

Dear Prof Binn -

Marblehead Sept 28,

It has been a long time since you had a report from me. I will write a full account of things very soon. Just now I want to ask one question. Which do you think will be the better way to place the ware in the new kiln - with saggers or with props and batts? If saggers, when can I get them. I can get props + batts at the Beverly pottery but don't know whether they will be as satisfactory as saggers. Please let me know what you think about it. W. H. Bagg-
