### Emerging Campus Worm/Virus

Students, Staff, and Faculty,

We are hearing reports from other campuses of an emerging virus/worm that masquerades as a resume attachment. Opening this attachment leads to the execution of a program which encrypts the hard drive on the computer. Once encrypted, the contents on the drive cannot be recovered. Some variations of this virus also encrypt network shares to which the computer is attached.

As a reminder, if you are not expecting an email with an attachment from a user, please do not open it. Even if you know the user in the from address of the email, please do not open unexpected attachments.

If you have any questions, please contact the ITS Helpdesk at 607.871.2222 or [helpdesk@alfred.edu](mailto:helpdesk@alfred.edu).

### Arithmancy Lecture (Harry Potter's World)

"Time Turners and Time Travel Are Totally True"  
Sunday, Sept. 27, 4 p.m., Herrick 106  
Dr. David DeGraff

The idea of time travel, and being in two places at the same time may seem to require a witch's or wizard's skill, but the laws of physics do not forbid time travel. What are the rules of totally true time travel? What could you do, and what would be forbidden? We will also look at some actual time machines you can build in your basement (if only you could find that one missing part).
