## UNIVERSITY AND ACADEMY ORGANIZATION.

A University Charter was granted March, 1857, locating a College with University privileges in connection with Alfred Academy. By this arrangement the two Institutions become, as far as possible, united. A large and permanent Board of Teachers have charge of the various departments, ranging through both the Academy and University, securing, thereby, an efficiency and thoroughness unattainable by any other arrangement.

## DEPARTMENTS.

The general Departments of the Institution are two—a Male Department and a Female Department. Ladies and Gentlemen are provided with separate buildings, and are under special and separate supervisions, but, as far as practicable, recite together. There are also established, as subdivisions of the general departments, a number of special departments.

## COURSES OF INSTRUCTION.

The Courses of Instruction embrace every Department of Science and Literature usually taught in the best Academies and Colleges of this country. It is intended that ample advantages shall be furnished to both Ladies and Gentlemen for obtaining a useful and finished education. Four Courses of Study have been established, namely, the Normal or Teachers', the Scientific, the Ladies', and the Classical.

1. The Normal or Teachers' Course is arranged for those who, while not intending to complete either of the longer Courses, yet are desirous of preparing for teachers, or for efficient laborers and influential members of society.

2. The Scientific Course is designed for those desiring a thorough education with reference to future scientific pursuits.

3. The Ladies' Course is arranged to meet the growing demand for a higher standard of female education. It is intended to harmoniously blend thorough intellectual discipline with the cultivation of a refined and elegant taste, high moral principles, and pure religious sentiments.

4. The Classical Course is designed for those seeking thorough education with reference to the learned professions.

5. Those students who have sustained a good moral character, and completed either of the above courses, will be admitted to a Degree, after having passed a satisfactory examination.

6. The degree of Bachelor or Laureate of Education will be conferred on those who complete the Normal or Teachers' Course; and the degree of Bachelor of Arts or Laureate of Arts, on those who complete either of the other courses.

7. Students in the Classical, the Ladies', or the Theological Course, who shall pursue, for three years after graduation, Literary, Scientific, or Professional studies, and who shall, in the Interval, have sustained a good moral character, will be entitled to the Master Degree in their respective courses.

8. All Students on entering College are required to decide which Course they desire to pursue; and no exchange from one Course to another will be allowed, except by special permission of the Faculty.

9. Students in the Scientific or the Ladies' Course can take the *ancient* instead of the *modern* languages laid down in those courses;— but no excess in *one* language will be counted to make up a deficiency in *another*.

### OBSERVATORY.

The object of the observatory is two-fold, viz: to facilitate instruction in astronomy, and to perform such astronomical work as time limited by class-room duties will allow.

The observatory building consists of a circular room, surmounted by a revolving dome 19 feet in diameter, a computing room 12x13, a prime vertical room 12x13, a transit room 12x20, and a clock room 8x20.

The observatory is furnished with the following instruments:

I. An equatorial refracting telescope, by Henry Fitz, with an object glass of 9 inch clear aperture, and 9.5 feet focus. Value, \$1,500.

II. A meridian circle, by Wm. J. Young, with an object glass by Merz & Mahler, Germany, of 3.25 inch clear aperture, and 4.5 feet focus. The circle is 20 inches in diameter, and reads by 4 verniers to 3 seconds of space. Value, \$1000.

III. An astronomical clock, by Wm. Bond & Son. Value, \$400.

IV. A chronograph, or time recorder, by Wm. Bond & Son. Value, \$700.

V. A sidereal chronometer. Value, \$100.

VI. A filar micrometer. Value, \$125.

The cost of the observatory building has been about \$1000.

Students in Astronomy have the privileges of the observatory without extra charge.

### TELEGRAPHY.

Practical instruction in telegraphing by *sound only*, will be given at the following rates, strictly in advance:

For a single term, 13 weeks, - - - - -	\$15 00
For the full course, - - - - -	25 00

### PREPARATORY STUDIES.

#### FOR ENTRANCE INTO THE NORMAL COURSE.

Etymology, Spelling, Reading, Penmanship, B. Arithmetic, C. Arithmetic, A. Geography, B. Geography, B. Grammar, C. Grammar, D. Grammar, Vocal Music.

#### FOR ENTRANCE INTO THE SCIENTIFIC OR THE LADIES' COURSE.

In addition to the requirements for entrance into the Normal Course, B. Geography, D. Grammar, D. arithmetic, and A. Algebra.

#### FOR ENTRANCE INTO THE CLASSICAL COURSE.

All the studies required for entering the Scientific Course, and Latin Grammar and Reader, Cæsar, Cicero four orations, Virgil six books, Greek grammar two terms, and Anabasis two books.

### EXPLANATION OF CLASSIFICATION.

I. *Preparatory Students* are those not sufficiently advanced to be subject to the Regents' Examination.

II. *Provisional Normals* are those who are subject to the Regents' Examination.

III. *Normals* are those who have received a Regents' Certificate.

IV. Students in the Scientific Course receive full matriculation at the beginning of the Sophomore Year.

V. Candidates for the Scientific Course, who have passed examination in D. Arithmetic, D. Grammar, B. Geography, and A. Algebra, are classified as *Academicians* until they have completed the Freshman Year.

VI. Candidates for the *Classical Course* who have not completed the preparatory studies, are classified as *Academicians*, after passing examination in D. Arithmetic, E. Grammar, B. Geography, and A. Algebra.

VII. Students in the Theological Course are at liberty to substitute four terms of Hebrew for the four terms of Mathematics in the Scientific Course, which follow Trigonometry.

For *Graduation* all the Greek of the Classical Course is required.

## MISCELLANEOUS INFORMATION.

## LOCATION.

The Institution is located at Alfred, Center, Allegany Co., N. Y., two miles from the Alfred Depot, on the line of the Erie Railway.

The location is retired and healthy—in a rural district, surrounded by romantic and delightful scenery, amid a people of stern integrity, and of industrious and unobtrusive habits. Students are not exposed here to many of the ordinary allurements to vice and dissipation. Few spots are so well adapted to the quiet and successful pursuit of Science and Literature as the village of Alfred.

## ROOMS AND BOARD.

The New University Building contains the Boarding Department, and rooms for the accommodation of about one hundred students, besides rooms for Professors and their families, and also Society, Music, and Paint Rooms. *Rooms for Ladies are handsomely furnished and carpeted, with a sleeping room adjoining each, furnishing accommodations rarely found in other Ladies' Seminaries.* The Boarding Hall is under the immediate supervision of one of the Faculty. There is also abundant accommodation for rooming and boarding in private families.

## LIBRARY.

The Institution Library consists of a choice selection of Histories, Biographies, Greek and Latin Classics, Mathematical and Scientific works, and standard English Literature. Additions are made to it yearly.

## GYMNASIUM.

A Gymnasium for young Ladies has recently been established in connection with the Boarding Hall, where all young Ladies boarding in the Institution will be expected to take daily exercise.

## SUMMARY OF REGULATIONS.

## THINGS REQUIRED.

1. Satisfactory arrangements with regard to rooms and board.
2. Registry of name at the office before reciting in any class.
3. Payment or security of bills in advance.
4. Punctuality in attending all regular academic exercises.
5. Strict observance of study hours.
6. Regularity in rising and retiring at given signals.
7. Strict observance of one's own Sabbath.
8. Strict observance of temporary prudential rules.
9. Information, if asked, concerning delinquencies or misconduct of others.
10. Free access of any teacher to the rooms of students.
11. Habits of good order and propriety at all times and places.

## THINGS PROHIBITED.

1. Unpermitted association of ladies and gentlemen.
2. Visiting on one's Sabbath or during study hours.
3. The use of tobacco; the use of intoxicating drinks.
4. Games of chance; profane or obscene language.
5. Changing or dropping a study without permission.
6. Leaving school or village without permission.
7. Absence from examination.
8. The use of gunpowder, in any form, about the premises.
9. Driving nails, screws, or tacks, etc., into walls or ceiling, without permission.
10. Lounging on beds, or disorder in study rooms.

## REGULAR ACADEMIC EXERCISES.

The regular exercises, at which all the Students will be required to attend, unless especially excused, are Chapel exercises each day during the term; Recitations, from two to four, five days each week, from Monday morning till Friday evening; Regular exercises in Compositions, Declamations, Spelling, Reading, and Writing; Literary, Scientific, and Moral Lectures, by the Faculty; Public worship, each week, either on Saturday or Sunday, and Bible-class, according as the Students may be in the habit of attending public worship, either on the seventh or the first day of the week.

## GOVERNMENT.

Parents who place their children in this Institution, and all Students who are sufficiently old to understand the necessity of order, can not be too well assured that the foregoing regulations form the most essential part of the contract between them and us; and that whatever student wantonly violates them, and shows himself incorrigibly determined on pursuing his waywardness, will be expelled from the privileges of the Institution, and will not be permitted to enter it again, without special proof of reformation. Nor will an expelled student have any deductions made from full term charges.

## STUDENTS' ROOMS.

The President of the Institution will hereafter assume entire control of students with regard to their occupation of rooms, and will determine in each individual case, where students *may*, and where they *may not* room; and further, the authorities of the Institution will not hold themselves responsible for the conduct of students rooming in town to the same extent as when occupying rooms in the Institution.

## SOCIETIES.

The Alleghanian, the Orophilian, the Alfredian, and the Athenæum Lyceums, are the permanently organized Societies of the Institution. They are managed with ability, and are important aids to those who are desirous of becoming good writers, speakers, or efficient laborers in the intellectual, moral, or religious world.

## THE INSTITUTION AND THE PUBLIC.

The Trustees of the Institution, in presenting their Annual Catalogue to the public, would return their acknowledgements for the marked favor and liberal patronage received from its numerous friends and patrons. Their highest ambition and only object have been to found an Institution that shall bless the church and the world. They have appreciated the necessity of laying the foundation of intellectual and moral attainments and discipline upon a broad and permanent basis; and they have endeavored to provide the appliances and facilities for securing these objects. They labor to send forth young men and women, so educated as to qualify them for the realities and responsibilities of active life.
