

'Thank you' for the opportunities

2/07/12

Vincent Gravanda

At Alfred University, Vincent Gravanda found the kind of community he was looking for. Vincent, who majored in chemistry and biology, and then "picked up" a minor in English, said "I knew if I came here (to Alfred University), I would find a closer-knit community," just what he was looking for in his college experience. He's thankful, he said, "for all the resources, all the opportunities" Alfred has made available to him. Vincent is a graduate of Leroy Junior-Senior High School. He is the son of Judi Anderson of Stafford and Vincent Gravanda of Leroy. To hear Vincent's comments about his Alfred Experience: <http://www.alfred.edu/tha...>
