Stay Safe. Respond to Outdoor Warning Siren

Alfred State College has outdoor warning sirens. In the event of life-threatening emergencies, Alfred State will activate the outdoor warning siren.

Any emergency that causes ASC to sound its alarm also has the potential to affect people on our campus. If and when you hear the siren, you should immediately return to a known safe, indoor location. Information about the emergency, including instructions about what to do, will be communicated via E2Campus. If possible, other methods will be used including WALF broadcasts and postings on entrance doors to academic and residence hall buildings.

If you have any questions, please contact the Office of Public Safety at 607-871-2108.

State-Wide Burn Ban Issued

Governor Andrew M. Cuomo recently urged all New Yorkers to take extra caution, as dry weather conditions have led to a heightened danger of wildfires across Upstate and Western New York. In addition, the state today will institute a statewide residential burn ban for 90 days through October 10.

At the Governor's direction, the following steps have been taken to properly prepare the state for the increased danger of fires.

The New York State Emergency Operations Center (EOC) in Albany is closely monitoring the situation and is prepared to provide a heightened state of readiness. Representatives from the Office of Emergency Management (State OEM), Department of Environmental Conservation (DEC), and Office of Fire Prevention and Control (OFPC) will staff the State EOC on a 24/7 basis as necessary.

DEC will issue an emergency regulation implementing a statewide ban on residential brush burning through October 10, 2012. Violators of the open burning state regulation are subject to both criminal and civil enforcement actions. In addition, the Department of Environmental Conservation will suspend all burning permits previously issued. A moratorium on new permits is now in effect through October 10.

The Governor urged New Yorkers to take extra caution and do the following:

Refrain from starting any type of outdoor fire and in cases where a fire must be started, take extreme caution.

Be watchful and keep a close eye when grilling outdoors.

For those who smoke, make sure a lit cigarette is completely extinguished.

When camping, use existing campfire rings when possible and keep fires small.

Scrape away litter, duff, and any burnable material within a 10 foot diameter circle. This will keep the campfire from spreading.

Never leave a campfire unattended.

Drown the fire with water. Make sure all embers, coals, and sticks are wet. Stir the remains, add more water, and stir again.

Use a cooking stove instead of a campfire to prepare meals.
