p.m. at Knights Creek Evangelical Methodist Church, 2987 County Road 9 (Knights Creek Road), Scio. Sessions also are held at the same times Thursdays at Yorks Corners Mennonite Church, 3350 County Road 29, Wellsville. Modified lessons at the jail are for inmates only. Individuals are able to join groups at any time. Gatherings at the churches include a time of music, life skills presentations based on 12 Steps and their Biblical comparisons and Eight Principles reflecting the Beatitudes from Jesus' Sermon on the Mount, personal testimonies of those who have found victory from various life issues and struggles, and non-judgmental, gender-specific small groups for both men and women. Free snacks also are provided.

In addition to the CR format at Scio, the group seeks to assist participants in addressing any additional needs on a broader, holistic - physical, mental/emotional and spiritual -- basis. This occurs through a Celebrate Victory model that helps connect individuals and families with resources within the broader community, many of which are available at little or no cost. Organizers say the format is helpful to couples or family members experiencing discord or strife in that separate small groups for men and women provide individual support for many life struggles including, but not limited to, anger, anxiety, depression, overeating, workaholism, physical and sexual abuse, aging, isolation, chronic pain, sexual addictions, gambling, and substance abuse. Families of jail and prison inmates also can benefit, they said, by gaining understanding of personal destructive behaviors through attendance of Celebrate Recovery sessions on the outside while a family member is incarcerated and possibly participating in the ministry at the jail. Further information about Celebrate Recovery/Celebrate Victory at Scio is available at www.facebook.com/KnightsCreekEvangelicalMethodistChurch, or from Casey Jones, a group facilitator, at bps461@msn.com or (484) 435-0503. Information about Celebrate Recovery at Yorks Corners is available at www.facebook.com/CelebrateRecoveryYorksCorners, or bcalcote@roadrunner.com or (814) 228-3683, with details about Celebrate Recovery in Allegany County at <http://ppaccentral.org/celebrate-recovery>.

Scene About Alfred

A weekly photo feature
By **SHERRY VOLK**
Alfred Sun Columnist

We drove down the long slope along the east side of Cayuga Lake on the morning of December 26, 2017, noticing what looked like a shoal or a bar where we knew there was none. As the "bar" shifted and bobbled in the frigid water, we heard the cacophony raised by thousands of water birds which had arranged themselves in an arc at the south end of the lake. The next day, there were none there.

Keshequa 8th graders visit University

ALFRED—A group of approximately 40 eighth-grade students from the Keshequa Central School District on Monday, Dec. 11 visited Alfred University, where they were given presentations by chemistry faculty as well as a demonstration in glassblowing.

The students were divided into groups and participated in three sessions: two of them in

the chemistry department in Myers Hall; the third in the hot glass studio in Binns-Merrill Hall.

Ann Rossington, chemistry technician, oversaw a session where students crafted tie-dye t-shirts, made candles, and created a chemical reaction using zinc to change the color of pennies to silver and gold.

Andrew Eklund, professor of

chemistry, and David Marsh, assistant professor of chemistry, gave several demonstrations on chemical reactions.

Garrett McGowan, professor of chemistry, supervised a session in the hot glass studio where Alfred students gave demonstrations on glassblowing and glass sculpture.

Decadent chocolate truffles...a gift

[Editor's Note: Like most of the recipes she shared with our readers over the past couple of decades, Ellen Shultz's Sunny Side Up columns are worth repeating.]

Here's an easy recipe that makes lovely little truffles, which are a nice gift when presented in a little box. The recipe is from an old magazine insert put out by the Eagle Brand Sweetened Condensed Milk people. It takes about ten minutes to prepare them and makes about six dozen. I used to make them for the Union University Church Bazaar candy table.

Decadent Chocolate Truffles

3 c. (18 oz.) semi-sweet chocolate chips 1 tsp. vanilla
1 (14 oz.) can sweetened condensed milk Finely chopped nuts
Flaked coconut Chocolate sprinkles
Colored sprinkles Unsweetened cocoa
Confectioners sugar Colored sugars

Melt chips with condensed milk. Remove from heat, stir in vanilla. Chill 2 hours or until firm. Shape into 1 inch balls; roll in any of listed coatings. Chill 1 hour or until firm. Store tightly covered.

Community Chest Goal \$41,525

Drive surpasses 2017 goal

Dear Editor:

What a community! You have made donations and pledges to allow the Alfred/Alfred Station Community Chest to exceed its goal. What a great holiday gift for the town of Alfred. As of December 31 we have received donations and pledges totaling over \$42,266, almost 102% of the goal.

It is still not too late to become part of this successful Community Chest campaign. All funds that we receive beyond our goal are distributed to the charities we support. We use less than 1% of your donation to pay for postage and printing. All clerical work is provided by volunteers.

The Community Chest Board would like to take this opportunity to thank the members of the community and those who work in Alfred for their loyal support. Once again his year nearly 200 businesses and individuals have made contributions to the campaign. We wish it were possible to thank each person who contributed to the campaign in writing. If you did request a receipt for your donation and do not receive it by January 15, 2018, please drop Wes Bentz a note at Box 603, Alfred.

We would like to thank the following area businesses for their support: Alfred Knitting Studio, Alfred Pharmacy, The Alfred Sun, James Comes Greenhouse, Bakers Bridge Antiques, Canacadea Country Store, the J. R. Morris Foundation, Community Bank, Dr. John delCampo, Depot Press, Richardson and Stout Insurance, ASK Chemicals Hi-Tech Ceramics, J & R Rentals, Fraser Rentals, Honey Pot Chocolates, Stearns Poultry, Pujari Inc., The Ryan Agency, Select Tree Care, Saxon Glass Technologies, Travel Design Associates, Vander View Golf, Steuben Trust, Burdick Building Services, Shawn Henry Agency, Buffalo Crushed Stone, Linda Huey and David Dronsick, John and Chelly Ninos, Servisoft Water Conditioning, R.S. Lang Pottery, Charles Smith, and Alan Griffin. As you patronize these area businesses during the coming year, please thank them for caring about our community.

It appears that many agree that our 18 campaign organizations provide services that are essential to our community and help to make the Alfred area the special place in which we enjoy working and living. If, for some reason, you did not receive a pledge card, your donation may be left at the Alfred Pharmacy in Alfred, the Canacadea Country Store in Alfred Station, or may be mailed to Alfred-Alfred Station Community Chest, Box 603, Alfred, NY, 14802. Thanks again for your support.

Coming Face to Face with Real Life

I know that real life exists
Beyond my sheltered sphere;
Aside from normal turns and twists,
There ain't much happens here.

But all around the world, folk
Are always on the go:
They're out for coffee...latte...coke...
For dinner and a show.

Other people go on trips
On airplanes and the like;
They ride on trains, they sail on ships—
The more audacious bike.

They camp, they kayak, raft, canoe—
Leisure's panoply.
They run or hike to mountain view;

They go to Disney, Myrtle Beach,

Would that we had, all and each,
Adventures such as these.

They lie on beaches at the sea,

They swim with sharks, kiss manatee—
And other feats romantic.

Their foods, a bit beyond the "pail",

LETTERS TO THE EDITOR

Alfred, New York: A Family Affair

To the Editor:

We have enjoyed reading the Alfred Sun very much.

I enjoy the little articles on different Alfredians. I thought you might enjoy mine on our family.

We lived in Avoca since 1950, after leaving Alfred.

I live in Howard now with my son Bob and his family.

Alfred, NY: A Family Affair By SALLY SWICK CLEEVES

Robert H. Swick from Niagara Falls, New York attended Alfred University from 1938 to 1941. This is where my story begins.

When I was just 12 years old, my oldest brother, Bob, entered Alfred University in September 1938. He majored in ceramic engineering and did very well in school and loved making great friends from Delta Sig and the football team. Bob lived at Delta Sig and helped with the Alfred football team and was a manager. Often he traveled back home with his Alfred friends to Niagara Falls to play hockey in Canada. When his buddies asked why he didn't play football at Alfred, he said it was too rough!

In 1941 he was called into the Navy in May of his senior year at Alfred. Unfortunately, he did not get his diploma. Soon after enlisting in the Navy, he was put on the USS Atlanta Cruiser and shipped out to the Pacific. (The Atlanta was the sister ship of the Juneau that the "Sullivan Boys" were on). On November 13, 1941, the Atlanta was bombed by the Japanese and my brother Bob was killed in action.

Robert H. Swick introduced the family to Alfred University, Alfred "Tech" State College and the town of Alfred.

In September 1945, and the war was over, I decided I wanted to go to Alfred Tech. I entered in the fall of 1945 and lived in the Bartlett Dorm (for girls only). The male students and returning soldiers lived at Delta Sigma Phi. Since Delta Sig did not have a place to cook, the boys came up to the Bartlett for meals. This is where I met Henry

Cleaves (class of 1950). Henry was enrolled at Alfred University.

Henry and I married in September of 1946. Our first home was a little trailer behind the gas station run by Shirley and Irwin Wasson and next to Delta Sig. In 1947, our son, Robert, was born and in 1949, our daughter, Candice, was born and both were delivered by Dr. Hitchcock. In 1949, we moved to "Diaper Hill." Our neighbors were the Englishes.

In 1940, my husband Henry graduated from Alfred University. We left Alfred for Avoca where Henry taught history at Avoca Central School. In 1951, our daughter, Cathleen, was born and in 1953, our second son, William, was born.

In 1954, my sister from Niagara Falls also attended Alfred Tech (Lab Tech) and met her husband, Ray Spear who was attending Alfred University and lived at Lambda Chi.

In 1966, my son, Robert, followed the tradition of enrolling at Alfred Tech for Measurement Science; in 1967, Candice enrolled at Alfred Tech; in 1972, Cathleen enrolled at Alfred Tech.

Our grandson, Jay Cleaves, earned his degree in ceramic engineering at Alfred University in 2005.

Our grandson-in-law, Shawn Murray, earned his degree from Alfred University and is now a professor at the College of Ceramics.

Notice a pattern here? Perhaps our great-grandchildren will see their way to Alfred in the future.

So, you see, I have a warm spot in my heart for Alfred University, Alfred State and the Town of Alfred and always will.

Thank you,
Sally Cleaves

MostArts aims to match \$100,000 grant

ALFRED--The MostArts Festival at Alfred University is pleased and honored to announce that it has received a \$100,000 matching gift from a private foundation.

Nearly \$70,000 has been raised since August, but more help is still needed to reach the goal. Area residents and *Alfred Sun* readers are asked to consider an end of the year tax deductible gift and support the festival.

The MostArts Festival returns July 8-14 with an even greater line up of artists, musicians, concerts, workshops and events.

Grammy-award winning piano soloist, Angelin Chang will return as well as Steinway artists Anthony Pattin and Andreas Klein. The 2017 Piano Competition Grand Prize winner, Alice Zhang will be the featured soloist at the Opening Gala, performing Chopin's Piano Concerto No.

1. The exquisite and rarely performed Ravel's Tzigane" features MostArts violinist, Blanca Gonzales.

Audiences will see many of their favorite musicians in the Festival Orchestra, as well as some new faces. Maestro Yuval Zaliouk, internationally re-nowned Israeli conductor will return to the podium to conduct the Festival Orchestra.

And of course, there's all the excite-

ment and extraordinary talents of this year's 2018 Young Pianist Competition finalist in performance.

Tickets are now on sale through the festival website: MostArts.Alfred.edu or MostArts@alfred.edu or contact Lisa Lantz, Artistic Director at 607-871-2569. A season pass or a workshop, makes a great gift !

What’s Happening at Almond Library

Learning with snowslime

The Almond 20th Century Club Library has been a beacon of learning over the past few weeks. The library has educated children on the building blocks of life with the use of microscopes. The junior scientists examined cells ranging from mushrooms to frog’s blood; from there they engaged in a STEM activity studying polymers with an experiment in snow slime. Some of the children found the slime repulsive to touch and others reveled in the gooey experience; however, one thing is indisputable, everyone benefited from the vicarious learning that was transpiring.

As the New Year is here, the Almond Library will be holding Read and Rhyme Story Time on Saturdays at 10:30 a.m. starting this month followed by Lego Club at Noon. All ages are welcome to join in the fun.

Nutrition in a Nutshell

By MARIA ADAM

Nutritional Therapy Practitioner
and Alfred Sun Columnist

WHAT IS THRIVING HEALTH?

Happy New Year Alfred! 2018 has begun and I am so excited to begin a fresh season...which happens to include starting this column! My mission is to bring refreshing and sound education on health which will provide a catalyst to the restoration of your health and our community as a whole.

January 8th will mark the one year anniversary of my nutritional therapy business, Thriving Health. I have been honored to work with small groups and individual clients to equip them to experience lasting health changes. Instead of simply evaluating what they need and sending them on their way with recommendations, I share with them what functional health looks like, and challenge them in ways to work towards it, so that they can thrive.

After all, what does it take to have thriving health? At first, the two words sound attractive and desirable when placed side by side. But how does one begin such a pursuit? Allow me to take the time to clarify.

By definition, thriving means to flourish. To prosper. To grow or develop vigorously. When we think of a flower’s health, if given the proper elements and nourishment, it will thrive. It will grow according to it’s design. We, as humans, are designed to grow the same way. If we adulterate our foods or environment, our potential for our height of health is compromised.

What about the health part? This is where it gets more complex. As a Christian, I believe that Biblical truths point to the fact that we are made body, soul, and spirit. As a Nutritional Therapy Practitioner, I have found time and time again that scientific research supports this. Thus, we have physical health, mental health, and spiritual health. As a nutritionist, I tend to talk more about the physical health with my clients. However, I have found it imperative that we understand that all dimensions of health impact one another....quite profoundly. Holistically, health is to be sound, whole, unbroken, undecayed.

To be healthy, and to have thriving health, is quite the standard then. Considering our present crisis of industrialized foods, disease, and even the effects of natural aging, it kind of sounds impossible. However, to forsake pursuing health, to give into decay, is like the gardener who neglects to care for his flowers because of the haunting knowledge that they are destined to wither and one day, not thrive.

Thus, I want to encourage you [inspire you with courage] to not forsake thriving health. May this column be a resource to you in that way!

Are you ready?

Do It Yourself Ice Marbles...

Brrr! It is soooo cold! It has certainly been hard on the kiddos during this frigid time to find fun. We have been tiring of indoor activities so we finally bundled up and ventured out into the cold to make these awesome ice marbles!!! They are huge, beautiful and so much fun to play with (in short time periods). So if your little ones are getting restless try this fun activity out!

What You Need:

*balloon

*water

*food coloring

*freezing temps

Fill balloons with water then add 10-20 drops of food coloring. Set outside and rotate every 10 minutes to make a perfectly round frozen ball. Pop balloon and have lots of fun.

No bad news today...Bills make the playoffs!

On December 2 (my birthday!), Dave flew from San Diego to Buffalo and the next morning, Steve brought him down to Alfred from Buffalo. Within two hours the car was packed and ready to go.

We made the trip in three days but the best part was that Dave was able to stay for six additional days to set up the RV for winter at Bert's RV Park in Bay City. The bad news was that the RV can no longer be moved but is now permanently located under a beautiful old tree. Smiley was particularly pleased with the RV's location where two

squirrels play all day. (He has since learned how frustratingly clever these squirrels are!!)

It was so good to be back in my favorite winter home! The second day there, I got my annual membership at the Matagorda County Birding and Nature Center. Dave and I explored the area, and saw the damage from Hurricane Harvey with considerable erosion of the banks along the South Colorado River at the nature center. Dave was hoping to see an alligator but all the local 'gators were probably already deep under the water hibernating.

Daughter Laura and son Warren with Betsy in Bay City, Texas. For the first time in years, Betsy saw all of her children within a two-week period.

Dave left for San Diego and next thing I knew was that Warren and his partner Ann were coming from Los Angeles for a visit! They flew in to Austin from L.A. where they picked up Laura and drove a rental car to Bay City! It was the first time in many years I'd seen all my children within a two-week period!!

Warren and Ann were determined to make the RV look like new inside. They scrubbed the kitchen area like it had never been scrubbed before! They washed all the windows, inside and out.

Where did these children come from? I don't believe I ever saw them wash a window at home!

After working hard for several days, we decided to take a break. So we drove down to Matagorda Beach. It was a sunny but chilly day but we walked on the beach, did some birding, collected some sea shells, and had a marvelous lunch at a local restaurant.

As I write this today, Texas turned very cold last night. All the water pipes are frozen this morning. This camper was prepared with three gallons of water inside the camper! Actually there is no bad news today ... the Bills made it in to the playoffs!!

Cervical cancer screenings help reduce mortality rates

BELMONT—Over the last 30 years, cervical cancer mortality rates in the United States have gone down by more than 50%. The American Cancer Society, Centers for Disease Control and Prevention, and many other platforms continue fighting cervical cancer with a focus on prevention.

Cervical cancer screening is being emphasized to women to detect the abnormal cells that can lead to cancer growing in the cervix. The screening process is important because cervical cancer has a much better outcome when found early. There are also ways to prevent cervical cancer:

Important Prevention Precautions:

- All women should begin cervical cancer screening at age 21. Women aged 21 to 29, should have a Pap test at least every 3 years
- Females ages 9 to 26 should have the HPV vaccine, Gardasil. The HPV vaccines prevent the 2 types of HPV that cause 70% of all cervical cancers and pre-cancers, as well as many cancers of the vulva, vagina, anus, and throat.
- Beginning at age 30, the preferred way to screen is with a Pap test combined with an HPV test at least every 5 years. This should continue until age 65.

OR

•Women ages 30-65 should have a pap test at least every 3 years. The Allegany Department of Health Family Planning Clinic offers screenings to women under 40. The clinic will bill your insurance or you can easily apply for the clinic's Family Planning Benefit Program for a low cost or free screening! Please call 585-268-9250 to schedule your appointment. Clinics are located in Wellsville, Alfred, & Belmont with day and evening appointments available.

Women over 40 years of age without health insurance or those needing assistance paying for a screening should call the Cancer Services Program of Allegany and Cattaraugus Counties at 1-866-442-2262 or 585-593-4839.

THE GLORY OF AMERICA

Thursday, January 4

With the death of Warren Harding in 1923, Calvin Coolidge became President. A taciturn Vermonter and vintage conservative Yankee, Coolidge won the 1924 election handily. In his Inaugural Address in 1925, the 30th president declared:

“The higher state to which she [America] seeks the allegiance of all mankind is not human, but of Divine origin. She cherishes no purpose, save to merit the favor of Almighty God.”

The Dugout

By DOUG LOROW
Alfred Sun Sports Columnist
dugout2@gmail.com

Growing up in Almond, all those years ago, I never quite envisioned myself walking the streets of New York City on Christmas Day ... many years later! But, there I was a week ago Monday, "wandering around" The Big Apple with daughter Lauren, Jason ... The SEAL and their baby, Quinn. Then again, I'm not sure I pictured myself as a grandfather.

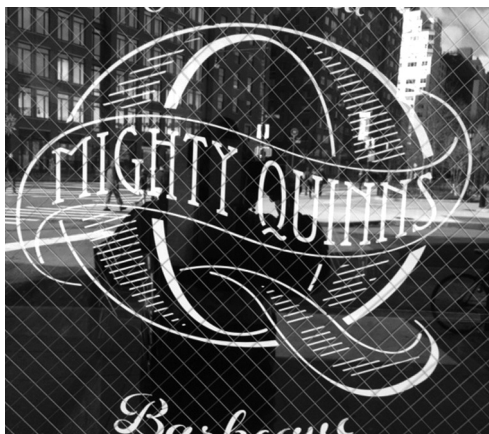

The surprise was in the works for a Christmas weekend visit to NYC, a plan first hatched by Meg "Pam" Verdino as we were having breakfast a few weeks back at the South Wedge Diner in Rochester. We try to get together every 5-6 weeks for breakfast and catch-up. Verdino and 3L were college roommates and soccer teammates at SUNY Geneseo. From Long Island, Verdino would do the driving in the city to get to the Chelsea Piers area.

Got to the apartment Saturday afternoon, early. Meg, her boyfriend Josh and Josh's mom, Sue. I came into the apartment last to surprise 3L and it was great! That trio stayed for awhile before heading to their respective destinations. Lauren, Jason, Quinn and I headed out for a late lunch at a place called Pepe Giallo. No relation to "Hilly" Moses in MA. Good meal. Casual nite that nite as Jason and I watched Airplane. Lauren didn't quite see the humor that we did and retired early.

Sunday turned out to be a pretty busy one after a lazy, slow start and a great breakfast prepared by Jason. Brooke "Red" Easton stopped by for awhile. A numerous time ADK hiker with us when staying in Indian Lake for many summers. She living in NYC as well and from Webster. Easton departed for work ... ugh, and the four of us took off for a stroll around the Chelsea Piers area and then to a late lunch at a place called Seamores. The Meatball Shop was closed this Christmas Eve Day. Jason and Quinn back to their apartment after that as Lauren and I would do the tourist thing.

It was off to Rockefeller Center to see "the big tree" and as we emerged from the subway system, near Times Square, it was a sea of humanity all around us. Behaved group, but lots of people in one area. We made our way to Rockefeller Center, glimpsing at Times Square on the way and walking past the NBC Studios and also where the Rockettes perform. Checked out the huge Christmas tree, from Pennsylvania and got near the skating rink. Next stop was Bryant Park and the Christmas Market. Last trip thru there, in the summer of 2015 or 16, we saw former MLB player, Darryl Strawberry there. The ex-Met and Yankees OF/DH.

A quiet Christmas Eve, couple of cold ones and time with Quinn. Saw her when she was

THE DUGOUT CONTINUED...

two-weeks old when we met in Saratoga Springs and now, as she is three-months old. Big change as she is developing a personality. Great being able to spend some time with her.

Christmas Day and after another solid breakfast via Jason, Lauren thought it would be great to do an eight-mile walk around NYC! So, after presents were opened and Quinn was bundled up, off we went. Sunny but chilly morning, was odd seeing so few people out and about in this bustling city. Good "hike" and back to the apartment as my Verdino ride would be arriving soon. We said our good-byes and off we went for Rochester.

Good trip home ... until we got to Dansville on route 390. Egads! Between there and Geneseo it was another world with a big-time snowstorm and slick roads. Was snowing so hard you would've missed a bear standing beside the road. Verdino handled it much better than the dog we had with us on the trip home (ugh). Got to the Avon area and pretty much cleared up the rest of the way in.

Back to Webster later than originally planned, but not bad overall. Thanks to Verdino and her driving us and Jason with the help in the surprise! A different Christmas weekend than any other for me.

HITS AND MISSES:

The Alfred Saxons (7-2) men's basketball team split their two, tight games in the Case Western tournament last week in Ohio. Alfred fell to the host school in their opener, 91-85 and rebounded the next day to defeat Washington & Jefferson, 82-78. The Saxons will be busy this week with E8 play as Houghton, Hartwick and Stevens all come to the McLane Center ... as the students are on break. Yuk.

The Bonnies are rolling in men's basketball as they won their A10 opener over the weekend, 98-78 against visiting UMass. Bona is now (11-2) on the season after stopping Syracuse before Christmas during the Orange's NYS run of schools. And, the "Traveling Sports Fan" was indeed at the UMass game, sitting beside the St. Bonaventure president. Of course he was! The Bonnies are at Dayton and St. Joe's in Philly this week.

Watched a couple of high-scoring, crazy hoop games on the tube Saturday as the Duke Blue Devils and Florida State engaged in a wild shootout, Duke emerging victorious, 100-93. Neither team could stop the other! Marvin Bagley III put in a Player of the Year performance with 35-points and 21-boards. The four Duke frosh starters all had four-fouls on them for a good portion of the second stanza. And in almost an identical score, Butler stopped undefeated and #1 ranked Villanova, 101-93. #3 Arizona State finally lost to Arizona, as well, so the top two teams in the AP poll next week should be Duke-Michigan State. A January 1st pick for the "Final Four" ... which won't happen, would be: Duke-Michigan State-Kansas-Nova or Arizona.

"Locally," Division I Binghamton played the Elmira College Screaming Eagles in men's hoop action as the Bearcats prevailed, 113-65. Elmira will host Alfred University in D3 play on 1/16.

The JMU Dukes (14-0) will play for the FCS title this weekend in Texas as they tangle with North Dakota State (13-1) on the gridiron. James Madison stopped the championship run of North Dakota State last year and is looking for back-to-back titles. The only loss by NDS this year was to South Dakota State and that is who JMU beat in the semi-finals (seemingly) one-month ago. The "Cage Man" from A-A will be off to Texas again this year for the game.

Watched some of the Cotton Bowl on the tube last Friday and USC QB Sam Darnold looks like a "perfect" fit for the Cleveland Browns in the NFL. A turnover machine! Darnold might just want to stay at Southern Cal one more year.

Nebraska QB Tanner Lee, he with 23-TD's and 16-INT's, has declared for the NFL draft. Why?

And one of Cleveland's great picks from the past, Johnny Manziel might be playing in the CFL next season with the Hamilton Tiger-Cats. Lots of time between now and then for Manziel to mess something up.

Jake Taft and Our Man Frank took in the New Orleans Saints-Tampa Bay Bucs NFL game on Sunday past in NFL, last weekend play. Apparently the Bucs will not be hiring Jon Gruden to return to the fold for next season. Go Raiders !!

The NFL playoffs start next weekend and as doing this column on Sunday, not all teams are

set for the post-season. Did the Buffalo Bills pull off a miracle and make the playoffs? The Atwell's from Illinois were at the game in Miami to see. The AFC looks like a two-team race between Pittsburgh and New England although Jacksonville's defense could thwart someone. The Patriots are not as good as they have been in the past but the AFC is much weaker this year. Home field might allow them to prevail and make it to another Super Bowl. The NFC is loaded with six good teams. Would've picked the Philadelphia Eagles to advance until Carson Wentz got hurt. Now, going with the Saints from New Orleans and Drew Brees at QB.

Will the Brownies end up at (0-16)?

3L spotted a couple of Virginia vanity plates last week: HRRYUPP ... as the vehicle zoomed by her on the way to a Wegmans (I'm sure!) and RN-FORU ... with a running girl logo. Also, from NYS, spotted recently was: MAGGICAL ... watching Frank on the golf course.

As 2018 rolls around, some predictions or "hope to see" for the upcoming year:

January - had hoped to be in Leesburg, FL at Molokai Park and golfing in the league that Big Dale used to run plus hooking up with Jake-Frank-Scum now and then. Guess not now, "enjoying" the winter wonderland. Clemson wins the ESPN Football Championship.

February - off to New York City to watch Duke play St. John's with daughter Lauren at Madison Square Garden in hoops. A Brees-Brady showdown the next day in the Super Bowl.

March - the madness begins as the Bonnies make the NCAA tourney. Syracuse off to the NIT's (sorry, Tony!). The New York Yankees begin their quest for a World Series run in Tampa.

April - Michigan State wins the NCAA basketball title over Villanova as Arizona and Duke (sadly) fall in the semi-finals. Jordan Spieth and Tiger Woods stage an epic Sunday dual at The Masters golf tournament.

May - off to Taylor Mill, KY to get some golf in with "Fish," his brother Bob and Scott O. Lorow. The Rochester Knighthawks win the NLL pro indoor lax title over Colorado.

June - off to Lake Placid to see 3L back on the running circuit as she competes in her fourth LP Half. Golf sometime that month with John Mills in the Baldwinsville area. The Celtics fall to the GS Warriors in the NBA Finals. Maybe a trip to Yankee Stadium, PNC Park in Pittsburgh or to Quincy, IL to golf with Pat Atwell. Stopping "on way" to golf with Glen Sayre and Tim Mead!

July - off to Lake Placid over holiday week to spend time with Lauren-Jason-Quinn. The SEAL instructing at the Olympic Center. Later on, the Boilermaker in Utica for 3L and "Hair" Torrey wins the Gus Macker foul-shooting title in Hornell.

August - the Alfred-Almond All-Stars are off to the Little League World Series in Williamsport, Pa. Perhaps an Alex Bay "reunion" golf outing later in the month.

September - no plans yet but Quinn turns one-year old!

October - the New York Yankees beat the LA Dodgers in the World Series, 4-2 ... much to the chagrin of Big D and "Foolish" Farley. 3L running in her third Runners World Trifecta, Bethlehem, Pa. Off to Pa!

November - Alfred University advances to the Amos Alonzo Stagg Bowl after beating Mount Union in the semi-finals in a stunning football upset in Ohio.

December - a white Christmas Eve and the Buffalo Bills get back to the playoffs for second straight season after a long drought!. The Oakland/Vegas Raiders the #2 seed in the AFC.
