Hand Sanitizer Doesn't Catch Them All

Norovirus could be the cause of that nasty stomach bug going around. These bugs need old-fashioned soap and water to remove virus from hands, and bleach to clean surfaces where the virus can linger for weeks.

Hand sanitizers will not be effective to prevent contagion, so wash hands well and clean all areas where a person with a "stomach flu," or bug, has been.

The Health Service is open Monday - Friday, from 8:30 a.m. - 4:30 p.m., CLOSED between 12 - 1 p.m. Call (607)871-2400 for an appointment or to consult about symptoms before you roll out. For more details, see the attachment.
