### New System for the AU Libraries

The AU Libraries are pleased to announce an upcoming systems migration in early July that will improve services to the campus. A new library services platform, called Alma, manages all of the libraries' back-office functions, including circulation, the acquisition and cataloging of print and electronic resources, and resource sharing within SUNY.

The library staff have been working over the last year to prepare for this transition. While we expect disruptions to be minimal, we appreciate your patience and understanding as we make this upgrade.

Library patrons will have access to an improved public search interface called Primo which has several new features:

- \* Mobile-friendly design
- \* An integrated search of physical and print materials at both Scholes and Herrick (videos, articles, books, databases, etc.)
- \* The ability to save favorite searches or articles as well as manage personal accounts for renewals and other circulation functions
- \* The ability to search across the collections of all SUNY Libraries (and beyond) with links to request materials for inter-library loan

If you have any questions, please feel free to ask any of the librarians: <https://libguides.alfred...>
