Officers of the University Corporation

For year ending June, 1941

JOHN J. MERRILL
WINFRED L. POTTER
D. SHERMAN BURDICK

President
Vice-President
Secretary

Library Directors

J. Nelson Norwood, President (*ex-officio*)
Ruth P. Greene, Librarian (*ex-officio*)
M. Ellis Drake, representing Faculty
Winfred L. Potter, representing Trustees
E. Grace Steele, representing Alumni

Standing Committees of the Board

Elected for 1940-41

Executive : J. Nelson Norwood, chairman ; D. Sherman Burdick, Secretary ; C. Loomis Allen, B. Sheffield Bassett, Justin B. Bradley, Charles A. Chipman, Burton B. Crandall, C. Richard Fenner, John J. Merrill, Orra S. Rogers.

Teaching Force : J. Nelson Norwood, Raymond C. Burdick, Finla G. Crawford.

Building and Grounds : J. Nelson Norwood, C. Loomis Allen, Charles A. Chipman, Finla G. Crawford, Nathan E. Lewis, John J. Merrill.

Supplies and Janitors: Curtis F. Randolph,* B. Sheffield Bassett, J. Nelson Norwood.

Printing and Advertising : J. Nelson Norwood, John J. Merrill, Curtis F. Randolph*.

Committee on Audit : Justin B. Bradley, C. Loomis Allen, Charles A. Chipman.

Attorneys : Holmes, Rogers and Carpenter.

Investments : Charles P. Rogers, C. Loomis Allen, William C. Cannon, Robert M. Coon, B. Colwell Davis, Jr., Nathan E. Lewis, L. Meredith Maxson, Asa F. Randolph, Orra S. Rogers.

Finance: C. Loomis Allen, Howard M. Barber, Justin B. Bradley, William C. Cannon, Charles A. Chipman, Robert M. Coon, B. Colwell Davis, Jr., L. Meredith Maxson, J. Nelson Norwood, Winfred L. Potter, Asa F. Randolph, Curtis F. Randolph,* Charles P. Rogers, Orra S. Rogers, James J. Wadsworth.

Insurance: C. Loomis Allen, D. Sherman Burdick, Curtis F. Randolph,* Orra S. Rogers.

George B. Rogers Professorship of Industrial Mechanics, Mechanical Library, and Apparatus Fund : J. Nelson Norwood, C. Richard Fenner, E. Fritjof Hildebrand.

Library Director Representing the Board of Trustees : Winfred L. Potter.

Health Service : Alfred E. Whitford, C. Loomis Allen, Marcus L. Clawson.

Heating Equipment and Operation : Nathan E. Lewis, C. Loomis Allen, Justin B. Bradley, Charles A. Chipman, Curtis F. Randolph.*

Electrical Equipment and Operation: C. Loomis Allen, Justin B. Bradley, Charles A. Chipman, Nathan E. Lewis, Curtis F. Randolph.*

* Died June 30, 1940.

**Board, of Managers of the New York State College of
Ceramics**

Elected by the Trustees of the University

J. Nelson Norwood, Chairman, Alfred	
Burton B. Crandall, Secretary-Treasurer, Alfred	
B. Sheffield Bassett, Alfred	Joseph L. Jova, Roseton
D. Sherman Burdick, Alfred	John J. Merrill, Alfred
John C. Hostetter, Hartford, Conn.	R. H. Pass, Syracuse
James E. Wilson, Buffalo	

**Executive Committee of the Board of Visitors of the
New York State School of Agriculture**

Elected by the Trustees of the University

J. Nelson Norwood, Chairman, Alfred	
Burton B. Crandall, Secretary, Alfred	
C. Loomis Allen, Alfred	Charles A. Chipman, Bolivar
B. Sheffield Bassett, Alfred	Samuel B. Crandall, Andover
D. Sherman Burdick, Alfred	Finla G. Crawford, Syracuse
John J. Merrill, Alfred	

EX-OFFICIO MEMBERS

Hon. Holton V. Noyes State Commissioner of Agriculture	Albany
Dr. Ernest E. Cole State Commissioner of Education	Albany
Dr. Carl E. Ladd Dean, State College of Agriculture	Tthaca

UNIVERSITY FACULTY, 1940-41

John Nelson Norwood, M.A., Ph.D., President
 Boothe Colwell Davis, Ph.D., LL.D., President-Emeritus
 Alfred Edward Whitford, M.A., Sc.D., Dean, College of Liberal Arts—Mathematics
 Major Edward Holmes, M.A., Ph.D., Dean, State College of Ceramics—Ceramic Technology
 Ahva John Clarence Bond, A.M., B.D., D.D., Dean, School of Theology—English Bible, Philosophy of Religion, and Homiletics
 Miles Ellis Drake, M.A., Ph.D., Dean of Men—History
 Dora Kenyon Degen, Ph.B., M.A., Dean of Women—Religious Education
 Waldo Albert Tittsworth, M.A., M.S., Sc.D., Registrar—Mathematics
 William Henry Genne, B.D., M.A. Chaplain, Minister of Union University Church, Director of Religious Activities

THE PRESIDENT'S ANNUAL REPORT

To the Trustees of Alfred University:

The President has the honor to submit his report for the year ending June 9, 1941, being his eighth annual summary, although his first included the months of the presidency of the late Dr. Paul E. Titsworth. The present report is for the one hundred and fifth year of the University and the eighty-fourth under the present charter.

Necrology

Justin Booth Bradley

1892 - 1941

Justin Booth Bradley passed away in Buffalo, New York, March 28, 1941, at the age of forty-eight years. He was born in Bolivar, New York, September 13, 1892. Graduating from Bolivar High School, in the fall of 1911 he entered Alfred University. After three years, at the request of his family, he left college a year short of graduation and took charge of the Bradley gas interests in Hornell, New York. Here he did his life work. In 1930' he accepted membership on the Board of Trustees of the University where his wise counsel, his generosity, and his fine loyalty made him a most valuable member. In his home city, and in the wider area where the family business interests lay, he won for himself a regard and affection it becomes the lot of few men to achieve. Farewell services were conducted March 31, before a great audience of relatives, business associates and employees in Alumni Hall on this campus.

Health

The friends reported ill in the February letter have continued to improve. Mr. C. Loomis Allen, who suffered a severe heart attack December 20, has been recovering slowly at his Alfred home. For some time he has been riding out in our unusually fine weather this spring. Hon. John J. Merrill experienced a serious set-back in Florida in March, but is now recovered and is again at his home in Alfred. B. Sheffield Bassett is recovering nicely from a broken hip which he suffered earlier in the spring. Kenneth S. Parker of Walton, New York, a freshman in Liberal Arts, died at his home of heart disease, May 30, 1941. The general health of the student body has been usually good.

College of Liberal Arts

The work of this College has been greatly aided by the use of South Hall this year. Its gymnasium has been a boon to the women, and the rooms on the upper floor provided ideal quarters for the Department of Business and Secretarial Studies. This Department is planning some attractive expansions in offerings in cooperation with the Department of Economics. For its benefit and through its efforts the University has won membership in the National Association of Business Teacher Training Institutions.

Much thought is being given in the State and on our campus to the problems of teacher education with special reference to the fifth year requirement soon (January 1, 1943) to become effective. Two members of our staff at no expense to the University or to themselves except for transportation will spend June at a Workshop program at Syracuse University under the auspices of a State committee on teacher education.

Departmental clubs, seven of them in this College, have been very active during the year and have added materially to the academic excellence of the year's work. The tutorial requirements for honors are now in full operation and a number of students in several different departments have undertaken these independent reading and research courses and passed the oral examinations which form part of the honors system. Three Alfred students read papers at the New York State Scientific Conference in Rochester this spring. Under the leadership of the Dean of Men several students attended the Model Assembly of the League of Nations at Lehigh University and participated actively in the discussions and other work of the Assembly. Under his leadership also a panel group in the Department of History and Political Science was developed and trained to discuss freely and deeply the question "What is Democracy?" Programs by this group were presented at meetings of Rotary Clubs and other organizations during the winter and spring and were very well received.

There are forty men in this College subject to the draft. The Dean of the College has been active in getting deferment for those looking toward medicine, dentistry, and specialization in physics and chemistry who are eligible for deferment under the Government regulations.

School of Theology

The work of this School has proceeded this year on its usual high level of excellence. The Dean hopes that the year will end financially in the black. He is making every effort to solicit special assistance from friends in the Seventh Day Baptist denomination to make this

possible. Bills and salaries are paid up to the end of May. A problem looms for the future of the School in that all present members of its faculty are sixty-five years of age or older. There will be one graduate in the Class of 1941. The Dean has been keeping in touch with the larger movements in the Christian world during the past year. These include the World Council of Churches, the National Conference of Christians and Jews, the Federal Council of the Churches of Christ in America, and the North American Ecumenical Conference. He has also attended the denominational meetings, especially the General Conference in Battle Creek, Michigan, last summer.

COLLEGE OF CERAMICS

The State College has had a normally successful year. The St. Pat's Festival brought the usual activities minus the Assembly, abolished last year due to the undesirable features which it seemed impossible otherwise to eradicate. The St. Pat's Ball with the crowning of the queen constitutes one of the outstanding social events of the year. The Open House, better organized from year to year, brings hundreds of young people to the College who see it in full operation, and from whom many future students are drawn. The budget for 1941-42 and the Supplemental Bill provide funds for three graduate assistantships, some expansion of the work of the Ceramic Experiment Station, and needed equipment and supplies. A WPA appropriation of \$14,000 was obtained last summer for improving the interior of Binns Hall and making it better suited to the Art Department for its pottery laboratory. The fees in the College are being consolidated beginning next year on the same plan as the consolidation of fees in the College of Liberal Arts which was in effect this year. The Engineers' Council for Professional Development has again accredited the College. Placement of graduates of this year's class and earlier classes is all that can be desired. A number of fellowships have been in operation during the year and a very important and extensive research project is likely to be brought to the College on a private basis in the near future. A number of losses of staff members has taken place during the year and others are leaving this summer. Details of this item appear under another heading in this report.

SUMMER SCHOOLS OF 1940

Three summer schools flourish on our campus. There is the so-called Intersession school confined chiefly to Field Zoology; the surveying school for freshman engineers and others; and the regular six-week session following these. The regular session last summer had a

record attendance of 188. Much of the graduate training which Alfred University offers is provided by the summer school. This will probably be increasingly the case. Following the summer session of 1941, Dr. Waldo A. Titsworth will relinquish the directorship of the schools and become Registrar. In the report of the Committee on Teaching Force there is a recommendation for a successor to him as director.

School of Agriculture

The boom in the School of Agriculture continues. Although the contract with the Federal Government for the Civil Aeronautics Administration program is with Alfred University, the work is done largely through the School of Agriculture. The School also has an extensive defense program in addition to the aviation in which it gives in Alfred and Wellsville and Dansville short courses preparing young men for semi-technical positions in the defense industries. During the past year 652 such men have been trained in these courses. The defense building which it was expected a short time ago would be built north of the present main Agricultural Hall did not materialize. The bill was vetoed by Governor Lehman. However, a bill did pass the Legislature and become law, effective July 1, changing the name of the School to the "New York State Agricultural and Technical Institute at Alfred University." It also made some increases in salary scales and provided for sabbatical leaves.

The director feels that the increase in the size of the School, its coming to maturity, so to speak, brings both losses and gains. There is the loss of the intimate, family atmosphere about the School which was so characteristic of it when smaller; on the other hand, however, is the greatly increased usefulness of the institution to the surrounding community and to the State. There is the possibility of receiving from the Federal Government some \$200,000 for additional equipment for the defense program. A new poultry house has been built and two greenhouses. The athletic field which was begun last summer will be finished this summer. For these purposes WPA grants have been made available. At the Commencement exercises this month 106 young people received diplomas or certificates. In all 1,006 different people have studied this year under the auspices of the School of Agriculture.

Enrollment

Enrollment in all departments of the University for the year was as follows:

PRESIDENT'S REPORT

13

College of Liberal Arts.....	279
College of Ceramics.....	323
School of Theology.....	3
Summer Schools	
Intersession.....	9
Surveying.....	75
Regular session.....	188
	272
Less duplicates.....	13—259
Department of Music (net).....	41
Jamestown Extension.....	108
Regular Extension.....	40
School of Agriculture	
Regular students.....	354
Defense courses.....	652-1006
Grand Total.....	2059
Less duplicates.....	134
Net Total of Different Individuals.....	1925
Less Non-residents.....	800
Net Total of Resident Students.....	1125

The Liberal Arts enrollment last year, 1939-40, was the largest with one exception in the decade; this year, 1940-41, it is the smallest without exception in the decade. The loss, chiefly in freshmen, was due apparently to the uncertainties of the times last summer; to new opportunities for remunerative employment; to the discussions of the Selective Service Bill, and other disturbing factors. The enrollment in the College of Ceramics was maintained at the normal level. The outlook for enrollment next fall is better than might be supposed, considering the perplexities of the time. The applications for Liberal Arts for next year are equal to or slightly better than they were last summer, or the summer before (1939) when we had the bumper freshman enrollment.

University Faculty Changes

1940-41

Dr. Waldo A. Titsworth presented his resignation as Director of the Summer Schools effective August, 1941. Dr. M. Ellis Drake was appointed Assistant Director of the 1941 sessions.

Rev. James C. McLeod resigned as Chaplain of the University, Director of Religious Activities, and Minister of the Union University Church and was succeeded by Rev. William H. Genne\ November 1,

Liberal Arts

Professor Eva L. Ford was unable to take her year's leave of absence this year because of the inability of Assistant Professor Marie Louise Cheval to return to the University to her own position in the Department of Romance Languages.

Assistant Professor David W. Weaver of the Department of Chemistry was on leave of absence during the year, his place being taken by Dr. Samuel R. Scholes, Jr.

Assistant Professor John Reed Spicer of the English Department was on leave of absence during the year.

Dr. Lloyd L. Lowenstein, Assistant Professor of Mathematics, was promoted to an associate professorship and appointed to the chairmanship of the Department.

C. Duryea Smith, Instructor in Speech and Dramatic Production was promoted to an assistant professorship.

Raymond L. Alty, Graduate Assistant in Physics was promoted to an instructorship.

Dr. Hermann Popplebaum was appointed Special Lecturer in Anthropology and Psychology.

Olin L. Johnson was appointed Special Assistant in Music.

Theology

Rev. Sylvester S. Powell withdrew as Professor of Biblical Languages at the end of the summer, 1940.

Ceramics

Frank E. Lobaugh, Assistant Professor of Ceramic Engineering, resigned February 1, 1941, and was succeeded by Robert L. Stone with the same rank.

Richard E. Cragg, Storeroom Keeper and Glassblower, resigned and was succeeded by John G. Mohr.

Leon B. Bassett was appointed part-time Instructor in Chemistry.

Wayne E. Brownell was appointed Research Assistant in the Ceramic Experiment Station.

C. Major Lampman resigned as Research Assistant in the Ceramic Experiment Station and was succeeded by Frank C. Arrance.

Agriculture

Elbert E. French resigned as Instructor in Electrical Theory and was succeeded by William Jaeger.

Robert E. Brown was appointed Instructor in Mathematics and Drafting.

Norman Newman was appointed Assistant in Air Conditioning and Refrigeration.

Robert E. Strang was appointed Assistant in Dairy Manufacturing.

Phyllis M. Czajkowski was appointed Instructor in Secretarial Training.

E. E. Foster was appointed Assistant in Agronomy.

Jamestown Extension

Dr. John F. Charles resigned as Director of the Extension and was succeeded by Dr. John H. Melzer.

Student Aid

Financial aid of different sorts has been possible to students in the following amounts:

	Students	Amounts
Scholarships	104	\$1-0,637.16
Loans (cash, etc.)	17	1,810.00
Cash and Credit Grants	32	6,509.00
Work (maintenance)	73	9,017.00
Departmental Assistants	37	1,531.06
NYA	112	9,240.30
Total		\$38,744.52

The original allotment to Alfred University by the NYA authorities was \$8,640. Two increases were made available by them: \$675 in November, and \$200 in March, making a total for the year of \$9,515. The number of individuals employed was 112; the average number working at any one time was 78. The total earnings were \$9,240.30; the average earnings per student \$82.50. Twenty-six departments and offices of the University were helped.

Acknowledgment of Gifts

A total of \$58,500 has been received during the past year from alumni, friends, trustees, and faculty members and staff. Of this amount \$21,000 was undesignated and 380 people contributed to the result. Three of the larger undesignated gifts were: William C. Cannon, trustee, \$5,000; Estate of Merle A. Coats, \$5,000; payment of the pledge of the late Harry Bradley, \$1,000.

Gifts for designated purposes for the same period total \$37,500 received from 180 contributors. Among them was the gift of \$11,558.55 in Government bonds by Mrs. Susan Howell Ames, trustee, for the purchase of South Hall. Other funds came from the efforts and gifts

of Mr. John P. Herrick, trustee, and from the estate of the late John Champlin.

Thus it will appear that gifts totaling nearly \$60,000 for the first eleven months of this fiscal year have been received which is a substantial increase over last year's receipts for the same period. This increase is chiefly due to the large amounts of specific gifts.

It will be interesting to trustees that during the last ten years or so faculty and staff members have contributed over \$30,000 to the funds of the University.

Mr. Albert A. Becker of New York City is making a gift of valuable new books to the library on the installment plan. Mrs. Marian B. Nicholson of Bradford, Pennsylvania, has contributed some valuable back files of the *National Geographic Magazine*.

Campus Life

The year has been unusually free from serious disciplinary cases. The system of student counseling in the two colleges has been carried on with increasingly valuable results. A series of teas was held last fall at the homes of faculty members for the freshmen. These proved to be very popular and will undoubtedly be tried again and carried further into the school year. Some suggestions are being made for a more democratic participation of students in some of the phases of University administration. The Blue Key service society has been active on the campus during the year doing many useful things. It has pushed a campaign for band uniforms paid for by the student body, by the School of Agriculture, and by the University. The cooperative house called Greene Hall, the former home of Mr. and Mrs. Arthur B. Greene, has been a marked success. The providing of a women's gymnasium in South Hall has greatly reduced the pressure on the University gymnasium and has formed a much more convenient and appropriate center for women's physical education and athletic activities.

Infirmary

During the present year much discontent has arisen regarding the infirmary and our medical service program. This has been due in part to changes in nurses and to the partial failure of the infirmary to make students feel that they are welcome when they feel that they need attention. The increase in enrollment since the present arrangements were made also is an important factor.

An experiment has been made during the past month by having Dr. Ellen H. Sutton supplement the work of Doctor Hitchcock. She has been at the infirmary five days a week from 4:30 P. M. to 6:00 P. M., and has been on call for emergencies at other times. This plan

has worked out successfully. I believe Doctor Sutton will be available for similar employment next year. Her work would not be in place of Doctor Hitchcock's work, but would be in addition to it. We need additional medical service. It has also been suggested that due to the large health fees which students pay each semester, X-ray service and minor medical supplies be provided for the students through the infirmary without additional expense to them. All new students are now asked to supply entrance health certificates from their home physicians. Some consideration has been given to a plan to build on to the south side of the present infirmary building. It would be possible to enlarge the present work rooms for the physicians and also to add three small rooms for patients. Miss Lydia Oonover has resigned her position as Superintendent of the Infirmary to take effect this summer. Miss Conover is in poor health. There will, therefore, be two nurses' positions to fill for the coming academic year.

CHAPLAIN

Chaplain William H. Genne, who came to the campus November 1, is proving a very acceptable successor to Chaplain James C. McLeod. The chapel services have been maintained through the year as usual with fair attendance. The Union University Church has continued to be a successful and influential institution. A choir, a very important element in the success of the church program has this year sung in two or three neighboring communities and made a very fine impression. The Alfred University Christian Association and the Young Women's Christian Association on the campus have, by way of experiment, combined into the Alfred Christian Fellowship. They have held frequent joint meetings in the past and this experiment will determine whether permanent consolidation of the two associations is desirable. The chapel room in Kenyon Hall would be greatly improved by substituting pews for the present classroom seats. This change would be very appropriate, since the room is used almost exclusively for chapel and other religious meetings.

FINANCE

The Current Year

It was not possible last fall to make a budget that would balance and the situation has not improved during the year. The loss of forty-eight students in Liberal Arts as compared with the previous year is the answer to the question as to the reason for the situation. It appears now that by the end of the year the operating budget will show a deficit of about \$15,000. An analysis of the total budget situation indicates, however, that certain charges have been made against the budget

which more properly should have been made against the Improvement Fund. Some of these items are as follows: (1) putting South Hall in proper condition to use, (2) fitting Kenyon Hall and the Library to use the Warren-Webster Temperature Moderation System, (3) erecting an addition to the Heating Plant structure. These costs totalled \$5,100. If this figure is counted, the deficit is larger than indicated above.

The most important step in finance during the current year has been the organization of the Continuous Support program. After the incapacitation of Mr. Allen, a special committee was appointed with Mr. Charles A. Chipman as chairman, and this committee worked in cooperation with the Finance Committee of the Board in evolving the program mentioned. The first of March Mr. W. Harold Reid, '20, began his work as Director of Finance and has energetically devoted himself to gaining acquaintance with the situation by testing out the field in various localities, in appointing alumni and friends who will help him, in developing a plan of procedure, and in compiling a live, carefully selected list of alumni and friends.

Personally, the President has much faith in the success of a plan which with small beginnings can develop to such proportions as to solve many of the financial problems of the University. Money is already beginning to come in from the activities of Mr. Reid. A detailed report of these proceeds is available to the trustees.

Next Year

The uncertainties of the past year in the world and in the country and on our campus promise to be no less during the coming year. Steps should be taken to reduce expenses, and if possible to increase our income. While enrollment in 1941-42 is as much an uncertainty as anything else, there are some indications that in Liberal Arts it will be no less than this year and might possibly be more. One thinks first of increasing income through the results of Mr. Reid's work. The purposes for which such funds are being collected include emergency backing of the operating budget. My best economy suggestion at the moment is that the Treasurer and the President agree that some \$15,000 of savings should be made next year as against this year, and that they be allowed to determine the method of such savings.

Heating Plant

The increase in the efficiency of the heating plant through its rehabilitation last summer is quite surprising. The engineer has used but one boiler at any one time in the past winter. Nor has the boiler

in operation ever been crowded to its full capacity. Of course, it has been a somewhat easier winter. Nevertheless, this efficiency on the part of the boilers is noteworthy. It would be possible to add other buildings to the present heating plant if the trustees feel it desirable. The savings effected by the Warren-Webster Temperature Moderation System have been quite noteworthy, varying from \$400 to \$800 per month since the first of November; possibly a rough average would be \$500. For six months that would be \$3,000. This saving goes, of course, toward the payment for the system.

Various Items

The five programs constituting the Forum list of winter lectures and entertainments were all of a very high order and were paid for by student fees and by purchases of tickets by faculty members and a few outside friends. No addition was made to the student bills. As a matter of fact, the money came from the athletic tax with the approval and consent of the athletic authorities.

The men's and women's glee clubs have had a satisfactory year. The men's club was unable to make the trip to New York this year and has not visited as many high schools as usual. The women's glee club has had a few outside engagements.

The physical education and sports programs of the year were well maintained. A very extensive and successful intra-mural sports program is carried through involving a surprisingly large number of individuals in the two colleges. We had an undefeated football season and the track team has been undefeated this year in dual or triple meets. It stood very well also in the Middle Atlantics meet at Muhlenberg College. The members of the physical education staff have filled a number of speaking engagements.

The Alfred Cooperative Pictures has had a successful year. Extra good pictures have been shown and while the patronage has been good, it has not been quite up to the previous year. This may be partly due to our decreased enrollment.

The library service has been maintained but circulated three or four thousand fewer books and periodicals than the previous year. The pressure of the library both for space and personnel increases. Good use could be made of an additional full-time assistant. The new lighting fixtures in the reading room of the library are much appreciated and it is suggested that similar improvement would be welcome in the stackroom.

The *Kanakadea*, the student yearbook of the University, was dedicated very appropriately this year to Dean Alfred E. Whitford of the

College of Liberal Arts. The School of Agriculture student yearbook, the *Argosy*, was equally appropriately dedicated to Assemblyman William H. MacKenzie. The *Fiat Lux* has enjoyed a successful year.

The Allen Steinheim Museum welcomed 3,544 visitors.

The Alfred University Extension School at Jamestown has had a fruitful year academically. It enrolled a total of 108 students, a somewhat smaller number than the previous year. With tuition and fees and contributions of citizens of Jamestown the School will end the year with all bills paid. There is evident an increasing interest in and enthusiasm for the School in the city. A financial campaign was put on this spring which has cared for any possible deficit this year and provided a sum as a backlog for next year. The State Education Department has agreed to go on with the experiment a while longer to see if it can develop into something permanent as well as useful. Seventeen regularly enrolled students from the Extension have been in residence on the Alfred University campus this year.

The fifth annual Human Relations Conference was held April 23 with Dr. Margaret Mead of the American Museum of Natural History, New York City, as the leader.

The Bureau of Appointments under the direction of Dr. Joseph Seidlin reports good demand for graduates desiring to teach and predicts that all our prospective teachers of the Class of 1941 will have positions by the middle of the summer.

The Publicity Department has sent out during the year some 2,200 or 2,300 news stories. Many of these have gone to fifteen papers regularly and others have gone to a much larger number of weekly papers in students' home towns. The Department of Publicity has also brought out a new and improved series of picture post cards of the campus which are selling readily.

Morale

Faculty, students, and staff members have been affected naturally during the year by the tragedies in the world, by the war preparations in the United States, and by the special uncertainty caused by the Selective Service Law. In spite of these distractions and the ease with which they create a jittery feeling among all concerned in the operation of the University, morale has been surprisingly good. The work of the faculty, the office and campus staffs, and of the student body has been of a high order. All are to be congratulated on having done as well as they have, considering the distracting and disturbing circumstances that have surrounded their work.

Conclusion

In many ways it has been a year of anxiety and dread for those of us in the higher administrative places. Sickness of important members of the staff, while unavoidable, has in some cases delayed and complicated our plans. The death of Justin Bradley was a serious blow to us all. But we have some wonderful friends. The University shows vast vitality. It is more widely and more favorably known than ever before. Despite the tragic times and the financial stress, its personnel and its facilities steadily improve. The renovated heating system, the gift of South Hall and the new scholarships are cases in point. I have great faith in Alfred's will to permanence. I would not be true to our best traditions did I fail to express thanks to the God of our fathers for his guidance in the past and bespeak his favor in the uncertain future.

With deep appreciation again of the cordial cooperation of trustees, faculty members, office workers, students, alumni and friends, this report for Alfred's one hundred and fifth year as an educational institution and its eighty-fourth under the present charter is placed before you.

J. NELSON NORWOOD,

Alfred, New York
June 9, 1941

President

REPORTS OF OTHER ADMINISTRATIVE OFFICERS OF THE UNIVERSITY

*On Topics not Covered or Only Partially Covered in the
President's Report*

REPORT OF THE DEAN, COLLEGE OF LIBERAL ARTS

(Excerpts)

Under the revised rules governing the awarding of departmental honors to seniors at the time of their graduation at least eleven seniors in six different departments are candidates for honors. The rules require that each successful candidate shall have an index of 2.2 in the courses of his major field, shall have pursued a tutorial course either in reading or research of at least two hours' credit, and shall have passed an oral examination in his field of specialization.

Alfred University had for the first time student representation in the New York State Student Scientific Conference which met in April at the University of Rochester. Four seniors attended. Three of these presented papers describing their research problems in the Department

of Biology, and one student in the Department of Physics demonstrated his own device for teaching the focusing properties of a simple lens.

It may be of interest to indicate the number of present seniors who are majoring in the several departments of instruction. Eleven different departments have seniors as majors: Biology, 11; Business and Secretarial Studies, 3; Chemistry, 5; Classical Languages, 5; Economics, 3; English, 3; History and Political Science, 10; Mathematics, 7; Physics, 2; Romance Languages, 3; and Sociology, 4. I am appending to this report a tabulation of the number of juniors and seniors who have majored in the several departments each year for the last five years. This tabulation shows some interesting trends. While History and Political Science has still the largest number of majors, in the last two years Sociology has grown in importance in the minds of students and has attracted a fair share of those interested in the social studies. The number of those majoring in English has decreased to about one-half of the number in that department five years ago. The healthy growth of the Department of Business and Secretarial Studies is gratifying. The number of those enrolled in the department has increased from twenty-five last year to thirty-five this year. Of these, three will be graduated in June, 1941, while eleven will be seniors next year. The ample space provided in South Hall for this department has materially aided in its development. The new co-operative plan between the Department of Economics and the Department of Business and Secretarial Studies by which six different fields of specialization under an expanded business-training program are to be offered is very worthy of mention. This program covers majors in Banking and Finance, Business Management, and Economics, supervised by the Department of Economics; and majors in Accounting, Teacher-Training, and Secretarial Studies, supervised by the Department of Business. The increased facilities thus afforded should be very attractive to students preparing to go into business.

* * *

Especially am I anxious that we find the funds to make possible a beginning in building up a strong music department.

REPORT OF THE DEAN, COLLEGE OF CERAMICS

(Excerpts)

We indicated in our report to the Board of Managers last summer that the situation was such that during the present fiscal year we might be obliged to direct our efforts towards avoiding a threatened deterioration in the status of the College and forego expectation of any betterment or improvement. That expectation proved to be a reality. In the fullest possible measure we have directed our efforts toward that objective. A fair degree of success has been achieved. In some respects, the College has gone forward; in other respects it has gone backward. The net effect is a slight deterioration. We believe, however, that we are substantially holding our own and maintaining the important betterments that were effected several years ago.

The prestige and reputation of the institution has been enhanced particularly by the work of the Professor of Research and the Assistant Professor of Chemistry. The former recently received a letter from Mr. H. R. Straight, President of the Straight Engineering Co. of Adel, Iowa, stating that he had considered all the ceramic research organizations of the country for a large scale research project that he is launching and chose this institution as the one best qualified for it. Mr. Straight is now traveling all over the country promoting the project. He reports that twenty-five companies have already signed up, each company contributing \$400. His goal is fifty companies and he predicts he will secure them. If this project is carried through, it will be the most important event of its kind in the history of the College and even though it is not consummated, the campaign for it will add tremendously to the prestige of the College. Likewise, the Assistant Professor of Chemistry has also brought distinction and prestige to the institution by his outstanding work in spectroscopy. He is swamped with requests for advice and help from all over the country and has recently been offered a salary more than half again as large as he is getting now.

Damaging changes in the staff have occurred. In January, Mr. C. Major Lampman, after having established a splendid reputation here, resigned to accept an offer at a large increase in salary with the General Electric Co. In February, Professor Frank E. Lobaugh, who for ten years has rendered excellent service to the institution, resigned to accept an offer from the Lumnite Cement Corporation at a salary between two and three times what he was getting here. Professor R. L. Stone is now considering an offer at more than twice his present salary. Professor H. C. Harrison is also finding difficulty resisting the tempting offer he has received. It is to be noted that these members of the staff whom we have lost or are about to lose are not members

of that group who are inefficient or indifferent to the success of the College, but belong to that group that are rendering loyal efficient service in every way. They are highly pleased with their work and with the institution. They were dissatisfied only with their salaries. This is a challenging situation. The employees that we are losing are the efficient and loyal ones. Surely the least we can do is to revive the project of putting through the salary classification bill which will provide a salary scale equivalent to that of other comparable institutions.

The twenty-six projects referred to in our 1937-38 report, which we initiated for the betterment of the College have been carried on during the past year. Most of them have functioned normally with no improvement or deterioration. Some of them have gone back; some have gone forward. The Ceramic Christmas Festival had to be abandoned because of the WPA work that was going on. The St. Pat's celebration, without the parade and assembly, was an improvement over that of the preceding year, but it was much inferior to that of the earlier years. The attendance at the Open House, however, was the largest we have ever had. The plant trip for the seniors which was initiated last year was a distinct success in every way. It is now established as a fixed requirement for graduation. Improvement was achieved in developing further cooperative relations with the New York ceramic industries and the Ceramic Association has functioned more efficiently and loyally, if possible, than ever before. The high scholastic and other requirements for admission and continuance in College were maintained and proved to be eminently satisfactory. Student failures were even fewer than when the lower scholastic requirements were in effect. The practice of having applicants for admission to the Industrial Ceramic Design course come for interviews proved successful in every way as did also the practice of deferring action on all applications until July 1 and then picking out the best qualified ones from the entire list.

Considerable deterioration in the activities of the Alfred Student Branch of The American Ceramic Society was experienced, but an advance was made in participating in the Annual Convention of The American Ceramic Society. The keeping of records of student personality traits and the development of those traits has sunk to a low ebb. Improvements in the curricula have been achieved by the addition of some courses and the modification of others. Satisfactory efforts have not been put forth to achieve the objectives of the Industrial Ceramic Design Department and the objectives of block week have not been satisfactorily achieved. Considerable improvement has been effected in the janitorial work. The getting out of publications has lagged in some quarters and improved in others. All other of the twenty-six

items referred to have gone forward in a normally effective manner with no improvement or deterioration.

An intensive and strenuous campaign was carried on for a new building to replace Binns Hall, but it failed with the result that the Department of Research and the Chemistry Division have been severely handicapped in their work. A new building should be one of our major objectives during the coming year.

A WPA appropriation of \$14,000 was obtained for the alteration of the basement of Binns Hall. The supervision of that project absorbed almost all of our time during the summer and much of it during the fall making it impossible to spend that time on more important matters. However, it did result in an improved pottery laboratory which does meet the minimum requirements although far short of what would be considered satisfactory. Binns Hall cannot be made satisfactory by any amount of alteration.

In order to bring it more into line with the trends in engineering education and in order to make the Glass Technology course more popular with the students, a quite important change has been made in the Glass Technology curriculum. Foreign language has been eliminated and courses in optics and electives have been substituted for it. Another curricular change of importance was the introduction of a course in advanced ceramic chemistry.

The general status of the College is undoubtedly on a par with that of other ceramic schools, but that is not enough. It should be generally recognized as the outstanding ceramic school of the country. All that is needed is a sincere desire on the part of all concerned to make it so. From 1932 to 1938 that desire prevailed and it was backed up by positive action. The result was that the College went forward by leaps and bounds, a record of which was presented in our preceding annual reports. During the past two years, however, progress has been halted but we believe we have been able to hold most of our gains. That intangible but vitally important factor of morale of student body and faculty has suffered a little but not enough to cause serious deterioration as yet. This is due to several causes. Most recently the war situation has entered the picture with the uncertain future that it holds before the students. The result is that they are tending to become jittery and restless. Budgetary restrictions have also had their effect. A more important cause is the failure of some members of the staff to function in the fullest measure of effectiveness to which they are obligated by the position that they are filling. A still more important cause is the trend of changes in the administrative machinery. Those changes have made it increasingly difficult for the Ceramic College to operate with maximum efficiency. The trend should be re-

versed and the status of Ceramic College affairs restored to what they were three and four years ago. Authority must accompany responsibility.

REPORT OF THE DEAN OF MEN

(Exce?~pts)

It has been difficult for me during the past year to accomplish many of the things that are desirable, and sometimes necessary, because of lack of time. My responsibilities which are divided between this office and the Department of History and Political Science keep me more than busy. As usual much of my time has been devoted to the routine things and those activities which are not absolutely necessary have been obliged to wait. The most important function of the Dean of Men, in my opinion, should be that of counseling and it is gratifying that during the past year a large number of students have come voluntarily for help on all kinds of problems. Many students, of course, prefer to go to particular members of the faculty with their problems and for advice since they have worked with them daily and have come to know them intimately and to have confidence in them. This is as it should be and I have in mind some changes in our counseling program which will recognize this and make possible a greater use of members of the faculty than has been the case in past years. When these ideas have been formulated more definitely they will be submitted to you and the Academic Council for consideration. There is still too much of a tendency on the part of students to regard the Dean of Men as a disciplinary officer although this barrier, I believe, has been broken down to a considerable extent during recent years. This is a very real complication in my work but I suppose that it is inevitable just so long as disciplinary responsibilities are lodged in my office.

REPORT OF THE DEAN OF WOMEN

(Excerpts)

Since the cooperative house was very much of an experiment on this campus, I am reporting more fully in regard to it. The original plan included ten girls but illness and financial difficulties made withdrawals from college necessary, and while the year began with nine in the house there were only eight the last semester. Nevertheless, after the house was established in the fall, it proved self-supporting except for the rental during the two summer months and the six tons of coal for which the University paid. The University by previous arrangement paid the head of the house the same amount as paid to heads of

sorority houses. Her good management and the fine cooperation of the girls have made it possible to pay ten months' rent, and the electric, gas, telephone, water, and food bills at an expense of about one hundred dollars per semester per girl. The girls themselves do the cooking and cleaning. We believe it could be self-supporting another year if there are ten or eleven girls which is the capacity of the house. We are already practically assured of ten. The house has justified itself not only financially, but socially as well. The girls who have lived at Greene Hall are unanimously enthusiastic about group-living, in this way made possible for them. I very much wish that it could be possible this year to add as permanent equipment some better mattresses for the cots. Those now in use were second-hand and contributions. Next year we are planning a supervised cooperative house for a few girls, students in the School of Agriculture, who can not live in the dormitory. This will make group-living possible for them, but will mean no expense for the University as it will be borne entirely by the girls.

Financial aid this year included scholarship help to sixty girls, with fifteen of them enjoying honor scholarships. Of the eighteen girls granted full-tuition scholarships, only two fell below the index requirement for renewal.

There were ninety-two girls in The Brick the first semester. Twenty girls received room grants, only one of whom so far has fallen below the required index.

Miscellaneous

During the year a lost and found department has been established in the University with headquarters in this office.

One special study has been made during the year at the request of the Associate Commissioner and Acting Assistant Commissioner for Higher Education. This study consisted of three tables and dealt with the enrollment in courses in the College of Liberal Arts of students of the New York State College of Ceramics from 1930 to 1940. Table number 1 showed the enrollment distributed by classes. Table number 2 showed the total credit hours earned in, (a) the New York State College of Ceramics, (b) accessory instruction in the College of Liberal Arts. Table number 3 gave a distribution of the credit hours earned in accessory instruction in the New York State College of Ceramics into, (a) required credit hours, (b) -elective credit hours. One of the interesting results of the study disclosed the fact that the percentage of the courses taken by ceramic students in the College of Liberal Arts has remained about constant but that the ratio of required hours to elective hours has continually increased during the ten-year period.

REPORT OF THE DIRECTOR OF THE GRADUATE DIVISION

(In Full)

To the President of Alfred University:

I hereby submit my report as Director of the Graduate Division for the year 1940-41.

Graduate Courses Offered First Semester: Education 241 (15 students), Joseph Seidlin; Education 143 (10 students), Harold O. Boraas; Political Science 133 (6 students), Willis C. Russell; Economics 166 (3 students), C. Edward Galbreath; English 127 (4 students), Lelia E. Tupper; Mathematics 4 (Extension, 3 students), Lloyd L. Lowenstein.

Graduate Courses Offered Second Semester: Education 111 (7 students), Joseph Seidlin; Education 131 (3 students), Harold O. Boraas; English 126 (3 students), Lelia Tupper; Public Speaking 104 (6 students), C. Duryea Smith, III.

Degrees Conferred June, 1940: Master of Education, 5.

Candidates for Degrees, June, 1941: Master of Education, 4; Master of Science, 1.

Respectfully submitted,

JOSEPH SEIDLIN,

May 25, 1941

Director

REPORT OF THE LIBRARIAN

(Excerpts)

Inasmuch as the budget was cut this year naturally the number of new books added to the library was fewer. We had hoped to fill in gaps in the collection this year using the Charles B. Shaw *List of Books for College Libraries*, 1940, as a guide. However, this had to be laid aside until our budget is adequate.

Book Collection. 1937-38, 56,700; 1938-39, 58,000; 1939-40, 59,450; 1940-41, 60,650.

The Mathematics Club has given a number of books to fill out certain recreational reading as needed for the group.

Needs. (1) A full-time assistant added to our staff; (2) a new case for the Seventh Day Baptist denominational material; (3) fluorescent lighting in the stackroom and over the charging desk in the Reading Room; (4) new shelving and furniture for one of the seminar rooms which is to be used as an Alfredana room.

REPORT OF THE CHAPLAIN

(Excerpts)

DAILY CHAPEL

The new Chaplain is indeed grateful for the music which Mr. Wingate has provided for daily chapel and the special musical numbers he has arranged from time to time. Special services were held during Holy Week with the assistance of Rev. Everett E. Harris, Rev. Elmo F. Randolph, and Dr. John G. Spencer of Hornell. The Y.W.C.A. and the A.U.C.A. conducted several services during this past year, but we have plans for students assuming an even larger share of the leadership next year. Faculty have been little used this year, but will be called upon as the Chaplain becomes better acquainted with them.

THE UNIVERSITY CHURCH

This Church, which grew out of the spiritual life of the campus, is indeed an achievement of which the University may be proud.

The Church School, under the direction of Mrs. G. Stewart Nease, has continued to grow in numbers and quality. Several of the teachers took training courses during the past year.

The Women's Guild, a fellowship and service organization for the women of the Church, completed an interesting program of meetings and service projects under the direction of Mrs. Charles M. Harder, its president.

The University Church Choir had a new director this year. Mrs. S. R. Scholes has made the Choir an outstanding group in religious music. Mrs. Seidlin's music at the organ is a rich contribution to our worship.

The happy coincidence of the arrival of the new pastor of the Seventh Day Baptist Church on the same day as the Chaplain has been a token of the happy relations between the two churches this year. Joint services were held on Thanksgiving Eve and New Year's Eve, in addition to joint receptions for Pastor Harris and Chaplain Genne. The University Church is grateful for the cordial hospitality of the Seventh Day Church in making its facilities available to us.

The Christian Associations

Jointly these two associations issued the University *Handbook*, and held a drive which raised two hundred and thirty-five dollars for student relief in Europe and Asia, which was the most important single event of the year.

Counseling

We were most cordially received by the students and entertained in many of their residences. The Chaplain's office is a real asset in the counseling work. Regular office hours have been established and an increasing number of students are dropping in. At home we have had two hundred and sixty-seven student callers, served one hundred and ninety-nine meals to students and entertained fifteen over-night guests in connection with our program.

Certain off-campus contacts have been made which relate the Chaplain to religious enterprises on other campuses and throughout the state. He has served as a leader in the New York State Christian Youth Conference and at the Conference on Religion held at Cornell University this winter. Summer contacts include the Silver Bay Conference of the S.C.M. and the Episcopal and Presbyterian conferences to be held here on the campus.

General

Founders' Day, 1940, brought the religious life of the campus to the attention of the entire University when an honorary degree was conferred upon Dr. John Maxwell Adams who delivered the address on that occasion. Doctor Adams is the Director of the Department of University Work of the Board of Education of the Presbyterian Church in the U.S.A. This Department through its work with the Westminster Foundation in New York State contributes annually to the support of our program on this campus.

REPORT OF THE DEAN, SCHOOL OF THEOLOGY

(Excerpts)

It was hoped that the present year might be closed without a deficit. This hope was based on the following facts. Because of lack of funds, with reluctance we let one half-time professor go at the end of last year. Professor Sylvester S. Powell had been secured to teach Hebrew and Greek with the understanding that his employment would be from year to year, and only so long as funds were available. By deciding to get along without his services a saving of seven hundred dollars per year was effected. At the same time the Seventh Day Baptist General Conference increased the budget item for the School of Theology. Both the saving and the increase will affect us more favorably next year than this year. Professor Powell's salary was paid for two months of the present fiscal year, and the increase in the denominational budget did not become effective until October the first.

Solicitation has been made by mail and the response so far has enabled us to pay all bills for May, leaving the funds exhausted, with no money in sight for the June bills which complete the year. We still have some bright prospects from our special solicitation.

It is perhaps only fair to state here that doubtless we shall be obliged to continue to depend upon interested friends of the School of Theology and those who are anxious to have our ministers receive their theological education at our own school to supplement our limited resources from income received from other sources. We hope all our good friends will bear this fact in mind.

Two professors who have served the School of Theology on half time for many years have continued their valuable services during the year, Dr. Walter L. Greene and Dr. Edgar D. Van Horn. Illness kept Doctor Van Horn from his classes for a period of time, but through the cooperation of the students and of other members of the faculty the work of the year was carried through in a very acceptable manner.

Dr. George B. Shaw has given a course in the English Bible, and Pastor Elmo F. Randolph has taught a course in Church Camps and Scouting. These men, without material compensation, have done us good service in their respective fields. In fact, each is a specialist in the subject taught, and we are greatly indebted to them for their splendid services to the School.

During the year we have had three students taking full work, one middle-year man and two juniors. In addition, one student has taken work in the School of Theology while continuing his college course. At present we know of but one new student who plans to enter the School next fall. The School of Theology is definitely a graduate school. The church needs leaders who are as fully prepared as pos-

sible to give the necessary leadership for these difficult times. We do not encourage young men to enter, therefore, until they have completed a regular college course.

REPORT OF DIRECTOR OF THE BUREAU OF APPOINTMENTS

(Excerpts)

Placements as of May 23 are as follows: 4 new positions (Class of 1940); 6 new positions (Class of 1941); 6 new contracts pending; 20 (approximately) alumni transfers (superintendents, principals, better teaching positions).

We do not have complete information with reference to the promotions or advancements of our alumni. I have learned only last week, however, that we have that situation in common with other teacher-training institutions in the state. Sometimes we send out ten or more letters at the behest of an alumnus who, at the end of the quest, fails to inform us by even a note on a card, "I got the job". But, whatever the circumstances, we have experienced more active alumni interest in the Bureau of Appointments this year than in any preceding year.

Six young men of the Class of 1941 are either volunteering or being inducted into service so that the only candidates of the Class of 1941 who either do not have a contract or who do not have a contract pending are: 1 in French and Latin; 1 in Latin; 2 in Science; 3 in Mathematics; 1 in Social Studies; 1 in English. It would seem, therefore, that with the expected spurt in early July we should place all our placeable graduates.

Mrs. Charles M. Harder has been employed as half-time secretary. As in the case of Miss Jacox in the previous year, the "half-time" describes the financial arrangement rather than actual hours put in by Mrs. Harder. I want to express my appreciation for Mrs. Harder's very fine, effective and loyal service to the Bureau of Appointments.

Again, since nothing has been done to provide for more office space and since we are still more crowded than ever, the former urgent need for more office space is simply a little more urgent.

REPORT OF THE ACTING COUNSELOR TO PROSPECTIVE STUDENTS

(Excerpts)

Prospective Student Organizations. An experiment was carried out this year which was expected to increase the Liberal Arts College enrollment to some extent. The administration took membership in

ACTING COUNSELOR TO PROSPECTIVE STUDENTS REPORT 37

two organizations which have acquaintance with large numbers of prospective students and select applicants for the institutions which have joined. It is too early yet to evaluate results, but indications point toward some success in these fields. The results at present may be noted as follows: School and College Advisory Center (joined about December 1) has sent in 1000 names; the University has received two applications for Liberal Arts and one for Ceramics. The American Colleges Association (joined about March 1) has sent in 151 names; the University has received the partial credentials of one applicant

Guest Days. A guest day for 54 senior high school boys from this vicinity was held the afternoon and evening of February 12. They were escorted about the campus by Liberal Arts upperclass men acting as hosts, attended a wrestling match in the late afternoon, and were guests at a dinner in Social Hall where a few faculty members spoke briefly on different phases of Liberal Arts education. As a final event they attended freshman and varsity basketball games in the evening.

A similar day for senior high school girls was carried out on Saturday, May 3. Thirty-four guests were entertained by Liberal Arts upperclass women, who had been instructed beforehand on significant facts concerning Alfred and prospective student interests. The luncheon in Social Hall was followed by short talks by recent women graduates about their professions, such as teaching, merchandising, social service, and laboratory technology. The afternoon program was made up of demonstrations of archery, badminton, and fencing, and a tea served in Social Hall.

Thirteen high school students advanced in French were invited to attend the banquet of the French Club during St. Charlemagne's week as guests of the University.

The results of these three innovations can not be measured, yet, either in direct conversion of applicants to Alfred or in general publicity value.

At any rate, it seems worth while to continue these enterprises in some form in future years.

Recommendations. The continuation of the Liberal Arts guest days for high school senior boys and girls is highly desirable. The prospective student teas by alumni women in various centers should be continued and increased. Weekend office hours should be eliminated except by appointment. An announcement to this effect should appear in the University catalogues to become effective in the spring of 1942. So far as we are able to judge the procedure of having our office open on weekends has not been of any particular value in attracting the casual visitor. Meetings by appointment on weekends appear to be effective and desirable. The foundation-laying and seed-planting work done by Mr. Spicer and Mr. F. Hamilton Whipple in "get-acquainted"

visits to high school guidance counselors near New York City, particularly in Westchester County, should be continued in more schools in that area and in other areas as well. The value of friendly associations with key teachers and guidance counselors cannot be over-estimated in the discriminating and early selection of freshman applicants.

REPORT OF THE DIRECTOR OF THE SUMMER SCHOOL

(Excerpts)

The attendance at the regular session (188) was one of the largest in the history of the Alfred Summer School. This was partly due to the increase in the number of students attending the Pottery and Crafts courses and partly to an increased enrollment in the graduate division of the Department of Education. Financially the Summer School was successful.

	Men	Women	Total
5th Intersession	8	1	9
7th Summer School of Surveying	75	0	75
27th Regular Summer School	112	76	188
Total	195	77	272
Less Duplicates	13	—	13
Net Total	182	77	259

Guest instructors include Mr. J. Leroy Thompson, Superintendent of the Washington Irving Schools, Tarrytown, New York; Principal J. Milton Stull of the Junior High School, Hornell, New York; Dr. Esther M. Dole, Professor of History, Washington College, Chestertown, Maryland; and Mr. Norman J. Whitney, Professor of English at Syracuse University. Particular mention should be made of Gustav Patz, Principal of the Augusta Street School, Irvington, New Jersey, who has been on the Summer School faculty since 1923.

Twenty-six students were taking graduate courses with the possibility of becoming candidates for a Master's degree. There were a number of others taking graduate courses who will take their degrees in other institutions.

The Summer School of Pottery and Crafts had an enrollment of 53, which filled the school to capacity.

Mr. Walter Bates, president of the Canadian Singers Guild, was invited to Alfred last summer to give a course in conducting and choral singing but due to the unusual conditions existing, in Canada because of the war situation, Mr. Bates was able to be with us for only a few weeks and the enrollment necessarily suffered accordingly. He will be in Alfred for the summer of 1941 and we are hoping to build up a large class of students interested in this type of work and to train a small chorus which will give a concert at the end of the session.

REPORT OF THE DIRECTOR OF PHYSICAL EDUCATION
AND ATHLETICS FOR MEN

(Excerpts)

Activities. Physical Education Classes: Softball, fencing, tennis, basketball, volley ball, gymnastics, riding, indoor and outdoor track, wrestling, golf, skiing, skating. Varsity Sports: basketball, wrestling, track, fencing, tennis, golf.

Varsity and Freshman Athletics.

	Number of Candidates	Number of Games or Meets	Won	Lost	Tied
VarsPy Football	35	7	6	0	1
Freshman Football	40	3	0	2	1
•Varsity Cross Country	28	2	1	1

Summary of Intercollegiate Athletics. Total number of participants in intercollegiate sports, 410; approximate number without duplication, 180; total number of dual contests, 59; won, 30; lost, 27; tied, 2; percentage, .526; total number of championship contests, 10. Including all dual and championship contests, Alfred has competed with 72 different colleges, 1 normal school, 1 extension school, 2 business schools, 1 preparatory school, 2 technical schools. The Department conducted the Steuben-Allegany Sectional Basketball Tournament.

Each year has seen a gradual improvement and expansion of facilities and activities in the Department of Physical Education and Athletics. This past year has proven no exception. Next year it is hoped to increase intramural activities to include a greater number of students and a wider range of activities. An intramural supervisor has been appointed which will facilitate the administration of the expanded program.

* Placed seventh in the I.C.4-A Intercollegiate Meet in New York City. Placed ninth in the N.C.A.A. Meet at East Lansing, Michigan.

** Placed eleventh in the I.C.4-A. Championships.

t I.C.4-A. Indoor Championships, 4 men competed; 2 ran in finals. Penn Relays, 5 men participated. M.A.S.C.A.A. placed second with 27% points. I.C.4-A. Outdoor Championships, 2 men competed.

f M.A.S.C.A.A., Medley Relay, placed second.

ft Participated in Syracuse University Golf Tournament, Syracuse, finished ninth out of ten.

ALFRED YEAR BOOK, 1940-41

REPORT OF THE DIRECTOR OF PHYSICAL EDUCATION
FOR WOMEN

(Excerpts)

Summary of the Activities for the Year. Women registered in University, 177; women participating in required or voluntary activities, 148 (77.9%). Required Physical Education classwork, first semester, 129 (12 men); second semester, 126 (12 men). Volunteer participation, women in one or more sports, 114; NYA Resident Center women, 16; men, 52. Entries in tournaments for the year, 414. Sport Day participation, Alfred, 44; away, 19; total, 63. •

Freshman Questionnaire on Activities. Thirty-seven freshmen listed first and second choices of activities for next year as follows: (second choice in parenthesis) Archery, 17 (10); badminton, 6 (10); basketball, 2 (3); bowling, 1 (3); golf, 1 (0); hockey, 2 (1); modern dance, 1 (0); skiing, 1 (0); soccer, 0 (1); softball, 0 (2); tennis, 6 (6); volley ball, 0 (1).

Athletic Organizations. Alpha Tau Theta is a purely honorary fraternity for out-standing leaders and participators in athletics. This year nine new members were tapped, making a total of ten for next year. Alpha Tau Theta originally performed the duties of the Women's Athletic Governing Board.

Women's Athletic Governing Board (W.A.G.B.) plans and conducts the extra-curricular athletic activities. This group meets at least twice a month. Thirteen students, one of whom is president, and two faculty advisers constitute the membership. The annual banquet was held at Social Hall with an attendance of approximately fifty. The speakers were the Women's Athletic Association presidents from Wells College and from William-Smith College. The awards were shingles, bracelets, cups, plaques, trophies, and letters and blazers.

The Board held a Sports Party at the gymnasium for all freshmen and new students during the first week of college. In addition to the sports demonstrations, the freshmen were organized into teams and competed in "take offs" on all the sports. The Board was introduced, the point system of W.A.A. explained, the hours for the use of the gymnasium were announced, and a freshmen representative to the Board was chosen.

Sport Days. At Alfred: 26 guests from Elmira and Keuka Colleges and Cornell University; activities, fencing 3, badminton 2, archery 2. At Keuka: 4 women participated; activities, hockey 4, badminton 2, archery 2. At Cornell: 15 women participated; activities, fencing 3, badminton 3, basketball 9. High School Demonstration for High School Seniors Visiting Alfred: fencing, 6; badminton, 4; archery, 14.

REPORTS OF UNIVERSITY PHYSICIAN AND INFIRMARY 41

REPORT OF THE UNIVERSITY PHYSICIAN

(In Full)

The medical services rendered by the University Physician for the college year 1940-41 have been as follows, with fees attached:

Examination of new students and athletes	\$ 200.00
Office visits at \$1.00, 472	472.00
Infirmary visits at \$1.00, 568	568.00
House and Infirmary visits at \$2.00, 67	134.00
Night calls at \$3.00, 16	48.00
Minor Surgery	39.00
Student X-rays	83.75
	<hr/>
	\$1544.75
Total guarantee for medical services	\$1,000.00

Excess cost for the year above guarantee \$ 544.75

Respectfully submitted,

R. O. HITCHCOCK,

University Physician

May 26, 1941

REPORT OF THE SUPERINTENDENT OF THE CLAWSON
INFIRMARY

(In Full)

To the President of Alfred University:

The fourteenth annual report of the Superintendent of the Clawson Infirmary is presented as follows:

Summary

683 Students called at the Infirmary
3557 Student office calls
245 Student bed patients
684 Days beds occupied by students
246 Student Physical examinations
71 Student X-rays
25 Students transferred to hospitals or homes for treatment or operation
2 Contagious disease (Chicken pox)
80 Students and administrative staff members attended Tuberculosis Clinic, May 7, 1941; 13 positive reactions.

Students of the Colleges

505 Students called at the Infirmary
165 Student physical examinations
54 Heart and lung examinations (Athletes)
17 Civil Aeronautics Authority examinations
2827 Student office calls
180 Student bed patients
500 Days beds occupied by students
18 Students transferred to hospitals or homes for treatment or
operation
36 Student X-rays
2 Contagious disease (Chickenpox)

Students of the State School of Agriculture

146 Students called at the Infirmary
530 Student office calls
10 Civil Aeronautics Authority examinations
41 Student bed patients
100 Days beds occupied by students
6 Students transferred to hospitals or homes for treatment or
operation
9 Student X-rays (6 athletes)

Students of the NYA Resident Training Centers

32 Students called at the Infirmary
124 Student office calls
15 Student bed patients
42 Days beds occupied by students
1 Student transferred to hospital for treatment
1 Student X-ray

Faculty and Townspeople

76 Office calls
9 Bed patients
42 Days beds occupied
25 X-rays

Respectfully submitted,

LYDIA CONOVER, R. N.

Superintendent

May 26, 1941

REPORT OF THE MANAGER AND TREASURER OF THE
ALFRED COOPERATIVE PICTURES

(Excerpts)

Quality of Pictures. The quality and newness of films has greatly progressed during the year. We are now at a point where progress along those lines cannot be carried further. This year there was a slight decrease in attendance from unknown causes.

Publicity. An average of eight items a week appears in *Motion Picture Herald* commenting on our shows and how they were received. Once a month Sydney Skolsky, Hollywood syndicated newspaper columnist, mentions our shows in usually complimentary terms. A fifteen-hundred-word article and three short articles about our policy have appeared in *Exhibitor*, trade journal. Three companies have used comments by the manager in their national advertising.

Defense Tax. At present we are exempt from this tax because of our cooperative policy. In a few months, however, it is expected that there will be no exemptions and all admissions to anything at all will be taxed. In that case, our tickets will be taxable as there is a trend toward taxing tickets of all prices of admission down to one cent.

REPORT OF COMMITTEE ON BUILDINGS AND GROUNDS

(In Full)

The Committee on Buildings and Grounds respectfully presents the following report showing the expenditures on the different buildings for the year to date, together with the expenditures from the E. Lua Babcock Fund for the maintenance of the grounds.

Allen Laboratory	\$ 758.79
Alumni Hall	638.62
Athletic Field House	2.89
Bartlett Dormitory	1,637.02
The Brick	252.99
Burdick Hall	145.76
Campus Buildings (various)	226.19
Carillon Tower	72.53

Carpenter Shop	2.50
Gothic	24.61
Green Block	8.40
Heating Plant	23,625.74
Industrial Mechanics Shop	8.56
Kanakadea Hall	399.58
Kenyon Hall	1,434.82
Library	2,170.89
Physics Hall	16.67
South Hall	2,212.91
Steinheim f	3.07
Track House	1,206.16

\$34,848.70

The total expenditures from the E. Lua Babcock Fund for
the care and maintenance of the grounds, including
labor, material, etc. 1,066.26

\$35,914.96

For the Committee,

J. NELSON NORWOOD,

May 27, 1941

Chairman

REPORT OF THE DIRECTOR OF THE NEW YORK STATE SCHOOL OF AGRICULTURE

(Excerpts)

Legislative Measures. On April 23 Governor Lehman signed the MacKenzie Bill to amend the Education Law in relation to the agricultural schools which changed- our name to "The New York State Agricultural and Technical Institute at Alfred University." This new title is more appropriate because it designates more clearly the entire scope of the school. While the word "agriculture" was sufficient during the earlier years of its existence, several years ago courses were added to the curriculum which included work in the technical fields, suggested by the new name. The present title will also dispel misunderstandings which have arisen in the past as to the character of the school. Some State institutions more correctional in nature have had approximately the same title which we may now legally discard.

In addition to raising the level of the school to that of an institute, the bill affects it in several other ways. It specifically states that the object of the Institute shall be "to provide instruction designed pri-

marily for technical employments serving rural areas in agriculture and industry, and such other fields of instruction which may be approved by the Regents of the University by means of full-time, part-time, unit, cooperative, evening, and home-study courses." It also rearranges the salary schedule to make possible for the regular teaching staff increases in salary of \$800 to \$1500 per year varying with the position. This will permit the employment of faculty of a high technical character. In the past it has been difficult to compete with industry in obtaining and retaining personnel from the highly trained in engineering.

In addition the law provides sabbatical leaves for members of the faculty for the purpose of travel and study. Such a leave is not to exceed one year in seven, and application for such absence must be approved by the Director and the Commissioner of Education, and the instructor receiving such a grant must agree to remain in the school employ for two years following the leave.

The Governor's Budget this year corrected some long-standing maladjustments, particularly in miscellaneous line items such as Printing and Advertising, Communication, etc. The total increase in these various line items is approximately \$7,000 in addition to some \$6,100 granted for capital outlay.

Buildings and Grounds: A WPA project enabled us to construct new poultry houses, including a garage and apartment for the poultry flock manager. The painting of all buildings has been completed, and the construction of the athletic field is continuing. Two new greenhouses have been added to the main one, a plant propagation house which will be completed this summer, and another structure which is already complete. This doubles the space of the Floriculture Department.

Enrollment: Of the 354 regular students 229 were in Agriculture; and 125 in Electricity. Thirty-four of these students were young women.

The Future: While it is a dangerous practice to prophesy what a new year will bring forth, there are several problems which will undoubtedly confront the School during the coming months, and which we are already fortifying ourselves to meet. National defense, while but a temporary phase of our work, will loom large in our plans for the immediate future. The demand for trained men is becoming increasingly acute. Outside of Buffalo and Rochester, there are few centers which are adapted to the training of youth for the defense industries. The supply of trained workers in the urban districts is rapidly becoming exhausted, so that it must be augmented with youth from the rural areas. A school of our type is a natural source of supply for the recruiting and training of rural youth, and it is hoped that arrangements

may be made which will permit us to carry on this work unhampered by lack of space or equipment.

Also the problem of obtaining men trained in the agricultural fields is becoming as acute as it was during 1917 and 1918, and here again our institution must play its part.

It would not be surprising if our regular enrollment will be decreased to some extent next' year. I read with interest a paragraph from the Director's report for the year of 1918, in which, he stated, "The call of the Army and Navy, and the unprecedented demand for trained men in industry and the high wages being offered have made our attendance 27 per cent less than in the preceding year."

But whatever the coming months have in store for us, there is confidence, not wholly unjustified, I believe, that the school will "carry on" to the best of its ability.

DEGREES CONFERRED IN COURSE

June 9, 1941

COLLEGE OF LIBERAL ARTS

Bachelor of Arts

Howard La Verne Barnes	Carl Lustig Kahn
Herbert Alfred Berger	Betty Tim Kaiser
Martha Almira Bottoms	Peter James Keenan
Wendell Vincent Cleveland	Marvin Francis Koner
Jane Marie Colberg	Ruth Anna Lang
Eleanor Pursons Cole	Margaret Laura Latta
Kenneth Wadsworth Conradi	Ramon Bruce McGill
Franklin Carl Daiber	Domenick Nicholas Maresca
Leonard George Dauenhauer	Jean Frances Millspaugh
Sanford Leo Davidow	Ernest Easton Nadelstein
Donald Arnold DeSerio	Margaret Laura Olney
Eleanor Dolores Driscoll	Elizabeth Jeannette Olszowy
Edward Charles Ehrenrich	Francis Edward O'Neill
George Martin Feldner	Harry Phillip Pariser
Frances Elizabeth Fish	Irene Elizabeth Pearson
Alan Joseph Friedlander	Clyde Oliver Seymour
Marvin James Gersh	Franklyn Alden Shepard
Robert John Green	Doris Elinor Simpson
James John Hollingsworth	Judson Ernest Stearns
Margaret Winifred Humphrey	Stanford Harold Sutton
Marie Annette Irving	Ruth Iona Vaughn
Marian Florence Jackson	Huber Sherman Watson

Non-Fraternity Men's Group

Blue Key Departmental Awards*

Biology—Vincent Ciampa
History and Political Science—Harold Joseph Johnson
Mathematics—Dortha Mae Parker

Ceramic Association Thesis Prize
R. Douglas Manning

* Established in 1939 in these departments.

DEPARTMENTAL HONORS

Departmental honors have been awarded to the following students upon recommendation of the major professor and by vote of the faculty. The requirements for honors in the College of Liberal Arts are:

- (1) The satisfactory completion of at least two hours of tutorial work.
- (2) The passing of a comprehensive examination in the field of specialization.
- (3) The attainment of a 2.2 cumulative index in the subjects of the major field.

Vincent Ciampa	in	<i>Biology</i>		
Thomas Ciampa	in	<i>Biology</i>		
David Stillman Clarke	in	<i>Philosophy,</i>	<i>Sociology</i>	and <i>Psychology</i>
Harold Joseph Johnson	in	<i>History</i>	and <i>Political Science</i>

PROFESSIONAL DEGREE

George Blumenthal

HONORARY DEGREES

Doctor of Laws

Clarence Leon Clarke

Doctor of Science

Lawrence Eugene Barringer

Doctor of Pedagogy

Francis Herbert Wing

*Doctor of Divinity

John Maxwell Adams

CLARENCE LEON CLARKE presented by Dean Alfred E. Whitford.

Mr. President:

Alfred University could not find among its own sons a more worthy candidate on whom to bestow its highest honor than the man whom I have the pleasure to present. His educational career deserves outstanding recognition.

Native of New York State, born in our own Allegany County, he naturally looked to "the pioneer college of western New York" for his college training. After his four years here during which he sat under the inspiring instruction of that great teacher, Charles B. Clark, Alfred conferred on him in 1906 the degree of Bachelor of Philosophy with high honor. He was the valedictorian of his class. Then followed two years of graduate study at the University of Chicago. Because of the high quality of his scholarship and his most promising ability as a teacher, he was called back to Alfred in 1908 to become Professor of Philosophy and Education. This position he filled ably for three years, and then resigned to take a similar position in the University of Washington. From the time of his leaving Alfred as a teacher there followed during the years a succession of appointments in six different colleges and universities in the West and Middle West, each position marking an advancement in his profession. He has been on the teaching staff of the University of Washington one year; Lewiston State Teachers College in Idaho, four years; the University of Chicago, three years; Beloit College, four years; the University of Michigan, three years; and of its summer session, seven summers. For the last thirteen years he has been Professor of Education in Lewis Institute in Chicago.

* Conferred Founders' Day, November 7, 1940.

The University of Chicago conferred on him the degree of Doctor of Philosophy in 1928; and at that time he published a study on *Tenure of Teachers in the Profession with Special Reference to Wisconsin*.

It is not only as an inspiring teacher of youth in the field of education that he has served so successfully, but his abilities as a college administrator have been greatly valued and utilized. During his tenure on the faculty of Beloit College he was also Dean of Men. And for the last five years he has carried on and is now carrying on the important work as Dean of Lewis Institute of Arts and Sciences, a division of the Illinois Institute of Technology. In this position he is giving evidence of conspicuous educational leadership. He is a member of the Society for the Promotion of Engineering Education, and a Fellow of the American Association for the Advancement of Science.

Because of his eminently successful career as a college teacher and administrator, because of his outstanding qualities as a counselor and friend of students, and because of the significant and timely address to which we have all listened so attentively today, I have the honor of presenting to you, Mr. President, for the honorary degree of Doctor of Laws, Clarence Leon Clarke.

President Norwood said:

Graduate of Old Alfred and of the University of Chicago; profound student of human affairs; thinker, inspiring teacher of teachers, successful educational leader and college executive; officially and personally I welcome you back to these halls and haunts where you and I spent as classmates and pals some happy, fruitful years. Nothing like this have I ever done before which gave me such pleasurable thrills as what I am doing just now. Alfred eagerly recognizes your achievements and your personal qualities and proudly honors a returning son.

Therefore by authority of the Trustees of Alfred University, I admit you, Clarence Leon Clarke, to the degree of Doctor of Laws, *honoris causa*, in this University with all the rights, privileges, and obligations thereunto appertaining, and in token thereof, I cause you to be invested with the hood of this degree and present you with this diploma.

LAWRENCE EUGENE BARRINGER presented by Dean Major E. Holmes.

Mr. President:

;

I have the pleasure of presenting for an honorary degree a distinguished author, inventor, executive and leader of the American ceramic profession. Upon graduating from Ohio State University in 1902, he entered the employment of the General Electric Company and has

been in the continuous employment of that company ever since. He is one of the few prominent men of the industry who enjoys the distinction of thirty-nine years of service with one concern. These thirty-nine years have been richly prolific of contribution to ceramic technology, engineering and art. He is the author of twenty-nine important publications. He has been granted twenty-five patents. Many of these developments were pioneering in character and laid the groundwork for many other developments by other ceramic workers.

Recognition of his achievements has already been made by various agencies. The American Ceramic Society elected him president in 1916. In 1918 as Chairman of the Publications Committee he started the *Journal* of the Society which since then has been recognized as the world's leading ceramic publication. In 1930 the Society made him a Fellow. From 1933 to 1936 he served as Chairman of the Art Division of the Society. In 1933 he was elected Dean of the Fellows. In 1939 he was honored by being chosen to deliver the Orton Lecture. In 1936 and 1940 he served as a member of the Board of Trustees. Likewise, his Alma Mater has honored him. In 1933 Ohio State University conferred upon him the professional degree of Ceramic Engineer. In 1940 the University awarded him the Lamme Medal for engineering achievements in the field of electrical insulation.

The New York Society of Ceramic Arts elected him president in 1938 and he received the Silver Medal of the Panama Pacific Exposition in 1915. Neither has he been overlooked by his home town of Schenectady where he has served its Board of Education as member or president from 1918 to 1929 and its Family Welfare Bureau as president from 1930-33. He is a director of the Locke Insulator Corporation and of the Ceramic Association of New York. He is a member of the Board of Trustees of the Edward Orton, Jr., Foundation and an honorary member of Keramos Fraternity.

In ceramic circles he is looked upon as the reserve corps of the American Ceramic Society always willing and ready to be rushed into a breach to fill any kind of a duty that may arise. These duties that he has discharged during his long career in ceramics are so broad in scope that they cover not only technology and engineering but also art. Therein his career is a unique one.

Mr. President, in recognition of these achievements and service, I present for the honorary degree of Doctor of Science, Lawrence Eugene Barringer.

President Norwood said:

Graduate of Ohio State University, and honored recipient of the professional degree of Ceramic Engineer at the hands of your Alma

Mater; for near forty years a key official of the General Electric Company; outstanding technologist, engineer and artist—a unique combination—; active, public-spirited citizen in your home city of Schenectady; inventor, scientist, writer, and inspirer of fellow workers; Alfred University is proud to list you on the select honor roll of her adopted sons.

Therefore by authority of the Trustees of Alfred University, I admit you, Lawrence Eugene Barringer, to the degree of Doctor of Science *honoris causa*, in this University with all the rights, privileges, and obligations thereunto appertaining, and in token thereof, I cause you to be invested with the hood of this degree and present you with this diploma.

FRANCIS HERBERT WING presented by Professor Emmett Fritjof Hildebrand.

Mr. President:

It becomes my privilege and honor to recommend to you for the honorary degree of Doctor of Pedagogy a man who was born in our neighboring county of Steuben. Through sickness and adversity he strove for education graduating with honors from the Friendship High School. He earned a license to teach at Wirt in this county. It is interesting to note that after teaching one year he spent a year in the law offices of Norton & Ward at Friendship to study law. During this year in the law office he decided that the day had passed for successful entrance upon the practice of law via the route of the law office alone. He returned to teaching, securing a position at Nile, New York. He taught in Clarksville, was assistant Principal of the North Olean High School and held the same type of position at Gowanda, New York. During his term at Gowanda he read an address by Dr. Andrew S. Draper, the State Commissioner of Education for New York entitled, "Our Children, Our Schools and Our Industries." This paper set forth the needs for a system of vocational-industrial education. It so captivated our progressing teacher's interest that he set about at once to prepare for work in the new field, the development of which had already begun in the form of manual training.

During the summer of 1907 he attended summer school at Columbia University taking courses in vocational education. This plan was repeated for several summers until his profession required his year-round service; then he started an intensive program of motivated private study which he has continued through the years. He was invited to Buffalo to teach shop work; at the end of one year he was promoted to the directorship of his department which included all industrial work for boys except that provided at Technical High School.

The new director began his duties in September 1909, which marked the beginning of the actual trade-school movement in Buffalo. This was also the start of the state-wide program. This marked the beginning of his connection with real vocational education. These schools now have a total enrollment in National Defense Classes of 6,494 besides the regular task of teaching vocational subjects to the boys and girls of Buffalo.

Mr. President it gives me great pleasure to recommend to you for the honorary degree of Doctor of Pedagogy this pioneer in vocational education, this man who is now so earnestly promoting National Defense Work, this gentleman and scholar who is Associate Superintendent of Schools for Vocational Education in Buffalo, Francis Herbert Wing.

President Norwood said:

Native of Alfred's own area, you are a shining exemplar of what we like to feel are fundamental American characteristics. You possessed the personal push to profit by this country of opportunity and thus have lifted yourself from humble and adverse surroundings to high places of usefulness and honor in state and nation. Far-visioned pioneer and life-long leader in the development of vocational education; successful administrator in your special field in the great city of Buffalo; vigorous executive, directing the new national defense training program in your city's schools, Alfred University gladly adopts you as one of her sons.

Therefore by authority of the Trustees of Alfred University, I admit you, Francis Herbert Wing, to the degree of Doctor of Pedagogy, *honoris causa*, in this University with all the rights, privileges, and obligations thereunto appertaining, and in token thereof, I cause you to be invested with the hood of this degree and present you with this diploma.

JOHN MAXWELL ADAMS presented by Dean Ahva J .C. Bond.

Mr. President:

I wish to present at this time a candidate for a degree in Alfred University, one altogether worthy of this honor, worthy to become an honorary alumnus of this institution, and to join the ranks of those like honored in the past.

He was born just thirty-eight years ago in Greenburg, Indiana, received his A.B. degree from Wabash College *magna cum laude*, his B.D. from the Presbyterian Theological Seminary, Chicago, and attended the University of Edinburgh. He is a member of Phi Beta Kappa and Phi

Gamma Delta. He was ordained to the Christian ministry in the Presbyterian Church in 1926. After the year spent in graduate study in Scotland he spent a year in travel in Europe and Asia. He is Chairman of the American Provisional Council of the World's Student Christian Federation, Secretary of the University Commission of the Council of Church Boards of Education, and a member of the Committee on the United Christian Youth Movement. He taught in Women's Christian College in Tokyo, was Presbyterian University Pastor at the University of Oregon, Pastor of Northminster Presbyterian Church at Ohio State University, and is now Director of University Work for the Board of Christian Education of the Presbyterian Church in the United States of America, which position he has occupied since 1935.

This Department was established in 1910, and has had but four directors in thirty years. The Department, working through the Westminster Foundation, maintains its own university pastors or cooperates with other churches in the support of interdenominational university pastors and chaplains at fifty-two colleges and universities including Alfred University.

Mr. President, for these more than ample reasons to which I would add the splendid address to which we have just listened, I present to you for the honorary degree of Doctor of Divinity the Reverend John Maxwell Adams.

President Norwood said:

Son of Wabash College, student at the Presbyterian Theological Seminary and the University of Edinburgh, pastor, teacher, administrator, world traveler, member and officer of important student-Christian organizations, and now Director of University work for the Board of Christian Education of your own great denomination, Alfred University welcomes you to the small family of her adopted sons and daughters.

Therefore, by the authority of the Trustees of Alfred University, acting under the laws of the State of New York, I gladly admit you, John Maxwell Adams, to the degree of Doctor of Divinity, *honoris causa*, in this University, with all the rights, privileges and obligations thereunto appertaining, and in token thereof I cause you to be invested with the hood of this degree, and present you with this diploma.

LETTER OF TRANSMITTAL

To the Trustees of Alfred University
Alfred, New York.

Gentlemen :

The report of the Treasurer for the year ended June 30, 1941 is herewith presented to you.

Endowment and Property

A policy of liquidating non-income producing securities resulted in a decrease of endowment which was partially offset by several large gifts to the University. Certain changes in the plant accounts were made to more clearly present the current situation.

Maintenance and Operation

A revised statement of operating income and expense has been prepared which will more effectively present the operating situation. A major reconditioning and the addition of new equipment in the heating plant together with a decrease in student enrollment were important factors in the operating deficit for the year.

Operating Income

Endowment	5.8%
Student Fees	75.5
Dining Halls (net)	2.3
Non-Educational	16.4

100.0%

Operating Expenses

Administration and General	16.1%
Instruction	49.8
Library	1.0
Buildings and Grounds	28.8
Non-Educational	4.3

100.0%

Comparative Rate of Income of Invested Funds held by University

	1936-37	1937-38	1938-39	1939-40	1940-41
University Fund	4.51	4.26	3.44	1.59	1.80
Scholarship Fund	4.00	3.70	3.86	3.83	2.97
Income Gift Fund	3.41	3.42	3.53	3.68	3.35
Theological Fund	3.72	4.70	4.49	3.39	1.40

The average rate of income on all investments held by the University was 2.75%.

Improvement Fund

Total gifts received for undesignated purposes was \$21,431.43 as compared with \$23,709.40 in 1939-40 and \$30,511.58 in 1938-39.

Respectfully submitted,

Alfred New York
September 15, 1941

Burton B. Crandall
Treasurer

AUDIT CERTIFICATION

NARAMORE, NILES & CO.
CERTIFIED PUBLIC ACCOUNTANTS
Lincoln-Alliance Bank Building
Rochester, N. Y.

We have examined the accounts of the Treasurer of Alfred University for the fiscal year ended June 30, 1941. Cash receipts and disbursements, as shown by the records, have been properly accounted for and changes in invested funds have been verified. Investment securities held by the David A. Howe Public Library as collateral to a five year note dated June 1, 1939, for \$60,000 were certified to us by James P. Coyle, Secretary. The balance of the securities have been verified by inspection.

Bonds and stocks shown in Exhibit A under "Cash and Investments held by Alfred University", and in Schedule A-2 "Endowment Fund Assets held by Alfred University", are carried either at cost or, in the case of gifts, at the market value at the time of such donation.

This examination did not include the accounts of the New York State Schools of Ceramics or Agriculture, as shown in the Report of the Treasurer of Alfred University. Neither did we verify funds held for the benefit of Alfred University by the Seventh Day Baptist Education Society and the Seventh Day Baptist Memorial Fund, all of which are summarized in Schedule A-2 of the Report of the Treasurer.

Subject to the foregoing and the comments in our report, we certify that the Report of the Treasurer of Alfred University for the fiscal year ended June 30, 1941, as reflected in Exhibit A, Schedules A-1 to A-6 inclusive, Exhibit B, Exhibit C, and Schedules C-1 to C-4 inclusive, properly set forth the true financial position of the University as at June 30, 1941, and the results of its operations for the year then ended.

Rochester, New York
September 20, 1941

NARAMORE, NILES & CO.
By Oscar L. Niles
Certified Public Accountant.

State Scholarships were established by act of the legislature of the State of New York, by Chapter 292, Laws of 1913, became a law April 16, 1913, taking effect August 1, 1913.

Each such scholarship entitles the holder thereof to the sum of One Hundred dollars (100) for each year during which he is in attendance upon an approved college in New York state during a period of four years.

Colleges are required, in February and September of each year, to submit to the Commissioner of Education a list of their pupils who are holders of State Scholarships. Payment is made by the State Treasurer to the Treasurer of the college, to be applied for the benefit of holders of State Scholarships who are in attendance, as follows:

1. So far as needed to pay his tuition for the current semester.
2. To reimburse the college for his other indebtedness thereto.
3. To pay the remainder of his installment to such pupil, or as he shall direct.

	1937 Series	
Ciampa, Thomas		Olney, Margaret L.
LeSuër, George W.		Wygant, James F.
	1938 Series	
Armant, David L.		Kellogg, George W.
Austin, Alfred E.		Kleinman, Kenneth R.
Carpenter, Wilson		Lawson, Courtney B.
Dows, Robert H.		Meyer, Harry L., Jr.
Greene, Mearl H.		Petri, William A.
Hall, Ira L.		Procopio, Josie A.
	Wray, Patricia G.	
	1939 Series	
Ames, Margaret W.		Kunes, Ella R.
Biekford, Lawrence R., Jr.		Marks, Roger E.
