Bicentennial Choir: Singers Wanted!

The Alfred Bicentennial Choir will re-form to sing songs praising our educational institutions past and present, and we want YOU to join us!

We will be singing the Alfred High School, Alfred-Almond, Alfred State College, and Alfred University alma maters at the Tuesday, March 11 bicentennial celebration.

Rehearsals are Sunday, March 9 at 2 p.m. in Miller 301 and on Tuesday, March 11 at 6:15 p.m. before the celebration. Advance copies of the music and/or lyrics can be obtained to brush up on your "Empire State Hills," "Hills of Allegany," and "Courage Never Faltering." No previous choral experience necessary.

For additional information, contact Rebecca Weaver at **weaverr@alfred.edu**.

All Invited - Grand Opening ASC Microelectronics Laboratory

Spring 2008 Grand Opening Tour

Thursday, March 6, 2008
10 a.m., Room 215 Engineering Technology Building

The Electrical Engineering Technology Department at Alfred State College has recently opened a brand new class 10,000 cleanroom laboratory facility specifically designed for semiconductor manufacturing technology.

Through a recent NYSTAR (Science, Technology, and Academic Research) grant opportunity, Alfred State has been able to complete this new microelectronics laboratory facility at a fraction of the cost of comparable industrial equipment.

The laboratory has been equipped with Modu-Lab semiconductor device manufacturing equipment, which gives students realistic exposure to the semiconductor planer process. An important concept of this laboratory is hands-on training. Although it is unlikely that the students will work with this exact type of equipment in industry, the understanding of general processes gained through laboratory experiences will prepare them to either continue their education in the microelectronics field or work in a modern industrial laboratory. Oxidation, diffusion, photolithography, etch, and vapor deposition stations allow the student the opportunity to design, fabricate, and test their own simple integrated circuits while gaining experience in working in a cleanroom environment.
