#### Religion Reshuffle Underway

Reorganization of campus religious activities is under consideration, according to Chaplain Myron K. Sibley. A group of students will meet May 5 discuss the problems of student apathy in regard to the RFA.

Chaplain Sibley suggested several possible improvements such as the organization of a club for Protestant students and an Interfaith Council which would replace the RFA.

The Interfaith Council would represent the three major denominations on on campus and would unite and strengthen the Newman Club, Hillel, and the Protestant group. The council would sponsor joint activities. President M. Ellis Drake has agreed

that a change is necessary but no definite plans will be made until the student meeting takes place in May.

#### Glee Club to Warble

At Required Assembly Alfred's Men's Glee Club will be featured at Thursday's required assembly at 11 a.m. in Alumni

Under the Direction of Prof. Ray Wingate the group will sing several songs which will include a medley of Alfred songs, "Proudly as the Eagle" and "The Halls of Ivy".

The materials were displayed in Carnegie Library Thursday and Friday. Next October Mr. Ray will present a display of presidential campaign buttons he has collected over several years.

#### Rebel Rides Roughshod

It's back again. The Rebel that is. Appearing mysteriously at various places on campus yesterday morning the only issue of the Rebel to appear this year was quite sedate—not in keeping with its more illustrious counterpart of last year.

Suspicions were voiced that the single issue was really a yankee in confederate clothing. The WSSF seems to have converted even the hard-hearted Rebel editors.

## WSSF Drive Opens With Quota Set at **Dollar Per Head**

#### **Moving Up** Day Plans Being Set

sophomores and freshmen up the ladder: that's the purpose of the big plans for May 8.

Students, especially Senators, have organized the Moving Up Day Program. Opening the one-day celebration is a Wednesday evening band con-cert, on the Brick Lawn under An-

thony Cappedonia's direction. A carillon concert by Dr. Ray Wingate is Thursday morning's event: it starts at 10 when the kiddies are re-leased. From 10:30 to 11 a. m., the step-singing tradition will draw faculty students and judges to Kenyon Hall. Dr. Samuel R. Scholes, Sr., head of the glass technology department and soon to retire, will give the main address of the Moving Up Day Assembly in Alumni at 11.

Other features of the assembly will include awards and tapping by honorary groups.

The afternoon program will set off

an athletic chain of events at Terra Cotta Field at 1:30. A pushball game, individual competitive games and something special that has yet to be hatched.

#### "Never Mind Which Way De Went" Says Chief

Students who chase fire engines may be fined \$10 or more, Police Chief Herrington Stebbins warned after last week's outbreaks of spring grass fires.

Stebbins said that state law is violated by any vehicle following a fire truck closer than 400 feet. Students who follow the firemen hamper their operation, he said.

A tea for 60 WSSF solicitors started the Alfred fund drive in a blaze of enthusiasm Sunday. The tea, sponsored by the WSG, was held at 3 p. m., in Social Hall. A movie was shown and Dr. Melvin Bernstein and Chaplain Myron K. Sibley were guest speakers.

Roger Hosbein, chairman of the drive, has announced the program for the week. Several members of the faculty will give dinners at a dollar a plate with the twofold purpose of raising money for he WSSF and getting students and faculty together

#### Fiat Begins WSSF Drive

Jumping the gun on the rest of the campus, the Fiat editorial board Saturday afternoon unanimously decided to donate \$5 to the WSSF drive.

"This is a small amount, but if every club, fraternity, and soror-ity will do only this much the drive will be richer by about \$250," a Fiat spokesman said.

outside the classroom. Profs will also donate 10 minutes of their classroom

time to a discussion of WSSF.
From Belly to Billfold International Club is sponsoring a dinner at 6 p. m. on Friday in Social Hall. Reprensentative kinds of food of sev-

eral countries will be contributed by the members. The price of the dinner, 50c, will be given to WSSF. A mock election will be held by the members of the Political Science Club tomorrow in front of the union. Jara will be placed under the pictures of

the presidential candidates (including one dark horse whose name has not yet been released) and voting will be done with money which will go toyou guessed it, WSSF. APO is arrangeing a library ex-

hibit and will take care of pasting hundred dollar signs on Burdick Hall to measure the progress of the drive. Citizens of Saxon Heights are responsible for making the WSSF tags which are distributed to contributors. Paste One On

## Practice is Key to Success - Wildenhain

By Frank Bredell

The only way to be an artist is practice. There is no shortcut, no formula and no fool proof theory.

students. Mrs. Wildehain, internationally famous potter, is currently a guest instructor at the college. Mrs. Wildenhain will lecture on 'Standards in Pottery" at 8:15 p. m.,

Thursday night in Physics Hall. The lecture will be open to the public. Now a resident of California, Mrs. Wildenhain came to this country in 1940 from Holland where she and her husband became noted for their stone-

ware table services. A potter for more than 30 years, Mrs. Wildenhain received her first art edu-Chief Stebbns said that a complaint cation from a designer in a German porcelain factory. "Every night after work he would teach me how to throw

pots," she said. No Talent?

Then she became one of the first students at Bauhaus, pioneering design school in Weimar, Germany. "I started as a sculptor, but switched to pottery making when I found I didn't have the talent for sculpture," she said.

At Alfred Mrs. Wildenhain is showing students that good design takes years of practice to achieve. "I tell them to make a pot and they don't know how it will turn out when it is done," she said. "But with years of experience I can tell just how my pots will look when finished."

Experience is the thing most American potters and art sudents need, Mrs. Wildenhain says. That is why she now makes her home at Pond Farm. Guerneville, Calif., where Gordon Herr has set up a design coursé that is really

#### A Mystery

One of the characteristics of our current college crop seems to be a flagging of interest in values. Alfred has no philosophy department, no great ideas course, and little religious activity. No one seems to care very much except a few faculty members who constantly struggle to introduce a serious note into campus thinking.

Significant of the apparent trend is the death of the Religious Fellowship in Alfred. Once sponsor of widely attended Sunday evening forums, the RFA has lately become a small group of students and professor's meeting at erratic intervals.

If this is a reaction against religion, it should be pointed out that the RFA is not predominantly an organization to preach religion. It has been and should be a campus-wide body to sponsor discussions about foreign policy, education, politics, ethics, philosophy-anything of significance-not religion. Whatever form reorganization of the RFA takes, that point should be stressed.

Campus leaders when reorganizing the RFA should first revive interest in sectarian groups, then expand this to form some sort of interfaith discussion group. Something should be done now to revive interest in things more significant than Saturday movies, Union cokes, juke boxes and sports.

#### A History

Today's Fiat marks the end of an era—aptly termed the age of vulgar vocabulary by the Box of Books correspondent. Beginning to detect a most charming meeting three years ago when the Fiat had the audacity to openly defy the adminsitration and ask them not to accept the resignation of a popular faculty member, the era has not been a quiet one.

Foremost, it has been evident that the Fiat is geared to the . interests of Alfred students. While most of the news has been a favorable chronicling of Alfred's growth after a wartime slump, the Fiat | has not attempted to quiet news events that have not turned the white light of purity on everything. We have never felt it desirable or worth the time to dish out cheerful false propaganda advertising Alfred. The truth is always sufficient.

During the era the tone of the Fiat editorial column has undergone a conspicuous change. It evolved from an innocuous soggy sponge of self-evident observations to a sand paper and grit criticism of things usually left unsaid under the hazy veil of "good taste."

As the era moved forward several powder kegs were tapped. First among them was an attack on the closed stack and short weekend hours at the library. It has been a running battle for two years.

Next thrust was toward the fraternities. In a series of stinging editorials rushees were advised to consider the choice of a frat as selecting a place to live, nothing further. Rushees were advised to forget the bean juice ladled out at rushing.

A time bomb was set off when the Fiat advocated establishment of a coop bookstore on campus. The reaction took several weeks to hit the campus. After the dust of the first blast settled, it was seen that a spark is still glowing waiting for another super charged atmosphere in which to explode.

Smaller kegs included radical proposals to do away with hours for senior women, abolish social campuses, kill some of the useless traditions (beany wearing and hello-babbelling.)

As a thread running through the whole era like a refrain was a continual pounding on the keys of improvement of education at Alfred. The language and science requirements were victims. A proposal for starting a comprehensive civilization-type course in sciences and languages received a luke warm pat on the back from faculty members, but development was tabled until a more progressive era.

As the sand in the hour glass ran short the Fiat began a campaign to emphasize political thinking to the campus. and at the same time introduce the staff's vote for the best democrat for presidential nomination-Senator Estes Kefauver. At the end of the era the significance of the whole program of criticism and campaigning was a question mark. The task of placing the stamp of judgement on this interval in the history of Alfred awaits a future historian.

Speaking boldly on all issues, the Fiat has been often accused of being too opinionated. We gladly plead guilty to the charge. We like people with opinions, people who can decide what they like and what they don't, what's good and what's not. There are too many non-opinionated people now, people who are glad to follow the party line of the Boss, the Company or the University. These are the people responsible for many of the foibles of our governments-student

Many times people have said the Fiat ought to reflect student opinion. We have sometimes disagreed saying that instead of a mirror for the conventional, widely-accepted views, the Fiat should present another viewpoint with the purpose of letting readers see more than their own side of an argument, then re-examine their own and help them to find themselves vo-

This flaunting of the climate of opinion last year brought up the problem of freedom of the press. A Student-Faculty Committee was formed "to improve the Fiat." This could have developed into a censorship group. It hasn't. The Fiat has been allowed complete freedom to bite the hands that support it. That in itself is proof that the Fiat is published without strings of faculty, advertisers' or subscribers' domineerance.

As a final word, we the editors and the staff that have been given the unique opportunity of saying just what we pleased, say thanks for the privilege. To future staffers we say, cherish the right.

#### **Buffalo Symphonette Receives Applause for Varied Program**

By Fred C. Engelmann

In a simultaneous opening of the Arts Festival and closing of the Forum Series Thursday, Alfred was treated to a concert by the Buffalo Symphonette under Fred 'Ressel's direction.

The program took in both the baroque and modern periods, and the string ensemble seemed equally at home in was an enjoyable opener, especially the grave Prelude.

Vivaldi's cello sonata seemed to have its character altered somewhat by D' Indy's arrangement. Its performance by Algemantas Motiekaitis was very emotional and mostly very beautiful. Vivaldi's Spring, from the Four Seasons, was played with much spirit by the group, with its concert master, Max Miller, as very accomplished soloist. It was interesting to hear this work, which antedates more conventional program music by more than a century.

The second half of the program took us into our own era. Martha Gom Gomph, harpist, and the group performed Debussy's Sacred and Profane Dances with true impressionistic understanding. The Adagietto of Mahler's Fifth Symphony took this writer back to his native Vienna, where he seemed enna Woods.

met the high expectations of the audi- Symphonette.

ligato part, which is all but a thankboth. Purcell's Dramatic Music Suite ful task, was a real service to music at Alfred.

Considering the lack of opportunity to rehearse with the group, the blend-ing of piano and orchestra was quite remarkable. The writer, a skeptic in regard to contemporary music, was greatly impressed by the composition. Both Mrs. Seidlin and the ensemble deserve thanks for playing Vivaldi for a delightful encore.

after the concert, the writer heard a number of comments about technical imperfections during the performance This seems to indicate that too many music lovers are spoiled from listening to canned music. A small number of false notes, especially audible in an unsupported string group, is certainly more than balanced by the freshness and enthusiasm of a live performance by a musically compe-

Letters to the Editor

#### Here's One Answer to Death Of Religion in Colleges

Last week's letter entitled "Religious Life Going to Devil on Campus" brings out some very pertinent facts. The author, however, might well have gone farther and amended the article to include all campuses for this situation is by no means confined to Alfred. It is nation wide

The fault, according to Dr. George F. Thomas, chairman of the religion départment at Princeton, does not lie with the student, but in the pattern which is set for him, and the problem of whether the liberal arts college which claims to be impartial towards all faiths is not really propagating a faith of its own—scientific rationalism, non-theistic humanism and natur-

In a conference under Dr. Thomas' students' thinking is more likely to be influenced during their college years by heir professors than by any other single factor.

Christian professors have been diffident about expressing their religious convictions in the classroom because they fear they will be accused of preaching and dogmatism. Not so however, with their secular colleagues, who have not been backward about their skepticism and hostility.

Dr. Thomas emphasized that a deal of the difficulty lay in the high degree of specialization which exists today, "fragmentation of knowledge" to use his own term. Experts do not even speak a common language.

Ethics, for instance, has been divorced from theology. It is no longer Christian ethics. We are imparting knowledge, but we are not teaching wisdom, due largely, as Dr. Thomas sees it, to a narrowness on the part of faculty, who though highly specialized, don't know the true meaning at 7:33 and 10:02.

Among the measures which Dr. Thomas suggested were:

We must witness to our faith with our lives or else what we teach will be sounding brass.

Campus life should be made more personal for the students,-have them in faculty houses by groups. We spend far too much time in committee meetings and do not find time for the students. We must find leisure for them cationally, religiously, or in any way

Proliferation of committee meetings is destructive. It makes college campuses too impersonal. Students need friendship and guidance.

We should make associations with other persons on campus who are interested in their responsibilities as Christian professors with the purpose of establishing groups as at Princeton where they have been received with eagerness to exchange informal views The basis of the groups is that we don't know the answers but are trying to bring about orientation of thinking. By doing this we will lose the sense of isolation and loneliness and gain a sense of fellowship.

We must maintain an attitude of challenge towards outspoken propaganda of humanists.

The faculty must take a greater interest in the Christian faith. Christian students should become acquainted with Jewish friends and what they stand for. Christianity should involve an openness to truth from any source. Neglect of theology on college campuses is responsible for the neglect of religion. We must have a new emphasis on theology lest we come into a

new era of dogmatism. Those were Dr. Thomas' views. They certainly apply to Alfred. Name withheld

Another fiction and fact: A mixture of sal soda, and soap dissolved in water will wash rust stains from asbestos shingles. Convinced?

California is really a great state. The latest gimmick designed to talk up the land of sunshine is a film 'Westward the Women."

Starring virile Bob Taylor and buxom Denis Darcel, movie-goers will be treated to an unusual theme Saturday night at Alumni, if they attend the show.

Roaring Robert runs through his part as if he were anxious to get the whole thing over with and get back to the more glamorous precincts of Hollywood and Vine. (The picture was filmed on location in Utah.)

Not so for some of the ladies. Outstanding as usual in a character bit is Hope Emerson. (She was the tough prison matron in "Caged"). Proving that she can match an expletive and handle a team of horses with the best of the men, La Emerson holds the story together by taking up the slack in the scarcity of enthusiasm shown by the other players.

The "200 husband-hungry girls seekleadership it was pointed out that ing a future" finally find it but not before they have been beset by indians, thirst and death. This provides the suspense but more interesting to this reviewer was the photography.

Not a little of the mood and feeling of the film is provided by the excellent background. What the plot and actors couldn't do to prove that this was truly a harrowing experience, the

Dick Glassberg: Frequent Hornell beer, and cast my vote against Ke establishments more often.

#### **Magazine Writer Attacks** Colleges for Failures

"Have the Colleges Let us Down?" by Pamela Taylor in May Madamoiselle magazine adds new fuel to the controversey which is still raging over the magazine's publication in January of "Have College Women Let Us Down" by Howard Mumford Jones.

### Senior Outlook

Several civil service jobs are being offered to college graduates.

The Naval Research Lab in Washington, D. C. is seeking physical scien-

The U. S. Civil Service needs chemists, physisist biologists and biochem-

ists to work with radioisotopes. Dean of Men Fred Gertz has detailed information.

Careers in several fire insurance companies are open to graduating seniors. Dean Gertz can supply details.

The Comstock Canning Corporation in Newark, N. Y. is seeking students for summer employment. Applicants should write to Edward S. Dixon, personnel manager.

All graduating seniors interested in applying for the Army Officers Candidate School should see Dean Gertz. If sufficient applications are received OCS tests will be given on campus. Applicants who pass the test will be enlisted in the army for a two-year hitch. Mere application for the test does not mean enlisting in the army.

May 1 has been announced as the opening date for competition in the Fullbright program for graduate ttudy overseas. The competition will run until Oct. 31 according to information hich reached local Fullbright program advisor, Dean Gertz. He has more complete information.

The Genesee District Council of the Boy Scouts of America is interested in engaging a district scout executive. The council prefers a senior graduating this June

Information may be obtained by writing to Ralph Spaulding, 3 Bank Street, LeRoy, N. Y.

The Naval Aviation Cadet Program offers to college seniors interested in aviation the best training.

Selected candidates must agree to remain on active duty for a period of lor. four years including 18 monhs of flight training. They must have 20/20 vision and agree to remain unmarried until their flight training is com-

More information may be obtained from Dean Fred Gertz.

TheCamp Unit of the New York State Employment Service acts as a clearing house for college students seeking summer empoyment.

For Camp positions such as directors, counselors and life guards, information may be obtained from 1 East 19 St., New York 3, N. Y.

Resort jobs such as clerks, managers, hostesses and kitchen help may be investigated by wriing to 40 East 59 St., New York, 22, N. Y.

#### Hillel Elects New Officers Saturday

Election of officers was the main item of business at Saturday's Hillel Club meeting. The results of the "openair" voting are: Dawn Elkins, president; Mort Pinks, vice president; Jerry Goldberg, treasurer, Mort Floch, public relations; Leon Ablon, programing; Stan Schwartz and Pete Rosen berg, religious committee.

More details were announced on the club's dance, to be held on May 10 Social Hall is the place, and \$.75 for couples and \$.40 for stags are the prices. Refreshments and entertainment are promised, although entertainment will not come from the faculty as originally reported.

The Jones article inspired a Radnewspapers, radio broadcasts and ma-newspapers, radio broadcasts and ma-the public and often draw a large attendance of upperclassmen. girls and colleges all over the coun-

In the current issue of Madamoiselle the colleges themselves are taken to task by the magazine's readers and by Mrs. Taylor, a Bryn Mawr alumna, who, with three children in college, has a special stake in describing the problems and prescribing some cures.

Caution and the Dead

Roughly one out of every three letters from college readers received by Madamoiselle blames the college system for what Jones had called "the withering away of intellectual adventure." Teachers are indicted for "overcautious attitudes,, and for failing to "establish in the student's mind any rapport between her studies and her

Parents as well as educators come 'have unwittingly brought us up to worships false gods, have set before us totally distorted standards that quash individuality and healthy mental development." One young woman writes: 'In general, the American colleges... fail their women undergraduates in the most important function of all -they do not teach them to think."

Mrs. Taylor's point of view on colleges today is that they provide "a natural climate" only for the small minority of girls who are aiming for a profession, and the born scholars. In the jumble of academic courses "the colleges have let down the great majority who will work after graduation, deal with people, marry, have children, take part in the civic life of their community. They have failed to relate to living what they teach."

Dozing in the Class

What the college woman needs to led there for the occasion. meet the complicated demands of present day life, to achieve emotional and personal independence, is direct guidance from qualified teachers in their discussing "Parents, Students. Professocial life and on social issues.

"But in far too many classrooms the professor still lectures endlessly, while unanswered questions and misunder- Sr., Dr. Roland Warren, and Prof Henmind and blocks by just so much more the possibility that she will carry much away with her," says Mrs. Tay-

#### Sports Sidelights-

By John Denero

Possible platform plank in coming election: "State Constabulary Forces Clean Up Alfred Vice Ring." 'Pinballology Stopped At Educational Institution; Provided Too Much Recreation For Inmates.'

The heads plunger addicts bowed in not-so-si-

lent grief, as they watched the State's Estes Kefauvers confiscate the tools of Estes Kefauvers confiscate the tools of their belover pastime.

Into The Valley of Death But the invasion met with fierce and vociferous resistance on the part of some of the devotees of this enlightening sport. One erstwhile member of the community of long and respected standing around the Alfred grounds begged to be allowed to finish his game, even as the machine was snatched away virtually under his eager finger. One student almost engaged in more direct physical action against the trooper who suddenly and forcibly relieved him of his position, before he realized that he was tangling with the law. There were others who

Alfred's first-love sport is dead. And with it has gone one of the greatest opportunities for participation in individual sports on campus.

No Joy In Mudville

I wonder now many of you have found yourself in this type of situation...You've just had a lab of some sort or a tough class and you feel a little tired with school work in general. Things didn't work out too well for you. You spilled your titration or left out a couple of lines in your term paper and you have to do it over again. Well, you feel down right miserable and you want to work off a little steam.

How to relieve the tension? Golf? Impossible, no way to get to the course. Bowling? Out of season or the alleys are taken by registered leagues. Tennis? Almost impossible to get on the courts. Pinball machine? That alternative is gone also. Possible solution drive your fist through a wall or "go down the road."

Seriously speaking, we lack the facilities for individual sports competition. Competition that is needed to break the monotony of school life, erative work program, development and in some cases to remve a little in state universities with particulines may sound like devices of the devil to lure money away from the students, but they are a device that lege, work-scholarshhip programs. can be used for an escape from tension and frustrations that may develop in students. People love to bat something Ag-Tech director of student personaround that can't kick back. Some nel is in charge of arrangements. thing in the order of Al Capp's "Kig-

Financially speaking, which seems to be the way most people are talking nowadays, pinball machines are good moneymaking gadgets. A machine of this type can make for a proprietor anywhere from \$40 to \$100 a week. My folks own a restaurant and I know what a machine of this type can take in. In a situation like we have here I think a larger profit could be made. Suppose the University or the Union Board were to procure a couple of the machines. (I'm sure the STATE wouldn't mind an educational institution having a couple to help finance a few tennis courts.) There is certainly enough room in the Union to house a couple of the "Evil" devices. I understand that out in Nevada some of the gambling revenue gives some of the institutions of higher learning the best fotball teams money can buy.

Water Water Everywhere Perhaps having pinball machines around isn't the best of ideas, but the fact remains that additional recreational facilities are needed here at Alfred University. Just take a moment and think about this .... It's Friday afternoon and your work is done. what is there to do? It's Tuesday even ing and you have just finished your work ... what is there to do? Or perhaps it's a beautiful Sunday afternoon...the same question. Perhaps you get the idea.

#### Snyder Places Fourth in Two Mile Event at Penn Relays

Friday, Harold Snyder, Les Goble, Bob Corson, Keith Tindall, and John Morgan represented Alfred at the Penn Relays. Snyder, running for the first time against some of the nation's top-flight competition, placed fourth out of 42 starters in the

The race was won by Fred Shea of Army in 9:33.5. Snyder's time for the distance as 9:46.5. Shea is, under ordinary circumstances, a nine-minute

The runners plowed through ankledeep mud, and the times show the poor running conditions. Lamonth Smith of Penn State took second place, followed by John Johnson of St. Johns. Snyder was fourth and William Ireland of Syracuse was fifth.

With a split decision of a hairline finish, the Saxon relay team of Goble, Corson, Tindall and Morgan placed second to LaSalle College of Philadelphia with identical times of 3:30.4. Goble ran his quarter leg of the relay in 50.6 seconds, one of the fastest times of the day.

Ohio Wesleyan took third place and Hampton and Rutgers took fourth and fifth respectively. Catholic Universi-Franklin and Marshall, Howard, and North Carolina also ran.

Saturday, the team competed in the Mid-Atlantics Track and Field Association Mile Relay Championship race. The Saxon legmen won the trials which were run in two heats. LaSalle won the other set of trials and in the evening went on to beat the Saxons wih a time of 3:28.9.

Alfred's time for the same event was 3:32.0. Franklin and Marshall placed third, Albright College fourth and Washington College fifth. Nineteen schools ran in this event.

#### **AT** Guidance Confab Slated

The Ag-Techh Guidance Advisory Committee will discuss problems of admission procedures, curriculum dewelopment, orientation, student activities, financial assistance and similar problems at a meeting here on May 6.

The committe is composed of secondary school principals, directors of guidance, and classroom teachers.

Subjects included oin the agenda are: curriculum planning, a cooppaunch that may have developed dur- ar emphasis on institutes, financial ing the winter months. Pinball mach- help to needy students, psychological and aptitude tests, relationship between high school couselors and col-

Luncheon will be served in the Institute dining room. Milo Van Hall

#### Saxon Netmen Suffer Second Loss to Bulls

by Marty Stern Bob Mass

Buffalo, riding the crest of a 28 match winning streak, defeated Alfred tennismen Saturday 8-1.

Dick Riley, runner-up in the New York State junior championship, downed Marty Stern in a closely contested match 6-3, 7-5, while Bob Mass, Alfred's second man, playing erratic tennis, was defeated by Bob Scammura 6-4, 6-2.

"Shorty" Miller, playing some of the best tennis of his career, came from behind to vanquish Jim Hodan 1-6, 9-7, 6-4, for the only Alfred victory of the Creighton know right away, so that day. Herb Shindler and Steve Grossman lost to Gene Barnett, and Don Miler 6-2, 6-3, and 12-10, 6-3 respectively, Vern, (when in doubt, call 'em out) Fitzgerald lost to Ben Celnicker

Stern and Mass, playing consistently further information. poor tennis, lost their sixth consecutive match of the season to Riley and Scaextended Beary and Castle while los-ing 4-6, 6-3, 8-6. Harry Nagan and first time this year, were defeated by Gene Barnett and Joe Dicarlo 6-4, 6-2.

The decisive victory of the Buffalo squad was not indicative of the Saxon's strength in the many well played matches. Coach Jay ("Can't we even win a set") McWilliams summed up the fiasco in these words: "No comment."

Wednesday, April 30, the Saxons will see Hobart College across the net. Last year the Saxons downed the Statesmen twice 7-2 and 6-3.

#### **Rood Attends Inauguration**

Dr. Wayne Rood of the School of Theology represented Alfred University at the inauguration of the new president of Salem College in Salem, W. Va., recently.

The new president, Dr. Duane K. Hurley, and Dr. Rood were classmates from second grade through college. Both are alumni of Salem College.

Campus Interviews on Cigarette Tests

Poor guy was submerged in a veritable sea of cigarette tests! He didn't know whether he should "blow"-or just jettison the whole job! But he fathomed the matter when he suddenly realized that cigarette mildness can't be judged in one quick spout! Millions of smokers have found, too, there's a thorough cigarette test!

It's the sensible test ... the 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke - on a day-after-day, pack-after-pack basis. No snap judgments! Once you've tried Camels in your "T-Zone" (T for Throat, T for Taste), you'll see why . . .

Camel leads all other brands by billions
