

Alfred Delegates Will Attend UN Model General Assembly

Every spring, Alfred University sends a delegation to the Mid Atlantic Model United Nations General Assembly. This Model Assembly is sponsored by the American Association for the U.N., which has its offices in New York City. Organized by a group of interested citizens during World War II, this organization serves as a channel for information on the U.N., and provides various activities to increase interest in the U.N. The Model Assembly is the principal aspect of the college program of the association.

Each delegation usually consists of four students and a faculty advisor. Each delegation represents a country, and the members of each delegation are supposed to

represent, as accurately as possible, the actual position in the world today of the nation being represented.

The agenda of the assembly is worked out beforehand. Every year it deals with two questions from each of the four principal committees, which are the Political Committee, the Social and Economic Committee, the Trusteeship Committee, and the Ad Hoc Committee. The latter deals with any special problem that is pertinent at the time.

Any matriculated undergraduate student is eligible to attend, including freshmen, though preference will be given to seniors and juniors who have not yet attended a session of the assembly. From

those who indicate an interest, the history department will select those who may attend. Such things as academic record, facility for oral expression, interest, and previous attendance, will be taken into consideration.

In previous year, a double delegation from Alfred has attended. It is usually made up of those who attended before, in order to give the delegation a know-how on the affairs of the assembly, and those who express a sincere interest in attending and have not yet attended.

All those interested in attending please contact Dr. David Leach in Kanakadea Hall as soon as possible and no later than November 13.

Sojourner From Germany Is Fullbright Exchange Student

by FIAT LUX Staff Member

Be ye glad, O Alfred. You have not failed in your attempts. Though it be tin and rucky, wear your crown with pride. Proof that your prime objectives have been fulfilled has been offered by Fullbright Exchange student, Gerhard Glattes.

Gerhard's first impressions of Alfred when he arrived in September of this year have not been dimmed by an extensive Orientation Week, two months of classes and active participation in a number of extra-curricular activities. He has found, and still continues to find, that the essence of Alfred lies in its Friendliness and Sociability.

But what does Gerhard miss most about his home in Essen, Germany, or more specifically, the college community of the University of Freiburg which he attended last semester? Certainly not the concern and interest of the faculty, the warmth and comradeship of his fellow students, or the quantity (though perhaps the quality) of their prime beverage.

Rather, he finds the campus wanting in a "good fight." Though as avid sports enthusiast, Gerhard directs this comment not to our men of the gridiron, but to regions a little north of Merrill Field. Not only the concepts, but the actual words, "competition," "critical an-

alysis," and "violent debate" are almost totally absent from our college atmosphere. Is it a wonder that a student exposed to no less culture and civilization than we, experiences nothing short of astonishment in observing our unique social and intellectual compatibility?

Gerhard's perception of Alfred's "A" in adjustment might be attributed to his interest in Sociology, which he has been studying along with lay at the Freiburg University. Enrolled as an upperclassman at Alfred, he is continuing his sociological studies here until June.

Gerhard has found too, that life on a small town campus can be hectic. In addition to his newly elected offices as Vice President of the International Club and Treasurer of the Sociology Club, Gerhard is invited by the Rotary Club to speak on Sundays in various churches in the area.

After Gerhard completed his month of final examinations at the Gymnasium (secondary school) in Essen at the young age of twenty, our German student, with nine years of Latin and seven years of both French and English behind him, took a room in a farmhouse outside Freiburg, registered at the University and embarked on his independent study.

Surprisingly enough, Gerhard in-

sists that he never saw so much studying in Germany, especially in the Alfred manner. Less hours for study, few short answer tests and less emphasis on memorization cancelled the necessity for libraries to open in the evening.

Gerhard likes to spend his spare time waking, cycling (which he did everyday to the Freiburg University) and participation in tennis and basketball . . . though he claims the American superiority in the latter. Most important of all, he spends every waking moment thoroughly alert, reacting to, analysing and formulating new ideas.

Nominees Chosen For Military Ball

By Doug Hughes
Eyes Right Publicity Director

A week ago Monday, a total of thirty-five women were nominated for sponsors of the Military Ball by the members of the Eyes Right Club. Individual pictures of these nominees were posted in the Men's Gym yesterday so that the Eyes Right Club members will have a chance to become familiar with those nominated. Members of the Eyes Right Club are asked to choose their favorite candidate so that they will be able to vote for the six company sponsors to be elected from the thirty-five nominees next Monday. The following week, a queen for the Ball will be elected from these company sponsors.

The Ball is open to persons not in the Eyes Right Club or of the military. The admission for these persons is \$3.50. For persons in the military, the dress is a uniform, and is formal for others. The theme of the Ball this year is The Military in Space in the Future.

A reminder — "The Brothers Karamazov" is being put on earlier the same evening as the Ball. Reduced rates for this will be available for members of the Eyes Right Club.

This Ball is planned to be the biggest and best in the eight year history of military balls on the Alfred campus. So men, start thinking about your dates now. Remember the Ball will be on November 20, from 9:00 p.m. to 1:00 a.m.

Alfred Political Science Club to Have Discussion

"Shall They Inherit The Earth" shall be the topic of discussion to be presented by the Alfred University Political Science Club on Thursday November 5, at 7:30 p.m. in Susan Hall.

The three speakers for the evening shall be Professors Rene Beausheesne, David Leach and Myron Sibley.

The speeches shall cover the impact that the underdeveloped or backward countries of the world have upon the foreign policy and ideology of the United States and the Union of the Soviet Socialist Republics. The topic is particular-

ly timely due to the war that is going on at the present time to win "ment minds."

Professor Beausheesne shall define what constitutes an underdeveloped country. He shall discuss the various techniques of developing a nation. With the use of specific examples he shall then proceed to discuss the various problems of certain nations and he will present solutions for their problems.

Following this Professor Leach will discuss the impact of these countries in relation to the foreign policy of the U.S. and the U.S.S.R. He shall present specific instances on the various changes in foreign policy of both nations with regards to specific situations. Dr. Leach shall also take into consideration the principle of "peaceful competition" that is now taking place between Soviet Russia and the U.S.

The concluding speaker shall be Professor Sibley who shall discuss the appeal of the two ideologies to the underdeveloped nations. This is important due to the fact that the nation that promises the most to an underdeveloped country shall probably gain a large number of converts to their cause.

Following the speeches a question and answer session will be held. All those interested in this vital topic are cordially invited to attend.

Greene Presents Paper at Munich

Professor Charles H. Greene, Chairman of the Department of Glass Technology, State University of New York College of Ceramics at Alfred University, presented a paper entitled: "The Rate of Solution of Oxygen Bubbles in Commercial Glasses" at the 5th International Glass Congress in Munich, Germany, on July 2, 1959.

Co-author of the paper was Ichiro Kitano of the Nippon Sheet Glass Company, Tokyo, Japan, who held a Fulbright Fellowship at Alfred during 1957-58.

Unusual Method to Be Used in the Brothers K

by Lynn Begley

Preparations for "The Brothers Karamazov," which will be presented by the Footlight Club, are now in full swing. The set for the play will be done beyond the "expressionistic" method. Constructivism is an anti-realistic technique creating a two-dimensional set, just suggesting outlines to the audience. This puts the responsibility of bringing out the depth of the play on the actors. Constructivism was first employed by Myerhold, a director in the Moscow Art Theater, approximately forty years ago.

The other technical aspects of the play are also being worked out.

The various props are being gathered, and experimenting with makeup for the numerous character parts has begun. A special type of lighting will be used to produce a shadow effect. The sound cues and music for the play are being taped from records and period costumes are being made.

Performances of "The Brothers Karamazov" will be held on November 20 and 21. As a tie-in with the Military Ball, November 20, the Footlight Club will have special rates for Eyes-Right couples, and the play will begin at 7 p.m. For the Saturday night performance curtain time will be at 8:15.

Kurt Ekdahl Gives Talk On Ideas Behind Design

At the monthly meeting of the Alfred University chapter of the American Association of University Professors held on Thursday, October 21, Professor Kurt Ekdahl, associate professor of techtonic design at the College of Ceramics, presented a speech on the teaching method of design.

Professor Ekdahl began his talk with a statement of the esthetic philosophy of three-dimensional art, showing how some societies conceived space as something enclosed while others, such as our, conceive it as an openness.

Herein, then, lies a principle of design. Some works of art are decorative only, and do not ex-

emplify clearly a design principle. Others are abstract, exemplifying the principle but not representing any real object.

Design, he said, can be applied to utilitarian objects like a chair. But a chair can be entirely esthetic rather than utilitarian and still satisfy the intuitive, creative impulse of the artist.

Professor Ekdahl's talk was illustrated by a number of art objects which provoked considerable interest and a number of questions from the AAUP members.

Luke M. Smith, chairman of the department of sociology of the College of Liberal Arts, is the current vice-president of the Alfred chapter of the AAUP.

Left, Glen Van Ingen, Dimitri Karanazov. Right, Roy Glessberg, Smerdyakov.

The Why and The Wherefores Of Fraternity Rushing Period

By Jim Rabinowitz, I.F.C. Publicity Director

Now that rushing has officially begun, I would like to take this opportunity to introduce myself. I am Jim Rabinowitz, the Publicity Director of the Interfraternity Council. For the next few weeks this column will be appearing in the Fiat Lux. Its basic purposes are to keep all eligible men well informed on fraternity policies and to familiarize everyone with the fraternity system at Alfred. To do this in the best way possible I would like to ask all men concerned who have questions pertinent to the fraternity system at Alfred to address them to me, in care of Box 1362. With the aid of other members of the council, I will do my best to answer these questions fully and without bias.

The Fraternity Criteria as stated by the Interfraternity Conference advises that the obligation of all fraternities is to encourage the most complete personal development of its members, intellectually, physically and socially. These are the obligations and indeed the aims of all the fraternities on the Alfred campus.

Which of these are most important? This is a question that can only be answered by the individual. For no apparent reason I will

begin with the social aspect.

It is obvious to all of you now that Alfred is a small town with very few social outlets. The major social events on campus are few and far between. Therefore the individual must rely on the fraternities for a social outlet. The fraternities provide a relaxed but lively social atmosphere. The houses provide a place for everything from dating in on a Friday night to a cocktail party before and/or after most university functions. These are the things that no place else on campus can provide. These parties often provide a different atmosphere than can be obtained at no place other than a fraternity house. The varied themes of these festive occasions are Hawaii, The Gay Nineties, Playboy, Shipwreck and Pook (??), just to name a few.

Next week I will attempt to deal with the physical and intellectual aims of the fraternities. The latter is surely the most important for we are enrolled at Alfred University basically for intellectual pursuits.

In closing I would like to recommend emphatically that all eligible men visit all houses before making any final decision.

Goldfish Bowl . . .

The bewitching season opened as spooks, flappers and Charlie Weaver invaded the Alfred campus this weekend.

Hillel

A Hillel meeting will be held Sunday, November 8, at 4:00 in Alumni Hall, Room 2. At the meeting Ruth Silverman and Elihc Massel will speak on "The Hillel Institute" and Gail Chasin will speak on her "Visit to Israel".

This Could Cost Money!

It is necessary that all motor vehicles be registered at Mr. Fred Palmer's Office. It is also necessary that all tickets for parking violations, etc., be reported to this office. Failure to comply with these rules may mean a \$10.00 fine. This rule will be enforced!

"A work that aspires, however humbly, to the condition of art should carry its justification in every line."

—Joseph Conrad

Landing To Be Held On Friday

The Marine Officer Selection Team will be located in the Alfred Student Union from 10:00 a.m. to 2:00 p.m. on November 6. Captain Edward J. Rochford, Marine Officer Selection Officer, will be present at that time to discuss the Marine Commissioned Officer Programs available to college students, and to interview interested applicants.

Captain Rochford points out that all Marine training for undergraduate programs, both round and aviation, is scheduled to take place during the summer, resulting in no academic interference. Students who successfully complete this training will be commissioned Second Lieutenants in the United States Marine Corps upon graduation, and will be ordered to active duty for a period of three years.

To the Alfred Student Body:
Thank you for your overwhelming response.

Center Shall Commence Activities this February

Alfred University's new \$550,000 Student Center is rapidly nearing completion. It is scheduled to open early in February, replacing

the present temporary structure which is serving as a Union.

The Center is located on State Street, on the site of the former Kenyon Hall, facing the Herrick Memorial Library. The new Center has three floors: a ground floor, main floor, and second floor. A student lounge will be located on the main floor. The Parents' Association has launched a drive to raise \$20,000 to furnish the lounge.

A Television Lounge and Music Room equipped with stereophonic sound will be available to all students for their pleasure and relaxation. Included on the main floor will be student and faculty dining rooms, with seating facilities for one hundred and fifty. Spacious picture windows will overlook the campus.

On the second floor will be a large meeting room facing Herrick Library. There will also be two smaller, private meeting rooms, and an office to be used by various student organizations.

The ground or basement floor will include offices for the Fiat and Kanakadea, and a darkroom for use of both publications. A large-size game room will also be located on this floor.

Speaker

On Thursday evening, November 12, Dr. Natalie Renner, professor of physics will speak at Howell Hall. Dr. Renner is being sponsored by the European universities. Further details will be given in next week's FIAT.

Dr. Johnson turns another elegant phrase:

*Sir, if it hasn't got it there,
it hasn't got it!*

Old Dr. Sam has done it again—brought his dictionary up to date in terms of modern Winston usage.

Winston (win'ston), n. A cigarette with Filter-Blend on one end and a wise man on the other.

Taste (tast), n. What decorators argue about and Winston smokers enjoy.

Filter-Blend (fil'ter-blend), n. A happy marriage of art and science. Light, mild, flavorful tobaccos are artfully selected, then scientifically processed for filter smoking.

Slogan (slo'gan), n. (e.g., Winston tastes good like a cigarette should). A statement of disputed grammar but unquestioned fact.

Front (frunt), n. (used in conjunction with the preposition "up"). The section of a filter cigarette where if it hasn't got it, it hasn't got it. Also, the section that counts, the section where exclusive Filter-Blend is to be found.

Boswell (boz'wel). Nickname for a guy who is always hanging around to cadge Winstons from you.

*"There is nothing which has yet been contrived by man
by which so much happiness is produced . . ."*

Boswell's Life of Dr. Johnson, Vol. 1, Page 620

Saxons Slide to Sixth Setback; Frosh Gridmen Defeat Ithaca 9-0; Record 2-0

by Eric Harrison

In a football game that resembled a 3-Ring Circus, Alfred bowed to Ithaca 30-0 on the winner's field. The entire game was played in a driving downpour and on a mud-filled gridiron. Alfred end, quarterback and halfback Dick DeMott broke his arm late in the second quarter.

Alfred won the toss and elected to kickoff, defending the south goal. Joe Yannuzzi kicked the ball to Jerry Neufang, who took it on the goal line and returned it to his own 28. Following four running plays which brought the ball to the Saxon 43, Neufang scampered into the "Promised Land" on the next play. John Guinan kicked the point, and the Bombers led 7-0. Falcigno took the kickoff out to the Alfred 40, and on third down, after two line bucks availed the visitors nothing, DeMott kicked Ithaca back to their own 26. On the next play from scrimmage, left half Jimmy Bradshaw fumbled and Alfred recovered on the 27. On fourth down, with the ball on the 30, Lopez faded back to his left; he spotted Steve Crossman at the line of scrimmage with an open field and blockers in front of him. However the ball slipped off Lopez's fingers and fell incomplete, ending the scoring threat. The rest of the quarter saw both teams wallow in the mud, unable to score.

The second quarter opened with Ithaca in possession of the ball on the Alfred 38. Two plays moved the ball to the 31, and then Bradshaw chalked up another tally bursting through the center of the line and outrunning the Alfred secondary. Guinan again kicked the point, giving the Bombers a 14 point advantage. Midway through the quarter Ithaca began another drive from their own 41. Chiefly on the power running of Neufang and Bradshaw they advanced to the Alfred 3. On the next play fullback Al Cain fumbled and the Saxons recovered. The Purple and Gold decide to play "I don't want it, you can have it." On the ensuing play, Steve Kelley fumbled, and Ithaca recovered on the 3. Cain then burst into the

end zone, making the score 20-0. Moments later Guinan added the point. Near the end of the half Ithaca threatened again, penetrating as far as the Alfred 15. But the Saxon forward wall stiffened, and the half ended with the score Ithaca 21—Alfred 0.

Ithaca received the second half kickoff, and moved to the Alfred 29. Jim Kornish then intercepted a pass thrown by Bobby Ryan on the 25, squelching the Bomber threat. Four plays later the Saxons were back on their own 16. They went into punt formation with Kelley as deep man. The pass from center was high, and sailed over his head into the end zone where he fell on it, averting a touchdown, but giving Ithaca a safety and a 230 lead. The quarter ended with no further scoring.

Ithaca scored once more in the final quarter. With 11 minutes left in the game halfback Bob Valesente rambled 38 yards for the Bombers' final tally. This time Benny

Morselli kicked the point. The

game ended with Alfred in possession of the ball on their own 45.

Dick DeMott has been playing ever since the Hobart game with an injured right hand. Yesterday, while throwing a block, he broke the arm. It will be a great blow to the Saxons' hopes against Brockport next week in the season's finale. The versatile junior has been an Alfred stalwart all year.

An outstanding feature of an otherwise poor ball game was the "birth of a fullback" — "Teddy Bear" Pagan. Late in the game "Teddy Bear" went into the game at fullback. He carried the ball once for a six yard advance. This rush puts Pagan in the top ten runners in the country for average yards per carry.

Alfred's Freshman Football team won its second game in as many tries last Saturday night, defeating Ithaca's Frosh 9-0 at Merrill Field. The offensive and defensive work of Joe Renwick, and the running of Tom MacVittie, along with Dave Lutsic's 20 yard field goal were the outstanding individual performances for the Saxons.

Operating against three full units, the men of DuBreuil played a fine and hard fighting ball game, moving at will for large gains throughout the first half. They tired in the second half, but pass interceptions by Renwick stalled many an Ithaca drive.

Lutsic kicked his field goal early in the game after the Saxon attack stalled on the visitor's 20. The ball almost cleared the fieldhouse

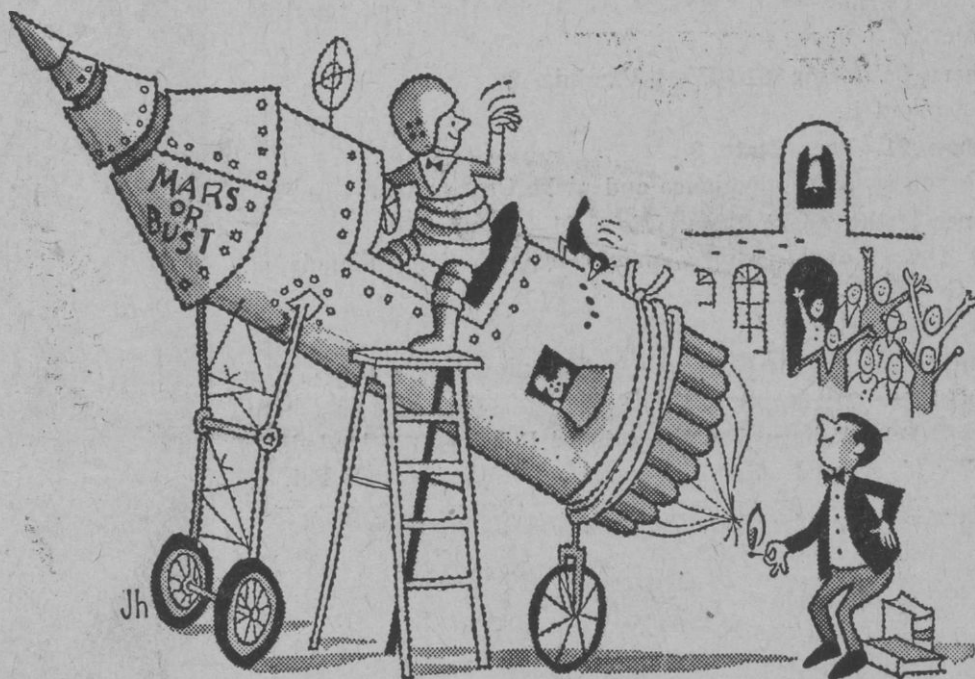

roof. Midway through the next quarter the tremendous running of MacVittie brought the ball to the Bombers 10. Following a three yard loss, Bob Preston skirted 13 yards for a touchdown. The extra point failed, as a running play was stopped short of the goal line. The half ended with Alfred holding a 9-0 lead.

In the second half, time and time again, Ithaca drove into Saxon territory. However each time they seemed ready to score, recovered fumbles or interceptions by Renwick stalled them. A rock-ribbed Purple and Gold line also deserves much credit. It was truly a team victory.

Next week the undefeated Frosh journey to Rochester to take on the Yellowjacket Frosh.

Do You Think for Yourself?

(TEST YOUR WITS ON THESE QUESTIONS*)

The statement "Experience is the best teacher" is (A) the faculty's confession of failure; (B) a dogmatic way of saying you can learn by doing; (C) an excuse for trying anything once.

A ☐ B ☐ C ☐

If someone called you a beatnik, would you (A) insult him right back? (B) ask him if he knows what a beatnik really is? (C) thank him for the compliment?

A ☐ B ☐ C ☐

If you saw a dinosaur roaming around the campus, would you say, (A) "Big, ain't he?" or (B) "Where's the movie playing?" or (C) "This place is sure out of date!"

A ☐ B ☐ C ☐

Do you base your choice of a cigarette mostly on (A) what your friends say they like? (B) what your own judgment tells you is best? (C) what the makers say about their product?

A ☐ B ☐ C ☐

It's a wise smoker who depends on his own judgment, not opinions of others, in his choice of cigarettes. That is why men and women who think for themselves usually smoke Viceroy. They know only

Viceroy has a thinking man's filter — the best filter of its kind ever developed . . . the filter that changed America's smoking habits. And only Viceroy has a smoking man's taste.

*If you checked (B) on three out of four of these questions, you're a high-test character — you think for yourself!

Familiar pack or crush-proof box.

The Man Who Thinks for Himself Knows — ONLY VICEROY HAS A THINKING MAN'S FILTER...A SMOKING MAN'S TASTE!

Finnerty 1st, Sweet 2nd In Canisius Invitational

by Stu Kellerman

Last Saturday, Alfred's Frank Finnerty won the Canisius College annual Invitation Cross Country meet for the second time by breaking the record he set last year. Though hampered by rain, he covered the 4.7 mile Delaware Park course in 23:12, knocking 19 seconds off his old record of 23:31.

Finnerty leading all the way, finished 75 yards in front of teammate Larry Sweet. Alfred's other members of the top ten finishers were Joe DiCamillo and Carl Blanchard, placing 6th and 7th respectively.

The big surprise of the meet was Cobleskill's upset over a highly favored Alfred squad. Cobleskill won the team title with 37 points, followed by Alfred with 39, and O. A.C. with 98.

In the freshman meet, Bob Lewcowitz of Alfred came within one second of equalling Sweet's course record, touring the 2.9 mile course in 14:41. Alfred was edged out of a frosh victory by Buffalo State, a team they tied in their only previous encounter this year. Buffalo State's frosh harriers took the team title with 26 points, followed by Alfred with 61.

Next Saturday, Alfred's harriers will be entered in the New York State Cross Country Championship at Terra Cotta Field. The whole student body should come out to watch the favored Alfred squad try to regain the title they lost last year.

VARSITY RUNNERS
