

Professor Chas. T. Brins,
Alfred, N. Y.

My dear Professor Brins: —

While in Alfred a week ago, I neglected to ask you about some apparatus which I am going to have in Carnegie, and now am taking the liberty of asking you by mail.

The school is purchasing a spraying outfit for my pottery department and the only thing of the sort about which I have information is the one which B. F. Drakenfeld Co. put out.

Would you advise me as to the sort of an outfit which it would be best

to purchase also where I may get it
and if possible the cost of the
outfit.

We have an electric motor which
I am sure would furnish power
for the pump as it runs our blunger
and filter press.

I regret that I failed to ask you
about it when I saw you that morning
at school and now find it necessary
to ask you for the favor of a letter.

Thanking you for your attention

I am, Sincerely yours

Paul E. Canfield.
