Women of Influence Speaker Series: Dr. Karin Selva

Come join the Judson Leadership Center on Thursday, April 12 at 7:00 pm for an inspirational evening with Dr. Karin Selva! Dr. Selva's talk will focus on her experience as a leading specialist at Portland's Transgender Clinic. This evening will also feature an informal Q&A. Snacks and drinks will be provided!

Dr. Karin Selva currently serves as the lead pediatric endocrinologist at the Legacy Health Transgender Clinic in Portland, Oregon. Dr. Selva was one of the first medical professionals in the country to help establish a clinic designed specifically to serve transgender patients and their families. Known locally as the "T-Clinic," the Transgender Clinic offers comprehensive medical, mental health, and support services for gender non-conforming youth up to 18 years of age.

"I particularly enjoy working with my patients and their families together," says Dr. Selva. "I love that in my specialty I get to follow children for a long time and maintain a doctor-patient relationship. I feel very rewarded in helping patients and their families through difficult transitions, and seeing them come out successful and happy."

Dr. Karin Selva attended medical school at the State University of New York at Buffalo. After graduation, she interned and completed her residency at the University of New Mexico. Originally hailing from Buffalo, she completed her undergraduate education at the University of Rochester. Dr. Selva has lived in Portland since 2000.

Dr. Karin's Selva's visit is sponsored via the JLC's Women of Influence Speaker Series.

National Walk@Lunch Day

National Walk@Lunch Day 2018 is Wednesday, April 25! Because National Walk@Lunch Day is designed to complement-not compete with-busy lifestyles, it provides the perfect opportunity to get up from your desk and get on your feet. Turn a normal working lunch into a walking lunch!

The U.S. Department of Health and Human Services (HHS) recommends setting a goal of at least 30 minutes of physical activity per day. Created to improve personal health and decrease health care costs for both employers and employees, National Walk@Lunch Day can be the start of a new daily walking routine, improving health step by step.

Participation is fun and easy. On Wednesday, April 25, local BlueCross and BlueShield companies and businesses large and small across the country will encourage employees to wear comfortable shoes and take a walk at lunch.

Studies have found that regular walking, particularly at a brisk pace of 3 mph, can substantially reduce the risk of developing heart disease, stroke and diabetes. Additionally, simply performing 30 minutes of moderate physical activity at least five times a week has significant health benefits and can lower the risk of developing or dying from hypertension or type 2 diabetes, and improve the health of muscles, bones and joints.

Join BlueCross BlueShield of Western New York on Wednesday, April 25, and help us walk toward a healthier America.
