AMERICAN CERAMIC SOCIETY
(INCORPORATED)

REFRACTORIES DIVISION
COMMITTEE ON PAPERS
C. W. BERRY. CHAIRMAN
LACLEDE-CHRISTY CLAY PRODUCTS CO.
S T LOUIS, M O.

November 1, 1921.

QUESTION BOX

The Refractories Division will have a Question Box at the annual-meeting to be held at Hotel Statler, St Louis, February -28 - March 2. You are invited to present one or more questions which have arisen in your work and which you would like to have discussed or possibly answered. While questions can be presented without previous discussion, more interest will be aroused and greater value to the meeting obtained if a short statement of facts is prepared relating to your work or experiments.

The Question Box will close January 1st and the questions received will be compiled and submitted in a form letter to the membership so that some thought can be given to each question by those expecting to attend.

Titles of papers on refractory subjects which you expect to present at the next meeting, should be forwarded to the undersigned as soon as possible.

The Committee desires to make the St.Louis meeting the most interesting held so far and will require your assistance.

Yours very truly,

E.E.Ayers

CHAIRMAN.

[handwritten note to Binns by Ayars]

Dear Prof Binns,-

Please note departure from usual form of Question Box.

Can we not depend on you for a pertinent question or more in the field of Refractories? We want problems from the Schools as well as the industries.

Sincerely,

Erling E. Ayars
