Everything you wanted to know about a ROTH 403(b) but were afraid to ask

Exciting news for the employees of the Non-Statutory University! We now offer a ROTH 403(b) option and it could mean big tax savings for you in retirement. On Wednesday, June 21st a representative from TIAA will be presenting two short information meetings that will cover the changes that are being made to the Non-Statutory Retirement Plan including the new After Tax "ROTH 403(b)" and explaining the new Fee Leveling approach that is being implemented to more equitably spread the cost of operating the plan and assuring that we offer the investment classes with the lowest fees available for a plan of our size. There will be a morning session at 10:00 a.m. and an afternoon session at 2:00 p.m. for the convenience of everyone. Both sessions will be held in the Kenyon-Allen Rooms in the Powell Campus Center. All interested Non-Statutory Employees are encouraged to attend either of the sessions.

Recent Notices from TIAA - Non-Statutory Sector Employees

Individuals participating in the TIAA retirement program offered in the Non-Statutory sector should have received a communication mailed to your home within the past few days regarding some upcoming changes to our program. We will be scheduling open forums later this month so that you can learn more about the additional offerings which are planned to take effect on July 1, 2017 as well as the ways in which we have continued to work to assure our fees are as low as possible for the size of our plan. Please continue to watch Alfred Today for the dates/times of these sessions.
