Organization of the Academy and University.

A University Charter was granted March, 1857, locating a College with University privileges in connection with Alfred Academy. By this arrangement the two Institutions become as far as possible united. A large and permanent Board of Teachers have charge of the various departments, ranging through both the Academy and University, securing thereby an efficiency and thoroughness unattainable by any other arrangement.

DEPARTMENTS.

The general Departments of the Institution are two—a Male Department and a Female Department. Ladies and Gentlemen are provided with separate buildings, and are under special and separate supervisions, but recite together as far as practicable. There are also established as subdivisions of the general departments, the following special departments:

I. English Department.

FIRST YEAR.

1. Reading,	Town.
2. Etymology.	Lynd.
3. English Grammar,	Kenyon.

SECOND YEAR.

1. English Grammar,	Kenyon.
2. English Grammar, continued,	"
3. Grammatical and Rhetorical Analysis,	Young's Night Thoughts.

THIRD YEAR.

1. Rhetoric,	Quackenboss.
2. Elocution,	Caldwell.

II. Department of Pure Mathematics.

To the above courses in Ancient Languages, is added a course in Hebrew: Hebrew Grammar and Chrestomathy, Rodiger's Gesenius by Conant, Hebrew Bible, Gesenius' Hebrew-English Lexicon.

V. Department of General and Agricultural Chemistry.

It is the design to impart, in this department, a practical knowledge of the Science of Chemistry, together with its application to agriculture and the arts.

1. ELEMENTARY CHEMISTRY.

This course is open during the Autumn term of each year, and embraces instruction in the principles and Phenomena of Heat, Electricity, Galvanism, Magnetism, and Chemistry proper.

TEXT BOOKS.

Elementary Chemistry,	Porter.
Kane's Chemistry,	Draper.

2. CHEMISTRY APPLIED TO AGRICULTURE.

It is the design in this Course to give Scientific Farming the prominence which its nature seems to demand. No pains will be spared in showing the intimate relation between Science and Productive Labor. For this purpose, instruction will be given in the analysis of soils, the nature and adaptation of crops, the application of manures, and the relation of climate, weather, etc., to vegetation. Due attention will also be given to Chemistry in its application to Medicine and the Arts.

The Analytical Laboratory will be open for study and experiment, five days a week, during the spring and fall terms of each year.

TEXT BOOKS.

Outlines of Analysis,	Will.
Chemical Analysis,	Fresenius.
Analytical Chemistry, Qualitative and Quantitative,	Noad.
Scientific Agriculture,	Rodgers.

EXPENSES.

Charges for Tuition,	\$5 00
----------------------	--------

The apparatus and Chemicals necessary for the pursuit of this study will be furnished the student, and charged to his account, but the charge will be cancelled for all that is returned in good condition at the close of the term. The above charges for materials, chemicals, etc., are intended to cover simply the actual cost.

VI. Department of Natural Philosophy and Astronomy.

This course occupies one year, and comprises Mechanics, Hydrostatics, Pneumatics, Acoustics, Optics, and Astronomy, both Descriptive and Mathematical. In addition to the daily recitations, the student is directed, by lectures, illustrations, and experiments, in reducing *principles to practice*, in their application to the useful arts.

TEXT BOOKS.

Natural Philosophy,	Ohmstead.
Optics,	Brewster.
Descriptive Astronomy,	Mattison's High School.
Mathematical Astronomy,	Ohmstead.

VII. Department of Natural History.

FIRST YEAR.

1. Descriptive Geography,	Mitchell.
2. Anatomy and Physiology,	Comings.
3. Zoology,	Lectures.

SECOND YEAR.

1. Botany,	Wood.
2. Physical Geography,	Guyot.
3. Geology,	Hitchcock.
4. Mineralogy,	Lectures.

The above course is designed to develop the laws which pervade and govern the three great kingdoms of nature. Especial attention will be given to the laws of hygiene, as applied to the human constitution, as well as to its relations and analogies to the lower orders of animals, and to vegetables.

APPARATUS.

The apparatus for the demonstration and illustration of the sciences is very ample, and will be found quite sufficient for a thorough course of illustrative experiments in Anatomy, Physiology, Mechanics, Hydrostatics, Pneumatics, Electricity, Magnetism, Electro-Magnetism, Optics, Astronomy, and Chemistry.

VIII. Metaphysical and Historical Department.

SECOND YEAR.

- | | |
|-----------------------------|----------|
| 1. Universal History, | Willson. |
| 2. History of Civilization, | Gnizot. |
| 3. Logic, | Tappan. |

THIRD YEAR.

Music, Painting and Penciling.

Vocal Music is pursued as a regular study, the same as any other branch of education. Those desiring to take Instrumental Music, Drawing, or Painting, in its various forms, will find at this Institution ample facilities and competent instructors.

Teachers' Department.

It is one of the prime objects of this Institution to fit young Ladies and Gentlemen for the profession of teaching. In carrying out this object, a course of study has been adopted with especial reference to the wants of teachers.

In order for a teacher to enjoy the benefits of the State provisions, or to be recommended by the authorities of the Institution, he must attend one full course of lectures upon the subject of teaching, and manifest the qualifications requisite for a successful teacher. No individual will receive a recommendation from the authorities of this Institution, who is not deemed competent to fulfil all of the specifications of his recommendation.

COURSES OF INSTRUCTION.

The Courses of Instruction embrace every department of Science and Literature usually taught in the best Academies and Colleges of this country. It is intended that ample advantages shall be furnished to both Ladies and Gentlemen for obtaining a useful and finished education. Four Courses of Study have been established, viz: the English or Teachers', the Scientific, the Ladies', and the Classical.

1. The English or Teachers' Course is arranged for those who, while not intending to complete either of the longer Courses, yet are desirous of preparing for teachers, or for efficient laborers and influential members of society. An individual, in order to enter upon the studies of this course, must have made good proficiency in the elementary studies of a common school education.

2. The Scientific Course is designed for those desiring a thorough education with reference to future scientific pursuits.

3. The Ladies' Course is arranged to meet the growing demand for a higher standard of female education. It is intended to harmoniously blend thorough intellectual discipline with the cultivation of a refined and elegant taste, high moral principles, and pure religious sentiments.

4. The Classical Course is designed for those seeking thorough education with reference to the learned professions.

5. Candidates for admission to either of the three last named Courses must pass a satisfactory examination in the following studies—Greek being elective for the Ladies' Course:

Arithmetic; English Grammar; Geography; *Latin*—Crook and McClintock's 1st Book in Latin, Prose Composition, Caesar, Cicero's Select Orations, and Virgil six books; *Greek*—McClintock's 1st Book, Prose Composition, Anabasis three books; American History; A. Algebra.

6. Those students who having sustained a good moral character and completed either of the above courses, will be admitted to a Degree, after having passed a satisfactory examination.

The degree of P. B., will be conferred on those who complete the English or Teacher's Course; and the degree of A. B., on those who complete either of the other courses. The Diploma for the Scientific Course to be in French.

Those who shall pursue, for three years after graduation, Literary, Scientific or Professional studies, and who shall, in the interval, have sustained a good moral character, will be entitled to the Master Degree in their respective courses.

A. All Students pursuing the Latin and Greek, will be required to study the Grammar of those languages through the Freshman and Sophomore years.

B. Students in the Scientific, or Ladies' Course, can take the Ancient, or some other of the Modern Languages instead of the ones laid down in these courses.

C. Students pursuing the studies of the Preparatory Course for College, will be classified in the Preparatory College Course. All others (except those in the College Courses) will be classified in the Teachers' Course.

D. All Students on entering College, are required to decide which Course they desire to pursue; and no exchange from one Course to another will be allowed, except by special permission of the Faculty. Studies of the Teachers' Course cannot be exchanged with those of any other Course.

E. A large number of Students are classified in the Preparatory College Course, who have pursued a sufficient number of Studies to obtain an advanced standing in one of the College Courses, but who are, nevertheless, deficient in the studies required to enter College. Such students will be advanced as far as their attainments will allow, as soon as they shall have completed the studies in which they are deficient.

MISCELLANEOUS INFORMATION.

LOCATION.

The Seminary is located at Alfred, Allegany Co., N. Y., two miles from the Alfred Depot, on the line of the New York & Erie Railroad. The location is retired and healthy—in a rural district, surrounded by romantic and delightful scenery. Few spots are so well adapted to the quiet and successful pursuit of Science and Literature, as the village of Alfred.

MORAL AND RELIGIOUS INFLUENCE.

The morals of the village and surrounding community are of the highest order. A people of more stern integrity, and of more industrious and unobtrusive habits, can seldom be found. Students are not exposed here to many of the ordinary allurements to vice and dissipation. The members of the Board of Instruction belong to different religious denominations, and adopt an enlightened religious policy.

ROOMS AND BOARD.

The buildings for the accommodation of the school and boarding-hall, are under the supervision of several of the Professors and their families. By this arrangement for boarding and rooming, Students are placed under the immediate care of those who watch over their morals, their manners and their health, with parental solicitude. Parents and guardians may be assured that good board will always be furnished, and that all reasonable attention will be given to the comfort and convenience of boarders.

Each room for the accommodation of Students is designed for two individuals, and is furnished with stove, bed and bedding, two chairs, table and pail. Any additional furniture required, Students provide for themselves.

There is also a large and commodious building, used exclusively for Chapel, Recitation and Society Rooms.

LIBRARY.

The Institution Library consists of a choice selection of Histories, Biographies, Greek and Latin Classics, Mathematical and Scientific Works, and Standard English Literature. Additions are made to it yearly.

SUMMARY OF REGULATIONS.

THINGS REQUIRED.

1. Registry of name at the office before reciting in any class.
2. Payment or security of bills in advance.
3. Punctuality in attending all regular Academic exercises.
4. Strict observance of study hours.
5. Regularity in rising and retiring at given signals.
6. Strict observance of one's own Sabbath.
7. Strict observance of temporary prudential rules.
8. Information, if asked, concerning delinquencies or misconduct of others.
9. Free access of any teacher to the rooms of students.
10. Habits of good order and propriety at all times and places.

THINGS PROHIBITED.

1. Unpermitted association of ladies and gentlemen.
2. Visiting on one's Sabbath or during study hours.
3. The use of tobacco ; the use of intoxicating drinks.
4. Games of chance ; profane or obscene language.
5. To change or drop a study without permission.
6. Leaving school or village without permission.

8. The use of gun-powder in any form about the premises.
9. Driving nails, screws, or tacks, etc., into walls or ceilings without permission.
10. Lounging on beds, or disorder in study rooms.

REGULAR ACADEMIC EXERCISES.

The regular exercises, at which all the Students will be required to attend, unless specially excused, are : Chapel exercises each day during the term ; Recitations from two to four, five days each week, from Monday morning till Friday evening ; Regular exercises in Compositions and Declamations ; Spelling, Reading and Writing ; Literary, Scientific and Moral Lectures, by the Faculty ; and Public Worship each week, either on Saturday or Sunday, according as the Students may be in the habit of keeping the Sabbath, either on the seventh or first day of the week.

GOVERNMENT.

The Government of the Students will be in the hands of the Faculty, and will be strictly and steadily exercised, and, at the same time strictly parental. The object of our academic government being to secure the greatest possible amount of physical, intellectual and moral good to the Students themselves. No unwarrantable means will be made use of to enforce the observance of the above Regulations ; yet our constant endeavors will be to make the means resorted to as effective as human means may be.

Parents who place their children in this Institution, and all Students who are sufficiently old to understand the necessity of order, can not be too well assured that the foregoing regulations form the most essential part of the contract between them and us ; and that whatever Student wantonly violates them, and shows himself incorrigibly determined on pursuing his waywardness, will be expelled from the privileges of the Institution, and will not be permitted to re-enter it again, without special proof of reformation. Nor will an expelled Student have any deduction made from full term charges.

SOCIETIES.

The Alleganian, the Orophilian Lyceum, the Ladies' Literary Society, the Phi Mu Society and the Religious Union, are the *permanently* organized Societies of the Institution. They are managed with ability, and are important aids to those who are desirous of becoming good writers, speakers, or efficient laborers in the intellectual, moral, or religious world.

THE INSTITUTION AND THE PUBLIC.

The Trustees of the Institution, in presenting their Twenty-Second Annual Catalogue to the public, would return their acknowledgments for the marked favor and liberal patronage received from its numerous friends and patrons. Their highest ambition and only object have been to found a Seminary of unsurpassed excellence—a Seminary that shall bless the Church and the world. They have appreciated the necessity of laying the foundation of intellectual and moral attainments and discipline upon a broad and permanent basis; and they have provided, in a liberal manner, the appliances and facilities for securing these objects. They labor to send forth young men and women, so educated as eminently to qualify them for the realities and responsibilities of active life.

NATHAN V. HULL,
Pres't of Trustees.
