New Email Information Security Procedures Coming Soon!

In Spring semester 2019, ITS enrolled all students in email Multifactor Authentication (MFA)

During the week of November 11th through the 15th, ITS will be implementing email Multifactor Authentication (MFA) for all non-faculty employees. Multifactor Authentication (MFA) is a significant deterrent to unauthorized email access...even when the password has been compromised. MFA is often described as "Something you know, and something you own." The something you know is the password portion ...and in our particular case, something you own will be a mobile phone number.

Here is how Multifactor Authentication will work for Alfred University: During the week of November 11th, we will push 50-75 staff members each day through the enrollment process. During the enrollment process, staff will be redirected to a Web page that will require them to register a mobile number where they can receive a call, text or notification to a phone based authenticator application (perhaps the easiest method of MFA). The enrollment process will take only a few minutes and will require that the employee have their mobile phones available on the day of enrollment. After they have registered that phone, they will be sent a call, text message or authenticator application notification whenever they login from off-campus. If an employee is on-campus, there will be no need for an additional authentication (other than the password).

The entire process is similar to the way banks secure login attempts to Online banking sites. If you would like to beat the week of November 11th rush, please feel free to pre-enroll at:

<https://my.alfred.edu/inf...>

If you have any questions, please feel free to contact the ITS Helpdesk at 871-2222 or helpdesk@alfred.edu.

Artist in Residence: Evan Bobrow

Date: November 11- 15, 2019

Location: The Institute for Electronic Arts

Sponsored by: The Institute for Electronic Arts / NYSCA / Schein-Joseph Endowment

Evan Bobrow grew up in Rochester, NY. He holds a BA in Architecture with dual minors in Design and Computer Science from Washington University in St. Louis. The primary focus in his work is the intersection between quantitative study and emotional experience. Drawing from technical aesthetics, including user manuals, city plans, and blueprints, Bobrow uses these sources to legitimize the subject matter, or to explore a concept more deeply through technical practices. His recent exhibitions include, Year End Show, Washington University in St. Louis, Hedge, Contemporary Art Museum of St. Louis, Spectroplexus, Lambert International Airport and Transcription Beta and Digital Evolutions at Washington University in St. Louis. He recently was artist in residence at Main Street Arts, Clifton Springs, NY.

The Institute for Electronic Art's Experimental Projects Residency is supported by the New York State Council on the Arts with the support of Governor Andrew M. Cuomo and the New York State Legislature and the Schein-Joseph Endowment.

Women and Gender Studies Rountable

Tuesday, November 12, 3:30-4:30PM

Seidlin Hall, Room 114

"Sex As A Weapon: The Politics of Shame"

Award-winning journalist, actor and producer Chagmion Antoine (AU, BFA 2004) will speak about her journey, as a queer woman of color, covering global violence against women in the #MeToo and Revenge Porn era.

Along the way, she will highlight her two decades of personal experience navigating the media industry.
