The Late President Paul E. Titsworth

TO THE CLASS OF 1938

Welcome :

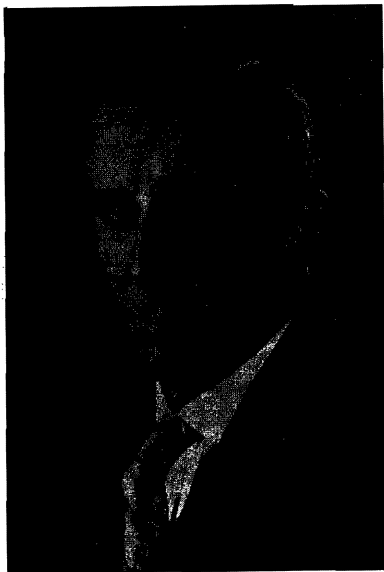

I cannot do better than to quote to the Class of 1938, what the late President Titsworth said to your friends, the enemy, the Class of 1937.

"One of the pleasantest privileges of a college president is to welcome new students. In them he sees, in anticipation, new friends and the finest sort of human material which Alfred, under the guidance of a helping Providence, may assist in preparing for splendid destinies.

"In coming to college make up your mind to master the subject matter of your courses. Some of it you will later forget, to be sure, but you will have learned how to acquire information. This immensely important lesson you will use every day in life, whatever your calling or profession.

"But getting information or learning how to get facts is not all there is to college. Assembling a pile of brick is not building a house. You must learn how to organize your information into purposeful thought.

"Nor is learning to think all of education either; learning to be somebody or something is much more important. I think I can scarcely put the matter more under-

J. Nelson Norwood, A. M., Ph. D., President

standably than by using a well-worn expression and say: the loftiest result of education is character.

"Into character are woven those elements of a superior personality developed on the athletic field, in the classroom, on the debating platform, in college plays and entertainments, in companionship with great books, in the daily contact with fellow students, and in the eagerness and sincerity of your interest in culture and religion.

"Develop yourself symmetrically in your capacity to learn facts, think straight, and play square with yourself, your fellow students, and with God. Cultivate equally a liking for the True, the Beautiful, the Competent, and the Good.

"It is with the confident hope that Alfred will offer you both the opportunity and the stimulus to grow mentally, physically, and spiritually to your utmost capacity that I welcome you to this fine old institution."

ADMINISTRATION RULES

REGISTRATION RULES

Students will register at the Registrar's office on registration days. A fee of five dollars (\$5.00) will be charged for late registration.

Students are expected to register for no more than 17 hours, but if a student has an average standing of B in the preceding semester he may register for 18 or more hours upon the approval of the Dean and Registrar.

Physical Training and Assembly may be taken in addition to the maximum of 17 hours.

Regulations concerning standings to be maintained by students to entitle them to the privilege of registration the following semester:

Freshmen are required to have an average scholarship index of 0.

Sophomores are required to have an average scholarship index of 0.15.

Juniors are required to have an average scholarship index of 0.25.

Seniors are required to have an average scholarship index of 0.30.

For graduation it is required that a student have an average scholarship index throughout his course of 1.00.

Scholarship indices are explained on page 29 in the college catalogue, 1933-34.

Students desiring to drop a subject for which they have registered, must obtain permission from the instructor, and report to the Registrar's office.

No subject can be dropped after the first week of the semester. For exceptions see grade "W" below.

ASSEMBLY

On each Thursday morning at 11:00 o'clock, there is a College Assembly at which an address or entertainment is given. One-half a semester hour credit will be allowed for attendance at Assembly, provided absences do not exceed three for the semester. No excuses for absence from assembly are granted.

STANDINGS

The standings of students are reported to them only by letters, and not by percentages.

"A" signifies excellent or superior work; "B" signifies good work or above the average; "C" signifies average or fair work; "D" signifies poor or unsatisfactory work, and is the lowest passing mark; "E" signifies conditioned failure which may be made up by re-examination, or other conditions imposed by the instructor; "I" signifies that work is unfinished; "W" signifies that course has been dropped; "F" signifies failure, which may be made up only by repeating the course in which the grade was received.

A condition or "E" grade shall be given whenever a student has failed to do work of a passing grade, but has done sufficient work to be able to complete the course with out repeating the class work. A condition may be removed any time during the following semester. Upon report from the instructor that the condition has been removed, the office will change the grade from "E" to "D".

An *incomplete* (designated by the letter "I") shall be given to the student whose work has been of passing grade but who has not completed the full amount of work required by the end of the semester. An incomplete may be removed during the fol-

lowing semester, when the student has satisfactorily completed the required work.

The grade "W" will be given to all students who drop a course after the first week of the semester and within two weeks prior to the beginning of final examinations providing the consent of the instructor is secured. If a student drops a course within two weeks of examination time, the final grade shall be "F". The "W" shall count as (-1) in determining an index. A student may be excused from these penalties by vote of the faculty for good and sufficient reasons.

When a student has failed to complete one-half of the work required in a course, the final grade will be "F" and not "I".

An incomplete or a condition which is not removed during the next following semester of residence in the college, shall automatically be changed in the office to a failure (F) grade.

No credit is given, except by special vote of the Faculty, for one semester of any course which the instructor has designated to be pursued for a full year.

EXAMINATIONS

Final examinations are held at the close of each semester, and sometime near the middle of each semester, mid-semester examinations are given. Occasionally, written tests are held during the semester. Fees will be charged for all examinations taken by those not regular members of classes or for examinations or announced hour class tests taken at other times than those appointed. The fee for a special examination to take the place of a final examination or a mid-semester examination is \$5. The fee for any special test to take the place of an announced one-hour class test is \$1.

When the student wishes to take a

special examination or class test, he shall bring to the instructor a receipt from the University Treasurer, saying that the fee for the special examination or test has been paid. This receipt must be countersigned by the Dean (or by the Registrar in the absence of the Dean) to show that permission has been obtained to take the special examination. No special examination will be given by an instructor unless this receipt, properly countersigned, has first been presented.

Seniors whose semester standing during the second semester is "A" or not less than "B" in any subject, shall be exempt from final examinations in that subject.

Juniors whose semester standing for the Second Semester is "A" in any subject, shall be exempt from final examination in that subject.

ATTENDANCE REGULATIONS

Sec. 1. Regular attendance at class exercises is expected. In the event of absence for any reason the student is expected to make up the work to the satisfaction of the Instructor. If, and when possible this arrangement should be made before the student absents himself from class.

Sec. 2. Excuses for absences will be granted for the following reasons only:

a. Necessary absence incurred by one representing the University on official business such as participation in athletics, dramatics, student conferences and debates, provided arrangement has previously been made with the Dean.

b. Illness, provided the student arranges with the University physician or infirmary superintendent, secures a satisfactory statement from the officials concerned and files same within one week after the absent period.

c. Serious illness at home or other imperative matters necessitating the student's absence, provided such absence is arranged for with the Dean within one week from the date of the absence.

Sec. 3. Absences per semester for each course may be permitted without penalty not to exceed the number of credit hours. Two tardinesses may be reported as an absence. No absence, however, may be taken by any student on the day immediately preceding or following any college recess.

Sec. 4. Seniors and Juniors who have formed the habit of regular attendance and have not previously been disciplined for violation of rules limiting absences shall have the privilege of voluntary attendance at classes on days other than those which immediately precede or follow any college recess. If, in the opinion of the Dean, this privilege is detrimental to the welfare of any student that student shall forfeit the privilege.

Sec. 5. Penalties:

a. All students absent without excuse on the day next preceding or immediately following any college recess shall have their credit for that semester reduced an hour for each course in which the absence occurs.

b. Whenever any student, except those Seniors and Juniors who have the privilege of voluntary attendance, has reached the limit of absences permitted in any course this fact shall be reported by the Instructor to the Dean who will investigate and in the event of further absences shall use such disciplinary measures as may seem necessary.

c. If a student's physical condition, as indicated by the number of absences caused by chronic illness, is such that he is unable to do satisfactory work he may be required to withdraw from college.

Sec. 6. No excuses shall be granted for absences from assembly. Three absences from assembly per semester are allowed.

Sec. 7. Absence from any class on the first day of the semester shall be interpreted as late registration for which a fee of five dollars (\$5) is charged. Absences will be counted from the first session of the class at the beginning of the semester.

Sec. 8. These regulations are administered by the Deans whose decision is final.

LIBRARY REGULATIONS

1. Library Hours—The Library is open for regular work from 8:30 A. M., until 12:00 o'clock, and from 1:30 to 5:30 P. M., on week days. It is also open from 3:00 to 5:00 P. M., on Saturday and Sunday, and from 7:00 to 9:30 P. M., every evening except Thursday and Saturday, on these evenings it is open from 7:30 to 9:00 P. M.

2. Loan of Books:

(1) Books may be retained two weeks with the privilege of renewal. (Current fiction may be retained for one week without the privilege of renewal).

(2) A fine of two cents a day, holidays included, will be imposed for all books overdue.

(3) Students whose fines are in arrears must settle the same before receiving their final standings at the end of each semester.

(4) Books are transferable on cards at the desk. Borrowers are not expected to pass books from one to another without making the transfer at the desk.

3. Reserve Books:

(1) Reserve books used in the library must be returned to the desk before leaving the room.

(2) Reserve books may be drawn from the library at 9 o'clock at night and must be returned not later than 10 o'clock the

following morning. Failure to comply with this regulation on the part of any student will subject him to a fine of 25 cents. Continued failure to comply with the above regulation will result in loss of all library privileges.

(3) Reserve books drawn Friday must be returned Saturday afternoon at 3 o'clock, and those drawn Saturday night must be returned Sunday afternoon at 3 o'clock.

ATHLETICS

All students, unless excused by the Director of Physical Training on the advice of a physician, are required to do one hour in physical training each semester during the freshman and sophomore years, under the supervision of the Director. The required work of the freshman year shall include lectures and gymnasium practice. Sophomores shall elect either advanced gymnasium practice or athletic sports supervised by the Department of Physical Education.

See Eligibility Rules.

SPECIAL RULES

1. Any painting on the University buildings or any other University property is strictly forbidden. The classes as a whole will be penalized for any violation of the rule by any of its members.

2. All smoking in classrooms or in laboratory buildings is prohibited.

3. Smoking on the part of any college woman while under college jurisdiction is strictly forbidden.

4. The use of intoxicants by any student is forbidden. As a condition precedent to the students being accepted and remaining in the University, it is understood that the use, possession, or transportation of in-

toxicating liquors is forbidden. Violation of this rule of the University is sufficient cause to terminate a student's connection with the University.

RULES FOR STUDENT CONDUCT AT EXAMINATIONS

1. All books, wraps, etc., not needed for the examination must be placed in the front of the room.

2. Any communication between students must go through a professor or proctor in charge.

3. The appearance of cheating must be avoided. Circumstantial evidence can lead to dismissal.

4. Heavy sweaters are not permitted at examinations of an hour or longer.

5. No blue books are to be taken from the examination room. (The proctor may permit question papers to be taken out.)

6. Certain types of home-work and laboratory experiments may receive the regular grades. Other types will merely be S or U, satisfactory or unsatisfactory, accepted or rejected. The instructor in each department will decide to what types of work they will give the regular grades. Any such work receiving the regular marks and all examinations will be subject to the following disciplinary scheme. Work marked S or U, satisfactory or unsatisfactory, will not be subject to the disciplinary scheme.

The disciplinary scheme is as follows:

7. When a student is suspected of cheating the evidence shall first be reviewed with the student by the professor or proctor in charge. The proctor shall then review the evidence with another faculty member. At this conference the names of the students involved shall not

be mentioned. If the verdict of the proctor is "guilty" the registrar is instructed to record an F for the student with the reasons therefor. An F given for cheating shall be indicated in a special way by the registrar.

8. It is not within the power of the proctor to change the penalty.

9. A student who receives an F for cheating is given the choice of remaining in the class or of dropping the course. In either case he must repeat the work for which the F was given.

10. The dean shall be instructed to write a letter to the parents of the students explaining what has happened. The letter shall explain kindly that the student had a viewpoint on cheating that the school could not tolerate and that an opportunity is given the student to change his viewpoint before it will be necessary to discipline him more severely.

11. The registrar will be the only person having a list of those found guilty. When a second offense for the same student is reported the student will be required to leave college unless this second offense is reported simultaneously with the first one.

12. Each time an F is given for cheating that fact shall be noted in the Fiat Lux without mentioning the name of the student or the name of the department involved.

13. The faculty takes no pleasure in the above proctor system. It is their desire to bring back the honor system and that move will be made when students show themselves capable of managing such a system, but no sooner.

THE MERIT SYSTEM

1. All officers and members of any student organization or activity in Alfred University or in the New York State College of Ceramics shall be classified according to a definite system of credits, the number of which shall be in proportion to the demand of each office upon the time of the student, as well as upon the honor of the position.

2. An index of 0.5 must be obtained at the end of each semester in order to hold any office on the campus or participate in athletics during the following semester.

3. All teams, organizations, and groups, recognized as existing upon this campus, shall be conducted in accordance with the following eligibility rules:—

At the beginning of the functioning periods of these said bodies, the faculty advisors or executive heads shall submit to the Student Senate a list of those in whom they are interested. The Senate shall obtain their indices for the first preceding official index and notify the responsible parties of any who may not be eligible according to section two above, and any other rules in force at that time. At the request of the before mentioned parties the Senate shall ask the Dean to obtain the current indices of those previously found to be ineligible, and to determine if they are then eligible. All former ineligible, found to be eligible, shall be allowed to continue in that organization until again found ineligible. All those found ineligible shall not be permitted to represent that organization during the time in which they remain in such state.

4. The activities in which anyone may engage during *any one time* shall be limited to 15 units, subject to such requirements as are otherwise stated.

5. In order to insure that the Merit System shall not work injustice to anyone, the President of the Student Senate, and the President of the Athletic Council, shall sit with a faculty committee, to be known as the Merit System Scale Committee.

STORY OF ALFRED UNIVERSITY

To you young men and young women coming upon the campus of Old Alfred for the first time, coming to make yourselves Alfred's and Alfred yours; to you I say the questions will naturally arise: "How and when and why did Alfred University start," "What has it been?" "How has it become what we now see?" To be sure, there is a spirit and ideal here that you can learn about only by contact and experience with it; but glimpses at the story of its past can be given, which will aid you to learn of its spirit.

It was ninety-eight years ago the fifth day of next December that thirty-seven young people got together in an upper room in one of the eight or ten houses that made up Alfred Center, as it was then called, forming the select school, the seed of Alfred University. The teacher was a young man named Bethuel C. Church. He taught one winter, and was succeeded the second winter by a student from Union College, named James R. Irish. The school was already a success and people had said, "Go to, let us build a school building for our new school." This was done by the fall of 1837. The new building had 28 by 38 feet floor space and was ten feet high to the eaves. It was surmounted by a cupola which caused the students to dub it the "Horned Bug," but more dignified people called it "The Cadmus." It cost \$550.

In 1839, when Mr. Irish resigned, another Union student, famous in Alfred history, took charge and gave his whole life to the building up of Alfred University. When the little select school was chartered as

an academy in 1843, his title became Principal, and when it asked in 1857 for a college charter, but got a university charter, his title was changed to President. He died in the presidential harness ten years later.

Although "The Cadmus" was enlarged still bigger ideas were incubating. A tract of forest land was bought on the lower slope of Pine Hill (perhaps you are sitting somewhere on it as you read this) and was slowly made to resemble a campus. By 1846, three new buildings appeared on the hillside. Lumber and labor were cheap, much of both was donated, so that the total cost of these structures was \$16,000. There was North Hall, a dormitory, which had a checkered career. It stood about where the Steinheim now stands. In 1868 it was sold to the school district and moved down to the present site of Kanakadea Hall and used as a school house. But its "moving down" propensities had not disappeared, for it was acquired by a private individual and moved still further down the hill and fitted up as a hotel. This private individual was Mr. William C. Burdick, who, in 1896 allowed the University to use the building as a dormitory. Later his heirs gave it to the school. Have you guessed it? Yes, that's it, its present name is—Burdick Hall.

Then, there was old South Hall, a girls' dormitory. It stood where the Social Hall now is, and went up in smoke one cold February morning in 1858. Middle Hall, a boarding place, and a home for some of the teachers, stood on that old cellar site south of the Steinheim. Later it came to be the home of President Allen, and just after being wholly remodeled as a college dormitory, it was burned early in 1912.

Meantime the old Chapel (Alumni Hall,

with the quill-pen weather vane), 1852, and the Brick, 1859, so-called to mark its contrast with all the other buildings, which were of wood, appeared. In due time (1863-66) was completed the William A. Rogers Observatory (now taken down) introducing the name of one of the most famous men in the field of science Alfred has ever possessed.

When President William C. Kenyon ended his labors in 1867, all eyes turned to a member of the faculty, Jonathan Allen, as his logical successor. Professor Allen had been a student in that first select school, and like some of his classmates, had paid his tuition by chopping six cords of four foot wood. He shrank from the task imposed upon him by the trustees, but proved that they and other friends had been right in naming him president, for under his direction Alfred University prospered, and his influence spread far and wide in the land.

In 1879 the unique and beautiful structure called the Steinhelm was finished. It represented many things, including a Rhine castle, the geological formation hereabouts, and in its interior finish, many local woods. The building and its collections were given to the University by its owners, President and Mrs. Allen.

At President Allen's suggestion, a suitable monument to President Kenyon was erected (1882) in the beautiful Kenyon Memorial Hall. The Gothic was a faculty member's home, and was purchased by the University in 1885.

President Allen managed Alfred's affairs for an even quarter of a century, dying in 1892. The late Professor A. B. Kenyon, as acting-president for a year, and Dean Arthur E. Main as President for two years, brings our story to 1895, when President

Davis began his long and successful service as builder of the New Alfred. Then came others of our familiar buildings: Babcock Hall of Physics (1897) (burned in 1929), the Ceramic School (1900), Kanakadea Hall (1908), the School of Agriculture (1909), the Carnegie Library (1912), the central heating plant (1917), Allen Memorial Laboratory (1923), Track and Field House (1929), Susan Howell Social Hall (1930), Bartlett Memorial Dormitory (1931), and the new Ceramic College building (1931). In November (1932), the Brick was largely destroyed by fire and remodeled in 1933. During the past summer (1934) the new Hall of Physics was completed. These buildings constitute the obvious Alfred of 1934. Again let it be remarked that knowledge of the inner Alfred—the soul of these buildings and campus—is a matter of slow growth in appreciation. Let me drop one hint. It is said that when South Hall was on fire in 1858, one of the loyal supporters of the school, accompanied by his wife, was riding to town in the old farm wagon. When the pair reached the crest of the hill west of the village and saw the flames and smoke, the wife exclaimed: "South Hall's afire! I see where I wear my old dress another year."

Incidents like this enable us to sense more vividly the meaning of a stanza of Alma Mater which runs:

"She was founded in toil, cemented with blood,
And nurtured through yearnings and tears.
Her treasure, the hearts of brave heroes
who stood
Undaunted throughout trying years.
Each stone was a prayer and her battle-
ments there,
Have memories of purposes strong.

Staunch daughters and sons are her monuments fair,
And they lift up the grateful song."

1933 saw another important page written into the history of Alfred University. The long term of President Davis came to a close (1895-1933) and Dr. Paul E. Titsworth was appointed to take his place. The school mourned the death of this truly great leader, a scant few months later. He made his short presence keenly felt and was loved by all those who were fortunate to know him. Dr. J. Nelson Norwood was appointed Acting President in his place, and at the Commencement this year he was made president and is undertaking to carry on the work of his illustrious predecessors.

MEN'S FRESHMAN CAMP

The camp is located about sixty miles from our campus. It has wonderful boating and swimming facilities along with other qualifications to make a good camp.

The main purpose of this camp is to bring the new Frosh in a man-to-man contact with the faculty members and the upper classmen. With this idea in mind we feel that a better understanding of college life will be founded.

The camp staff is composed of faculty members and selected members from each fraternity on the campus. The camp project comes under the work of the Y. M. C. A. activities.

WOMEN'S FRESHMAN CAMP

Freshman Camp will be held September 14-16 at Camp Shenawana on the Genesee River. To this camp the Y. W. C. A. of Alfred University welcomes every Freshman woman.

The main purpose of the camp is to enable the new student to form acquaintances with her future classmates and to assist her to prepare for the adjustments college life will demand. The camp staff is composed of some faculty members and women selected from the various organizations on the campus.

FRESHMAN WEEK

Matriculating Freshmen will form the first ties of their acquaintance with Alfred in the week preceding the beginning of instruction. During this period, they will have an opportunity to gain an insight into the spirit of Alfred's purposes, ideals, and traditions, through an orientation program designed with that end in view.

Freshman Week will enable members of the incoming class to become settled in their places of residence, and find themselves, in a measure, before the varied activity of actual college begins. A sense of class fellowship and unity can be derived from the intimate associations of these introductory college days, and when the Freshmen are finally welcomed at the annual reception held by the Christian Associations at the Library, they will have actively stepped into their beginning of Alfred life.

SOCIAL REGULATIONS

There is a College Committee on Student Life composed of both faculty and student members. There are four faculty members, two of whom are elected by the faculty and two by the student body, and three students, one of whom is elected by the faculty and two by the student body.

10. Permission to visit the opposite sex must be obtained from the Dean of Women.

PUBLICATIONS

THE FIAT LUX is the University paper, published weekly during the college year by a board of editors chosen by competition from the students. An editor-in-chief, usually a Senior elected by the staff, ad-

ministers the policy of the paper in consultation with that body. Each college student automatically subscribes to the Fiat Lux when he matriculates, the cost of his subscription being included in the semester bill.

THE KANAKADEA is the University year-book published under the direction of the Junior class. It contains the annual record of all student activities, and the three-year history of the Junior Class, with individual pictures and records. The Kanakadea staff is headed by a Junior editor-in-chief and associates, selected by the class. A board of Junior section editors, selected by competition, together with representatives elected by each other class, and a number of assistants from the two lower classes, complete the staff.

SUGGESTIONS FOR EFFICIENT STUDY

I.—INTRODUCTION

This pamphlet is designed to aid you in acquiring the bodies of knowledge and in learning the methods of efficient study and thought that constitute a college education. Read carefully and repeatedly. Persistent and earnest application of the rules presented will make your work both easier and more effective.

II.—SOME FUNDAMENTAL CONDITIONS OF EFFECTIVE WORK

1. Have a set time and place for study. Work becomes easier and more natural under such conditions.

2. Eliminate distractions, such as noises, conversation, interruptions. They waste energy and time.

3. Avoid excessive fatigue. Some symptoms of genuine fatigue are irritability, loss of interest, a tendency to worry over trifles, lapses of memory. Introduce occasional rest periods, say five minutes every hour, during a prolonged study, and use these periods to relax. The rest periods may profitably be more frequent on difficult tasks, such as memorizing formulae or vocabularies, less frequent on easy tasks, such as light reading.

4. Get sufficient sleep. Some individuals need ten hours, others can work effectively on less. Find your quota and maintain it. It is very unlikely that you can get along on less than eight hours. A good general rule is: go to bed early

enough so that you wake up naturally and in time to meet morning appointments without rushing. If, night after night, ideas run through your mind and keep you awake, it is probable that you are doing too much evening study. Try to finish at least your heavy assignments during the hours of the conventional working day.

5. Keep in good physical condition. Slight variations in health may materially affect efficiency. Of importance are adequate, balanced and regular meals, moderate physical exercise, proper elimination, fresh air. Tooth infections, sore throats, and fevers should receive prompt attention. Do not neglect "colds." A day in bed will often prevent a week of discomfort and lowered efficiency.

6. Avoid eye-strain. Pause frequently while doing close work and gaze for two or three minutes at distant objects. This allows the tiny ocular muscles to relax. Remove so far as possible all bright objects from the field of vision and allow no bright lights to shine directly into the eyes.

7. If your work is not interesting, try to make it so. Interest is a most important condition of efficiency. Relate your studies to some fundamental purpose or desire, such as the desire to succeed vocationally, the desire to win approval.

8. Believe that you can and should succeed in college. Adjust your plans and ambitions to your capacity, so that you may not fail and lose confidence. If you do fail, accept it as a lesson and not a discouragement.

9. Work. The rules given below are not a substitute for, but an aid to industry. Remember, you are investing four valuable years and considerable money in a college education, and your returns will be commensurate with your effort.

III.—THE PREPARATION OF A READING ASSIGNMENT

Much of your college work requires the preparation of reading assignments.

1. Read the assignment through quickly as a whole. This gives you the general scheme and relates the parts to the whole.
2. Think over the material, attempting to recall and relate the facts presented.
3. Reread, concentrating upon the difficult parts and those that could not be recalled.
4. Repeat this process of trying to recall and re-reading the vague and difficult parts, until you can remember and clearly understand all the points made. Then outline these points in your own words from memory. This outline will further stamp in your mind the facts you need to remember, and can be used for review.
5. In reading textbook assignments, give particular attention to the chapter, section, and paragraph headings. They usually express concisely the points the author is trying to establish.
6. Do not neglect graphs, tables, or diagrams. They often express in brief form a great many facts.
7. Look up technical terms if you do not understand them. The special vocabulary of a science is of fundamental importance, and you cannot know that science without being familiar with its terms.
8. Learn to read scientific works with intelligent criticism. Ask yourself whether the author's evidence and methods of investigation justify his conclusions.
9. Acquire the art of rapid reading. Lengthy assignments are often given, in which you are expected to get only the general facts. To attain a fast reading rate, you must (1) desire improvement, (2) concentrate on the task, (3) make few stops with the eyes and as far as possible

only on salient words in a paragraph. The trick, which is acquired only by considerable practice, is to pass over the unimportant, get here and there an important word, and fill in the thought from your own mind.

IV.—THE WRITING OF REPORTS

1. Decide what the object or purpose of the report is to be.
 2. Locate possible sources. in books, periodicals, etc., and construct a bibliography.
 3. Search the sources for pertinent material. Rapid reading is valuable here as it enables you to extract quickly just the material needed.
 4. Take notes on the relevant material. Be sure your notes are adequate and correctly labeled. Use quotation marks when quoting, as it is easy to plagiarize unintentionally. File the material carefully and systematically in a note book or folder.
 5. Read over your notes and try to organize the material as you wish to present it. This is an important step and necessitates considerable thinking.
 6. Prepare a written outline of the points you have decided to make.
 7. Assemble the facts you have gathered as bearing on each point.
 8. Write the report from the outline and from those facts, using your own words for the most part, quoting only where the author's phraseology is particularly apt or impressive. Acknowledge all authorities by name, work, and place, either at the end of the statement, in footnotes, or at the end of the report.
 9. Rewrite until the form of your report is thoroughly satisfactory.
- The following are some common mistakes made in the writing of papers: (1) negligence in gathering data, (2) misin-

terpretation of an author's statement. (3) failure to plan and work out the report adequately before writing, (4) carelessness in presentation.

V.—THE ART OF MEMORIZING

You will occasionally be expected to memorize material verbatim, for example vocabularies, formulae, definitions, and outlines. Use of the following principles will in such cases prove effective:

1. Desire to learn the material. Very little can be acquired without the *will* to learn.

2. Have confidence in your ability to memorize. Do not be fearful or anxious.

3. Put as much meaning into the material as you can. Try to associate it with things you already know.

4. Look for relationships in the material that will aid you in connecting the parts to one another and to the whole.

5. Do not attempt to learn the material completely at one sitting. Distribute your efforts.

6. Instead of trying to learn your material part by part, go over it as a whole, unless it is too long for one reading. That is, do not learn one part completely before passing to the next.

7. Try frequently to recall the material. Spend more time recalling than reading. Ten minutes of active recall is worth thirty of simple re-reading.

8. In re-reading give particular attention to the parts that could not be recalled.

9. After impressing the material on your mind, do not turn immediately to another task, but relax for several minutes in order to allow the facts to "set".

VI.—TAKING NOTES IN CLASS

1. Use a note book. Loose scraps of

paper are easily lost and are hard to organize.

2. Do not crowd your notes. You may want to insert additional comments later.

3. Do not attempt to write down everything said. Get the main heads with brief statements of subheads and illustrations. Write short, concise sentences, like the sentences in a telegram, rather than isolated words, which later may be meaningless.

4. Keep notes on different subjects in separate sections of your note book.

5. Organize your notes so as to bring out the relationship between facts.

6. Read over your notes as soon as possible after class, while the lecture is still fresh in your mind, and modify or expand where they do not seem clear or adequate.

7. Read over your notes on the last lecture just before class begins in order to prepare your mind for the new lecture.

VII.—PREPARING FOR EXAMINATIONS

1. Set a high standard of proficiency for yourself.

2. Begin reviewing several weeks before the examination, spending two or three hours a week on each subject. This saves cramming at the end of the term and is far more effective.

3. In these reviews, go over your notes, reading rapidly those parts that you remember and understand, giving particular attention to those parts that seem difficult, vague or unfamiliar.

4. Reread the main points in your notes, and try to recall the material under each. Check to see if you have remembered everything. If not, work on the parts you forgot. Repeat this process until each main point readily suggests the thought included under it.

5. When reviewing textbooks, go over the section and paragraph headings and try to recall the material beneath each. Read the parts that cannot be remembered. Repeat until the material under each heading can be recalled and clearly understood.

6. Avoid studying immediately before an examination. You are more likely to produce fatigue and confusion than benefit.

7. Enter the examination rested, confident and unworried. A mild degree of excitement, like that preceding a game, is often helpful, but fear and anxiety are usually a hindrance.

8. Read all questions before starting to write. Jot down thoughts that occur to you as you read. Remember, five minutes of thought is usually worth more than thirty minutes of scribbling.

9. Make your statements as clear, brief, and coherent as possible. It is not the longest examination paper that gets the highest grade.

AL-FRED Rah-Rah-Rah

ALMA MATER

Nestled away 'mid the Empire State hills,
'Neath the watch-care of sentinel pines,
Where the murmuring song of the brook
hums along,

And a favoring sun ever shines;
In a valley so fair where the forest trees
share

Dominion o'er hillside and glen,
Stands the pioneer college of Western New
York—

Alfred, the mother of men.

—Chorus—

Hail to thee, Alfred, thou guide of our
youth,

Sweet, benign mother, all hail!
Sing out thy anthems of duty and truth;
May thy clear ringing music ne'er fail.

She was founded in toil, cemented with
blood,

And nurtured thro' yearnings and tears,
Her treasure the hearts of brave heroes
who stood

Undaunted throughout trying years:
Each stone was a prayer and her battle-
ments there

Have mem'ries of purposes strong,
Staunch daughters and sons are her mon-
uments fair,

And they lift up the grateful song.

—Chorus—

Others may boast of prestige and size,
Of numbers and treasure and fame
But Alfred's pride lies in manhood's clear
eyes,

And womanhood's high stainless name.
O Alfred, dear Alfred, thy fame will abide
With Kenyon and Allen and Main
With Davis the builder and Titsworth our
guide,

Let Norwood our power maintain.

—Chorus—

OUR COLLEGE A. U.

Alfred's our college, hail Old A. U.

For the Varsity team give a cheer,
Each manly player so sturdy and true,

Fights on the team without fear,
Encourage each fellow to play a swift game,

And follow the ball best he can;
And when the foes of old Alfred draw nigh,
To fight for her prestige and fame.

—Chorus—

Come give a cheer for your College,

Root for old Alfred A. U.
Cheer her when she is victorious,
Ever be loyal and true.

Purple and Gold are her colors,
Loyal in spirit A. U.

Urge her men on to the victory,
To the praise and the fame of A. U.

Aye and forever, be loyal to her,
With the Varsity spirit let's sing.

Strong on the line up, and swift in the
backs,

Shout 'till the loud echoes ring—
With spirit and vigor for Alfred we'll cheer.

Your whole heart put into the game,
And when the foes of Old Alfred draw nigh
We'll fight for her prestige and fame.

—Chorus—

CHEER FOR ALFRED

We are out to cheer for Alfred,
We will help her win the day,
Make her gain athletic vict'ry,
By our shouts of ray! ray! ray!

Alfred, O!
Purple and the gold triumphant,
Waving 'neath a smiling sky,
Make us say we'll fight for Alfred
"Till the years have all rolled by.

SONG OF CITIES

Sing a song of cities, roll dem cotton bale,
Nigger ne'er so happy as when he's out of
jail.
Norfolk for its oysters, Boston for baked
beans,
Alfred for pretty girls, but for niggers
New Orleans.

—Chorus—

I've been working on the railroad, all the
live long day,
I've been working on the railroad just to
pass the time away,
Don't you hear the cap'n shouting; rise up
so early in the morn.,
Don't you hear the darkies calling, Oh
Dinah, blow your horn?

Sing a song of colleges, tell you where to go,
Harvard for its knowledge, Cornell for a
row,
Princeton's wealth, or Amherst's pride, for
them naught do we care,
For old A. U. is strong and true, and for
her we'll do and dare.

—Chorus—

WE'RE PROUD INDEED

We're proud indeed of you football men,
Um, hum and a little bit more.
We cheer for you with all our might,
Um, hum and a little bit more.
Although we can't be very eloquent, we'll
tell you o'er and o'er,
We love you true, indeed we do.
Um, hum and a little bit
Hum, and a little bit
Um and a little bit more.

ON SAXON WARRIORS

On Saxon warriors,
The Purple and the Gold defend;
On Saxon warriors,
Ever on like men.
Crash thru the opponent's line
And victory will come our way
Fight, Fight for Alfred,
And she will win the day.

OH, HERE WE ARE

Oh, here we are! Oh, here we are!
You see us marching down the street.
You hear our cry: "To do or die,
We have the team that can't be beat.
We have!" (shouted)
So give a cheer, a lusty cheer,
And let the echoes carry true,
With a tramp, tramp, tramp,
And a stamp, stamp, stamp,
For the team of old A. U.!

SONG OF THE BELL

By the roaring, roaring banks
Of the old Kanakadea,
Oft I've lingered in the springtime long
ago;
While the waters rushed along,
And the hills took up the song;
And a gentle voice was calling sweet and
low.

—Chorus—

O, I hear the echoes ringing from the belfry
on the hill,
And the song inspires my heart to do and
dare;
Calling me to love and duty, calling me
to faith and prayer,
For the bell is ringing, ringing, ringing
still.

When the autumn days were on,
And a brilliant crimson show
Where the Alfred hill-side glory met the
sky,
Voices whispered in the breeze
While I sat beneath the trees,
And communed with master minds of
days gone by.

—Chorus—

O, the days of frost and snow;
O, the coasters' ruddy glow;
O, the evening's long delight with com-
rades dear,
When we talked on mighty themes,
Or indulged in happy dreams
Of our victories in the future hov'ring
near.

—Chorus—

Now my hair is turning gray,
For those days have passed away
But their mem'ry lingers sweet and
sweeter yet;
And my fireside's evening cheer
Seems to bring old Alfred near,
And the faces which my heart can ne'er
forget.

—Chorus—

RAY RAY SONG

Way up in Allegany
'Neath the shade of sheltering pines,
There stands a little college
That's for training noble minds,
And when they get together
On the gridiron, field or track,
You hear the students give their yell
And bring the victory back.

—Chorus—

Oh! Ray! Ray! Ray! Ray! Ray!
Hear the students yell,
Ray! Ray! Ray! Ray! Ray!
Notes of victory tell,
Oh! Ray! Ray! Ray! Ray! Ray!
Better move along
When you hear the students
Sing their Ray! Ray! song.

Oh here's the little college
That will help you do your best,
Her girls are true, her men are strong,
They always stand the test,
And when they get together
On the gridiron, field or track,
They put their shoulders to the wheel,
And bring the victory back.

—Chorus—

ATHLETICS

At Alfred athletics are confined to Football, both Varsity and Freshman; Cross-country, Wrestling, Varsity and Frosh; Basketball, Varsity and Frosh; and Track. Every man in the class of 1937 is a potential athlete and should go out for some form of athletics. Come out for Frosh football practice. The class of 1936 has sent some good men to this year's Varsity; see what you can do. Freshmen making a team are awarded class numerals and certificates.

In addition to Freshman and Varsity athletics there are interclass competitions, both for the men and for the women, and intramural sports controlled by the Intramural A. A. and supervised by the Director of Physical Education. A trophy is provided in these intramural contests.

Alfred University should show something in the way of football this year, the result of improvements which have been progressing under the tutelage of Coach Galloway. Night football has been a success at Alfred and will be continued for all home games this year.

Basketball, also should show some improvement this year with the material available. Two fine victories in the first two games were outbalanced by the larger scores of the opponents in the final games last year.

Cross-country is the most successful sport at Alfred as Alfred University has been a consistent winner in the State conference championships and has shown up creditably in the Middle Atlantic.

Track, also, has been successful, three State Conference titles having been cap-

tured and the team has been well toward the top in Middle Atlantic Conference rating.

The wrestling team won three and lost four last year and should be more successful this season because of new material and the improvement of last year's matmen.

Tennis includes a university tournament and matches with outside teams. The team makes a good showing despite the small number who turn out for the sport.

ELIGIBILITY RULES

1. In order to be eligible to play on Athletic teams, a student must be regularly enrolled in one of the four college courses, or as a special student, and must take a minimum of sixteen semester hours per week, doing full work in a regular course as defined in the curriculum.

2. In order to be eligible to play on Athletic teams, a student must have attained in the last official index, a minimum index of 0.50. But those made ineligible by semester grades may be made eligible by mid-semester grades. In case of Freshmen eligibility will be lost at mid-semester by any individual whose index falls below 0.50. Immediately after every official index, those persons whose index is below 0.50 may have two weeks in which to raise the index to the necessary 0.50 before being dropped from the team.

An official index is taken immediately after the close of each semester.

3. No student shall participate in N. Y. State Conference games until he shall have been in attendance for one full collegiate year subsequent to attaining the equivalent of Freshman rank in the Liberal Arts and Science course, in Ceramic Engineering, or Applied Art.

4. No student shall participate in Conference games for more than three years in the aggregate, and any member of the team who plays in any part of a Conference Athletic contest does thereby participate in Athletics for the year.

5. No student shall play in any game under an assumed name.

6. A student who participates in Inter-collegiate Athletics and does not complete the work of that semester shall not be permitted to compete in the same sport in his next year of residence.

7. No person shall be admitted to any collegiate contest who receives any gift, remuneration, or pay for his service on the college team, except such team awards as may be authorized by the Athletic Council and Committee on Athletics.

8. No member of the faculty of Alfred University shall participate in any inter-collegiate or inter-scholastic contest.

9. The second team shall consist of only

those men who have regularly participated in practice against the varsity. The second team shall be under the jurisdiction of the coach, and no group of men other than the above stated shall represent the University in any form of athletics.

10. A candidate for a position on a team shall present himself to the chairman of the Athletic Committee and sign the following declaration.

Amateur Standing Card

I herein assert that I never played athletics professionally. I herein further assert that while in College, I will enter into no athletic contests other than those that appear on the athletic calendar of Alfred University, or such special cases as may be decided on their merits by the Athletic Committee.

GENERAL REGULATIONS

1. The coach shall have complete jurisdiction of the team in all matters of conduct. He shall be required to suspend from the team, for a time commensurate with the offence, any person guilty of immoral, ungentlemanly, or unsportsmanlike conduct.

2. The Coach will report to the Committee on Absences immediately after an out-of-town game the names of the students, who have participated in the contest, and the time when they left Alfred and when

they returned to Alfred. This information is for the use of the Committee on Absences.

3. No body of students exceeding four in number (two in basket ball) shall take part in any games played out of town, outside of the regular schedule approved by the athletic committee.

4. Match games shall not be played on either Saturday or Sunday except by special permission of the President.

5. No more than one game of basketball, baseball, or football shall be played in any one week, except when the team can profitably play a series of games on any one trip away from home. Extra games may be played on days when classes are not in session. (See rules 2 and 3).

6. The Faculty permits the following teams to make schedules:—football team, women's basketball team, men's basketball team, track team, tennis team, cross country team, and wrestling team; also the corresponding second teams.

HONORARY SOCIETIES

ALPHA TAU ALPHA

Alpha Tau Alpha is an organization providing an honorary affiliation for women

members of the student body of Alfred University, who are participants in and actively interested in athletics. The purpose of the society is to promote athletic activity for women at Alfred. It also aims for physical beauty, high scholastic activity, ideal character, the development of organized co-operation and strong qualities of leadership and influence.

The candidate must be a member of the Sophomore, Junior or Senior class of Alfred University. Membership in this society is based on scholarship (an index of 1.0 is required), leadership, loyalty, sportsmanship and active participation in athletics.

KERAMOS

At the American Ceramic Society Convention in Washington in 1932, the consolidation of the two Professional Ceramic Fraternities was accomplished. This union had been in progress since the previous convention for the reward of such action was perceived by all.

The purposes of the Fraternity are to promote a greater interest in Ceramics, to encourage research, and to create an acquaintance between graduates of rival ceramic schools.

Membership is elective and is based on scholarship, interest in ceramics, and ability in engineering lines. Any upperclassman properly enrolled in the N. Y. S. C. C. and having an average index of 1.6 may be elected.

ETA MU ALPHA

Eta Mu Alpha is an honorary fraternity, the object of which is to promote better

scholarship and a greater interest in the intellectual life of the University; to promote leadership and fair play; to support any movements in the interests of a greater Alfred, particularly those which will strengthen the intellectual life of the University.

Membership in this fraternity is based primarily on scholastic standing. All upperclass students who are properly enrolled in the College of Liberal Arts and Sciences and the New York State School of Clay Working and Ceramics are eligible to membership, providing they have completed their previous college work at a minimum index which is, for the Juniors, 2.4, and, for the Seniors, 2.2.

PHI SIGMA GAMMA

Phi Sigma Gamma is an honorary fraternity, formed to recognize those women who have rendered positive service to Alfred for at least two years.

Its purposes are: to be positive factors in Alfred's growth; to maintain and extend a spirit of co-operation and good-will between fraternity and non-fraternity groups; to uphold true Alfred traditions and express those ideals in their service toward Alfred. On the Campus, Phi Sigma Gamma strives to create an incentive toward achievement for Alfred.

PHI PSI OMEGA

Phi Psi Omega is an honorary fraternity, chartered to form a bond between men in the two upper classes who have proven their loyalty to Alfred. The aim of the fraternity is to give the undergraduate, who because of activities and athletics, is unable to gain the coveted "honors," something to work for, a goal to be gained through service and loyalty to his Alma Mater.

The membership is limited to eleven. There is a scholastic requirement of two years with an average index of 1.5. The candidate must be a member of the Junior or the Senior class of Alfred University, or a graduate alumnus of this University. Membership will be based on scholastic record, college activities, and, most important of all, character.

The requirements for admission are an average of B in twelve hours of Biology and an average index of 1.5.

CLUBS

AMERICAN CERAMIC SOCIETY. The Student Branch of the American Ceramic Society has a membership consisting of the students and faculty of the ceramic engineering department of the New York State College of Ceramics. The organization meets once every month to discuss ceramic problems which are usually presented by prominent men in the ceramic industry. The student branch is governed by the students themselves and its purpose is both educational and social in aspect. Through the organization the opportunity is afforded to the students of meeting and becoming acquainted with prominent men of the industries.

THE CERAMIC GUILD was founded in 1917 to provide for the social contacts which might stimulate the work of the art students. Since then, the number of members has increased; its organization has become more complex; its interest more varied, and its activities more traditional.

The Ceramic Guild was organized on the plan of the medieval guild. The various stages of membership—biscuit, apprentice, journeyman and master craftsman, are based on the achievements of its members. Its purpose is to provide the art student with the opportunity to produce pottery and to gain an amount of practical experience.

The Christmas Festival, which is held every year in December, is one of the major activities of the Guild. Each year this provides an aim toward which to work. Its object is to design, produce and exhibit pottery, relating both to its purpose and to its surroundings.

The Guild members' work takes an active part in many of the outstanding ceramic exhibitions in the country. Each year the opportunity is extended to two or more members, who have shown both interest and work, to visit the exhibitions of contemporary manufacturers, thus enriching their experiences and making them capable of a better understanding of the ceramic art.

DEUTSCHE VEREIN is a club whose only qualification for membership is an interest in German. It holds weekly meetings, and aims to create an appreciation for German literature, life, and customs.

THE ENGLISH CLUB. Primarily organized with the purpose of studying contemporary literature, the English Club serves as the means of developing critical and appreciative reading of literature. Its informal discussions make its meetings entertaining, and give an opportunity for self expression.

ALPHA THETA PHI is an organization to promote the best in dramatics. Its members are elected from those who show the most ability for acting, and a try-out play is held the first part of each college year. At least once every year some suitable play is selected and given by the club.

THE GLEE CLUB is an organization consisting of sixteen men and a director, the positions being competitive. Each year the Club makes an extended trip, giving

concerts under the auspices of various schools, clubs, and other organizations.

LE CERCLE FRANCAIS is a student organization formed for the informal study of French in its most interesting phases. At the weekly meetings of the society, members usually present papers on appropriate topics.

VARSITY "A" CLUB is composed of men who have earned their major or minor "A's." Eligible candidates for membership must petition the club. Each man is elected to the Club by a majority vote. The purpose of the Club is to promote a greater athletic interest, and to encourage high school students to attend Alfred.

THE SPANISH CLUB. Under the leadership of Miss Harris, the Spanish Club was inaugurated three years ago. All those interested in Spanish may join. To appreciate Spanish and to speak it more fluently are its aims.

THE PURPLE KEY has been re-organized this year. Its purpose is to greet the visiting teams, and any other visitors who might desire to learn about Alfred. Its membership is composed of one junior and one sophomore to be elected by each organization on the campus.
