

DEPARTMENT OF THE INTERIOR

BUREAU OF MINES

CERAMIC EXPERIMENT STATION

COLUMBUS, OHIO, August 13, 1921.

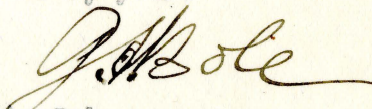

Professor Charles F. Binns,
Alfred, New York.

My dear Professor Binns:

I have arranged to have the bill for the dissociation tube transferred from the account of The New York State School of Ceramics to that of the Bureau of Mines.

You will be glad to hear and know that we have found a pleasant place to live and that we are reserving a room for Nora's use.

Very truly yours

G. C. Bole.
