Workplace Engagement Survey Closes with High Participation

Our 2017 Workplace Engagement Survey facilitated by ModernThink closed last week and the participation rate was amazing. Over 62% of our employees completed the survey! Thank you for taking the time to share your thoughts in an effort to make Alfred University a better place to work. Stay tuned for follow up in the fall.

Quick note from your custodial department

With the end of the semester rapidly approaching I would like to extend my deepest gratitude to our students for being cooperative and supportive of our efforts. I have received very positive feedback from many staff members concerning their interactions and experiences with you. Although I am sure many of you already know the checkout procedures set forth from Residence Life, I would like to take this opportunity to outline some basics. With your continued help and support the Custodial Department can provide a more positive experience to our summer term/new students, some arriving as early as May 19th. As you can imagine, getting all of the living quarters turned around in a short time frame is a huge undertaking. We ask that all personal belongings be removed from your dorm room and that it is cleaned. Also keep in mind that furniture should be placed back into its original state before you depart. Please let your building's custodian know if you need assistance with cleaning supplies and we will be happy to help. Additionally, I always welcome constructive criticism to guide us towards providing better service and a satisfactory experience at A.U. Please feel free to send me your opinions.

Thank you, enjoy summer! ?
Sincerely
Chad M. Hunt - Custodial Leader

IEA Artist in Residence: Blake Marques Carrington

May 22-26, 2017

The Institute for Electronic Arts at the School of Art and Design of the New York State College of Ceramics

Sponsored by: The Institute for Electronic Arts and the Division of Expanded Media

Blake Marques Carrington will be joining the IEA for an artist residency over the week of May 22nd. Based in Brooklyn, NY, Blake holds an MFA from Syracuse University and works across a wide range of media including digital printmaking, audiovisual compositions, live visuals to accompany performances, and video installation user self produced custom software - all falling a heading he calls "Speculative Forensics". Focusing on the question "can information be lost?" Blake often translates his creations from one medium to another, asking the question of how accurately it could possibly return its original form.

Blake is looking forward to exploring the IEA's sound studio facilities to focus on a couple of full-length albums that are currently in progress. He plans to experiment with the IEA's equipment, including our modular synthesizers, through openness and play while exploring new means of making. Local and student musicians are invited to jam sessions and collaborate on albums and tracks in progress.

The Institute for Electronic Art's Visiting Artist Program is sponsored in part by the New York State Council on the Arts with the support of Governor Andrew Cuomo and the New York State Legislature.

IEA Visiting Artist: Renate Ferro

May 15-19, 2017

The Institute for Electronic Arts at the School of Art and Design of the New York State College of Ceramics

Sponsored by: The Institute for Electronic Arts and the Division of Expanded Media

The IEA will be hosting Renate Ferro of Ithaca, NY, for an artist residency over the week of May 15th. Renate, who holds multiple masters degrees in art practices, frames herself as a conceptual artist who toggles between the creative skins of old and new technologies. These are actualized through forms such as installation, interactive net-based projects, digital time-based media, drawing, and text. Often engaging with the concepts of memory and disclosure, Renate's practice conjoins the making of art out of life's materials and life's materials out of art, blending the tactile material world with the networked, immaterial world.

For her residency, Renate intends to explore and print from her archive of video work from her Super 8 film and early low-resolution digital video projections. Renate has experimented with image making from these sources on older technology via printing on various substrates with dot matrix printers. With this archive of material Renate would like to experiment with the IEA's contemporary printing technologies, which are several generations newer than any Renate previously used.

The Institute for Electronic Art's Visiting Artist Program is sponsored in part by the New York State Council on the Arts with the support of Governor Andrew Cuomo and the New York State Legislature.

Chemical Waste Removal

The spring/summer chemical waste removal will occur during May 2017. Both hazardous and non-regulated waste will be accepted.

All chemical waste must be received in your respective Central Accumulation Area (CAA) no later than Thursday, May 25, 2017. All colleges (Harder Hall, McMahon, and Myers CAAs) contact Dean Perry x 2196 or Travis Reed x 2190 for receipt of your hazardous and non-regulated chemical waste.

Completed Hazardous Waste and Non-Regulated Waste Log Forms MUST be sent to EH&S no later

than Thursday, May 25th and may be mailed (117 Myers Hall), faxed to x2086, or scanned and e-mailed to: perrydr@alfred.edu. The hazardous waste packers must have this information prior to packing to obtain required approvals from the disposal facility.

All Satellite Accumulation Area labels MUST be filled-out completely with EPA# for respective college, building name, Room # or area name, start date, initials, chemical name(s) of constituents in the accumulation container with volume or weight, and waste characteristics prior to receipt in Central Accumulation. Note: Per EPA regulations you have only 72 hours from an SAA full date to transfer the container to the proper CAA. SAA containers must be capped or sealed with container lid, have clean exterior, and SAA label easily legible. If you have any questions, contact Dean Perry.

All Satellite Accumulation Areas must be empty prior to May 29th, with a notation to that effect made on your submitted May 2017 Satellite Accumulation Area Weekly Inspection sheet. Reminder: Any SAA's which collect waste during the summer and are not empty over the summer must have the weekly inspection log maintained and submitted to EH&S on a weekly basis.

Hazardous and Non-Regulated Waste Log Forms are available at <https://my.alfred.edu/ehs...> under the heading "EH&S Forms".
