## IEA Artist in Residence: Cassandra Hooper

November 14th - 18th

The Institute for Electronic Arts, School of Art and Design, New York State College of Ceramics

Sponsored by: The Institute for Electronic Arts and the Division of Expanded Media

Cassandra Hooper of Hudson, NY, will be participating in an artist residency at the Institute for Electronic Arts the week of November 14th. Teaching as a professor of printmaking at SUNY Purchase, Hooper's work creates spaces that repurpose familiar elements of the built environment and landscape into a convincing tableau of domesticity. Her artist books have been placed in collections of the Harvard College Library, the Whitney Museum of American Art, the Walker Museum, among other national and international locations.

Hooper's residency project proposes to challenge the expectations of scale of artist books. Using work from her current series of photolithographic and photopolymer gravure prints, Playground, and other works, Hooper plans to base her book on large scale digital prints which cannot be approached in the same way one would normally handle a typically sized book.

More information and Hooper's work can be found on her website: <http://cassandrahooper.co...>

The Institute for Electronic Art's Visiting Artist Program is sponsored in part by the New York State Council on the Arts with the support of Governor Andrew Cuomo and the New York State Legislature.

### **Visiting Artist Demonstration: Paul Scott**

Wednesday, November 9th  
10:00 AM-12PM  
Harder Hall  
Free  
Sponsored by: School of Art & Design

Paul Scott is an artist, gardener, author and educator known for characteristic contemporary transferwares. His artworks can be found in many collections and public spaces around the globe, including V&A London, National Museums of Norway, Scotland, Sweden, Wales, The Museum of Art and Design in New York, Newark, Carnegie, Chip stone and other Art Museums in the USA.

He was awarded a PhD from Manchester Metropolitan University in 2011, and is currently Professor 2 at the Oslo National Academy of the Arts (KHIO), Norway. His latest book, *Horizon, Transferware and Contemporary Ceramics*, was published by Arnoldsche Art Publishers in January 2015. In September 2015 he received an Alturas Foundation Artists Award for his research project *New American Scenery*.

I create artwork that blurs the boundaries between fine art, craft, and design. Using altered antique wares, digital tools, decals, collage, storytelling and remediation, I re-animate traditional blue and white transferware for the twenty-first century. My work tells stories that explore the unexpected movement of images through materials, media, cultures, politics, histories, and geographies.
