

## DEATH CLAIMS ANOTHER ALFRED MAN

### Corporal Elmer W. Bass Dies at Camp Wadsworth

On Monday, April 29th, Corporal Elmer W. Bass of Alden, N. Y., died at Camp Wadsworth, Spartanburg, S. C. Typhoid pneumonia was the cause of his death. Corporal Bass enlisted in Co. K 3d, N. Y. Infantry nearly two years ago. He served with his company on the Mexican border, and has been at Spartanburg since that company has been sent to camp.

Corporal Bass was an ex-member of the class of 1918. He enlisted during the latter part of his freshman year and went to the Mexican border. While in service there he was promoted to corporal. He was company clerk for some time while on the border.

Corporal Bass was a brother of Mrs. Morton Mix of this village. Alfred students extend their sympathy.

Corporal Bass is the third Alfred man to give his life in service, and in his honor a third gold star has been added to our service flag.

## THE BRICK GIRLS ENTERTAIN THEIR NON-DORMITORY FRIENDS

On Saturday evening, May 4th, the Brick girls gave a spring time dance, conforming once again to the time honored custom of the annual "Brick" dances. There were about forty-five couples attending, each Brick resident having as her guest some girl living elsewhere in town. All the escorts were distinguishable only by their red, white and blue ribbons which were worn conspicuously on the arm.

The patronesses of the evening were: Mrs. Davis, Miss Hart, Miss Elsie Binns and Mrs. Middaugh. The large dining room of the Brick where the dance was held was most tastefully decorated with pines, and bright red, white and blue streamers and brilliant bows. In the center of the room was a rest room, cozy with comfortable, pillowy chairs where the dancers might sit at ease, half screened in with a scalloped curtain of red, white and blue streamers. A victrola furnished excellent music and during the intermission, pineapple sherbert and little cakes were served.

The dance was opened by a Grand Promenade, led by Alice Cranston and Alice Ayars. One of the events of the evening was the flag dance. With all the lights extinguished, and patriotic music sounding clear, the eyes of all the dancers were turned towards the American flag, which, illumined and glowing from the bright lights placed behind it, shone forth triumphantly from the darkness. The Star Spangled Banner was then sung with much spirit.

The dance was considered a great success and was heartily enjoyed by all. Much of the credit belongs to Alice Cranston, as chairman of the managing committee.

With each quarter saved buy a Thrift Stamp.

## NOMINEES FOR NEXT YEAR'S STUDENT SENATE CHOSEN

At a class meeting of the Juniors and Sophomores held after assembly the following were nominated for the Student Senate: Juniors: Adolph Meier, Donald Hagar, Gertrude Wells, Elizabeth Davis, Dorothy Baxter, Frank Lobaugh; Sophomores: William Nichols, John Clarke, Marion Roos, and Helen Keis. The election will take place Wednesday morning after assembly.

## PROF. BINNS GIVES CONSERVATION LECTURE ON FUEL

Last Thursday evening at Agricultural Hall, Prof. Binns gave an illustrated lecture before the conservation class and others, on "Fuel." Prof. Binns told something of the history of our present fuel supply and treated the subject from an economic point of view. Our coal was formed from the vegetation of centuries long forgotten. Our present supply is merely a reserve, there being no coal forming at the present.

Our anthracite coal was formed by pressure and the foldings of mountains. This anthracite coal is found only in the Appalachian Mountains in Pennsylvania. The coal in the United States is more than half of the coal in the world. Already twenty per cent of the supply of anthracite has been used, and at the present rate of consumption our supply of anthracite coal will be gone in ten years.

But our supply of bituminous coal has hardly yet been touched. The bituminous coal is found widely distributed throughout the United States, from Pennsylvania down to Alabama, and immense deposits are found in Ohio, Illinois, and Kansas. There is also some bituminous coal found in the Pacific Coast States. Lignite is found in the Dakotas. This lignite is coal that has not been completely formed yet but can be used for fuel in many instances. It is a mature peat which is light and contains much water. Lignite is very hard to burn. Billions of tons of this lignite are as yet untouched.

Prof. Binns then told the story of the mining of coal. To those who had never seen a coal mine, the slides were very interesting and pictured well the manner in which the coal is mined. The greatest problems in connection with the mines are of ventilating the mines and lighting.

The topics gas, oil, and wood were then briefly mentioned, and something of their relative importance was shown. This was a very interesting and instructive lecture and those present enjoyed it very much.

## MOVIES WEDNESDAY EVENING

McTighe informs us that the films for the movies Wednesday evening are already here and that we will surely have the performance this week. Captain Kiddo is the name of the feature film while there is a comedy film of one reel also. The vaudeville that was to have been last week will be given this week. We have been unable to learn the nature of this superior production but Mac assures us that we shall sure get our money's worth. Come early so you can get a seat as the manager informs us that no standing room tickets will be sold.

## STUDENTS HEAR OF HISTORY AND WORK OF CONSUMER'S LEAGUE

### Address of Miss Hollands Much Appreciated

It was with real appreciation that the student body heartily applauded Miss Louise Hollands at the close of her address before the assembly last Wednesday morning. Miss Hollands, who is an active worker in the Consumers' League, and secretary of that organization in Hornell, told in a most pleasing manner of the history of the league and of its work.

The Consumers' League was organized about twenty-five years ago, by a small group of women in New York City, who, realizing the menace of unsanitary conditions, long hours and low wages then prevalent in industrial institutions where thousands of women and girls were obliged to earn their living, felt the urgent need of some organization as a means to improve such conditions; and so it was that the Consumers' League was organized. The league has grown rapidly. By 1890 it had enrolled many thousands of members, and it is now a national organization. The object of the Consumers' League is embodied in these three things (1) better sanitary conditions (2) shorter hours (3) living wages; and the work of the league directed toward these roads, has been felt in all our larger cities.

The Consumers' League has been instrumental in bringing about important bills of legislature. Among such legislature the Consumers' League is responsible for the fifty-four hour law, which provided that women should not work more than nine hours a day, fifty-four hours a week, thus providing for one day of rest out of seven. Later another law was passed which provided that girls under twenty-one years of age should not work at night.

Since the beginning of the war, the Consumers' League has had to fight doubly hard, to meet the difficulties which necessarily arose when women were called upon to fill so many of the places in industrial work which were left vacant by the men. Soon after the war began, Senator Brown of New York brought before the legislature the Brown Bill. In the main, this bill provided that the State Industrial Commission have the power to lay aside, during the war, any laws which they might see fit, as a war measure. This bill passed the legislature. Then messages from all over, incited by the work of the Consumers' League, were sent to the governor, and the governor vetoed the bill. It is easy to see the folly of such legislature when we realize what the result of like measures has been in England. Soon after the entrance of England into the great war, England repealed many of her laws which long years of efforts had accomplished to improve industrial conditions where women are engaged. Then England began to realize that her output began to decrease instead of increase. England then appointed a committee to scientifically investigate the situation, and it was found that long hours and strenuous work

## NEXT YEAR'S KANAKADEA STAFF NOW COMPLETE

The staff which will be responsible for next years' Kanakadea is now complete and already the work has been started. As has been announced before, Lois Cuglar '20, has the honor of being the editor. The other members of the board are as follows:

Associate Editors—Paul DeMott, Hollice Law, John Clarke.  
Business Manager—Wm. Nichols.  
Assistant Business Manager—Elmer Mapes.  
Photographer—Henry Harrington.  
Art Editor—Beatrice Streeter.

## UNUSUAL ADVANTAGES TO BE OFFERED AT ALFRED'S SUMMER SCHOOL THIS YEAR

The Alfred University Summer School will open July 9, and close August 21, 1918. This year the school will emphasize courses in Rural Education and Physical Education, although the popular course in Ceramics, and a wide variety of college and academic courses will be offered and bid fair to be well patronized. The rural course is a unique summer course (each summer's work complete in itself) crammed full of new ideas and inspiration for elementary school teachers in village and district schools. The Physical Education courses are of the highest order. They fit one to work in a rapidly expanding and remunerative field. "Preparation is Patriotism." Write for catalogue to Dr. Paul E. Titsworth, Director, Alfred, N. Y.

## EXHIBITION OF PAINTING

The last in the series of special exhibitions this year under the auspices of the Ceramic Guild will be a group of paintings by Mr. John Sharman of Winchester, Mass. The pictures are landscapes, sketches, but complete and are lent to the Guild through the courtesy of Mrs. Bole and Mr. Sharman.

The paintings will be on exhibition during May in the Studio at the Ceramic School every day from 8 A. M. to 5:30 P. M.

had been the cause of the increased inefficiency. After three years of war, England has learned a lesson. Mr. Lloyd George has said: "We are a slow people, but we get there.... It is worth a good deal to study our blunders.

Among the new laws for which the Consumers' League had worked are (1) The Wagner Living Wage Bill, which did not go through this year, (2) The Nicolls Transportation Bill, which also did not pass and (3) The Nicolls messenger Service Bill and this bill was passed.

Though the Consumers' League has not succeeded in getting all of its bills through, they have accomplished much in that they have succeeded in keeping the laws which we already have. Miss Jane Pinkus, secretary of the New York Consumers', and who was in Alfred at the time that our local consumers' League was organized, has been a most ardent worker and has done much to bring about the passage of these later bills.

In closing, Miss Hollands read a very beautiful prayer, which was written for the Consumers' League.

## MISS GERTRUDE WELLS NEW PRESIDENT

### Other Council Members Elected at Special Meeting

At a special meeting of Sigma Alpha Gamma last Wednesday morning after Assembly, the organization elected its president and council members for the coming year. Gertrude Wells '19, was elected president of the organization, an honor which is one of the highest that a college woman may achieve. The other council members are:

Dormitory—  
Junior—Helen Keis '20.  
Sophomore—Eloise Clarke '21  
Non-Dormitory—  
Senior—Lelia Spencer '19  
Junior—Elizabeth Lattimer '20.  
Sophomore—Mildred Stillman '21.  
The dormitory senior representative is the president of the Brick, will be elected next week.

The Sigma Alpha Gamma this year, under the efficient leadership of Ethel Smith '18, has been most successful, and the new council, with Gertrude Wells as the president, will ably carry out the work with the same high standard which has been set for it by its predecessors.

## OVER 900 BOOKS CONTRIBUTED TO THE UNIVERSITY LIBRARY FOR OUR SOLDIERS

The college library reports that the people of Alfred contributed 900 books during the book campaign for the use of our soldiers and sailors, and that more books are still coming in.

It is hoped that week after week they will continue to come in steadily, for our men will need books as long as the war lasts, and the supply must be constantly replenished. All stations which have been opened for the receipt of books will be continued indefinitely, and the public is urged to form the habit of turning in their new books as soon as they have read them. In this way, a constant stream of fresh books into the camps will be assured, and a most effective barrage established against the blue devils of loneliness and depression.

All books received will be prepared for use in accordance with the simple rules laid down by the Library War Service of the American Library Association, and will be shipped to such points as the A. L. A. may designate. The needs of all camps and stations in this vicinity will be taken care of first. Most of the books collected along the Atlantic seaboard will be shipped to France as rapidly as possible. At least half a million are needed there at once, and a constant stream of replacements must be maintained, for the wastage will be very great. Hence the call for books, books and more books.

The A. L. A. has built up an organization capable of handling thousands and thousands. That the books will be forthcoming cannot be doubted.

Horace W. Griffiths, Alfred '16, has resigned his position in the Binghamton high school, and has gone to his home in Burlington Flats, N. Y., where he will run his father's farm the coming year.

## AROUND THE CAMPUS

Wm. H. Garwood '14, was in Alfred Sunday.

Aloysius Gaius '18, is spending a week at his home in Corning.

Rose Trenkle '17 and Mary Saunders '17, spent the week-end in Alfred.

Lieut. Walton B. Clarke '12, was in Alfred on Friday, enroute for Fortress Monroe, Va.

Miss Frances Gilford of Friendship was the guest of Gertrude Wells '19, over the week-end.

A little daughter, Aileen, was recently born to Mr. and Mrs. Victor Davis, Rochester, N. Y. Mr. Davis graduated from Alfred in 1911.

We are glad to report that Dean A. E. Main of the Theological Seminary, who has been ill for several weeks past at the St. James Mercy Hospital, Hornell, is recovering slowly. We hope that he will soon be with us again.

Pres. B. C. Davis was in Buffalo Friday where he attended a meeting of the district presidents of the Third Liberty Loan. He also attended the funeral of Elmer Bass, which was held at Alden, N. Y., on Saturday.

### FORMER ALFRED STUDENT MARRIED

Miss Nellie Eaton of Ulysses, Pa., a former student in Alfred University, was married Monday morning, April 29th, 1918, to Mr. Herbert Jones, also of that place. The ceremony was performed at the home of the bride's mother, Mrs. E. U. Eaton, the Rev. G. H. Carr, pastor of the Baptist Church, being the officiating clergyman. Only near relatives and a few intimate friends of the bride were present.

After a wedding breakfast, Mr. and Mrs. Jones left for a two weeks' trip in the East. During this time they will visit the groom's parents at Halifax, N. S.

Miss Louisa Ackerly '20, spent the week-end at her home in Cuba.

Anna Savage '18, spent Saturday and Sunday at her home in Hornell.

Angie Boyce, ex-'20, spent the week-end at the Brick, the guest of Marion Roos '20.

The date set by the student senate for the Freshman-Sophomore base ball game is Friday, May 10.

Dr. Paul E. Titsworth has returned from his eastern trip, where he has been working in the interest of the Improvement Fund.

Prof. Katherine Porter and Prof. C. H. Binns acted as judges at a speaking contest held at the Hornell High School, Friday evening.

Alice Baker '18, returned Sunday evening from LeRoy, N. Y., where she has spent three weeks as substitute teacher in the LeRoy High School.

Donald Fuller '19, visited Sunday at his home in Scio. Don reports the Scio track team is progressing rapidly and is certain that they will make a fine showing in the Track Meet here on the 15th of this month.

Director Ray W. Wingate has been elected to the position of Precentor at the Park Methodist Episcopal Church in Hornell. His duties there require his attendance for the morning, noon and night services every Sunday.

The regular meeting of the Faculty will be held Tuesday evening, May 7, at the home of President Davis. The meeting will be devoted to the "Problems of Food Conservation," and Miss Angeline Wood will give a paper on that subject.

The senior class in the Mechanical Engineering department of Cornell has left the university and taken employment in the Harlan and Holingworth ship yards at Wilmington, where the fen will remain until the end of the war.

### RIXFORD-COVEL

A pretty home wedding occurred at the home of Mr. and Mrs. Fred Covel of Stannards, Wednesday, May 1st, at six o'clock, when their daughter Fern, was married to Guy Rixford of Cleveland, Ohio.

The house was prettily decorated with spring flowers. The doubling ceremony was used and Rev. F. H. VanKuran of Sonora officiated. They were unattended.

The bride wore her traveling suit of navy blue serge and carried white and pink roses.

The guests were received by the parents of the bride and groom. Only the relatives and intimate girl friends of the bride besides the pastors and wives, were present.

Guests were present from Wells-ville, Whitesville, Hornell, Petrolia, Franklinville, Savona and Salamanca.

The wedding presents were beautiful and in great variety.

The happy couple will go soon to Cleveland where their furnished home is awaiting them.

Mr. Rixford graduated from Alfred last year, and now has a fine position in the Cowen Potteries of Cleveland. Congratulations, Rix.

### PHYSICAL EDUCATION COURSES AT ALFRED SUMMER SCHOOL

"Preparation is Patriotism." Among the numerous courses to be offered this summer at Alfred Summer School are some fine ones in Physical Education. Miss Teacher do you wish expert instruction in Physical training? Do you wish to be able helpfully to advise parents regarding the physical requirements of their children in your school? Do you wish to prepare for a promising and profitable field of educational work? Then come to the Summer Session at Alfred University, July 9 to Aug. 21, 1918. Competent teachers, plenty of work, plenty of fun, plenty of good fellowship, plenty of inspiration. Write for catalogue to Dr. Paul E. Titsworth, Director, Alfred, N. Y.

### OHIO STATE BACKS LOAN CAMPAIGN

Not only has Ohio State University purchased Liberty Bonds, but it is otherwise aiding the campaign with men, who, under the direction of Prof. Victor A. Ketcham of the department of English, are doing active work on the educational committee. Thirty students who are taking courses in debating and public speaking have been gathering data on the material used by speakers in the latest campaign, which closes May 4. In the two previous drives for the sale of Liberty Bonds, erroneous statements were made by some of the speakers, which, although unintentional on their part, created false impressions in the minds of the people. In order that these errors should not be repeated, Professor Ketcham was as educational director for the Columbus district, which includes Columbus and the 10 surrounding counties, when the Third Liberty Loan was announced. Twenty-five students were asked to volunteer to investigate and make reports on the material used by the various speakers. More than the required number offered their services and 30 were selected to help in the work.—Ex.

In accordance with the decision of the Student Council, the senior class of Cornell University will not wear the cap and gown at the Commencement this year.

TERMS: \$1.50 per year in advance

Alfred has always been proud of her campus, and she has had the right to be, for one more beautiful it would be hard to find. However, there are several things which at present quite disfigure the appearance of our campus. One of these things is the ditch line between the Brick and the new heating plant, where the ground was torn up to lay the pipes. Although the work has been pushed forward as rapidly as possible, the debris has not yet been entirely removed, and so there is a reason for this bit of unattractiveness. However, there is another thing which detracts still more from the beauty of our campus, and this is the path which has been formed through the park. It may be that the habit of using this short cut during the winter has become so fixed that it is not easy to break away from the habit. But why not do something that isn't easy for once? Then it may be that the laziness or spring fever which spring always brings with it has seized us, and we do not exert our energy so as to keep to the side walk. This, too, is a lame excuse, for if we must take a short cut, use the driveway on the other side of the Kanakadea.

It matters not which of these may be the cause of such carelessness and negligence, the habit of using that path across the park must be stopped, and at once. Already there is a distinct path formed, but if the use of it is discontinued entirely the path will soon be overgrown. We all have pride enough in the appearance of the campus to do our bit in making it beautiful. Your bit is to stop using that path. Even a mere suggestion should be sufficient to awaken this pride. See to it that you do not short-cut across the park again, not even once.

Have you done your part toward boosting the Track Meet? If you haven't, just remember that there is only one more week between now and Track Meet day. The manager of the Meet has been working hard, and everything now points to the best Meet that Alfred has ever had. A large number of entries have been secured, the speaking contest will represent a large number of schools,

and the Stock Judging Contest is to be larger than ever before. The Interscholastic Meet is always one of the biggest events of the whole year, and on that day many athletes and spectators come to Alfred from surrounding towns. Many of these people who come here on that day are high school students, many of whom will enter some college next year. It is up to us to make their first impression here such that they will get an idea of real Alfred spirit, and when choosing a college they will make Alfred their choice.

These people will be our guests, and as guests they must be royally entertained. Have your friends come to Alfred on that day. Get them interested in Alfred. Boost the Track Meet.

STUDENTS ATTENTION

An opportunity will be given at the assembly Wednesday morning to vote on the changing of our Alma Mater. It is time that we had a song for Alma Mater that is Alfred's and only Alfred's.

FOOD CONSERVATION MEETING

The Food Administrator for Allegany County, Mr. George C. Rosa, will present the general food situation at the Conservation meeting next Thursday, May 9th, at Agricultural Hall.

Prof. Banta will also give a talk on meats.

This will be the last of the series of lectures on Conservation. Everyone is cordially invited to come and hear the facts concerning our food supply.

Y. W. C. A.

"Through Freshman Spectacles" was the topic discussed at the meeting of the Y. W. C. A. Sunday evening. The meeting was led by Eloise Clarke and Emma Dinsmore, assisted by other Freshman girls. Ada Walsh told of the place which Y. W. fills in the spiritual life of the college girl. Eloise Clark discussed, "Do Freshmen appreciate Y. W.?" "What is wrong with Y. W.?" was set forth by Emma Dinsmore and Margaret Neusinger told how Y. W. differs from other religious associations. Winifred Green told how a Freshman regarded Y. W. before and after entering college, and explained the value of it as an organization to help fill the religious needs which arise in the life of the college girl. The meeting was very interesting and helpful.

WAR SAVINGS STAMP SALES

Rochester stands 23d on the list of the 100 best agencies of War Savings Stamps with a total amount of \$539.75.

The bulletin which has just been issued by the W. S. S. committee also reports that the total of the city sales is only about \$1.00 per capita while the quota is \$20.00 per capita.

Paul A. Holmes '21, one of the staff members of the "Milton College Review," has accepted a position as reporter on Chicago's greatest news paper, the Chicago Herald.

The Fiat has been requested to publish the following songs, which will be sung at Assembly Wednesday morning:

THERE'S A LONG, LONG TRAIL

There's a long, long trail a-winding Into the land of my dreams, Where the nightingales are singing And a white moon beams, There's a long, long night of waiting Until my dreams all come true, Till the day when I'll be going

Down, that long, long trail with you. There's a long, long trail a winding Into No-Man's Land in France; Where the shrapnel shells are bursting. But we must advance, There'll be lots of drills and hiking Before our dreams all come true, But we're going to show the Kaiser How the Yankee boys come through.

HOT TIME

Here we are, and we're off for Berlin town, We'll turn Bill and his army upside down. And when the Allies make the Kaiser shed his crown, There'll be a hot time in the old town that night, oh baby! (repeat)

HAIL, HAIL, THE GANG'S ALL HERE!

Hail, hail, the gang's all here! We're going to get the Kaiser. We're going to get the Kaiser. Hail, hail, the gang's all here! We're going to get the Kaiser now.

UNCLE SAMMY

Tune: "The Old Gray Mare" Uncle Sammy, he needs the infantry; He needs the cavalry, he needs artillery. And then, by gosh, we'll all go to Germany. God help Kaiser Bill! God help Kaiser Bill! God help Kaiser Bill! Uncle Sammy, he gets the infantry. He gets the cavalry, he gets artillery. And now, by gosh, we'll all go to Germany, God help Kaiser Bill!

PACK UP YOUR TROUBLES

Pack up your troubles in your old kit bag And smile, smile, smile. While you've a lucifer to light your bag, Smile, boys, that's the style. What's the use of worrying It never was worth while, so Pack up your troubles in your old kit bag And smile, smile, smile.

Students please bring the words to assembly on Wednesday.

"50-50"

Once it was "54-40 or fight." "Now," according to the New West Trade, of Spokane, Wash., "it is 50-50 straight and no back talk to the official handicapper. Time is a great equalizer."

The decision has been made at the University of Rochester that there will be no senior oration this year. Only two or three Seniors have offered themselves. Most of the probable candidates have gone into government service. The custom of having senior orations has not been abolished, but it will be discontinued until the senior ranks are filled. To take the place of the oration on the Commencement program an outside speaker of repute will be secured.

The Seniors of Grove City College will present a Shakespearean play at Commencement time, "As You Like It."

Princeton College recently celebrated the twenty-fifth birthday of her honor system. The system has been a distinct success.

STUDENTS' INFLUENCE IN HOME COMMUNITY

The Food Administration courses in food conservation, which were adopted during the second semester in all colleges where such courses were not already in the curriculum, are expected to have a great influence on the work of college girls during the summer. Miss Ida Tarbell, head of the Food Administration Department of the Woman's Committee of the Council of National Defense, states that through these emergency food courses hundreds of young women in all parts of the United States will gain knowledge of the food situation and the ways in which the Government is trying to meet it.

"When these girls go home for the summer," says Miss Tarbell, "they will be prepared to act as instructors and crusaders in the matter of intelligent and consistent food conservation. What they will do will depend on their individual temperaments and abilities. Some may be able to go out and convert whole communities, others will only be able to influence opinion and practice in their own homes. Through the summer they can all be at work in their different communities preaching conservation as those can who really know the need and really understand the means."

Herbert Hoover sent the following letter to departments of home economics in the colleges and universities:

The United States Food Administration recognizes the excellent work that is being done by the department of home economics in the colleges and universities. Thousands of young women are being prepared to grapple with the problems concerned with food and the home. Graduates of these departments will find themselves called to places of usefulness sponibility anything heretofore tho far surpassing in number and responsibility anything heretofore thought possible. Issues that demand the rarest talent and the highest scientific training await their attention. This splendid army of specially trained young women is counted on by the Food Administration to give willing and effective service.

The place of the college girl as a war worker in the home community during the summer is indicated by opinions from other sources. Mississippi Industrial Institute and College suggests "that war-savings societies according to approved plans by Government Bulletin 145 be organized immediately in all colleges for the purpose of giving the students

information and actual experience in the work. As soon as vacation begins all college men and women should band themselves together in their communities to form a nucleus for a war-saving society, and deveolpe and carry on the movement. If the society has already been organized in the community, the college students should affiliate, co-operate, and make their influence so felt that they shall become a power in the movement."

Lindenwood College, in St. Charles, Mo., reports: "Inasmuch as every State in the Union is represented in this college, and girls come from the farm, little towns, and cities, it was recently decided that a great opportunity to prepare girls for war work in their home communities was being overlooked. By the new 'military system' not one girl will leave the college in May who is not prepared to teach the making of war garments and surgical dressings. The journalism and English classes are studying the war information series, and three times a week talks based on this material are delivered by the students in chapel."

WOMEN ALLOWED TO HOLD OFFICE FOR WAR

Women may hold minor class and organization offices for the rest of the war period in Oberlin college, according to the ruling handed down by the Men's senate.

The matter of the growing scarcity of men and of the greater decrease in next year and the following years in the college, the senate felt it wise to appoint a committee to investigate the possibilities of filling offices heretofore held by men with female incumbents.

Social chairmanships and treasurerships of the classes are the particular offices in view, according to the senate committee. The Review editorships will very probably be thrown open to women within a year's time, prophecy was made Tuesday night.

The senate expressed itself then as feeling the need for limitation on the offices that men can hold in the times when men are scarce. It is probable that the present year will see practically all the class offices and most of the organization offices made open positions, custom being the only law which interdicted women from holding these jobs.—Ex.

COLLEGE WAR WORK

Many colleges have started their war gardens, which will be continued during the summer by units of girl farmers. The plan of such units is described in the first bulletin of college war work published by the Division on Woman's War Work. Red Cross work is actively done in every school. The home economics departments of universities and colleges have done a considerable amount of research work and investigated market conditions for the Food Administration. The regular laboratory work includes problems in the preparation of new and less-well-known food materials, such as soy beans and barley flour, also problems in wheat and sugar substitution. Home-demonstration agents are being trained in these departments who will be of inestimable help in conservation work during the summer.

In New York the Barnard College Central War Relief Committee has opened a war hut on Riverside Drive. The purpose of this hut is to fill the want of Y. M. C. A. service for soldiers near the university, and to serve food at low cost. All the work is done by Barnard girls. It is financed by contributions of money by the Barnard faculty, alumnae, and friends.

The Columbia University Committee on Woman's War Work is doing immense amount of placement of women in industry, besides suggesting many lines of vocational education.

REVISION OF CAMPUS RULES

The committee on the Revision of Campus Rules report the following proposed amendments. Actions will be taken upon these proposed revisions tomorrow at Assembly:

ARTICLE II . . . . .

1. All Freshmen are required to wear either a green cap with a short visor and a large gold button, or a green toque with a short gold tassel, through the period covering the first two terms of the college year, and the Interscholastic Track Meet. Moving up day shall be set by the Freshman class with the approval of the Student Senate.

ARTICLE III

2. All class contests shall be umpired by upperclassmen in connection with the physical director.

ARTICLE IV

1. Underclass banquets are to be held during the period between the third Monday in October and the following Wednesday, any time between Monday morning at five o'clock, and Wednesday midnight.

ARTICLE V

3.....as a signal that the contest is closed. In the event of a false proc, the ringing of the bell will mean a cessation of activities for the day, only.

ARTICLE VIII

1. All offices of any student organization of Alfred College or School of Ceramics which last throughout the college year, shall be classified according to a definite system of credits, the number of credits being in proportion to the demand of each office, upon the time of the student.

2. These offices shall be given the following values.....(to be decided later.)

3. The maximum number of credits or merits any one student may hold shall not exceed the number of—

ADOLPH E. MEIER, Chairman.

Buy War Savings Stamps

Hearts with joy and gladness light,  
Must you leave the home you prize?  
Give up mother for the fight?  
Must you go, e'er childhood's done  
To match thyself against the Hun?  
Lads, with smiling, laughing eyes.

See, from every side they come,  
Pouring forth from vale and hill,  
Stirred by sound of beating drum  
Train to tame the Kaiser Bill.  
Forth you go with hearts so brave,  
Fearing not a foreign grave.

Thou, the nation's greatest pride,  
Shrined in every loyal heart,  
As you seek the other side,  
So may we each do our part,  
Gather stamps or buy a bond  
On this safe side of the pond.  
—By an Amachoor Poet.

—"Hush little Thrift stamp don't  
you cry, you'll be a war stamp by and  
by."

CORNELL UNIVERSITY MEDICAL COLLEGE  
In The City of New York

ADMITS graduates of *Alfred University* presenting the required Physics, Chemistry, Biology, English and a Modern Language.

INSTRUCTION by laboratory methods throughout the course. Small sections faciliate personal contact of student and instructor.

GRADUATE COURSES leading to A. M. and Ph. D., also offered under direction of the Graduate School of Cornell University.

Applications for admission are preferably made not later than June.

Next session opens Sept. 30, 1918

STUDENTS

We prepare pupils to teach Public School Music, give them a certificate and in most cases find them a position of Supervisor of Music. Our certificates are accepted by school boards and by the different states, without examination.

If you are musical and have a desire to teach Public School Music, call at the Studio and the course will be explained.

RAY W. WINGATE

Director University Dep't. of Music
