"Circle and Square" at the Cohen Gallery through August 4

Circle and Square, a survey of William Underhill's cast bronze, iron, and aluminum sculptures, features pieces dating from 1960 through his current work.

Underhill's work formally explores the vessel and architectural form. Circle and Square highlights sculpture that demonstrates a sophisticated use of geometry. William Underhill is an emeritus faculty member who taught at NYSCC, School of Art and Design at Alfred University, from 1969 to 1997. During this time he taught sculpture and established the first bronze foundry. Underhill's contributions helped to significantly expand the Division of Sculpture/ Dimensional Studies.
