The Cultural Bowl

February 24th
11am-4pm
Knight Club, 3rd floor of Powell
Cost: suggested \$10
Sponsored by: Asians in America, the Institute for Cultural Unity

The Cultural Bowl will combine handmade ceramic bowls along with donated family-style meals from local community members, students, and faculty alike. Bowls will have a suggested price of \$10, which will include food donated by community members. Asians in America and the ICU are asking those in the community to help them make this event as successful as possible by attending the event to help raise funds for these charities. For further information about participating or donating, please email aia@alfred.edu and check out our Facebook page. Please look forward to February 24th! We hope to see you all there!

How To Post An Announcement On The New MyAU Portal

One change you will notice with the new MyAU portal is posting announcements.

We have combined these announcements with the Alfred Today application. This is a one stop shop

where you can post all your announcements for both my.alfred.edu and Alfred Today.

There is still no approval process for announcements that are posted to my.alfred.edu. The only approval process is for announcements posted for Alfred Today.

The attached document explains how to post announcements on the new MyAU portal.

If you have questions please contact ITS Helpdesk.

IEA Visiting Artist: Zorica Colic

March 20-24

The Institute for Electronic Arts at the School of Art and Design of the New York State College of Ceramics

Sponsored by Committee or Division: The Institute for Electronic Arts and the Division of Expanded Media

The IEA welcomes Zorica Colic of New York, NY, as our artist in residence over the week of March 20th. Zorica, who received her MFA from the Electronic Integrated Arts program of the New York State College of Ceramics at Alfred University. Zorica's work researches how contemporary life is structured and manipulated, with particular emphasis on the implications of the biopolitical management of human life. Through various hybridized forms of display, her works explore the complex relationships between politics, art and consumer worlds, examining how our lives are regulated or defined by taste, by products, and by mass-distributed role models. The goal is to identify new ways to subvert normative mass culture in order to re-contextualize images and signs that have become inflated from over-proliferation.

During her residency Zorica intends to further develop a video project titled Well-beings. These videos bring into focus a person defragmenting into commodity through the technological virtual, while investigating themes such as subtle manipulation of human emotions and behavior amidst current conditions that are hyper-mediated, and increasingly focused on self-presentation. A face no longer functions as the site of identity but rather a terrain equally inhabited by intimacy, familiarity, strangeness, and the anxiety. For her residency, Zorica plans to extend her project into a multi-channel video installation with surround sound, presenting different "heads" or "creatures" put into a conversation.

The Institute for Electronic Art's Visiting Artist Program is sponsored in part by the New York State Council on the Arts with the support of Governor Andrew Cuomo and the New York State Legislature.

Event Title: IEA Visiting Artist: Ray Ferreira

March 13-17, 2016

The Institute for Electronic Arts at the School of Art and Design of the New York State College of Ceramics

Sponsored by: The Institute for Electronic Arts and the Division of Expanded Media

Ray Ferreira, of Brooklyn, NY, will be at the Institute for Electronic Arts for an artist residency over the week of March 13th. Ray, who received his MFA from Hunter College in 2016, uses Englishes, Spanishes, and body languages to explore ways, which his body is manifested and manifests worlds, and ways his body aims to create a different ontoepistoethics. He views his texts as modular, pieces coming into and out of existence, stretching across spaces, times, and matters.

During his residency, Ray intends to explore his texts using the IEA's analog and digital tools to further explore his texts and create new mixes. He will be experimenting with what happens when the spiral goes out of control - as in different systems - exploring what happens when audiovisual textures weave in and out as the text dances around.

The Institute for Electronic Art's Visiting Artist Program is sponsored in part by the New York State Council on the Arts with the support of Governor Andrew Cuomo and the New York State Legislature.
