

## **CUNY art technician honored by Alfred University alumni**

7/12/06

Tolga Morawski, a digital art technician at City University of New York Brooklyn College, received the Alfred University Alumni Award for Distinguished Service this spring. Morawski is a member of AU's Class of 1997. The distinguished service award is given by the Alumni Association in recognition of loyalty and commitment in service to the University. Morawski, who supports and manages Brooklyn College's Digital Art Department, undertook a Historic Architecture Building Survey documentation project for Alfred University's Davis Gym, which is scheduled for demolition in the near future. His project will create a permanent record of the gymnasium in the Library of Congress.
