WM. L. HANLEY, JR.
VICE PRES. & GEN. MGR.

BRADFORD PRESSED BRICK COMPANY
EXCLUSIVE MANUFACTURERS
BRADFORD, PA. Jan. 11, 1921

Mr. Chas. F. Binns, [inn is handwritten over typos] Director,
N.Y. State School of Clay-Working & Ceramics,
Alfred University,
Alfred, N.Y.

Dear Sir:

We are in receipt of your letter of the
10th instant and note with appreciation the
results you have obtained from test.

If possible [line penciled in to the left margin, down to last line of paragraph] we would also like
a chem-
ical analysis made of the shales sent you
(your records #975 and 976) this is partly
for our own information and partly for the in-
formation of the American Dressler Tunnel Kiln
Co. who are building a tunnel kiln for us.
Can you give us an idea of the geological for-
mation, that is, the relation of our shale
above or below any well-known strata?

Your kind attention will be greatly appreciated.

Yours very truly,
BRADFORD BRICK & TILE CO.
PER D. Hendry
