IEA Visiting Artist: Renate Ferro

May 15-19, 2017

The Institute for Electronic Arts at the School of Art and Design of the New York State College of Ceramics

Sponsored by: The Institute for Electronic Arts and the Division of Expanded Media

The IEA will be hosting Renate Ferro of Ithaca, NY, for an artist residency over the week of May 15th. Renate, who holds multiple masters degrees in art practices, frames herself as a conceptual artist who toggles between the creative skins of old and new technologies. These are actualized through forms

such as installation, interactive net-based projects, digital time-based media, drawing, and text. Often engaging with the concepts of memory and disclosure, Renate's practice conjoins the making of art out of life's materials and life's materials out of art, blending the tactile material world with the networked, immaterial world.

For her residency, Renate intends to explore and print from her archive of video work from her Super 8 film and early low-resolution digital video projections. Renate has experimented with image making from these sources on older technology via printing on various substrates with dot matrix printers. With this archive of material Renate would like to experiment with the IEA's contemporary printing technologies, which are several generations newer than any Renate previously used.

The Institute for Electronic Art's Visiting Artist Program is sponsored in part by the New York State Council on the Arts with the support of Governor Andrew Cuomo and the New York State Legislature.
