### Flu Season

Flu season is in full swing and, unfortunately, most of us know someone who has had the Flu already this year. Here are some prevention tips from the CDC to help you stay healthy:

Get the Flu vaccine.

Cover your nose and mouth with a tissue when you cough or sneeze. Throw the tissue in the trash after you use it, don't recycle and re-use it.

Wash your hands often with soap and water. If soap and water are not available, use an alcohol-based hand rub.

Avoid touching your eyes, nose and mouth. Germs spread this way.

Try to avoid close contact with sick people.

If you are sick with flu-like illness, CDC recommends that you stay home for at least 24 hours after your fever is gone except to get medical care or for other necessities. (Your fever should be gone without the use of a fever-reducing medicine.)

While sick, limit contact with others as much as possible to keep from infecting them.

Flu-like symptoms include fever, cough, sore throat, runny or stuffy nose, body aches, headache, chills and fatigue. Some people also may have vomiting and diarrhea. People may be infected with the flu, and have respiratory symptoms without a fever.

For more information go to [www.cdc.gov/flu](http://www.cdc.gov/flu) or [www.flu.gov](http://www.flu.gov)
