# Less Than 48 Hours Remain Until St. Pat Begins

# **Students To Vote For** Senate, Class Heads

# Candidates For Senate To Speak This Morning

Local politicians went into action this week as elections for Senate president and class officers were scheduled for tomorrow. In what looks like a closely contested race for possession of the Senate gavel five candidates have announced their intentions to run.

Grand Opening

Of Union Upped

With work, progressing less rapidly

than expected, the Grand Opening of the Campus Union, scheduled for to-

morrow night, has been postponed until Sunday from 8 to 11 p.m. Featured

in the evening's entertainment will be

a variety of student talent, including

delivered in time for the opening, but

borrowed furniture will be used until

tions has been changed with the re-

vision of the Union Constitution. Va-

cancies have been previously filled at general elections by an all campus

vote, with several candidates for each

Under the revised method, as stated

in the Constitution, "The Board of Di-

rectors shall serve as a nominating

committee, and two weeks prior to

the campus elections, shall present

to the active members of the Campus

Union (all students and staff members) a panel of candidates who have

demonstrated interest and ability. The

panel shall contain the number of

names necessary to fill the Board. Ad-

ditional nominations may be made by

petition of 10% of the electorate

Voting will not take place at the

campus election tomorrow because of

the lack of time. The panel of can-

didates will be presented in the near

man Stanton Garr '51, "that its mem-

bers should be chosen on the basis of ability and interest in the Union and

familiar with the duties and respon-

qualified to suggest successors than

are those unacquainted with the job."

Nevertheless, students will not de-

representatives or to make nomina-

"The Board feels," explained Chair-

future, however.

The system of Union Board elec-

it arrives.

Voting will be held from 9 a.m., unp.m., Wednesday in Firemens Hall. Students will again use the voting machine in casting their ballots as in previous years. All candidates have urged students to excerise their privilege to vote.

The five candidates, for the Senate presidency are: Paul Baker, William Gallow, Matthew Melko, Audrey Reiss and Robert Steilen, all '51, will nail final planks in their campaign platforms at an assembly to be held at 11 a.m., today in Alumni Hall.

One of the candidates, in urging all students to vote said, "Vote according to your convictions, but be sure to vote. Remember, you will elect the person who will head YOUR Senate

for the next year."

An amendment to the Senate constitution, was necessary to enable candidate Steilen to run. The amendment now makes it possible for transfer students from Jamestown to compete in the campaign. (see Senate story on page 3.)

Union Board Although students will not actually select new members of the Union Board, they will cast their approval dissapproval of the selection of six new members made by the present Union Board. The board will assemble tonight to select two faculty members, two Ag-Tech and two ceramic students to replace six members whose terms expire this year. If one third of the voters veto the selection of any candidate he will not be placed on the board, according to Stan Garr '51, present board chairman.

Class Of '51
In the competition for presidency of next year's senior class Val Clute, McMahon, Thomas Myers and Robert Steilen will vie for election. Candidates for vice president are Katherine Cretekos, Edward Giess, Alice Schulmiester and William Span-

Running for secretary of the next year's senior class are: Dorothy Brion, Ruth Harding, Roger Jones and Barbara LaVan. In the competition for treasurer are: Albert Clark, and Norman Schoenfeld.

Class Of '52 The candidates nominated to lead sibilities of the Board, are better the class of '52 are Donald Boulton, and Daid Pixley.

### Swedish Professor To Lecture Today On Solid Reactions

The Director of the Institute for silcate-chemistry Research in Gote-borg Sweden, Professor J.A. Hedvall, will lecture on "Solid State Reactions and Ceramics" this afternoon in Merrill Hall. It will be the second of three lectures delivered by the Swedish professor who is currently embarking on a lecture tour, which will take him to

From 4-6 p.m., tomorrow, Prof. Hed vall will attend an Informal Reception at the Ceramic Library. Last evening he lectured on "Reactivity of Solids-Scientific Problems and technical Applications."

Professor Hedvall has contributed chiefly to the field of chemical reactivity of solid phases. He was the first to demonstrate the capacity for interaction between solid non-metallic substances. He has also a new species of chemical reactivity which has been called the "Hedvall Effect."

### Alpha Phi To Hold Meeting Tuesday

# Engineers' Patron Saint, Pat, Arrives Annually Somehow From Somewhere

The tradition that binds Alfred University's St. Pat's Festival into a gala tribute to the patron saint of engineers may be credited to its founder, Major E. Holmes, former dean of the College of Ceramics. Dean Holmes, who succeeded Director Charles F. Binns, was a scientist who came to the campus emphasizing everything but culture. "You've got to know more science, be more observant" was his

Seemingly incongruous, therefore, was the annual St. Pat's Festival. Some say that Dean Holmes, who brought the idea from Rollo, Mo. in All men on campus interested in 1933, wanted St. Pat's to be a concentrated period of relaxation-but

"Let them lampoon the faculty and get it out of their systems," he once said.

Bostwick's balcony on Main Street. There is general disregard for anything academic except the College of Ceramics open house which comes on the first day of the Festival. Scope of this feature is being expanded yearly and it furnishes an opporunity for the College to display its wares to industrialists and high school students from a wide radius.

The ceramic overtones which Dean Holmes sought also come in the 2000odd hours which Board members put producing ceramic souvenirs which have varied from brick paper weights to, this year, elaborate greenglazed engineer boots which may serve as vases or book ends.

The legend continues with Dean "big." A large man himself, he pressed as enthusiastically as a freshman coed for a "name" band. The fact that,

## You Tell Us

Fiat has a problem. We will explain the situation to our readers tion through, concerning exclusively and maybe they can figure it out.

The Raving Reporter started to do his column last week based on the question, "Who is your favorite professor and why?" Nobody would answer. Why? We wonder, too.

Some people said they would be accused of apple polishing. That sounds valid. Others said that their other professors might feel Hanau DP camp. On March 23, slighted. Some people felt they would have to name one person or another because of some personal reason such as failing that prof's and do not expect any work assurance

That was such a simple question; we had no ulterior motive in asking it. But as it turned out, from the indications made by some of the answers received, we were jeopardizing the scholastic status of the persons quizzed.

It strikes us that there is something wrong with this general attitude. Twenty-two people out of twenty-two refused to answer this question. Other schools do not have this problem; the same question has been used in other papers with good results.

There must be some fault somewhere, either with the students or the faculty, for such a feeling to prevail. Have the students become so mercenary that they can not give an honest opinion but must weigh the "what's in it for me" value. Are the professors unable to take praise or blame when criticisms are valid? Think about heresay evidence and hysterical init. We frankly don't know what it means.

## To Be Or Not To Be

Here we go again! Twice, now, the United States has been space to give you the details of the caught unprepared for war and now it's happening again with Secretary of Defense Louis Johnson's new budget.

The New York Herald Tribune's, StewartAlsop summed up the whole situation in his "Matter of Fact" column, Friday. Alsop pointed out that Johnson's recent official statement said that "Navy strength has been increased by three attack carriers, three carrier air groups, one cruiser, and one battleship is reduced commission." The ordinary newspaper reader assumes that because the Secretary of Defense says so, the Navy must be getting stronger. The truth is the exact dence in a sane manner before passing judgment.

"Navy strength has in fact been decreased, on the basis of actual strength-in-being in 1949, by one heavy carrier, five cruisers, and one battleship reduced from combat to training status. And aside from these categories specifically named by Johnson, Navy strength had been whittled away all along the line-from thirty patrol groups to twenty, from fourteen air attack groups to nine, from twenty-three peared in the Fiat of Feb. 28. I am Marine fighter squadrons to twelve, from 155 destroyers to 140 and deeply concerned by this statement so on indefinitely."

The reason for this indiscrepancy is that Secretary Johnson's figures are based on "rough and inflated estimates made by the military departments on August 1,' of the combat reductions which the Johnsonian economies would enforce." By this reasoning, the battleship tions are efficiently proctored; stu-Missouri would be added to the Navy strength even though she will dents can and should report cheating be reduced from a battleship to a training ship.

"Everywhere the pattern repeats itself. As "Life" magazine tection of grades should. Alfred students are the pattern repeats itself. pointed out, The Navy's vast mothball fleet is going to rust and ruin to me illogically, against an honor although a few million dollars a year would keep up all the first-wave system. I am inclined to believe that ships that would be needed in the first twelve-months of a war." ries with it such a system. Should a war occur, the country will be asked to buy itself a new defense system—"infinitely the most costly, and the most dangerous way to rearm."

Oh, well, three times and out.

Has anyone noticed what a cross-section of interests are represented by the Senate president candidates this year? There are vets United World Federalists "can get and non-vets, men and women, Ag-Tech, University and Jamestown Extension and all representing varying backgrounds of experience for this prediction. Fortunately it is and ability. Voters will have to give careful thought in making their selection when they cast their votes tomorrow.

Letters To The Editor

D. P. Student Coming Here Next Year

Writes Autobiography Editor's note: This is the autobiography of the D.P. students selected by Dean H. O. Burdick to enter the College of Liberal Arts next Fall.

I, Viktoras-Benjaminas Mieliulis, Lithuania, was born Oct. 20, 1926 in Jurbarkas, Lithuania. My father, who died 20 years ago, was a leader of a church choir. On June 15, 1939 I absolved the primary school in Taurage (The country I was living in after my father's death.) Since that time I did not learn at any other school. I lived with my aunt in a village near Taurage.

On July 1944, I with my mother and four brothers left Lithuania and came tory, Deutsche Dunlop A.G., as simple workers. Each member of our family gained 30 RM a month. We have been provisioned by a collective kitchen, (It was a big foreigner camp.)

On March 28, 1945, when American forces had occupied the surroundings of Hanau, Germans carried an evacuathe foreigners. I was wounded. I was taken to the hospital in Grossauheim, which was established in the same days when American forces came. At this hospital, I was until June 27,

On August 1945, I entered the second class of the secondary school in passed my Matura. Now, I am working as secretary at the camp police office to USA, for I have neither relatives nor acquaintances there.

(Signed) Viktoras Mieliulis

Writer Tries To Point Out Fiat Discrepencies

you won't take offense at what I have to say but in the interest of all concerned I feel compelled to call to your attention some serious discrepencies noted in your editorals last week. I hold the "Fiat" in high regard as does the rest of the student body, but I am afraid you have overstepped the bounds of propriety and drawn some hasty conclusions totally disregarding fact. Think of the grave responsibility you have and ponder the consequences of opinion based on

From an armchair, facts are hard to distinguish from fiction. As a reporter you ought to know the value of first hand information or at least authentic information as the basis for opinion. I wish I had the time and splendid work done by both the WSSF Drive Committee and the Student DP Committee. You may rest assured that the work of these groups will be carried out as expeditiously and efficiently as is humanly possible.

To say that you were completely misinformed would perhaps be an exaggeration but to say you came very

In conclusion I implore you to seek out the facts and examine the evi-

# **Town Machine Works Makes Good With Good Boring Mills**

By Frank Bredell

Maybe you didn't know it, but Alfred is known around the world for other things besides being the home of Alfred University and John Barnes.

Down on North Main Street you'll find the Rogers Machine Works, one of Alfred's oldest industries. Formed in 1885, the shop has small job," Miss Simpson declared. known as vertical turret lathes.

"The company has a long and interesting history even though a lot of the old records have been lost,' said Miss Dora Simpson, clerk. It is thought that the shop started by Herbert Rogers who began making steam engines, but soon began to experiment with the boring mill for a Hornell firm.

Ever since that boring mill was made the shop has kept right on producing them and working out improvements. Many of these improvements have been developed in the shop by Frank Brown the present foreman who has worked at Rogers since 1914.

After beginning in a small building on the present site the company has had several expansions and changes of management. The building now being used as an office was originally the publishing house of the "Sabbath Recorder" and the "Alfred Sun."

There were other expansions later, the latest one in 1942 when 3000 the shop at the rear of the building,

"Producing a boring mill is no

But we are not primarily concerned with the specific objections that Miss Falcone and Miss Callahan offer. The deplorable thing about their article, aside from its confused logic, was the way it was written. The discussion of invective that it gave the impression it in the Fiat. that the UWF is fading from the Al-The authoresses certainly have a fred campus. The authoresses, besides

If, like good reporters, they had issuing from the federalist camp. We grant that a good speaker is These include plans for further memsion groups on and off the campus, and Bob Lunney

Chairman, UWF Chapter at 7:38 and 10:08.

machine ranging from little each screws to a casting about eight feet high." While most of the parts are made in the Alfred shop, many of them come from as far away as Wisconsin and Kentucky.'

Searching through production records, Miss Simpson found that during the last 50 years boring mills have been shipped to South America, Australia, India, Europe, the Indies and Canada. "Some of the boring mills was willing to settle for either. produced 50 years ago are still in operation," Miss Simpson said.

During the war the navy was the biggest buyer of mills and as late as abolished. 1947. was using one on Guam. During the shop's peak production year, 1942, an average of over 11 boring mills was shipped out every month. There were then 160 employees taking home Rogers pay checks every week.

"Right now," Miss, Simpson confided, business isn't too good, but we have a few boring mills ready to ship and we can go into production on square feet of floor space was added to short notice. Most of our work now is repairing and doing machine jobs for making its jumbled appearing outside the University and firms in this lofor weeklies, and we'll have time to cality. It's a very convenient place spend all of the \$800. (It cannot be cality. It's a very convenient place spend all of the \$800. (It cannot be for the farmers around here to get a saved from year to year.) The school hay rake repaired in a hurry," she

> you may have use for an 8000 pound boring mill to do some boring, drill- each other. ing, turning, or thread cutting, just Street. Maybe they'll even give you a discount if you say you read about

#### Attention All Single Men The following communication was received at the Fiat office this week:

"We would like to agree with the Registrar that the ratio of men to women in Alfred is worse than ever, but for a different reason. We would like to know where all those extra men are. If the Fiat has any information on their hiding place, most of the women on campus would greatly appreciate knowing it.

# College Town

Dr.Barnard, it seems, does not like assemblies. For nine years the good Doctor has been attending them and he has long ago learned that "he is playing a long shot" every time he

It did not take any great news nose to find this out. Its all in a public letter from Dr. Barnard to Miss Klimajeski, the rest of us being permitted to read it over her shoulder. (Prominent local newspaper, Feb. 21.)

There are people who agree with with Dr. Barnard. Among those who admit something is wrong, are the members of the Assembly Committee. They met Friday, in Dean Hawthorne's office, and judging by those present, they should be able to solve the problem if anyone can. Attending were: the Dean, Chaplain Sibley, Drs. Willard Sutton and William Simpson. Instructor Gerald Burdick, Frank Bredell, who writes; Audrey Reiss who runs; Dan Foster, who ran and Floyd English, who is who. A pressure group consisting of Instructor Galway Kinnell and Sylvia Epstein, was also present. These are the people who will be (A) Congratulated or (B) culpable for the May assembly and for next year's program.

This committee is entrusted with the job of sorting through voluminous propaganda, sounding out student opinion, writing letters and planning the year's program. Aiding the committee in bringing programs to Alfred, is \$800, appropriated each year out of student tuition.

\$500 To Go So far, by splitting costs on speakers with Ag-Tech, he committee has gotten away with \$300; \$50 for Sherwood Eddy, \$75 for Gerard Priestly, \$75 for Col. Merle Reynolds, \$50 for the violinist, Alfredo Covalieri, schedfor her by several girls in the house. uled to appear next month.

For the one open assembly remaining, the committee can theoretically spend \$500; and it may at that. Fishlines have been set out for Chester Bowles, Norman Cousins and Carl UWF pressure group) and to Bishop Van Doren (as concessions to the Oxnam, Reverend Nebor and Eleanor

The problem of selecting assemblies is not an easy one. If you judge by the literature the speakers send you, he world is loaded with talented people who, but for discriminatory legislation, should be in the Hall of Fame, right up there with George Washington and Hans Wagner. "Ter-"The toast of Kutztown Teacher's College," "Wheaton revived by him!," the propaganda screams. What Catholic Mass 9, 10:30 a.m., Kenyon happens to these people in between the time are being so sensational in East Saw Dust, Nebraska and when they get here is problematical. It would seem, however, that many of them undergo a startling metamorphosis.

.Ideas From Committee What, then, is to be done about assemblies? Foster said that he favored any group that will make students en-

joy the assembly. Kinnell thought that the students would enjoy a World Federalist. English thought that lecture demon-

strations would hold student interest. He listed several, and pointed out that not only would they more interesting but they would be free. One speaker of this type, Larry Livingston of the DuPont Company, was here this year. He lost nothing. He was worth

Kinnell suggested Paul Shipman Andrews, a speaker from previous years, who is well versed in World Federal-

Chaplain Sibley suggested that the attitude toward assemblies is contagious. "Students coming in soon learn that it's the vogue to hate them,' he said.

All agreed that they'd like to make assemblies so good that people would just flock to them without any of them being compulsary Kinnell agreed that students should

come to a voluntary UWF assembly as well as an involuntary one, and he Dr. Barnard, already had one suggestion on the books. If assemblies be approved, they should be

The assembly committee should not be content to seek out "any preformer that will make the students enjoy the assembly." Rose la Rose could fill that bill.

The programs should be controversial, constructive and thought pro voking, spiked occasionally with breathers. Sure, have UWF speakers and Anti - UWF speakers too. Have Communists! Have a good archeologist if you like.

There is enough free talent around would once again be able to maintain a concrete contact with the under-If you have about \$6,000 and think graduates, and, by the medium of skits, students could once again reach

Students would soon recover the drop in at the Rogers shop on Main habit, if they had an assembly each week and it wouldn't seem like an inconvenience. Even if an assembly bad, and they do complain, they'll still be made to think. If the program is good, they'll complain anyway.

And the proof that once a week as semblies won't hurt anyone, is that people voluntarily go to them no matter how bad they are. Look at Dr. Barnard. He's been going for nine

Here's one solution to the whole problem which should be about as popular as meatless Wednesdays. Go back, as Mr. Anthony might say, go back to the weekly assemblies. Make, force, coerce lower classmen to attend them each Thursday.

#### Infirmary Notes

In and out of the Infirmary this week were Nancy Buckley AT, Louis Monday, March 20—"Dulcimer DeJois AT, John Duntz AT, Miriam Street." Shows at 7 and 9:30. Feature Gittleman '53, Leonard Reifberg '53,

### Footlight Club Rehearsals Feature Fights, Falls, Wheaton Revivals And T-Shirts

"Hold it! Hold it! Hold it!" Dr. Fiedler held his right hand in the air like a photographer while he continued to play with his left. The Chorus held it.

The cast for "Down In The Valley" was holding an informal rehearsal under the watchful eyes of Susan B. Howell. Girls, dressed in T shirts and dungaries, the fellas dressed but little better, clowned in the background while the stars of the moment strutted their hour up on the improvised stage.

Fiedler was the best part of the show. There is no one who enjoys his work more than he does. While Prof. Ronald Brown, director, barked out directions with the aid of pantomime, Fiedler would throw in a few "bup, bub, dy bums" and "did it, didas." He slammed pages and rocked the piano, and sulked when dialogue was being repeated.

Before the rehearsals, people all walk around singing little areas or ster, who had a cold, whistled his lines. Sergio Dello Strologo, whose variously mispelled, has appeared in many footlight productions, sings the male lead and Aldona Mockus, who can really sing by the way, plays the female lead: Dave Crump, plays the villian and with his singing he should be the villian.

Aldy Mockus was nervous. "I always am before a production," she explained. "When I first get out there I immediately forget all my lines. Then the music starts and all of a sudden the audience disappears and I remember." She remembered and went off singing.

Brown bustles around, offering suggestions, reading lines with gusto of players who aren't there and occasionally taking over for actors. Directors of plays, unlike members of the St. Pat's board, wear their beards above the lip.

Aldonna provided the highlight of the evening. While gliding gracefully across the slippery floor, her feet slid out from under her and she slid the rest of the way, beating the throw by three yards. Unfortunately, these command performances.

Musicals, like all stage productions, are blue printed. Everything, theoretically, should go like clock work. When you turn around, your protagonist must be there, not two feet away. When you make love, you have to be gregarious about it, not secre-

The most interesting parts of the show were the religious revival scene and the fight. You want to watch ship and Fiting Contest sponsored by Don Peterson in this revival thing. He looks like he graduated from Wheaton. The fight between Dello Strologo and Crump is very realistic. Too realistic for the Clubs number one illian. I'm taking an awful beating" he moaned, "and Sergio wants to lengthen the act!"

These musicals are all right. When they have the proper benefit the lighting and a full orchestra they'll click. And one thing about musicals. Since the actors sing the words, they can't say as many as they would in dialogue. Therefore the plot has to remain comparatively simple and as a consequence even college studenst can under

# Senate Makes First Change In Constitution

week's political campaign, Alfred's senators hurried through one of the briefest sessions in recent weeks last Tuesday.

They did, however, find time during the 30 minute session to amend the Senate constitution for the first time since its adoption last year. The to attend. amendment added to Art. IV Sec. 2 said that "any transfer student from whatever they call them. Bill Web- the Jamestown Extension school who has served one year on the Jamestown Senate, is recommended by the supervisor of the Extension School and presents the usual petition of 25 names to the Senate" may run for Senate President. Following approval of the amendment by the members, the petition of candidate Robert Steilen '51 a transfered from Jamestown was pre-

> Reportting on the investigation of the Union, Litchard Dickenson '50 declared that the committee has approved the plans for Union reorganization. According to Dickenson the student Union fees will be divided into three funds to be used for equipment, social activities and labor. Expenditures will be handled through University treasurer Edward Leboh Me

Recommendations for the Union Board constitution have been presented to President M. Ellis Drake.

In the line of committee reports, it \$50 in pledges had been collected for the WSSF drive.

Preceeding tonight's Senate meeting the activities Committee will assemble to consider an appropriation to the refrigeration engineers' club.

### Williams Wins At Showmanship Day

Donald Williams AT and Wayne Milliman of Richburg shared top honor Saturday in the annual Showmanthe Ag-Tech Horn and Hoof Club.

Williams was judged champion of the senior contest for students of the Institute and Milliman took first place among about 40 contestants of ten Allegany County high schools.

The Richburg Central School won honors and Belfast Central Schol placed second. H. Leigh Woeh ling of the Animal Husbandry department was in charge.

Other winners in the senior contest all Ag-Tech students are: reserve champion, Robert Herrington; and champion beef, Gerald McGlynn.

Don't forget to vote tomorrow for the best candidate. Don't forget to Latest Sports results from Basket-ball to Pinball over StationWWHG from 11 to noon every Saturday.

#### **Ag-Tech Elects Tresch**

Wesley Tresch was elected to succeed Frank Kirkman as president of the Ag-Tech Student Council, it was announced this week by Richard Titus, chairman of the election committee. The vicepresidency went to William Marx as the Ag-Tech students tried out the election machines Thursday, at Firemens Hall.

About one-third, 262 students, made use of the machines. There were 694 voters eligible.

### Mech. Department To Meet Monday

The Ag-Tech mechanical technology department will hold a meeting and illustrated lecture under the auspices of G.W. Brunton and Son, Inc. of Buffalo at 7:30 p.m., Monday in the Ag-Tech student lounge, Roger F. Rawe, managed to build from department chairman announced, profit-making enterprises. Many area industrialists are expected

The meeting will open with a review of the Institute's Mechanical echnology facilities. This will be followed by a welcoming address by Director Paul B. Orvis

At 8:15 p.m., S. A. Brandenburg, vice-president in charge of sales for ments in Turning.'

# Split Double-Header Intramural Cup; New Court League **Printz Sinks 18**

Kappa Nu wrapped the Intramural Basketball Championship by whalloping Maple City Five 42-24 in the finals on Saturday. An absolute dark horse at the opening of the season, Kappa Nu came through in a blaze after several close calls during the week.

A sudden surge of baskets in the second and fourth quarters opened up an insurmountable lead for the victors who were never in trouble after the first five minutes. They led at half-time 21-13, were pressed to a 27-21 lead in the third period, then ran wild through the last quarter when they out scored the Maple City boys 15-3.

Harvey Printz and Dick O'Neill were the big guns as expected, and although both fouled out, they got 18 points and 8 points, respectively. Barry Newman also got 8 points for the victors, and at the same time did a fine job of guarding O'Neill.

In the semi-final, Kappa Nu eliminated the Bartlett Waiters 36-32, had to come from behind to do it. At the half the Waiters led 17-15 and Dave McCormick had run up 12 points. Kappa Nu managed to tie it up but fell behind again as the third quarter ended by a 28-26 count.

With five minuttes left Bob Kassel dumped in a one hander and Herb Weber hit with a tap-in, to give Kappa Nu the edge that proved the ball game. Newman earned a share in the victory by holding McCormick to three points in the second half. McCormick's 15 markers were high for the losers, and Weber's 14 was high for Kappa Nu.

The opening round saw Maple City beat the Conservation Club, and Kappa Nu defeat the Fourth Floor Gizmos. In the former game Maple City led all the way over a taller Conservation team. O'Neill dropped in 19 points to pace the victors, while Al Kaufler got 13 points for the losers. After a 31-24 halftime lead, Maple City went on to a 49-41 decision.

The next night the Gizmos surprised a slightly overconfident Kappa Nu squad and forced them to the last quarter for the decision. At the end of the third quarter, the Gizmos held a point advantage, 25-24. but finally ran out of steam as Kappa Nu started to hit. Weber and Printz netted 12 a piece in the 31-26 victory, and Bob Corson led the losers with 8 points.

#### The Case Of Missing Files Or, They Forgot To Look

The mystery of the missing files was reported solved Tuesday without the aid of Earl Stanley Gardner of Ellery Queen. The Senate's copies of organization constitu-tions which had been reported stolen at an earlier session, were found in a table drawer in the Senate meeting room instead of in the filing cabinet where they are usually kept.

# Kappa Nu Cops Buffalo State Wins

Te Buffalo State basketball team de-feated Alfred 49-38, Friday evening at the Connecticut Street Armory in the game that closed the season for both squads.

Individual star of the contest was game for the Saxons. Although still bothered by a sprained ankle, Mac scored 21 points, sinking ten field goals and one foul shot.

The victory was State's tenth in its last 11 games giving them a record of 12 wins and six losses.

The Saxons went into this game with an 8-8 record; the loss places them a shadow below the .500 mark for the season.

Besides Mac, Bucky O'Donnell, Don Garrison, Bill LeFeber, and Steve Saunders, Saturday played their last game in purple and gold.

### **AOC Ties Things** With Cortland Squad

The Alfred Outing Club evened hings up with the Cortland ski squad with a 296.7-279.4 victory on the medium, fast slope of the Cortland cam-

This win gave the Outing Club a 2-1 record for their first season in competitive athletics

Ben Burpee and Nick Berg starred for Alfred as they combined to capture the first place spots in the Crosscountry, Slalom and Downhill events The results were as follows:

# 34 Defy Sex For The Pinball; 8 Qualify For Tourney Finals

Competing against Dr. H. O. Burdick's sex lecture, the universe's first pinball tournament saw 34 plunger pushers compete Tuesday evening at the Main Street pinballeries. When the bells had stopped blinking and the lights had ceased to ring, seven undergraduates and John Kemper, manager of the dor-

Diick McNamara, playing his last mitories, had qualified for the tournament quarter finals.

and games won, were: John Adams place clinched at the Huddle when 52 and Nathan Lyons AT at the Collegiate; Richard Gotzmer AT and pinball players, the tilt.

Bruce Tarquino '50 at Argyros'; John The play-offs won't tak
Kemper and William Rambert AT at next week, when the St.

Conte, both AT, at the Huddle. Hottest competition occurred at Peck's where the four faculty members, Profs. W. Varick Nevins III, and Lyons. John Freund, Fred Palmer, superintendent of buildings and grounds and Kemper met before a packed house Nevins, without even removing his overcoat, ran off 12 hundred thousand and then topped thirteen hundred thousand. "Have you any booby prizes?" he grumbled.

Freund followed, and in his second game topped Nevins with 1,870,000. 'I'm going to top Freund to put him out of the contest," announced Irwin Miller '51, who was waiting his turn.' "You won't be under the pressure was," Freund replied.

Kemper, who, when asked to play at Peck's grumbled that he never could beat at those particular machines, took his turn cautiously. After a poor first game, he got the machine buzzing and hit 3,000,000, to win the only free game of the evening and take first place.

Palmer had a bad night, tilting on his first try and hitting 15 hundred thousand on his second try. When he heard the results of the tilt at Peck's, Phil Gregory, co-owner of the Huddle, shook his head. "Fred will never be able to hold his head up in polite society again, "he remarked.

John Barnes AT, was the actual winner of the contest at Argyros', but the Fiat's number one copy maker left Alfred this week, and Tarquino replaced him in the play-offs.

The girls, as a rule either didn't fair too well or had stage fright. One Winners, determined by high score exception, Phyllis Rudner '53, had first she was undermined by the bane of

The play-offs won't take place until next week, when the St. Pat's affair Peck's and Allen Knapp and Bartolo has become history. When the playoffs are held, the pairings will be: Kemper vs. Conte, Knapp vs. Rambert,
