## Students in Distress - Who to Contact

Dear faculty and staff,

This is the time of year when stress and emotions run high among our students, and our mental health emergency response calls really start to pick up.

If you are concerned for the safety of a student, your 24/7 phone number is 607.871.2108. When Public Safety is not on duty, the call will go to 911. Those dispatchers have phone numbers for our RD on call, our Student Affairs incident coordinator, the counselor on call, the Dean of Students, etc., so please work with 911 just as you would our Public Safety staff.

The Wellness Center/Counseling Service reserves time at the end of the school year for crisis and walk-in needs. Please call 2300 during business hours to consult or refer a student. Counseling Service after-hours message has a recording on how to contact the Counselor on Call.

For non-life threatening concerns please remember to utilize our Care Network at <https://alfred-advocate.s...?>

Thank you.

## Chemical Waste Removal

The fall/winter chemical waste removal will occur during December 2012. Both hazardous and non-regulated waste will be accepted.

All chemical waste must be received in your respective Central Accumulation Area (CAA) no later than Tuesday, Dec. 4th, 2012. Advanced Waste Solutions will be packaging for transport on Dec. 11, 12 and 13.

NYSOC contact Dean x3020 (Harder Hall CAA) or Shanti x2497 (McMahon CAA); non-statutory AU contact Dean x3020 (Myers Hall CAA) to arrange for receipt of your waste.

All Satellite Accumulation Area (SAA) labels MUST be filled-out completely with EPA# for respective college, building name, Room # or area name, start date, initials, chemical name(s) of constituents in the container with volume or weight, and waste characteristics prior to receipt in the Central Accumulation Area (CAA).

Note: Per EPA regulations you have only 72 hours from an SAA full date to transfer the container to the proper CAA. SAA containers must be capped or sealed with container lid, have clean exterior, and SAA label easily legible. SAA containers must be compatible with the contents - any kind of food container is not allowed.

Also SAA waste container contents must be segregated by its hazard characteristic, i.e. ignitable, toxic, corrosive, or reactive/oxidizer. If you have any questions contact Dean Perry.

All Satellite Accumulation Areas must be empty prior to Dec. 4, with a notation to that effect made on your submitted December 2012 Satellite Accumulation Area Weekly Inspection sheet.

Completed Hazardous Waste and Non-Regulated Waste Log Forms MUST be received by Dean Perry no later than Tuesday, Dec. 4 and may be intracampus mailed (117 Myers Hall), faxed to x2086, or scanned and e-mailed to: [perrydr@alfred.edu](mailto:perrydr@alfred.edu). Advanced Waste must have this information prior to packing in order to obtain required approvals from the TSDF.

Hazardous and Non-Regulated Waste Log Forms are available at <http://our.alfred.edu/ind...> under the heading "AU EH&S Forms".

## Introducing Summon: A New Way to Search the Libraries

The libraries are excited to announce the upcoming launch of Summon!

Summon is a powerful, yet simple, tool for searching the libraries' print and electronic collections.

Search Herrick and Scholes at the same time, including books, journal articles, reference sources, movies, music, archival material, and more.

Summon works like other Web search engines: put your search terms in and refine from there. Narrow your search (limit to books, for example) or expand your search (add in results from other libraries).

We will officially launch Summon at the start of the spring semester, but we couldn't wait to share the good news!

While we put some finishing touches on it, we invite you to try it out and [share your feedback](#).

### **Lecture: Cartoons of the Jazz Era**

Speaker: Jeremy Speed Schwartz, Alfred State College

Tuesday, Nov. 27 at 7:00 p.m.  
Nancy Howe Auditorium  
David A. Howe Public Library  
155 N. Main St., Wellsville  
585-593-3410

The late 1920s and early 1930s brought huge changes to the animation industry. This era introduced the earliest sync-sound cartoons, color and some of our most beloved cartoon characters. Many animators took inspiration from jazz music and infused their work with the rhythms, lingo and sometimes even the jazz musicians themselves.

Jeremy Speed Schwartz will discuss the historical and industrial context that gave rise to these films, and present a series of these rarely-seen hilarious masterpieces.

This library-sponsored lecture is free and open to the general public.
